Key Developments - H1 FY'16

Expansion of product portfolio in Polymer Business: The company's board has approved the expansion of Skipper's product portfolio in its Polymer Business by adding two new product segments. With the introduction of these two products, Skipper will be able to en-cash its presence in various customers segments and strengthen them further.

HDPE Pipes – HDPE pipes has gained significant market share over the years in the water transportation industry as well as in other applications. With a view of capitalizing on its existing relationships with many of the existing institutional customers, Skipper has decided to set up HDPE pipe manufacturing lines in its Telengana plant. The initial starting capacity will be 3,000 MT and is expected to be commissioned by Q3 FY'17.

Overhead Tanks – The overhead tank business enjoy the same distribution channel as that of PVC pipes and most of Skipper's existing channel partners already trade in overhead tanks of other brands. Keeping in view their demand for these products from Skipper as well, the company has decided to set up its first overhead tank manufacturing facility in its existing plant at Uluberia, Kolkata with an initial capacity of 1,200 MT.

Credit Rating Upgrade

The company's **short term external credit rating has been upgraded from A1 to A1+ and long term ratings remains reaffirmed at A+ by CARE** on account of improved operational & financial performance in conjunction with better growth prospects.

Key Developments - H1 FY'16

Update on New manufacturing unit in North East:

Work is in full momentum for the new Guwahati units for manufacturing of T&D Steel Structures (30,000 MT) & PVC pipes fittings (7000 MT) and the company expects to get it commissioned by Q4 FY'17.

The plant is being set up to tap the growing demands of T&D Products in the North East Region on account of large upcoming PGCIL & BOO projects and to take advantage of all the available Tax exemptions, Incentives and other associated benefits extended by Centre and State for setting up manufacturing units in the region.

Order Book & Focus on International Expansion

The company's engineering products order book to sales stands at 1.7x and is well diversified between domestic and international orders. The sector has started witnessing uptick in both ordering and execution and the company expects growth to remain strong and gain further pace with increased participation opportunities from Power Grid, SEBs, TBCB projects and Renewable projects.

Also, the company is increasingly focusing on developing new market geographies to further expand its international reach through increased participation in overseas Exhibition and Sales Conference for creating new channels for business networking. The company has also committed to partner several major conventions across globe in the successive quarters.

Skipper: Diversified Order Book (March 2016)

The sector has started witnessing uptick in both ordering and execution and the company expects growth to remain strong and gain further pace with increased participation opportunities from Power Grid, SEBs, TBCB projects, Renewable projects & Exports.
