## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### INDUSTRY STRUCTURE AND DEVELOPMENTS

Indian Electrical Equipment industry has witnessed a negative growth in the year 2012-13 in comparison to 2011-12. Our company's performance has been a reflection of this trend.

Since our fortunes are tied to the performance of the Textile Machinery Manufacturing Industry and the subdued sentiments in that sector has further added to our woes. Power crisis in the southern states have played a crucial role in the overall industrial performance.

All the above said factors have played a role in our Company posting a negative growth in the year under review.

### OPPORTUNITIES AND THREATS

The need to broadbase our customer range for our existing product lines has been an ongoing effort. There has also been attempts to diversify our product profile. But conversion to business has remained elusive. It is a challenge to convert our innate potential to actual growth. We continue to be steadfast in our attempt to scan the horizon for new products, technical tieups and other areas of potential interest.

### SEGMENTWISE PERFORMANCE

Control Panel Production continues to be our major activity and we have endeavoured to keep ourself abreast of all latest tools and techniques. The excellent infrastructure we have built in this segment will enable us to scale up as the market heads for the revival. The growth in this segment is constrained by the logistics cost of distribution.

In Plastics, we have made some initial forays in extending beyond the current products and existing customers. We are on the lookout for new products and projects.

### OUTLOOK

Inspite of the current state of affairs, we retain our optimism in the long term growth potential of our country, industry and sector. It is our earnest intent to make LECS a part of the growth story.

### RISK AND CONCERNS

Our immediate concern is escalating cost of Raw Material, Labour and acute shortage of power. We need to broadbase our customer and product profiles.

### INTERNAL CONTROL SYSTEM AND ADEQUACY

The Company has adequate internal control system, commensurate with its size and nature of its business. The management has the overall responsibility for the Company's internal control system to safeguard the assets and to ensure reliability of financial records.

The Company has a detailed budgetary control system and periodically the actual performance is reviewed and the deviations are addressed accordingly.

The Audit Committee reviews all financial statements and ensures adequacy of internal control systems.
