Comments of Mr. Atul Sahai, CMD

“It is heartening that the Company has recorded encouraging results despite a challenging operating environment. These results are despite the Company incurring significant losses to its net, to the tune of 335 crores during the quarter due to floods in different parts of the country. There is slow down in motor segment. Provisions towards bad debts and diminution in value of certain equity investments further impacted profitability by 40 crores in the quarter.

Foreign business continued to be profitable during the quarter.

The solvency ratio at 2.08X remains higher than the IRDAI mandated control level solvency ratio of 1.5X.

The company continues its focus on reducing the loss ratio and combined ratio and deliver better results going forward.”

About Us
