**Commenting on the performance, Mr. Rampraveen Swaminathan, Managing Director and CEO of Mahindra Logistics, said,**

“In these challenging conditions, the company has delivered a resilient performance with strong customer retention, cost reduction and improved cash flows. The quarter was expectedly a tough quarter, with the full impact of nationwide lockdowns and disruptions due to the Covid-19 pandemic. Significant reduction in industrial activity, widespread Work From Home (WFH) and lower business sentiments has impacted the overall economy and the industry. We witnessed sequentially improving May & June, while the demand remains below pre-Covid19 levels in most end markets.

Our employees’ health & safety has been our top priority, and we launched programs for safe return to work, skilling and wellness. We have partnered closely with our customers in providing essential services. Our support to the communities included providing Alyte’ emergency cab services, driver relief through the HOPE program and undertaking other community relief programs.

Economic activity has started improving and we are well positioned to drive recovery in the coming quarters. We have grown our customer relationships in E Commerce, FMCG & Pharma, and continue to strengthen our focus on delivering solutions, driving operations excellence and leveraging technology.”
