EXPLANATORY STATEMENT IN RESPECT OF THE SPECIAL BUSINESS PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013 (“THE ACT”)

Item No. 4

To re-appoint M/s. Deloitte Haskins and Sells LLP, Chartered Accountants as statutory auditors of the Company and to fix their remuneration.

This explanatory statement is provided in terms of Regulation 36(5) of the Listing Regulations, however, the same is strictly not required as per Section 102 of the Companies Act, 2013.

The Members, at the 17th Annual General Meeting ('AGM') held on August 3, 2017, had approved the appointment of Deloitte Haskins & Sells LLP ("Deloitte"), Chartered Accountants (Registration No. 117366W/W-100018), as Statutory Auditors of the Company, to hold office till the conclusion of the 22nd AGM. Deloitte is a leading global provider of audit services. After evaluating various factors such as industry experience, competency of the audit team, efficiency in conduct of audit, independence, etc., the Board of Directors of the Company has, based on the recommendation of the Audit, Risk and Compliance Committee, at its meeting held on 20th May, 2022, proposed the re-appointment of Deloitte, as the Statutory Auditors of the Company, for a second term of 5 (five) consecutive years from the conclusion of the 22nd AGM till the conclusion of the 27th AGM of the Company to be held in the year 2027. Deloitte have consented to the aforesaid appointment and confirmed that their appointment, if made, would be within the limits specified under Section 141(3)(g) of the Companies Act, 2013. They have further confirmed that they are not disqualified to be appointed as statutory auditors as per the provisions of Section 139(1), Section 141(2) and Section 141(3) of the Companies Act, 2013 and the Companies (Audit and Auditors) Rules, 2014, as applicable. As per Section 142 of the Companies Act, 2013 the remuneration payable to Deloitte for statutory audit services for the proposed period of appointment including out of pocket expenses shall be recommended by the Audit, Risk and Compliance Committee for each year after considering various factors in consultation with the statutory auditors and approved by the Board of Directors. Further, the Company may obtain certifications from Deloitte under statutory regulations and avail other permissible non-audit services, as may be required from time to time. The provision of such permissible non-audit services by Deloitte will be reviewed and pre-approved by the Audit, Risk and Compliance Committee. The remuneration for certifications and non-audit services will be paid on mutually agreed terms.

None of the Directors and Key Managerial Personnel of the Company or their relatives are concerned or interested, financially or otherwise, in the resolution set out at item No. 4.

The Board of Directors recommends the resolution as set out in Item No. 4, for approval of the Members of the Company by way of an Ordinary Resolution.

This explanatory statement may be regarded as a disclosure under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Item No. 5

To ratify remuneration payable to the Cost Auditors for the Financial Year 2022-23.

The Board, on the recommendations of Audit, Risk and Compliance Committee, at their meeting held on 20th May 2022, has approved the re-appointment of M/s. PSV and Associates, Cost Accountants, Bengaluru, as Cost Auditors for the Financial Year ending 31st March 2023, at a remuneration of ₹ 3,30,000/- (Rupees Three Lakhs Thirty Thousand Only) exclusive of applicable taxes and reimbursement of out of pocket expenses payable to the Cost Auditors.

In accordance with Section 148(3) of the Act read with Rule 14 of the Companies (Audit and Auditors) Rules, 2014, the remuneration so payable to the Cost Auditors is required to be ratified by the members of the Company.

Accordingly, consent of the members is sought for passing an Ordinary Resolution as set out at Item No. 5 of the Notice of the AGM for ratification of remuneration payable to the Cost Auditors for the Financial Year ending 31st March 2023.

None of the Directors, Key Managerial Personnel and their relatives are in any way concerned or interested, financially or otherwise, either directly or indirectly in the proposed resolution.

Accordingly, the Board recommends passing of the Ordinary Resolution as set out at Item No. 5 of this Notice, for the approval of the Members.

This explanatory statement may also be regarded as a disclosure under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Item No. 6

To approve revision in remuneration of Dr. Devi Prasad Shetty (DIN: 00252187) as Whole-time Director.

Dr. Devi Prasad Shetty was appointed as Whole-time Director effective from 29th August, 2018 by the Board of Directors and was subsequently approved by the members at the 18th AGM held on 3rd August, 2018.

The members at the 21st AGM held on 27th August, 2021 approved maximum remuneration of ₹ 9,74,19,520/- (Rupees Nine Crore Seventy Four Lakh Nineteen Thousand Five Hundred and Twenty Only) per annum and other benefits payable to Dr. Devi Prasad Shetty in his capacity as Whole-time Director.

The Board of Directors on the recommendation of the Nomination and Remuneration Committee, at their meeting held on 20th May 2022, approved increase in the remuneration payable to Dr. Devi Prasad Shetty, as Whole-time Director of the Company as proposed in the resolution in Item No. 6 of the Notice, and hereby recommend it for your approval.

The proposed remuneration is based on Industry Standards and the role and responsibilities of Dr. Devi Prasad Shetty as Whole-time Director of the Company. Further, Performance Based Incentive (PBI) as may be approved by the Nomination & Remuneration Committee & the Board of Directors which shall form part of the overall remuneration shall be based on the actual achievement to target revenue and EBIDTA and the PBI amount will have 40% weightage towards revenue and 60% towards EBIDTA.

Accordingly, approval of the Members is sought pursuant to the provisions of Section 196, 197, 198, 200 read with Schedule V

and other applicable provisions, if any, of the Act, the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, Regulation 17 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Article 52 of the Articles of Association of the Company.

Accordingly, the Board recommends the Special resolution as set out at Item No. 6 of this Notice, for the approval of the members. Except Dr. Devi Prasad Shetty, none of the Directors or Key Managerial Personnel of the Company or their relatives are in any way, deemed to be concerned or interested, financially or otherwise, in the said resolution.

Profile of Dr. Devi Prasad Shetty has been provided in the Annual Report for Financial Year 2021-22.

This explanatory statement may also be regarded as a disclosure under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Item No. 8**To approve revision in remuneration payable to Dr. Varun Shetty as a Consultant Surgeon, an office or place of profit under the Companies Act, 2013.**

The shareholders of the Company at the Annual General Meeting of the Company held on 3rd August, 2018 appointed Dr. Varun Shetty as Consultant Surgeon being an office or place of profit under Section 188 of the Companies Act, 2013, as he is related to Dr. Devi Prasad Shetty and Mr. Viren Prasad Shetty. Presently he draws a remuneration of ₹ 1,20,00,000/- (Rupees One Crore and Twenty Lakhs Only) per annum.

The Board of Directors at their meeting held on 20th May, 2022, on the recommendation of Audit, Risk and Compliance Committee and Nomination and Remuneration Committee of the Company, has approved revision in remuneration payable to Dr. Varun Shetty as a Consultant Surgeon with a Remuneration of ₹ 2,60,00,000/- (Rupees Two Crores Sixty Lakhs) per annum which is commensurate with his experience and as per prevalent industry standards. The proposed remuneration comprises fixed remuneration limit of ₹ 79,40,000/- (Rupees Seventy Nine Lakhs Forty Thousand Only) and variable performance based limit upto ₹ 1,80,00,000/- (Rupees One Crore Eighty Lakhs Only).

Dr. Varun Shetty being a relative of Dr. Devi Prasad Shetty, Chairman and Whole-time Director and Mr. Viren Prasad Shetty, Executive Vice Chairman of the Company is deemed to be holding an office or place of profit in the Company in terms of Section 188 (1)(f) of the Act.

Dr. Varun Shetty graduated with MBBS in 2010 and later finished his DNB in Cardiothoracic Surgery from Narayana Institute of Cardiac Sciences in 2016. He later did his FRCS In Cardiothoracic Surgery from the Joint Surgical College UK in 2018. He is now a Consultant Surgeon in the department of Cardiac surgery at Narayana Institute of Cardiac Sciences, Bengaluru, a unit of the Company.

Since the above proposed revision in remuneration exceeds the limit prescribed under Section 188 of the Act, the revision in remuneration will require prior approval of the members vide a Ordinary resolution.

Accordingly, the Board of Directors recommends the Ordinary resolution as set out at Item No. 8 of this Notice, for the approval of the members.

Except Dr. Devi Prasad Shetty, Mr. Viren Prasad Shetty and their relatives, none of the Directors or Key Managerial Personnel of the Company or their relatives are in any way concerned or interested, financially or otherwise, in the said resolution.

This explanatory statement may also be regarded as a disclosure under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Item No. 9**To approve revision in remuneration payable to Dr. Vivek Shetty as a Consultant Surgeon, an office or place of profit under the Companies Act, 2013.**

The shareholders of the Company at the Annual General Meeting of the Company held on 3rd August, 2018 appointed Dr. Vivek Shetty as Consultant Surgeon being an office or place of profit under Section 188 of the Companies Act, 2013 ('the Act'), as he is a relative of Dr. Devi Prasad Shetty and Mr. Viren Prasad Shetty. He is presently paid a remuneration of ₹ 80,00,000/- (Rupees Eighty Lakhs Only).

The Board of Directors at their meeting held on 20th May, 2022, on the recommendation of Audit, Risk and Compliance Committee and Nomination and Remuneration Committee of the Company, has approved revision in remuneration payable to Dr. Vivek Shetty as a Consultant Surgeon with a Remuneration of ₹ 1,50,00,000/- (Rupees One Crore Fifty Lakhs Only) per annum which is commensurate with his experience and as per prevalent industry standards. The proposed remuneration comprises fixed remuneration limit of ₹ 65,00,000/- (Rupees Sixty Five Lakhs Only) and variable performance based limit upto ₹ 85,00,000/- (Rupees Eighty Five Lakhs Only).

Dr. Vivek Shetty being a relative of Dr. Devi Prasad Shetty, Chairman and Whole-time Director and Mr. Viren Prasad Shetty, Executive Vice Chairman of the Company is deemed to be holding an office or place of profit in the Company in terms of Section 188 (1)(f) of the Act.

Dr. Vivek Shetty graduated with MBBS in February 2011 and subsequently did MS in General Surgery in May 2014. He further completed Fellowship in Head and Neck Oncology from Rajiv Gandhi University of Health Sciences in 2016. He underwent training in Head and Neck Surgical Oncology in June 2016 following which, he has been working as a Consultant Surgeon in the department of Head and Neck Oncology at Mazumdar Shaw Cancer Center, Bengaluru, a unit of the Company.

Since the above proposed revision in remuneration exceeds the limit prescribed under Section 188 of the Act, the revision in remuneration will require prior approval of the members vide a Ordinary resolution. Accordingly, the Board of Directors recommends the Ordinary resolution as set out at Item No. 9 of this Notice, for the approval of the members.

Except Dr. Devi Prasad Shetty, Mr. Viren Prasad Shetty and their relatives, none of the Directors or Key Managerial Personnel of the Company or their relatives are in any way, concerned or interested, financially or otherwise, in the said resolution.

This explanatory statement may also be regarded as a disclosure under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Item No. 10**To approve issue of Debt Securities on Private Placement Basis**

In terms of the Circular issued by SEBI on 26th November, 2018, all Large Corporates (i.e., listed entities with borrowing of ₹100 crores or more and long term credit rating of AA and above) are stipulated to fund atleast 25% of their incremental borrowings during each financial year through issue of debt securities. With the objective of ensuring compliance with this requirement as and when your Company meets the criteria of Large Corporate, your Company is proposing an enabling resolution for the approval of the Members as set out in Item No. 10.

As per the provisions of Section 42 of the Companies Act, 2013 ('the Act'), read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, a company shall not make a Private Placement of its securities unless the proposed offer of securities or invitation to subscribe to securities has been previously approved by the members of the company by a Special Resolution for each of the offers or invitations. However, in case of offer or invitation for "Non-Convertible Debentures" (NCDs), it shall be sufficient for the company to pass prior to the offer or invitation Special Resolution only once a year for all the offers or invitations for such debentures during the year.

For meeting the requirement of SEBI Circular on 26th November, 2018 cited above, the Company may offer or invite subscription to secured / unsecured redeemable non-convertible debentures/ debt securities on private placement basis (within the meaning of Section 42 of the Act) in one or more series / tranches. Hence, the Board of Directors pursuant to Section 71 and 42 of the Act read with Rule 14 of the Companies (Prospectus & Allotment of Securities) Rules, 2014 seeks your approval to offer or invite subscription to debt securities, as may be required by the Company, from time to time, for a year, on such terms and conditions, including the issue price but within the overall borrowing limits under Section 180(1) (c) of the Act.

Accordingly, the Board recommends the Special resolution as set out at Item No. 10 of this Notice, for the approval of the members.

None of the Directors or Key Managerial Personnel of the Company or their relatives are in any way, concerned or interested, financially or otherwise, either directly or indirectly in the proposed resolution.

This explanatory statement may also be regarded as a disclosure under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Item No. 11**To approve increase in the limits for providing Loans, Guarantee, Security and making Investments under Section 186 of the Companies Act, 2013.**

Pursuant to Section 186 of the Companies Act, 2013 read with the Companies (Meeting of Board and its Power) Rules, 2014, the Board of Directors were authorized by the Shareholders on 9th August 2017 through Postal Ballot process to give loans, guarantees or provide securities, acquire by way of subscription, investment, purchase or otherwise, the securities of any other body(ies) corporate, including subsidiaries and associate companies of the Company as may be required from time to time, exceeding sixty percent of the paid up share capital, free reserves and securities premium account or one hundred percent of the free reserves and securities premium account of the Company, whichever is more but not exceeding at any time in the aggregate ₹ 2000 crore (Rupees Two Thousand Crore Only).

Since the Company and its Subsidiaries are in the growth phase and in order to support its business activities, the Company is required to make investments, give loan, extend guarantee or provide security to body corporates including subsidiaries and associate companies of the Company. In view of this, it is proposed to increase the limit for providing loans, guarantee, security and making investments under Section 186 of the Companies Act, 2013 to ₹3,500 Crore (Rupees Three Thousand Five Hundred Crore Only), The Board of Directors had, in its meeting held on 20th May 2022 considered and approved this proposal, subject to the approval of Shareholders in the ensuing 22nd AGM.

Accordingly, the Board recommends the Special resolution as set out at Item No. 11 of this Notice, for the approval of the members.

None of the Directors or Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise, either directly or indirectly in passing of the said Special Resolution.

Forward looking statement

Some information in this report may contain forward-looking statements. We have based these forward looking statements on our current beliefs, expectations and intentions as to facts, actions and events that will or may occur in the future. Such statements generally are identified by forwardlooking words such as "believe," "plan," "anticipate," "continue," "estimate," "expect," "may," "will" or other similar words. A forward-looking statement may include a statement of the assumptions or basis underlying the forward-looking statement. We have chosen these assumptions or basis in good faith, and we believe that they are reasonable in all material respects. However, we caution you that forward looking statements and assumed facts or bases almost always vary from actual results, and the differences between the results implied by the forwardlooking statements and assumed facts or bases and actual results can be material, depending on the circumstances.

OUR MISSION

The Company's mission is to deliver high-quality, affordable healthcare services to the broader population in India.

Chairman's Message

In India, with a diverse population of 1.3 billion people, one size fit all solution will not work. We need health insurance at premiums starting from few hundred rupees to few lakh rupees. 

Dear friends,

My entire professional life as a heart surgeon and as an entrepreneur was spent in trying to reduce the cost of healthcare. After spending years on cost reduction, we made massive difference to the common man of our country and set an example for the rest of the world to follow. I left England way back in 1989 and started a new inning at Calcutta as a heart surgeon. 31 years ago, my first patient paid one and half lakh rupees for a bypass grafting. Today, we are doing bypass for poor patients at the same price. Tell me, what was costing ₹1.5 lakhs 31 years ago that costs the same today? This was possible because of the dedication, passion, and sacrifice of lakhs of doctors, nurses, medical technicians, and hospital administrators of this blessed country.

However, we have reached the inflection point in reducing costs. We can't reduce the cost further without compromising on the quality of surgery. This is something we all want to avoid for obvious reasons. But what is the way forward for half of our country's population who cannot afford to pay for healthcare out of pocket?

Low-cost health insurance

Out of pocket payment for healthcare is a third world phenomena. We are no longer a third world country and we need to build new avenues to pay for healthcare. A financial intermediary pays for the healthcare in most parts of the world. The cell phone revolution taught us a very interesting lesson - Indians are willing to pay a small amount of money in instalments for essential services. We believe that the future of healthcare services in India is closely linked to innovation in low cost health insurance. There are a lot of exciting companies developing satchet-sized insurance as well as integrated healthcare plans. Some of these initiatives will fail, some will succeed, but all are worth exploring.

In India, with a diverse population of 1.3 billion people, one size fit all solution will not work. We need health insurance at premiums starting from few hundred rupees to few lakh rupees. That will only happen if risk takers are encouraged and eventually few good ideas will succeed and then the world will never be the same again. Once India cracks the code of affordable health insurance, we will prove to the world that it is possible to dissociate healthcare access from affluence. I would like to thank our government for Ayushman Bharat and starting discussions on affordable health insurance and I have no doubt that it will become a reality soon.

Electronic Medical Records

Mass adoption of EMR happened in USA because of \$24 billion in grants given by the government to all hospitals. To improve the safety of healthcare in India, EMR adoption is critical. Today, small hospitals and nursing homes are reluctant to adopt EMR because of the time spent on learning a new system. If a small amount of money is paid per patient, nursing homes and clinics across the country will be incentivized to adopt electronic medical records. India is perhaps the only country which can do it at scale because of the extremely talented pool of software engineers who can develop most advanced electronic medical records and make it available at an affordable price.

Rapid expansion of Nursing and Medical Colleges

There are 2,600 nursing colleges offering nursing degree programs in USA. With less than a quarter of Indian population, USA graduates over 1,55,000 registered nurses per year. India has 2,500 colleges teaching General Nursing and Midwifery (GNM) and 1,900 colleges offering BSc Nursing. About 90,000 GNM and 100,000 BSc Nurses graduate each year. For 10,000 people, India has 21 nurses while USA has 116 nurses. Please keep this data

in mind when you criticise Indian hospitals and compare them to western standards. Hospitals today have no control over the number of nurses and doctors getting trained or how well they are trained. Today, our hospitals have been reduced to a training school for nursing graduates to get experience certificate and migrate to the middle eastern or west.

There is nothing wrong in our doctors and nurses migrating abroad for better opportunities. Our doctors and nurses have generated tremendous goodwill for our country across the world. But we also have to recognize our position as the number 1 training ground for medical professionals, not just for India, but for the whole world. Shortage of nurses is the greatest stumbling block for delivering healthcare across the world. Indian hospitals struggle with nurse attrition rate of 50% to 75%. No service industry with this level of attrition can function without compromising on quality and patient safety.

Our government has adopted the bold strategy of "Make In India". I believe this should not be limited to manufacturing but extended to the services sector as well. India produces the largest number of skilled professionals in the world, and we have the opportunity to "Make Professionals in India for the World". Our policies should permit all hospitals with over 100 beds to start nursing colleges to train GNM and BSc nurses. Nursing colleges managed by hospitals will train highly skilled nurses because they have practical experience working as nurse assistants while studying. Since nursing students are also working, hospitals will be able to reduce the tuition fees, thus helping students from poor families to become nurses and build a better life.

Once India cracks the code of affordable health insurance, we will prove to the world that it is possible to dissociate healthcare access from affluence. 

Creating Cadre of Hospitalists

In 2020, about 1.6 lakh doctors appeared for NEET-PG and less than quarter of them were able to get a post graduate seat in clinical subjects. What would rest of the MBBS doctors do? Most of them will continue studying for a PG seat, attending coaching classes in Kerala or Kota, mugging MCQs, and not touching patients for 3-4 years. It is a colossal waste of talent and resources of the country. Due to the big gap between UG and PG seats, most of them will never get a PG seat. It is very important to create well-paid training programs for all graduating doctors inside hospitals either as specialists with postgraduate degree

Chairman's Message

Our government has adopted the bold strategy of “Make In India”. I believe this should not be limited to manufacturing but extended to the services sector as well. India produces the largest number of skilled professionals in the world,

or as hospitalists without post graduate degree. Hospitalists in USA and Staff Grade in UK are MBBS graduates who spend 2 years learning to assist the consultants and take care of patients admitted under the consultants. In India, the hospitalist equivalent would be an intermediate solution till these doctors get a PG seat and allow them to earn some money and support their families. Medical profession is one of the most gruelling professions and is embraced by a very small group of passionate youngsters. Every graduating doctor should be assured of a well-paying job to take care of their family. This is the only way to attract talented youngsters to this noble profession. My heart breaks every year when I hear stories of medical students spending thousands of hours studying but not getting limited PG seats.

500 bed Hospitals for Research

The greatest engineering marvels of the future are going to be produced inside the human body because the future of health care will be totally dependent on the interaction between man and the machine. Throughout history, when engineering students

work closely with the doctors, they produce innovative technology that transforms the medical profession. The MRI, heart valve, linear accelerator, surgical robot was created when engineers were given access to the human body. India has some of the best engineering colleges in the world and we can produce world-beating innovation for the 21st century. I am glad to hear that institutes of eminence like IIT-Kanpur and IISc are starting super specialty hospitals dedicated to research and we will do everything we can to support them.

Sorry, Chairman's speech cannot end without informing shareholders about our CSR activities. At NH we have different views on CSR. Of course, we follow the regulation about spending a percentage of profit on CSR. However, for us CSR means lot more than that. When a 40-year-old man with a young wife and 3 children landed on the ventilator due to COVID, protecting his life with no guarantee of payment is CSR. When COVID vaccine was in short supply, vaccinating people at our purchase price and incurring loss is CSR. When most hospitals made record profits during COVID, we were the only hospital chain in India to report losses. Thanks to the goodwill and blessings of the people we served, our business bounced back to a record revenue this year. This is what NH stands for and our values and traditions will continue in the years to come.

Thank you so much for giving us the opportunity to chase our dream of changing the world.

Best Regards,

Dr. Devi Prasad Shetty
Chairman

CEO's Insight

We are pleased to have recorded the highest ever consolidated profitability with EBITDA of INR 6,881 mn (YoY growth of 227.7%) translating into EBITDA margin of 18.6% and PAT of INR 3,421 mn reflecting a PAT margin of 9.2%. 

Dear Shareholders,

It is an honour to report the performance of your Company for fiscal year 2021-22. The FY 2021-22 began with the enormous devastation experienced during the second pandemic wave. The magnitude of the humanitarian catastrophe, which affected the lives and livelihoods of countless people, rocked the nation's consciousness, and as a top healthcare service provider, the experience was overwhelming. So, let me begin by expressing our deepest sympathies to everyone affected. We stood in solidarity with those individuals and committed ourselves to defending and bolstering our communities in the face of the devastation unleashed during that time. I would want to thank the efforts and sacrifices made by our entire workforce during this extremely difficult time. A particular word of thanks to the frontline workers who risked their lives to protect us all while displaying extraordinary valour and compassion. We will be eternally grateful for their dedication and support, which is the foundation of the institution and its legacy at NH, of which we are all extremely proud.

All through the period, we made significant investments in manpower, medical infrastructure, and essential supplies to guarantee that our patients received uninterrupted service. We are grateful to the numerous Indian and international corporations who assisted us in expanding our network's critical care bed count. As you are aware, as part of our aim to make healthcare accessible to all, our hospitals started administering vaccines at cost of procurement. We also partnered with a number of NGOs and global corporates to sponsor free vaccines for the underprivileged, and we were proud to lend our support to India's much-lauded national immunisation programme.

Regulatory thrust to nurture healthcare ecosystem

While the gaps in the nation's healthcare infrastructure were exposed during the period in question, we would also like to take

this opportunity to express our gratitude to our central and state governments for continuing to prioritise health and well-being. In continuation of the enhanced allocation to the sector announced in the Union Budget of 2021, a number of commendable initiatives were introduced in the previous fiscal year, including a loan guarantee scheme of INR 50,000 crores for the expansion of health infrastructure in Tier-2 and Tier-3 cities. A further allocation of INR 23,220 crores, with a primary focus on paediatric care, was announced to increase human resource capabilities by funding the hiring of medical and nursing students, as well as increasing the availability of ICU beds and oxygen supply at the central, district, and subdistrict levels. In addition, banks were incentivized to lend by the availability of on-tap liquidity window of INR 50,000 crores, hence facilitating the expansion of COVID-related health care facilities and services across the nation.

With this kind of emphasis and slew of initiatives, together with an active partnership with private operators, we believe there will be system-wide efficiencies that will improve the delivery of healthcare services across the nation.

Business recovery amidst severe disruptions

As we began this fiscal year, building on the slow recovery of the business following the onset of the pandemic-induced disruptions in March 2020, the momentum built in our Indian operations during the fourth quarter of FY 2020-21 was severely disrupted by the second wave-induced enormous disruptions. After the effects of the second wave of the pandemic subsided, there was a gradual recovery of business over the subsequent few months, with our Indian businesses reporting record profitability during the third quarter of the fiscal year, surpassing the pre-COVID highs for the first time, despite that being historically a seasonally moderate period. Unfortunately, the third wave of the pandemic again had a negative impact on our Indian operations during the fourth quarter, but we are glad to have ended the year on a strong note thanks to the recovery in March of 2022.

Overall, building upon the steady recovery through the course of the fiscal notwithstanding the multiple disruptions, we are pleased to have recorded the highest ever consolidated profitability with EBITDA of INR 6,881 mn (YoY growth of 227.7%) translating into EBITDA margin of 18.6% and PAT of INR 3,421 mn reflecting a PAT

margin of 9.2%. Our strong business performance has resulted in a consolidated Return on Average Equity Employed (RoE) of 26.2% for the 12 months ending FY 2021-22. Its heartening to note that our consolidated balance sheet and liquidity profile remain strong with INR 5.4 bn of gross borrowings as against consolidated cash & liquid investments of over INR 3.0 bn as on 31st March, 2022.

Our flagship centres in Bengaluru experienced the brunt of the pandemic-induced disruptions during the course of the year due to the significant impact on our cardiac-sciences-led high-end elective work as well as numerous restrictions on the movement of out-of-station domestic and international patients. The network-wide recovery of our other facilities was relatively more rapid. We continue to be encouraged by the performance of these units, especially the three most recent hospitals, as they continue to advance along their respective growth trajectories, having supported the business's recovery and revival through tough times. Having recovered again in March 2022 following the third wave of COVID-19-related uncertainty, we remain optimistic that our Indian operations would be able to maintain their business momentum notwithstanding the emergence of additional COVID-19 related difficulties.

Our overseas Cayman Island operations continued its excellent growth trajectory in FY 2021-22, delivering an impressive EBITDA of US\$39.7 million, growing at over 50% on YoY basis in the FY 2021-22. During the course of the year, we inaugurated a state-of-the-art clinic in the heart of the city, which will be integrated into the larger new campus upon its completion. We look forward to launching the expanded operations on the new campus, beginning with the Radiation Oncology programme, in a staggered manner due to the global supply chain disruptions affecting an entirely import-reliant nation like Cayman Islands for building materials and equipment. During the period, our Caribbean hospital consultancy assignment in St. Lucia also contributed to the overall profitability. We are optimistic that this regional business will emerge a strong pillar of our future growth.

Separately, as part of our portfolio rationalisation, we exited operations at our ophthalmology-focused centre in Kolkata, the Rotary Narayana Eye hospital, as well as our fledgling Cardiac Care operations in Chittagong, Bangladesh, to sustain the long term interest of the business.

CEO's Insight

Our overseas Cayman Island operations continued its excellent growth trajectory in fiscal year 2022, delivering an impressive EBITDA of US\$39.7 million, growing at over 50% on YoY basis in the FY 2021-22. During the course of the year, we inaugurated a state-of-the-art clinic in the heart of the city, which will be integrated into the larger new campus upon its completion. 

Clinical Service Excellence – At the core of our existence

The clinical governance structure has been implemented across the Group with different levels of accountability. Through this, we intend to continually monitor and take remedial measures to avert undesired adverse events in our healthcare ecosystem. This initiative aims to create an environment where clinical excellence can flourish.

Another important aspect through which clinical excellence can be achieved is through clinical research and we have heavily stressed upon this aspect lately. We are participating in research projects in collaboration with University of Arizona, Maastricht University, University of Bristol, and University of Birmingham. This year we have published the highest number of research papers (212) from our organization. We have also initiated a quarterly multi-specialty webinar (iNHouse) where academic work from different units is showcased. To create an environment for research, we have subscribed to “Scopus” a research tool, “REDCap” a database management platform, and have made educational resources like “Ovid” and “UpToDate” available to everyone across the Group. We have supported publication costs for open access journals and subsidized research related investigations in different centres.

Continual emphasis on digital transformation

As a result of our commitment to embracing technology to enhance all facets of our business, we have reached a number of significant milestones during the past year, including:

- Integrated mobile doctor's application with ICU monitors for real-time remote patient assessment to enhance the clinical efficiency across the network
- Launched a pilot project called “Enhanced Doctor's Bay Management System” for outpatient queue management to ensure transparency and predictability in service delivery
- Enabled automatic vitals tracking via wearable integration in the AADI (Athma Application for Doctor Insights) application to facilitate real-time information for doctors and create automated early-alert capabilities.
- Launched an automated feedback system for outpatient and inpatient visits in our homegrown ATHMA Hospital Information System, which enables collecting and analysis of comments via social networks.

Way forward - unlocking growth avenues

As you are aware that while continuing to build upon our solid consolidation of Indian operations over the last few years, we have been prioritizing debottlenecking and brownfield expansion at our existing centres having announced plans across the network. Going ahead, to complement our already announced expansion plans at Cayman Islands, in India we shall also be open towards pursuing strategic growth avenues through greenfield facilities at our core regions as well as inorganic opportunities on opportunistic basis with the idea of deriving synergies from our existing operations. Being agile and to ensure comprehensive service offerings, we shall also be exploring integrated managed care delivery model focusing on increasing wellness of an individual through retail touchpoints across select locations.

In conclusion, I would like to convey our gratitude to you all for your trust and support and pleased to have contributed to the significant value-creation for all our shareholders during the fiscal gone by. We remain committed to achieving the goal of making high quality healthcare accessible to all. I would like to express my gratitude to the entire NH family - doctors, nurses, technicians, administrators, and our respected shareholders who have reposed faith in our journey towards making India a healthy nation for all.

Best Regards,

Dr. Emmanuel Rupert

spine surgeries

FY22 Clinical Highlights

Cardiac Sciences

NICS, Bengaluru achieved the highest ever monthly volume of 754 cardiac surgical procedures in March 2022

RTIICS, Kolkata - successfully performed its first On-pump HeartMate 3 Implantation on beating heart, a small left ventricular assist device that helps the heart pump blood in patients with heart failure

MSR-NH, Bengaluru performed its first Percutaneous Transluminal Coronary Angioplasty (PTCA) with Impella Catheterization, a technique in which a miniaturized ventricular assist device is inserted that pumps blood from left ventricle (LV) in patients with cardiogenic shock, severe heart failure & high-risk PCI

In a first-ever in Eastern India, NSH Howrah performed PDA Device Closure procedure on a 24-week-old baby weighing 840 grams

RTIICS, Kolkata successfully performed a Tracheal Resection & Reconstruction in a patient with post-COVID Tracheal Stenosis, a major side effect of endo tracheal intubation observed amongst patients with COVID-19

The network hospitals in the Group also have to their credit several complex and cutting-edge clinical procedures such as TAVR (Transcatheter Aortic Valve Replacement), MITRA CLIP procedure etc. in the minimally invasive cardiac sciences segment

FY22 Clinical Highlights

Neurosciences

MSMC, Bengaluru Neurosurgical team successfully performed 'Selective Dorsal Rhizotomy' - a rare procedure done in children with spasticity

Oncology

MSMC, Bengaluru reached the milestone of 1500 Successful Paediatric Bone Marrow Transplants (BMT) in FY22

NSH Howrah performed its first ever Total Body Irradiation (TBI) for conditioning of a Bone Marrow Transplant patient - a form of radiotherapy used primarily as part of the preparative regimen for haematopoietic stem cell transplantation

NH Raipur conducted a Complex and High-risk Onco-Surgery for Bone & Joint Disease - Internal Hemipelvectomy on a 67-year-old with Chondrosarcoma of pelvic bone, a rare primary cancer of bone which does not respond to chemotherapy and radiotherapy, making it the first reported procedure in Chhattisgarh

NSH Howrah - in a first ever, performed Nasal Brachytherapy in an elderly patient, a rare procedure

NH Ahmedabad successfully performed Segmental Liver Resection Stage I (Segment V & VI resection) on a 65-year-old diagnosed with Hepatocellular carcinoma

SMVDNSH, Jammu performed its first ever totally Thoracoscopic Segmental Lung Lobectomy, a less invasive surgical technique preferred for treating lung cancer with comparatively lesser chances of post-op recurrence

Image-guided Procedures

RTIICS, Kolkata successfully performed certain leading edge Image Guided Procedures in Interventional Radiology & Interventional Neurology such as -

Interventional Radiology

- Cryoablation in Renal Cell Carcinoma (RCC), a treatment approach used to kill cancer cells/tissues with extreme cold
- Thoracic endovascular aortic repair (TEVAR) with carotid-carotid and left carotid-subclavian artery bypass grafting

Interventional Neurology

- FLOWDIVERTER assisted coiling on a 50-year-old presented with acutely ruptured aneurysm
- FLOWDIVERTER assisted Coiling on a patient with intracranial cavernous segment aneurysm in the right internal carotid artery
- Percutaneous embolization of scalp Arteriovenous Malformation (AVM)

Perinatology

NH SRCC Mumbai performed its 1st Pre-Natal Intervention for Twin-to-Twin transfusion syndrome (TTTS), a rare & serious pregnancy condition in which twins share unequal amounts of the placenta's blood supply resulting in the two fetuses growing at different rates

Other Surgical Specialties

MSMC, Bengaluru performed a Total Robotic Bariatric Procedure (OAGB), in a first ever for Karnataka and second in India

NH Shimoga successfully conducted Stem Cell Therapy on a patient with critical lower limb ischemia, a severe blockage in the arteries of the lower extremities resulting in marked reduction in blood-flow, thus making it 7th such case in Karnataka & 14th in India

NH Ahmedabad successfully performed a rare case of Total Elbow Replacement on a patient with Inflammatory Arthritis

NH Overseas

HCCI, Cayman Islands received affiliation from the American Society of Phlebotomy Technicians in Q4FY22 for conducting Phlebotomy Program in the Unit

HCCI launched the Robotic Surgery Program in Cayman Islands making it first of its kind service in the region

HCCI has also launched Digital Mammography services in Q4FY22

Clinical Overview

COVID-19 update

The overall pattern of the coronavirus pandemic so far has been a series of COVID-19 waves, i.e., surges in new cases followed by declines.

It is important to understand heterogeneity across regions as this explains why some Hospitals were more affected than others.

The Delta variant in the 2nd wave swept rapidly through the country and it quickly surged and became the predominant SARS-CoV-2 variant, accounting for more than 99% of COVID-19 cases (at the time) and leading to an overwhelming increase in hospitalizations.

During the Delta wave and Omicron pandemic, patients suffering from other conditions faced disruption in their treatment. The pandemic disrupted the utilisation of healthcare services for routine and emergency visits, and the consequences of this disruption for patients is difficult to quantify, as all efforts were directed towards dealing with the crisis. NH hospitals were not immune to the Pandemic and just like any other industry and Healthcare organisations, we were severely affected too.

We continued to plough through the Delta wave and Omicron Pandemic on the strong foundations built during the 1st wave. i.e., strong, capable clinical team, strengthened evidence-based protocols, ramped-up COVID-19 testing and isolation facilities, increased ICU facilities and usage of technology.

As in the first wave, technology played a crucial role, and it was leveraged for increased accessibility for NH healthcare services during the Pandemic

India had already vaccinated 90.8 % of the eligible population with the first dose and 65.4% of the second dose when initial signs of the third surge powered by Omicron started emerging. This proved pivotal in saving lives during the third surge.

Some of NH's Covid statistics are:

We had over

15000

COVID admissions and

1,15,730

COVID occupied bed days.

7

Oxygen Generator plants were added in NH network of Hospitals as a contingency measure.

8 lakhs

vaccination shots administered till date.

Total of

1,71,805

RT-PCR tests were performed in the year and since the first wave we have performed over 3 lakhs RT-PCR tests.

500+

beds were upgraded to ICU category during COVID-19 second wave with

36000+

ICU admissions (COVID and Non-COVID).

Despite COVID restrictions and its impact on healthcare industry, NH quaternary work has shown definite recovery as shown in the table below:

Service Lines	FY22 Volume	% Growth	Growth Indicator
Liver Transplant	50	67%	↑
Kidney Transplant	560	79%	↑

Free COVID Vaccination Drive

During the year under review, the Company's CSR activities were focused on COVID treatment and pandemic work. The Company is committed to fight the COVID-19 pandemic and towards this end, apart from the efforts and steps taken by the Company in fighting the pandemic in the normal course of business as a hospital operator, the Company launched free vaccination drives for the underprivileged communities and helped in inoculating the semi urban, slums and marginalized communities with help of local NGOs to drive free vaccination program. The Company took precautionary measures in assembling large crowds with government permissions and further inoculating population in the marginalized communities.

NH also launched a campaign with name "Get 1 and Give 1" with GiveIndia Foundation, where the purpose was to encourage individuals, philanthropist, and corporate organizations to come

forward and donate for the cost of one vaccine for underprivileged population. The purpose was to encourage individuals who could afford to bear the cost of their own vaccine, to donate the same amount for someone who couldn't. NH's CSR and community connect team inoculated 65,000 + with free vaccinations drive. The activities were performed to help community development projects of NH, where they visited towns and villages to drive vaccination with help of local NGOs.

Covid Awareness Sessions

Company's CSR team were part of COVID awareness sessions through online to make the population cognizant of the pandemic. These sessions helped in reducing the stress and guided the population in the right direction during the pandemic. These sessions were implemented with help of NGOs, Gram panchayat and local semi-urban governing bodies.

Culture of Safety

Patient safety culture refers to the beliefs, values, and norms shared by healthcare practitioners and staff throughout the organization that influence their actions and behaviours. Patient safety culture can be measured by determining what is important and what attitudes and behaviours are rewarded, supported, expected, and accepted, regarding patient safety and as a part of Quality and Patient safety program.

The year has been crucial in our journey to be the safest Hospital delivering quality care.

Narayana Hrudayalaya (NH) Governance Framework

NH aims to provide the safest clinical care in its hospitals by preventing avoidable harm and to this effect introduced Clinical Governance Framework.

“A framework through which Hospitals are accountable for continually improving the quality of their services and safeguarding high standards of care by creating an environment in which excellence in clinical care can flourish”

We want to ensure that patients can rely on consistently high-quality care and experience when they use our services. By developing transparent and rigorous review and assurance processes, staff will be provided with the data and feedback they require to engage with continuous improvement.

These themes are underpinned by our vision and values. Our core values are represented by the acronym "iCare", which encompasses Innovation and efficiency, Compassionate care, Accountability, Respect for all, and Excellence as a culture.

Adherence to the framework will help the organisation use a transparent approach, lead by example, put policies in place, focus on a just culture, use validated tools, act on the data, commit the necessary resources and train our team.

NH has established 5-layer NH-Governance Framework (NHGF) to ensure alignment of Board, Governance, Clinical team, Quality Department, Audit team and front-line staff.

Framework design focuses primarily on engagement of stakeholders at all levels and range of appropriate parameter / data is selected and reported in a format that is easily understood by all stakeholders.

Within the clinical governance structure there are committees, sub-committees and groups; each have designated responsibilities to deliver NH strategic goals and objectives.

The following are some of the projects/initiatives being implemented under the NH Governance Framework.

Clinical Overview

Our achievements so far are:

- Strengthened specialty-based Clinical KPI monitoring
- Clinical new initiatives- Patient Safety Rounds, Escalation Matrix & Venous thromboembolism (VTE) risk assessment & management protocol, Standardized Mortality Ratio
- Mortality Review process standardization.
- Strengthening international patient safety goals across the group.

Clinical Outcome Measures

Strengthened Clinical KPI monitoring process and specific measures were defined for 25+ clinical specialties and total 97 KPIs were identified. Each KPI's definition, calculation formula, benchmarking and source of benchmarking has been defined. 84 of these KPIs have been selected and being monitored in different units. The data for these KPIs is being reviewed at department, unit & corporate level and monthly trends are presented in comparable format.

Mortality Review

Mortality review tool was introduced taking reference from IHI- Institute for Healthcare Improvement (for identification of adverse events through mortality) and WHO (for categorization). The structured mortality review helps in identifying process gaps and provides avenues to implement evidence-based strategies which are proven to reduce mortalities.

Every month close to **90% mortalities** are being reviewed using IHI tool and learnings are discussed in the forum to institutionalise the same across NH Group.

Escalation matrix

The purpose of this process is to escalate concerns for ensuring safe, quality patient care in timely manner. The scope of the process at present is limited to new admitted patients and the primary goal is to ensure initial assessment within 60 minutes and post escalation at least within 2 hours.

The escalation matrix provides easy access to next level review, to ensure timely attention to the patient. The nurse is empowered to escalate the matter to the highest level to ensure patients are attended within defined time frame.

Patient Safety Rounds

The project aimed to improve the patient satisfaction and safety through implementation of purposeful 2 hourly rounding by the nurse supervisor. A script assisted training programme was developed and senior nurses were trained on taking purposeful patient safety rounds with specific questions designed around nursing care related indicators for Example: Fall, Pressure ulcers, medication errors, patient satisfaction etc. The focused 2 hourly assessment includes the completion of the evaluation of the "5P's": Pain, Potty, Positioning, Possessions and Personal

needs. It is an evidence-based model of care that promotes a systematic and proactive approach to patient care.

The scope of the process is for patients admitted in the wards. The nurse visits the patient every 2 hourly during daytime and to not to disturb the patient during night-time, the round frequency was reduced to 4 hours.

Every patient is being visited 10 times a day with a standard script to ensure safety throughout. The overall compliance to this process across NH Group is 98%.

Clinical Overview

Venous Thrombo Embolism Risk Assessment & Management

Venous thromboembolism (VTE) which comprises pulmonary embolism (PE) and deep vein thrombosis (DVT) is a major source of morbidity and mortality for surgical and medical patients in hospital. Most hospitalised patients have one or more risk factors for VTE. Despite the frequency with which VTE occurs in hospitalised patients and the well-established efficacy and safety of preventative measures, prophylaxis is often underused or used sub-optimally.

To standardize the risk assessment and appropriate prophylaxis to reduce the risk has been focus of this clinical initiative. Risk based groups were created and 4 different risk assessment tools were finalised for each group (Medical, Surgical, Obstetrics & Paediatrics).

As the project aimed to risk assess each patient within 24 hours of admission, after full scale implementation, we have seen increasing trend of compliance with risk assessment and currently this stand at 85% - 95%. This is a significant improvement considering that we had approximately 50,000 new admissions in the last quarter across 19 NH Hospitals.

Post implementation analysis of prophylaxis usage data suggest that appropriate tool and standardized process has helped clinicians to advise judicious administration of chemical prophylaxis.

Thrombophlebitis

The insertion of peripheral intravenous cannulation is the most common procedure done on patients in the hospital. And a very common complication of this procedure is phlebitis. Early detection of signs of phlebitis is the key to reduce the incidences of inflammation, re-insertion of canula and saves a lot of time for nurse.

There are many phlebitis checklists in existence and are being used all over the world. The major lacuna with these checklists is that there was no risk score allotted to early signs of phlebitis. Visual Infusion Phlebitis (VIP) score provides range from 0 to 5 for each stage and each grade/stage has been associated with recommendation of action.

VIP assessment is done for each patient in each shift by the nurse. The compliance is

100%.

Standardized Mortality Ratio

The standardized mortality ratio (SMR) is a recognized indicator of critical care quality. This ratio is used to compare actual hospital mortality of all patients treated in an Intensive Care Unit (ICU) with predicted mortality. SMR is a basic indicator to tell how good our ICU services are in preventing acute illnesses from hospital mortalities.

At present total of 6 different predictive scores (STS, EURO-II, SOFA, APACHE-II, APACHE-III & PRISM-III) have been identified across NH Group and is used in different ICUs. Monthly trends for SMR are reviewed and is compared within the unit and at NH Group level as well.

The NH Group average for SMR is less than <1 , which is within the defined Benchmark.

These are some of the safety initiatives which have already proven beneficial to our patients, staff, and organisation. Going forward, this framework and quality initiative programmes will bring us closer to be a Healthcare provider, where no patient comes to avoidable harm.

Clinical Overview

Research at NH

Current activity and achievements

Apart from oncology, immunology, and cardiovascular research, we focus on translational research, artificial intelligence program, discovery program, product research and computational biology. In collaboration with Mazumdar Shaw Medical Foundation, our on-campus research partner we have been involved in translational research in the fields of head and neck oncology, glioblastoma, haematology and COVID. We have also collaborated with Immuneel Therapeutics Pvt. Ltd. and have embarked upon a study on CAR-T therapy which makes us one of the only three centres in the country carrying out this cutting-edge research. We are participating in research projects in collaboration with University of Arizona, Maastricht University, University of Bristol, and University of Birmingham. We are currently engaged in 25 Clinical Trials, 23 Sponsored Studies, 15 Investigator Initiated Studies and 7 Multi-centric Studies. This year we have published the highest number of research papers (212) from our organization

Measures currently taken to promote research

We have also initiated a quarterly multi-specialty webinar (iNHouse) where academic work from different units is showcased. To create an environment for research we have subscribed to "Scopus" a research tool, "REDCap" a database management platform, and have made educational resources like "Ovid" and "UpToDate" available to everyone across NH Group. We have supported publication costs for open access journals and subsidized research related investigations in different centres.

Future Strategy

We intend to promote research and have devised several strategies to achieve this. We intend to increase our national and international collaborations, engage in more multicentric studies, promote research in smaller units, support and incentivize research for publication, and support presentations in national and international meetings.

Specialties Overview

Oncology

At NH, we believe in patient centric care and focus on accessible oncological services, advanced treatments and high-quality care and outcomes. We have earned the trust and admiration of thousands of patients and the community over the years as a responsible brand. Our commitment to sophisticated technology, capacity to produce great clinical outcomes, and a team of dedicated professionals give us the ability to enhance the oncology care continuum while establishing ourselves as a pioneer and leader in the field. NH is one of India's major private cancer care providers, delivering Radiation Therapy, Medical Oncology, Hemato-Oncology, and Surgical Oncology services as well as complete cancer diagnosis and treatment. Over the years, our team of Hemato-Oncologists, Radiation Oncologists, Medical and Surgical Oncologists, nuclear medicine experts, radiologists, pathologists, and other experts have worked tirelessly to provide high-quality care to thousands of patients.

With a constant need to provide the best quality care and state-of-the-art infrastructure, NH continues to improve its medical infrastructure and accommodate changes to improve its efficiency and performance. We strive to provide excellent treatment by providing virtual OPD facilities, advanced technological infrastructure, and increasing the number of beds. This not only helps us improve the quality of clinical outcomes, but it also allows us to serve patients with the utmost care and compassion. We are in the process of upgrading three more centers to Comprehensive Cancer Centers - Jaipur, Shimoga and Ahmedabad. LINAC at Delhi, Kolkata and Bangalore have been upgraded to provide latest treatments.

A special focus is to develop additional capabilities in tier 2 and tier 3 cities and its showing results. Jammu, Raipur, and Guwahati have emerged as centers of choice for Cancer Care for regional Population.

Clinical Overview

NH is committed to providing affordable patient care and treatment by ensuring seamless operations throughout the value chain. Our openness and long term solutions enable us to provide services that meet a wide range of patient needs.

Chimeric Antigen Receptor T-cell (CAR-T) therapy is considered breakthrough in cancer treatment but is prohibitively expensive. Currently, this technology is not available for treatment in India and the major challenge was to develop it in a cost-effective manner so that cancer patients in India benefit from it. Mazumdar Shaw Medical Centre, Bengaluru is one of the first centers in India which has started phase 2 trials of CAR-T in association with Immuneel Therapeutics Pvt. Ltd.

Cardiac Sciences

NH's top-ranked team of Cardiologists and Cardiac Surgeons diagnoses and treats close to 5 lac adults and children each year, including those with complex or rare conditions.

Our Cardiac sciences is one of the largest and most comprehensive heart practices in the world. It includes more than 400 subspecialized experts trained in Congenital Heart Disease in adults and children, Coronary Artery Disease, Structural Heart Disease, Heart Rhythm Disorders and Aortic Artery Diseases.

Our Cardiac sciences specialists are part of an integrated, multidisciplinary group, collaborating with experts in many specialties to provide our patients with comprehensive and seamless care. These experts include doctors trained in Surgery, Radiology, Pathology, Endocrinology, Nephrology, Pulmonology, intensive care and other areas, depending on the patient's condition.

Having all this expertise in each Hospital means that there is a collaborative approach to coordinated patient care, test results are available swiftly, appointments and procedures are scheduled in coordination with experts.

Neurosciences-Interventional Neurology

Interventional Neurology services started at NH Mazumdar Shah Medical Centre (MSMC), Bengaluru in 2009. MSMC was the first Centre in India to do temporary endovascular bypass/ stent retriever for stroke (2010) and the first Centre to do mechanical thrombectomy for Paediatric patients in Asia. We were the first centre to use Artificial Intelligence(AI) in stroke imaging (RAPID system) in India. MSMC has crossed 5500 cases in total.

The Neuro interventional procedures carried out are

- Mechanical thrombectomy for arterial and venous strokes
- Carotid, Vertebral and Intracranial stenting
- Aneurysm coiling
- Flow diverter stenting
- Flow disruptors

- Arteriovenous Malformations and Dural Fistula Embolization

Organ transplants

Our goal at NH is to offer the widest range of treatment options to patients with end stage kidney failure, liver disease, heart failure and bone marrow failure.

Organ transplantations save lives in patients affected by terminal organ failures, and it immensely improves quality of life, reduces co-morbidities, allows our patients to get back to leading near normal life.

Robotic Surgery

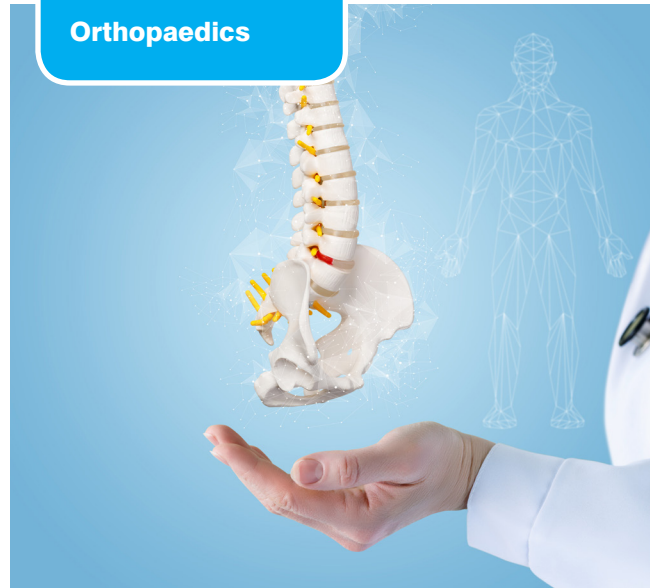

Robotic surgery, also called robot-assisted surgery, allows doctors to perform many types of complex procedures with more precision, flexibility and control than is possible with conventional techniques and is minimally invasive.

At NH, finding new ways to offer advanced healthcare acquires immense priority. This mission has made us introduce robotic surgery initially at Health City, Bengaluru, and Narayana Super speciality Hospital, Howrah, Rabindranath Tagore International Institute of Cardiac Sciences, Kolkata, Health City Cayman Island and Dharamshila Narayana Superspeciality Hospital, Delhi.

NH has performed 227 robotic surgeries during the year under review representing growth of

Orthopaedics

NH provides comprehensive and world-class orthopaedic services. This department offers specialized care in the field of complex trauma, poly-trauma and related sub-specialities. The Orthopaedic department at our hospitals delivers personalised care utilising the latest research and evidence-based medicine. The department provides management related to disorders of bone, joint and a variety of musculoskeletal disorders.

Public healthcare expenditure is low, private sector account for bulk

Out-of-pocket expenses as % of Healthcare expenditure

Under penetration with attractive dynamics

Healthcare industry growth:

Ageing population, burgeoning lifestyle diseases, and rising affordability are contributing to the Indian healthcare industry growth at 15-17% CAGR. Healthcare Delivery has grown at CAGR of 12-14% over FY16-20.

Dominant Private healthcare spending:

India's private sector accounts for 65-70% of healthcare spending; hence new investments will largely be driven by private firms.

Higher Out of pocket expenditure:

Low public spending and limited penetration of health insurance has led to 'out-of-pocket' expenditure accounting for ~63% of total healthcare compared to global average of 22%.

Growing Medical tourism:

The revival of medical tourism due to easy travel restrictions. This market is expected to rise at a CAGR of 65- 70% between FY21-25.

Investment Climate

Heightening Investor interest in hospital care:

As of October 2021, PE Deals worth ₹ 244 Billion was witnessed in the last six years.

Merger & Acquisition Deals:

The M&A deals in the healthcare industry has jumped to \$1.9 Billion in H1 FY2020-21 compared to \$772 Million in H1 FY2019-20, owing to factors including digitization, supply chain optimisation, new business models and incubation.

Technology-led revolution

Moving towards internet of medical things (IoMT) and ease of home care:

IoMT helps in assess a patient's health conditions in real time and exchange information remotely.

Electronic health records (EHR):

In Union budget 2022-23, it was announced that an open platform for the National Digital Health Ecosystem will be rolled out. It will consist of digital registries of health providers and facilities, unique health identity and universal access to health facilities.

Digital platforms/Telemedicine:

National teleconsultation service a online OPD service (eSanjeevaniOPD) offered by the government. A national tele mental health programme announced to better access to quality mental health counselling and care services.

NH Consol P&L Review

Operating Income:

NH India

The Company's revenue from operations increased from ₹ 20,706 Million in 2020-21 to ₹ 29,655 Million in 2021-22 on account of the recovery of business attribute to subsidizing the pandemic and removal of domestic and international travel restrictions. The flagship units in Bengaluru and Kolkata surpassed the pre COVID levels volumes despite the second wave and third wave. Also, strong traction momentum is demonstrated by our new units.

HCCI

The facility's revenue from operations increased from US\$ 68.6 Million in 2020-21 to US\$ 91.9 Million in 2021-22. This increase of 33.9% is attributable to strong pick up in patients' footfall as the facility is getting decent traction from neighbouring islands leading to higher growth in the business. Also, local affluent patients who used to travel to the US for treatment, visited our facility due to travel restrictions imposed by the US government which is still prevalent. Even after the pandemic, the traction of high net worth patient footfalls continued to grow.

Cost of Material Consumed:

NH India

The cost of material consumed (Purchase of medical consumables, drugs and changes in inventories of medical consumables) increased from ₹ 5,920 Million last year to ₹ 8,019 Million in 2021-22 this fiscal as the revenues from operations got significantly increased due to recovery of business.

Consumption as a % of revenues decreased from 28.6% last year to 27.0%. Higher contribution of high-yield business such as international medical tourism coupled with growth in OP and decreased use of consumables such as surgical gloves, PPE kits and other protective gears also led to a decrease in consumption combined with operational efficiency has led to this dip in consumption.

HCCI

The cost of material consumed (Purchase of medical consumables, drugs and surgical equipment and changes in inventories of medical consumables, drugs and surgical equipment) increased from US\$ 11.4 Million last year to US\$ 15.9 Million in 2021-22 with consumption as a % of revenues increasing from 16.5% in FY2020-21 to 17.4% in 2021-22.

Manpower Expenses (Employees Benefits + Prof. Fees paid to doctors)

NH India

The manpower expenses including professional fees paid to doctors increased from ₹ 9,927 Million in FY2020-21 to ₹ 12,525 Million in FY2021-22. This increase in manpower expenses is due to increase in headcount including the doctors, and also attributable to revision in employee benefits & compensation by the Company. The manpower expenses as a % of operating income decreased from 47.9% in 2020-21 to 42.2% in 2021-22 due to leverage effect of increase in revenue.

HCCI

The manpower expenses including professional fees paid to doctors have increased from US\$ 19.2 Million in 2020-21 to US\$ 21.8 Million in 2021-22 due to increase in head count and revision in employee benefits & compensation by the Company.

Other Expenses (Overheads)**NH India**

The other expenses of the Company at the India business level have decreased from ₹ 4,913 Million in 2020-21 to ₹ 5,774 Million in 2021-22. Some of the key heads and the movement of expenses across each is explained below:

Operating Rent/Revenue Share

The operating rent/revenue share increased from ₹ 234 Million (1.1% of total operational revenue) in 2020-21 to ₹ 334 Million (1.1% of total operational revenue) in 2021-22. This increase is on account of increase in operating revenue in 2021-22 resulting in higher payout (revenue share to hospital partners (Owner/promoter of the facilities we are running on revenue share basis).

Repair and Maintenance

The repair and maintenance expenses have marginally increased from ₹ 1,072 Million in 2020-21 to ₹ 1,187 Million.

Power and Fuel

The overall power and fuel cost increased from ₹ 615 Million in 2020-21 to ₹ 676 Million this year primarily due to increase in power/diesel cost.

Business Promotion and Advertisements

These expenses were ₹ 538 Million for 2020-21 and ₹ 773 Million in 2021-22 as we increased our marketing spend in line with the recovery of business from COVID-19 induced hardship.

HCCI

The other expenses of the unit have increased from US\$ 12.1 Million in 2020-21 to US\$ 18.7 Million in 2021-22 on account of increase in hospital operating expenses majorly in maintenance.

EBITDA**NH India**

The Company registered an EBITDA of ₹ 3,581 Million in 2021-22 for its India business as compared to ₹ 199 Million we achieved last year. India business that was severely impacted in the wake of COVID-19 pandemic in 2020-21 saw a strong recovery in 2021-22 despite the second and third waves of the pandemic. Our core business in the form of high-end procedures/surgeries has gradually picked up and contributed to the increase in EBITDA. Our flagship centres at Bengaluru and Kolkata post recovery of business have surpassed the pre-COVID volumes attribute to good traction in domestic and international patient footfalls. However, our centres in hinterland regions were relatively less impacted and demonstrated resilience during the tough times and continued to show the momentum of growth trajectory. Also there has been an increase in contribution margin on account of savings in consumption.

HCCI

Facility's EBITDA increased from US\$ 26.2 Million in 2020-21 to US\$ 36 Million in 2021-22 reflecting a YOY growth of 37.4% on the back of increased proportion of high-net-worth Caymanian patients coming to our facility for quaternary care who historically were going to the US for medical care thus helping us register strong profitability.

Finance Cost**NH India**

Finance cost decreased from ₹ 648 Million in 2020-21 to ₹ 571 Million in 2021-22 due to repayment of borrowings.

Borrowings

NH India

Total Borrowings decreased from ₹ 4,491 Million as on 31st March 2021 to ₹ 4,135 Million as on 31st March 2022 despite a significant drop in revenues as we implemented certain cost control measures such as salary cuts, reduced marketing spends, etc. Better working capital management ranging from strong institutional collection, restructuring the payment terms with our vendors, etc also helped manage the situation.

HCCI:

Total Borrowings came down from US\$ \$ 23.1 Million as on 31st March 2021 to US\$ 17.3 Million as on 31st March 2022. This is in line with the repayment schedule of the term loan from First Caribbean International Bank.

Trade Payables

NH India

The trade payables have increased from ₹ 3,664 Million as on 31st March 2021 to ₹ 4,015 Million as on 31st March 2022. This increase is on account of us having re-negotiated certain contracts with our vendors to optimise our working capital requirement by extending the payment cycle due to cash crunch as the business was impacted severely due to lockdown and other restrictions.

HCCI

The trade payables marginally increased from US\$ 6.0 Million as on 31st March 2021 to US\$ 6.3 Million as on 31st March 2022. This increase is line with the uptick in revenues.

Assets

Gross Block

NH India

Gross Block (tangible assets) increased from ₹ 20,580 Million as on 31st March 2021 to ₹ 21,914 Million as on 31st March 2022. Bulk of this increase is attributed towards investment in medical equipment across our network to strengthen our clinical offerings so as to provide quaternary care.

HCCI

Gross Block (tangible assets) increased slightly from US\$ 61.0 mn as on 31st March 2021 to US\$ 63.4 mn as on 31st March 2022.

Trade Receivables

NH India

The trade receivables (net of provision for doubtful receivables) increased from ₹ 1,943 Million as on 31st March 2021 to ₹ 2,437 Million as on 31st March 2022.

HCCI

The trade receivables (net of provision for doubtful receivables) increased from US\$ 11.5 Million as on 31st March 2021 to US\$ 25.5 Million as on 31st March 2022. This increase in receivables is in line with increase in revenues of the facility.

Inventories

NH India

The inventory increased from ₹ 243 mn as on 31st March 2021 to ₹ 312 Million as on 31st March 2022 as we implemented certain measures to optimise our working capital requirement in light of the uncertainty about the business recovery.

HCCI

The inventory increased from US\$ 3.2 Million as on 31st March 2021 US\$ 3.7 Million as on 31st March 2022 as the company is maintaining increased volume of the stock due to supply chain disruptions because of the pandemic and also due to uptick in the business.

Material developments in Human Resources / Industrial Relations front, including number of people employed

2021-22 was a year of recovery for the business after the COVID impact of 2020. While the country went through two waves of COVID, the relative impact of the same was significantly less than in the previous wave. In these challenging times, we continued to keep ourselves abreast of market forces to ensure that we provide our employees an organisational environment that is designed to engage and motivate employees and help them deliver superior performance at work. This helped in creating an environment of trust and bonding within the employees and in turn then gave their best to the turnaround in business delivery, post the COVID impact.

The NH brand continues to carry a respectable goodwill in the field of Healthcare delivery and is one of the most sought-out workplaces for good talent. Being spread across geographical locations have helped us to leverage our expertise across the group entities.

The Company also recognises the importance of Human Resources Development and in the context of programmes on training and development of the employees which continues to be an important focus area. The Company acknowledges the value every employee brings with him / her and continuously strives to nurture competence and potential. Trainings continue to be conducted for both Clinical and Non-Clinical areas which has helped us raise the quality of performance and output.

As an organisation, we strongly believe in being compliant with all statutes and labour-related acts, we also ensure that our partners and vendor organisations who work as an integrated part of NH are also following the same standards of compliance. This is closely monitored by a central team and also at each location where NH has its presence.

Training and Development

At NH we continue to invest significantly in training of our workforce on a continuous basis. While there were significant challenges faced with the advent of COVID-19, in 2020, the Learning and Development (L&D) function, managed to deliver several programmes on safety, hygiene, and managing during the COVID-19 crisis, through a digital platform "NH Excelerate". We have also developed several online modules on training nursing group on skill enhancement and capability building. The nurses are encouraged to take these courses and qualify through an assessment. This helps in building the capability, while also creating an environment of sustained learning and development. We have also continued to invest in developing the senior and midlevel leadership to build skills and competency on operational excellence, cross-functional skill development, core leadership skill development and interpersonal skills.

During the year, the L&D Team rolled out specific initiatives that are aimed at enhancing the customer experience, through the Service Excellence initiative to enhance the experience of the patient in the hospital.

Recruitment

This year we consolidated our core operating strategy to align the new business initiatives business on retail, managed care and clinics. We have fulfilled several key positions in core clinical areas of expertise that were started in several units. Recruitment of nursing talent continued to be a challenge for the team, where we have managed to maintain our position as the most-sought after place to work, for nurses.

Compensation

Being a vital function of Human resources, our compensation strategies ensure there is a balance in work-employee relation by providing competitive monetary and non-monetary benefits which are as per market standards. As part of the strategy, we review market forces to align the compensation philosophy of the organisation, thereby providing all associates with a good balance of compensation and benefits. This year also, we have benchmarked salaries against market and implemented a significant correction to roles like nursing, which are critical and core to the success of the hospital.

Risks and Concerns

Risks are an integral part of any enterprise and needs to be balanced with the rewards at all times. Risk Management is increasingly a key differentiator that determines profitability, growth, and even long-term sustenance of organizations. Healthcare industry has been particularly impacted by the pandemic that hit without warning in March 2020. Heightened Government oversight and intervention by way of an active regulatory regime that tends to control margins on medicines, implants and even cost of other medical services impacts revenue and margin of hospitals. Joint negotiation by the major insurance organizations by way of GIPSA etc., and the ever increasing coverage of various State and Centra Government schemes also driving down the margins for healthcare service providers.

At NH, we proactively focus on risk identification, management and mitigation. There is a concerted program at all levels – Operational, Financial and Strategic to continuously update the risk register at the enterprise level. This robust framework helps in responsibility accounting and brings to bear the efforts of the right stakeholders to focus on the mitigation of the identified risks at various levels in the enterprise.

Internal Control Systems and their adequacy

The Company has adequate Internal Control Systems, commensurate with the size, scale and complexity of its operations. The Board of Directors has laid down internal financial controls to be followed by the Company and the policies and procedures to be adopted by the Company for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies and compliance with all applicable Laws, Rules and Directives from any Statutory or Regulatory Authority, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records, and timely preparation of reliable financial information.

The Audit, Risk and Compliance Committee, comprising of three independent directors of the Company, reviews the effectiveness of the Company's financial controls and other internal controls and risk management systems and processes (including those relating to compliance with all applicable laws and regulations) to ensure that they are robust and have been appropriately developed, implemented and maintained so that financial, compliance and other risks are identified, assessed, mitigated and controlled. They are aided in this task by an Internal Audit Team which continually evaluates the existing internal controls, providing feedback on its effectiveness and recommendations on possible improvements to the Operational and Executive Management team. The key findings are reported on a quarterly basis to the Audit, Risk and Compliance Committee for in-depth review and follow-up on appropriate resolutions of critical issues.

- Promoting educational facilities to help and assist in unfolding the creative potentials and talents of the children and amateurs.
- Strive for socio-economic development thereby reducing inequality between rich and poor.

1.1 Overview of projects/programs undertaken during the financial year 2021-22

Free Covid Vaccination Drive

During the year under review, the Company's CSR activities were focused on COVID treatment and pandemic work. The Company is committed to fight the COVID-19 pandemic and towards this end, apart from the efforts and steps taken by the Company in fighting the pandemic in the normal course of business as a hospital operator, the Company launched Free vaccination drives for the underprivileged communities and helped in inoculating the semi urban, slums and marginalized communities with help of Local NGOs to drive free vaccination program. The Company took precautionary measures in assembling large crowds with government permissions and further inoculating vaccinations in the marginalized communities. The Company inoculated about 6700 underprivileged citizens with COVID vaccination free of cost.

Covid Awareness Sessions

As pandemic brought lot of unprecedented challenges in social, financial and at personal level, the Company organized Awareness sessions via online and zoom links to make the population to get aware about the pandemic, the sessions helped in removing the stress and guided the population for do's and don'ts during the pandemic. These sessions were done with help of NGO, Gram panchayat and local semi urban governing bodies. The awareness sessions were imparted to about 6,830 individuals.

Community Radio

Your Company is knowledge partner for the community radio of Narayana Hrudayalaya Foundation. The broader objective of our community radio station is to serve as a consensus building platform wherein communication processes would help the communities around us to share common understanding and common goals. The community radio was named "Namma Nadi" with focus on health, education, environment, culture and civic issues within the primary and secondary zones of Health City. Various programs were aired on Namma Nadi with participation from multiple communities of interest.

The community radio program, with internet radio software is an ideal medium to reach the local population with credible health-based information and this was evident in the context of COVID-19. Several programs were recorded and broadcast with relevance to COVID-19 symptoms, safety measures, helplines, nutrition, pregnant women and COVID, as well as pointers for those who have chronic diseases.

UDAAN

The Udaan scholarship program was started in December 2014 in Karnataka with an objective to nurture the potential of rural students from disadvantaged backgrounds and create a platform which they could leverage towards realizing medical education. Students from our Udaan program can be motivated to use their medical education in improving health care systems in their villages and small towns. It is hoped that these enabled students would fulfil their dreams of becoming able physicians, have a multiplier effect among students and practice ethical healthcare thereby serving the larger community.

The program follows a very careful selection process to ensure we are reaching out to the brightest and most deserving students who have an aptitude and are committed towards taking up science as a subject after class 10 and choosing the medical profession as their careers. Social and economic background of the students is verified before they become part of our program.

The Company intends to continue this program going forward and this year 43 Students were supported under the Udaan Program.

E-Health Centre

The e-Health center program was initiated in 2015 with focus on delivering accessible, quality and affordable primary health care to people living in resource-deprived locations of India using appropriate technologies. NH is the healthcare partner to implement, operate and manage e-Health Centers. The centers are rapidly deployable healthcare facilities powered by cloud-enabled solutions and fully equipped with workstations, open electronic records (EMR) systems, biometric patient identification and integrated diagnostic services.

The E-Health center helped in pandemic to inoculate free vaccination drive and distributing free medicines. As the above program has achieved the objectives it was concluded in FY 2021-22.

Non-Communicable Diseases

The Non-Communicable Diseases (NCD) program was initiated in June 2017 with a focus to improve awareness and conduct screening for non-communicable diseases including breast and oral cancer. The focus has been on a continuum of activities including promotive, preventive, curative and palliative care services. The focus of the program has been on promotive, preventive, curative as well as palliative activities. Program staff at various locations coordinate with several groups in both urban and rural settings to increase the reach of screening services.

Due to pandemic much work could not be done and focus was more in free vaccination program, the program was discontinued from FY 2021-22.

INDEPENDENT AUDITOR'S REPORT

To The Members of **Narayana Hrudayalaya Limited**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **Narayana Hrudayalaya Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows, the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under

section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matter	Auditor's Response
<p>Impairment of Investment and loan</p> <p>Impairment evaluation carried out by the Management for investment made in one of the operating subsidiaries of the Company due to significant losses incurred in one of the Cash Generating Units (hereinafter referred to as "the CGU") of the said Subsidiary.</p> <p>The balance sheet includes Rs. 1,493.66 Mio of investment and Rs. 92 Mio of current unsecured loans relating to this Subsidiary.</p> <p>Impairment of investment and current unsecured loans has been identified as a key audit matter due to:</p> <ul style="list-style-type: none"> The significance of the carrying value of the assets being assessed; and 	<p>Principal audit procedures performed:</p> <ol style="list-style-type: none"> Evaluated the design and implementation of the relevant controls and the operating effectiveness of such internal controls which <i>inter-alia</i> includes the completeness and accuracy of the input data considered, reasonableness of the assumptions considered in determining the present value of future cash flows. Compared the actual revenues and cash flows generated by the Subsidiary during the year with the plan and estimates considered in the previous year iii. Verified if the cash flow projections of the Subsidiary considered for the assessment of impairment were as per cash flow projections reviewed and approved by the Board of Directors of the Company and the Subsidiary. iv. Evaluated the Management's future cash flow projections, with regard to the appropriateness of key assumptions considered, including discount rate, growth rate, sensitivity analysis of the key assumptions etc. duly considering the impact of the COVID-19 pandemic and duly considering the historical accuracy of the Company's estimates in the prior periods, and comparison of the assumptions with observable market data wherever available. v. Involved our valuation specialists to review key assumptions considered in the future cash projections such as discount rate and growth rate.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. Other information comprises the information included in the Annual Report, for example, Corporate Overview, Key Highlights, Directors' Report, Report on Corporate Governance, Management Discussion & Analysis Report, etc. but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair

view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to

issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably

knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.

- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements;
 - ii. The company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. a) The Management has represented that, to the best of it's knowledge and belief, as disclosed in the note 49(iii) to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b) The Management has represented to us that, to the best of it's knowledge and belief, as disclosed in the note 49 (iv) to the standalone financial statements, no funds (which are material either individually or in the aggregate) have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - c) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to our notice that cause us to believe that the representation given by the Management under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
 - v. The Company has not declared or paid any dividend during the year. As stated in note 15 to the standalone financial statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend proposed is in accordance with Section 123 of the Act, as applicable
2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE “A”

to the Independent Auditor’s Report

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Narayana Hrudayalaya Limited** (“the Company”) as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over

financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal

financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the criteria for internal financial control over financial reporting established by the Company considering the essential

ANNEXURE “B”

to the Independent Auditor's Report

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

In terms of the information and explanations sought by us and given by the Company, and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we state that -

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment, capital work in progress and right of use assets.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(i) (b) The Company has a program of verification of property, plant and equipment, capital work in progress and right of use assets to cover all the items in a phased manner over a period of 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain property, plant and equipment were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.

(i) (c) Based on the examination of the registered sale deed / transfer deed / conveyance deed provided to us, we report that, the title deeds, comprising all the immovable properties of land and buildings which are freehold, are held in the name of the Company as at the balance sheet date. Immovable properties of land and buildings whose title deeds have been pledged as security for loans are held in the name of the Company based on the confirmations directly received by us from lenders. In respect of immovable properties of land and buildings that have been taken on lease and disclosed as right of use assets in the financial statements, the lease agreements are in the name of the Company, where the Company is the lessee in the agreement.

(i) (d) The Company has not revalued any of its Property, Plant and Equipment, Right of Use Assets and intangible assets during the year.

(i) (e) No proceedings have been initiated during the year or are pending against the Company as at 31st March, 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

(ii) (a) The inventories were physically verified during the year by the Management at reasonable intervals. In our opinion and according to the information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the

Company and the nature of its operations. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of account.

(ii) (b) According to the information and explanations given to us, at any point of time of the year, the Company has not been sanctioned any working capital facility from banks or financial institutions on the basis of security of current assets, and hence reporting under clause (ii)(b) of the Order is not applicable.

(iii) (a) The Company has made investments in, provided guarantee or security and granted loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year, in respect of which:

(A) The Company has provided loans, stood guarantee during the year and details of which are given below:

Particulars	Amount in Million	
	Loans	Guarantees
Aggregate amount granted / provided during the year :		
Subsidiaries	50	3737.76
Balance Outstanding as at the balance sheet date in respect of above cases		
Subsidiaries	92	7657.36

(iii) (b) The investments made, guarantees provided, and the terms and conditions of the grant of all the above-mentioned loans and guarantees provided, during the year are, in our opinion, *prima facie*, not prejudicial to the Company's interest.

(iii) (c) The Company has granted loans or provided advances in the nature of loan are payable on demand. During the year the Company has not demanded such loan. Having regard to the fact that the repayment of principal or payment of interest has not been demanded by the Company, in our opinion the repayments of principal amounts and receipts of interest are regular.

(iii) (d) According to information and explanations given to us and based on the audit procedures performed, in respect of loans granted by the Company, there is no overdue amount remaining outstanding as at the balance sheet date.

(iii) (e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.

- (iii) (f) The Company has granted Loans or advances in the nature of loans which are repayable on demand details of which are given below:

Particulars	Related Parties (Rs. In Million)
Aggregate of loans/advances in nature of loans	
- Repayable on demand	50
Total	50
Percentage of loans to the total loans	100%

- (iv) The Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made and guarantees and securities provided, as applicable.

- (v) The Company has not accepted any deposit during the year nor has any unclaimed deposits within the meaning of Sections 73 to 76 or any other relevant provisions of the Act. Hence reporting under clause 3(v) of the Order is not applicable to the Company.

- (vi) The maintenance of cost records has been specified by the Central Government under section 148(1) of the Companies Act, 2013 in respect of services rendered. We have broadly reviewed the books of account maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended, prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Companies Act, 2013, and are of the opinion that, prima facie, the prescribed cost records have been made and maintained by the Company. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

- (vii) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2022 on account of disputes are given below:

Name of Statute	Nature of Dues	Amount (Rs. In Million)	Period to which the Amount Relates	Forum where Dispute is Pending

Customs Act, 1962	Customs Duty	1.74	FY 2012-13	Customs, Excise and Service Tax Appellate Tribunal

^ Net of Rs. 0.3 Mio paid under Protest.

- (viii) There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.

- (ix) (a) The Company has not defaulted in the repayment of borrowings or in the payment of interest thereon during the year.

- (ix) (b) The Company has not been declared wilful defaulter by any bank, financial institution or other lender.

- (ix) (c) To the best of our knowledge and belief, in our opinion, term loans availed by the Company were, applied by the Company during the year for the purposes for which the loans were obtained.

- (ix) (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have,

prima facie, not been used during the year for long-term purposes by the Company.

- (ix) (e) On an overall examination of the financial statements of the Company, the Company has not taken any fund from any entity or person on account of or to meet the obligations of its subsidiaries or associates.

- (ix) (f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries, or associate companies.

- (x) (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.

- (x) (b) During the year, the Company has not made any preferential allotment or private placement of shares or

convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable to the Company.

- (xi) (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (xi) (b) To the best of our knowledge, no report under sub-section (12) of Section 143 of the Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- (xi) (c) As represented to us by the Management, there were no whistle blower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable.
- (xiii) The Company is in compliance with Section 177 and 188 of the Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- (xiv) (a) The Company has an internal audit system commensurate with the size and nature of its business.
- (xiv) (b) We have considered, the internal audit reports issued to the Company during the year and covering the period upto December 2021 and the final of the internal audit report issued after the balance sheet date covering the period from January 2022 to March 2022 for the period under audit.
- (xv) During the year, the Company has not entered into any non-cash transactions with any of its directors, or directors of the company, subsidiary companies, associate companies or persons connected with such directors and hence provisions of Section 192 of the Act are not applicable to the Company.
- (xvi) The company is not required to be registered under Section 45 - IA of the Reserve Bank of India Act, 1934 and hence reporting under clauses (xvi)(a),(b), and (c) of the order is not applicable.
- (xvi) The Group ("Companies in the Group" as defined in the Core Investment Companies (Reserve Bank) Directors) does not have any CIC (Core Investment Company) as part of the group and accordingly reporting under clause (xvi)(d) of the Order is not applicable.
- (xvii) The Company has not incurred any cash losses in the financial year covered by our audit and in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there are no unspent CSR amounts for the year requiring a transfer to a Fund specified in Schedule VII to the Act or special account in compliance with the provision of sub-section (6) of Section 135 of the said Act. Accordingly, reporting under clause 3(xx) of the Order is not applicable for the year.

to the standalone financial statements for the year ended 31st March 2022

1. Company overview

Narayana Hrudayalaya Limited ('the Company') was incorporated on 19 July 2000 under the Companies Act, 1956. The Company headquartered in Bengaluru is primarily engaged in the business of rendering medical and healthcare services. The Company was rebranded as 'Narayana Health' in 2013. It has a network of multispecialty and superspecialty hospitals spread across multiple locations. The Company owns and operates certain hospitals and also enters into management agreements with hospitals under which the Company acquires the operating control of the hospitals.

application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Judgments

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following notes:

Note 36 - Leases

Note 29 – Assessment of contingent liabilities and commitments

Note 42 - Financial instruments

Note 39 - Share based payments

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have significant risk of resulting in a material adjustment in the year ending 31st March 2022 is included in the following notes:

Note 38- recognition of deferred tax assets

Note 34 - measurement of defined benefit obligation; key actuarial assumptions

Note 29- recognition and measurement of contingencies; key assumptions about the likelihood and magnitude of outflow of resources.

Note 4 - useful life of property, plant and equipment and intangible assets

Note 6 to 8, 12, 13 and 42 - recognition of impairment of financial assets

2.5. Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

2. Basis of preparation of the financial statements

2.1. Statement of compliance

The financial statements have been prepared in accordance of Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules 2015 notified under Section 133 of Companies Act 2013 (the 'Act') and other relevant provisions and amendment rules issued thereafter.

The financial statements were authorized for issue by the Company's Board of Directors on 20th May, 2022.

Details of the accounting policies are included in Note 3.

2.2. Functional and presentation currency

These financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts are presented in ₹ in million, except share data and per share data, unless otherwise stated.

2.3. Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

2.4. Use of estimates and judgments

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the

Notes

to the standalone financial statements for the year ended 31st March 2022 (Contd.)

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. Further information about the assumptions made in measuring fair values is included in the following notes:

Note 42 – financial instruments;

Note 39 – share based payment arrangement;

3. Significant accounting policies

3.1. Financial instruments

a. Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

b. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortised cost;
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;

- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair

Notes

to the standalone financial statements for the year ended 31st March 2022 (Contd.)

value of the assets managed or the contractual cash flows collected; and

- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount

that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost represented by borrowings, trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest rate method.

Derivative financial instruments

Hedge accounting:

The Company uses derivative financial instruments to manage risks associated with interest rate fluctuations relating to foreign currency loan taken by the Company.

Derivatives are recognized and measured at fair value. Attributable transaction costs are recognized in statement of profit and loss

Cash flow hedge:

The Company has designated derivative financial instruments taken for interest rate as 'cash flow' hedges relating to foreign currency loan taken by the Company.

Notes

to the standalone financial statements for the year ended 31st March 2022 (Contd.)

The use of derivative financial instruments is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of such instruments consistent with the Company's risk management strategy.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cashflow hedges is recognised in other comprehensive income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in statement of profit or loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognized when the forecast transaction is ultimately recognised in profit & loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in the statement of profit and loss.

Others:

Changes in fair value of foreign currency derivative instruments not designated as cash flow hedges and the ineffective portion of cash flow hedges are recognized in the statement of profit and loss and reported within foreign exchange gains/ (losses).

Financial Guarantee Contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because the beneficiary fails to make payments when due in accordance with the terms of a debt instrument. Financial guarantee contracts issued by the Company are measured at their applicable fair values.

c. Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither

transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

d. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when and only when, the Company has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3.2. Inventories

The inventories of medical consumables, drugs and surgical instruments are valued at lower of cost and net realizable value. In the absence of any further estimated costs of completion and estimated costs necessary to make the sale, the net realizable value is the selling price. The comparison of cost and net realizable value is made on an item by item basis. Cost of these inventories comprises of all costs of purchase and other costs incurred in bringing the inventories to their present location after adjusting for Goods and Service Tax wherever applicable, applying the first in first out method.

3.3. Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term deposits with an original maturity of three months or less which are subject to insignificant risk of changes in value.

Notes

to the standalone financial statements for the year ended 31st March 2022 (Contd.)

3.4. Treasury Shares

The Company has created an Employee Benefit Trust (EBT) for providing share based payment to its employees. The Company treats EBT as its extension and shares held by EBT are treated as treasury shares. Own equity instruments that are acquired (treasury shares) are recognized at cost and deducted from equity. When the treasury shares are issued to the employees by EBT, the amount received is recognized as an increase in other equity and the resultant is transferred to securities premium.

3.5. Cash flow statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated. Bank overdrafts are classified as part of cash and cash equivalents as they form an integral part of an entity's cash management.

3.6. Revenue recognition

Revenue from operations

The Company recognizes revenue from medical and healthcare services to patients, on sale of medical consumables and drugs within the hospital premises and on providing services towards patient amenities.

Revenue is measured at the fair value of the consideration received or receivable. Revenue is recognized upon transfer of control of promised products or services to customers/ patients in an amount that reflects the consideration we expect to receive in exchange for those products or services. Sales and Service Income exclude Goods and Service Tax (GST) and are net of trade / volume discounts, where applicable.

'Unbilled revenue' represents value to the extent of medical and healthcare services rendered to the patients who are undergoing treatment/ observation on the balance sheet date and is not billed as at the balance sheet date. 'Unearned revenue' comprises billings in excess of earnings.

Other healthcare services

Revenue is recognized on pro-rata basis on the completion of such services over the duration of the program.

Interest

Interest income is recorded using the effective interest rate (EIR) which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

Dividend:

Dividend income is recognised when the Company's right to receive dividend is established.

3.7. Property, Plant and Equipment and intangible assets

(i) Property, Plant and Equipment

Recognition and measurement

Property, plant and equipment are measured at cost which includes capitalized borrowing costs, less accumulated depreciation and impairment losses, if any. The cost of an item of Property, Plant and Equipment comprises its purchase price, including import duties and other non-refundable taxes or levies, freight, any directly attributable cost of bringing the asset to its working condition for its intended use and estimated cost of dismantling and restoring onsite; any trade discounts and rebates are deducted in arriving at the purchase price. Subsequent expenditures related to an item of tangible fixed asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance. Cost includes expenditures directly attributable to the acquisition of the asset.

Depreciation and amortization

The Company depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are ready for intended use. Assets acquired under finance lease and leasehold improvements are amortized over the lower of

Notes

to the standalone financial statements for the year ended 31st March 2022 (Contd.)

estimated useful life and lease term. Freehold land is not depreciated. The estimated useful lives of assets for the current and comparative period of significant items of property, plant and equipment are as follows:

Block of assets	Useful life
Building	60 years
Electrical installation	10 years
Medical equipment	13 years
Office equipment	5 years
Other equipment including air conditioners	15 years
Furniture and fixtures	10 years
Computers	3 years
Vehicles	5 years

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted appropriately.

The Company believes that the useful life as given above best represent the useful life of the assets based on the internal technical assessment and these useful lives are as prescribed under Part C of Schedule II of the Companies Act, 2013 except vehicles where useful life considered by management is lower.

The cost and related accumulated depreciation are eliminated from the financial statements upon sale or disposition of the asset and the resultant gains or losses are recognized in the statement of profit and loss. Amounts paid towards the acquisition of property, plant and equipment outstanding as of each reporting date are recognized as capital advance and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work- in-progress.

(ii) Intangible assets

Intangible assets acquired separately

Intangible assets that are acquired separately are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective estimated useful lives on a straight-line basis, from the date that they are available for use.

Amortisation

The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition and

other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

The estimated useful lives of intangibles are as follows:

Block of assets	Useful life
Computer software	3 years

Amortisation method

Useful life and residual values are reviewed at the end of each financial year.

Internally generated intangible assets

An internally generated intangible asset arising from development (or from the development phase of an internal project) is recognized if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally generated intangible asset can be recognised, development expenditure is recognised in statement of profit and loss in the period in which it is incurred.

Subsequent to initial recognition, internally generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

Notes

to the standalone financial statements for the year ended 31st March 2022 (Contd.)

Amortisation

The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

The estimated useful lives of intangibles are as follows:

Block of assets	Useful life
Computer software	10 years

3.8. Business combination and Goodwill

Business combination

Business combinations are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Transaction costs incurred in connection with a business combination are expensed as incurred.

Goodwill

Goodwill is measured as the excess of the sum of the consideration transferred, over the net of the acquisition date amounts of the identifiable assets acquired and the liabilities assumed.

In case of a bargain purchase, before recognising a gain in respect thereof, the Company determines whether there exists clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. Thereafter, the Company reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognises any additional assets or liabilities that are identified in that reassessment. The Company then reviews the procedures used to measure the amounts that Ind AS requires for the purposes of calculating the bargain purchase. If the gain remains after this reassessment and review, the Company recognises it in other comprehensive income and accumulates the same in equity as capital reserve. This gain is attributed to the acquirer. If there does not exist

clear evidence of the underlying reasons for classifying the business combination as a bargain purchase, the Company recognises the gain, after reassessing and reviewing (as described above), directly in equity as capital reserve.

3.9. Investment in subsidiaries

Investment in subsidiaries is measured at cost.

3.10. Government grants

Grants from the Government are recognised when there is reasonable assurance that:

- (i) the Company will comply with the conditions attached to them; and
- (ii) the grant will be received

Government grants related to revenue are recognised on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate. Such grants are deducted in reporting the related expense.

Government grants related to assets, including non-monetary grants at fair value, shall be presented in the balance sheet by setting up the grant as deferred income.

The grant set up as deferred income is recognised in profit or loss on a systematic basis over the useful life of the asset

3.11. Employee benefits

Short term employee benefits

Employee benefits payable wholly within twelve months of receiving services are classified as short-term employee benefits. These benefits include salary and wages, bonus and exgratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognized as an expense as the related service is rendered by the employees.

Post-employment benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to separate entity and has no obligation to pay any further amounts. The Company makes specified obligations towards employee provident fund to Government administered provident fund scheme which is a defined contribution plan. The Company's contributions are recognized as an expense in the statement

Notes

to the standalone financial statements for the year ended 31st March 2022 (Contd.)

of profit and loss during the period in which the employee renders the related service.

Defined benefit plans

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned and returned for services in the current and prior periods; that benefit is discounted to determine its present value. The calculation of Company's obligation under the plan is performed periodically by an independent qualified actuary using the projected unit credit method.

The gratuity scheme is administered by a third party. Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in other comprehensive income (OCI). The Company determines the net interest expense (income) on the net defined liability (assets) for the period by applying the discount rate used to measure the net defined obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes as a result of contribution and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in the statement of profit and loss. The Company recognizes gains and losses in the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in the statement of profit and loss.

Compensated absences

The employees can carry-forward a portion of the unutilized accrued compensated absences and utilize it in future service periods or receive cash compensation on any leave accumulated in excess of 45 days or on termination of employment. Since the employee has unconditional right to avail the leave, the benefit is classified as a short term employee benefit. The Company records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

Employee Stock Option Plan (ESOP)

The grant date fair value of equity settled share-based payment awards granted to employees is recognized as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognized as expense is based on the estimate of the number of awards for which the related service are expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that do meet the related service conditions at the vesting date.

3.12. Borrowing cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalized as part of the cost of that asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

3.13. Leases

The Company's lease asset classes primarily consist of leases for land & buildings and equipment. The Company, at the inception of a contract, assesses whether the contract is a lease or not lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a time in exchange for a consideration. This policy has been applied to contracts existing and entered into on or after April 1, 2019.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term.

Notes

to the standalone financial statements for the year ended 31st March 2022 (Contd.)

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognizes the lease payments associated with these leases as an expense over the lease term.

3.14. Earnings per share

The basic earnings per share is computed by dividing the net profit attributable to equity shareholders for the period by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the net profit attributable to equity shareholders for the year relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share.

3.15. Income tax

The Income-tax expense comprises current tax and deferred tax. It is recognized in profit and loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

Current income tax

Current tax comprises the expected tax payable or receivable on the taxable income for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted by the reporting dates.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the assets and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

Deferred tax liabilities are recognized for all taxable temporary differences.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Minimum Alternative tax

According to Section 115JAA of the Income tax Act, 1961, Minimum Alternative Tax ('MAT') paid over and above the normal Income tax in a subject year is eligible for carry forward for fifteen succeeding assessment year for set-off against normal Income tax liability. The MAT credit asset is assessed against the entity's normal income tax during the specified period.

3.16. Foreign exchange transactions and translations

Transactions in foreign currencies are recorded at prevailing rate at the dates of the transactions.

Notes

to the standalone financial statements for the year ended 31st March 2022 (Contd.)

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognised in the statement of profit or loss.

3.17. Impairment

a. Impairment of financial instruments

The Company recognizes loss allowances for expected credit losses on financial assets measured at amortized cost;

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt securities at fair value through other comprehensive income (FVTOCI) are credit- impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the

expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative, qualitative information and analysis based on the Company's historical experience and informed credit assessment and including forward- looking information.

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case

Notes

to the standalone financial statements for the year ended 31st March 2022 (Contd.)

when the Company determines that the trade receivable does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

b. Impairment of non-financial assets

The Company's non-financial assets, inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset)

The Company's corporate assets do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognized in the statement of profit and loss.

3.18. Segment Reporting

Operating results are regularly reviewed by the Chief Operating Decision Maker ('CODM') who makes decisions about resources to be allocated to the segment and assess its performance. Segment results that are reported to the CODM include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

3.19. Non-current assets or disposal groups held for sale

Non-current assets or disposal groups comprising assets and liabilities are classified as held for sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use.

Such assets, or disposal groups, are generally measured at the lower of their carrying amount and fair value less costs to sell. Losses on initial classification held for sale and subsequent gain and losses on re-measurement are recognized in the statement of profit and loss.

Once classified as held-for-sale, intangible assets, property, plant and equipment and investment properties are no longer amortized or depreciated.

3.20. Provisions and contingencies

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

3.21. Share issue expenses

Share issue expenses are adjusted against the securities premium account as permissible under Section 52 of the Companies Act, 2013, to the extent any balance is available for utilisation in the securities premium account.

Notes

to the standalone financial statements for the year ended 31st March 2022 (Contd.)

3.22. Dividend and dividend distribution tax

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors. The Company declares and pays dividends in Indian rupees and are subject to applicable taxes.

3.23. Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

3.24. On March 24, 2021, the Ministry of Corporate Affairs (MCA) through a notification, amended Schedule III of the Companies Act, 2013, applicable for financial periods commencing from April 1, 2021. Pursuant to such amendments below changes have been made in the financial results

- (a) non-current security deposits of Rs 522.65 million and current security deposits of Rs 33.67 million as at March 31, 2021 have been reclassified from 'Loans' to 'Other financial assets'.

- (b) current maturities of long term borrowings of Rs, 532.74 million as at March 31, 2021 have been reclassified from 'other financial liabilities' to 'short term borrowings'.

3.25. Standards Issued but Not Effective

On March 23, 2022, the Ministry of Corporate Affairs (MCA) has notified Companies (Indian Accounting Standards) Amendment Rules, 2022. This notification has resulted into amendments in the following existing accounting standards which are applicable to company from April 1, 2022.

- i. Ind AS 101 – First time adoption of Ind AS
- ii. Ind AS 103 – Business Combination
- iii. Ind AS 109 – Financial Instrument
- iv. Ind AS 16 – Property, Plant and Equipment
- v. Ind AS 37 –Provisions, Contingent Liabilities and Contingent Assets
- vi. Ind AS 41 – Agriculture

Application of above standards are not expected to have any significant impact on the Company's financial statements

The Company uses a provision matrix to determine the expected credit loss on the portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At each reporting period, the historically observed default rates are updated and changes in forward-looking estimates are analysed. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows.

32 Segment information

Operating segments

Ind AS 108 "Operating Segment" establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. Based on the "management approach" as defined in Ind AS 108, Operating segments are to be reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The CODM evaluates the Company's performance and allocates resources on overall basis. The Company's sole operating segment is therefore 'Medical and Healthcare Services'. Accordingly, there are no additional disclosures to be provided under Ind AS 108, other than those already provided in the financial statements.

Entity wide disclosures -Information about geographical areas

Geographical information analyses the Company's revenue and non current assets by the Company's country of domicile (i.e. India) and other countries. In presenting the geographical information, segment revenue has been based on the geographical location of the customers and segment assets which have been based on the geographical location of the assets.

Mortality rate (10% movement)	(0.00)	0.08	0.00	0.28

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

35 Due to Micro, Small and Medium Enterprises

The Ministry of Micro, Small and Medium Enterprises has issued an office memorandum dated 26 August 2008 which recommends that the Micro and Small Enterprises should mention in their correspondence with its customers the Entrepreneurs Memorandum Number as allocated after filing of the Memorandum. Accordingly, the disclosure in respect of the amounts payable to such enterprises as at 31 March 2022 has been made in the financial statements based on information received and available with the Company. Further in view of the management, the impact of interest, if any, that may be payable in accordance with the provisions of the Micro, Small and Medium Enterprises Development Act, 2006 ('The MSMED Act') is not expected to be material. The Company has not received any claim for interest from any supplier.

36 Leases

The Company has adopted Ind AS 116 'Leases', effective annual reporting period beginning April 1, 2019. Ind AS 116 replaces Ind AS 17 – Leases and related interpretation and guidance. The Company has applied the standard to its leases, using the modified retrospective approach, with the cumulative effect of initially applying the Standard, recognized on the date of initial application (April 1, 2019). Comparative information has not been restated.

Accordingly, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company's incremental borrowing rate at the date of initial application.

In adopting Ind AS 116, the Company has applied the below practical expedients:

The Company has applied a single discount rate to a portfolio of leases with reasonably similar characteristics

The Company has treated the leases with remaining lease term of less than 12 months as if they were "short term leases"

The Company has not applied the requirements of Ind AS 116 for leases of low value assets

The Company has used hindsight, in determining the lease term if the contract contains options to extend or terminate the lease

Measurement of fair values

The carrying value of all financial assets approximates the fair value.

B. Financial risk management

The Company's activities expose it to a variety of financial risks: credit risk, market risk and liquidity risk.

(i) Risk management framework

The Company's risk management is carried out by a central treasury department under policies approved by the Board of Directors. The Board supervises overall risk management, as well as policies covering specific areas, such as foreign exchange risk, credit risk and use of financial instruments.

(ii) Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The credit risk arises principally from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and financial institutions and other financial instruments.

Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom credit has been granted after obtaining necessary approvals for credit. The collection from the trade receivables are monitored on a continuous basis by the receivables team.

The Company establishes an allowance for credit loss that represents its estimate of expected losses in respect of trade and other receivables based on the past and the recent collection trend. The maximum exposure to credit risk as at reporting date is primarily from trade receivables amounting to ₹ 2,032.80 million (previous year: ₹ 1,857.14 million). The movement in allowance for credit loss in respect of trade and other receivables during the year was as follows:

Allowance for credit loss	As at 31 March 2022	As at 31 March 2021
Opening balance	313.28	357.92
Expected credit loss recognised/(reversed)	(15.36)	(44.64)
Closing balance	297.92	313.28

No single customer accounted for more than 10% of the revenue as of 31 March 2022 and 31 March 2021. There is no significant concentration of credit risk.

Credit risk on cash and cash equivalents is limited as the Company generally transacts with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. In addition, the Company maintains line of credit as stated in Note 16.

42 Financial instruments: Fair value and risk management (Contd.)

(i) Interest rate risk exposure

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regard to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

Type of Derivative	No. of Contracts	As at 31 March 2022		As at 31 March 2021	
		Amount Hedged (in USD million)	Fair Value (INR million)	Amount Hedged (in USD million)	Fair Value (INR million)
Interest Rate Swap	1	25.00	(17.04)	25.00	(75.85)

The Company has entered into derivative financial instruments with a counter-party (bank) with investment grade credit ratings. Derivatives valued using valuation techniques with market observable inputs are mainly interest rate swaps. The most frequently applied valuation techniques include swap models using present value calculations. The models incorporate various inputs including the credit quality of counterparties, interest rate curves and forward rate curves of the underlying. As at March 31, 2022, the changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationships and other financial instruments recognized at fair value.

Exposure to Interest Rate

Company's Interest rate rise arises from borrowings. The Following table demonstrates the sensitivity on the Company's profit before tax to a reasonably possible change in interest rates on that position of loans and borrowings affected, with other variables held constant.

Particulars	(₹ in million)	
	As at 31 March 2022	As at 31 March 2021
Borrowings	2,874.86	2,699.85
Total borrowings	2,874.86	2,699.85

(ii) Sensitivity

Particulars	(₹ in million)	
	As at 31 March 2022	As at 31 March 2021
Sensitivity		
1% increase in MCLR rate	28.75	27.00
1% decrease in MCLR rate	(28.75)	(27.00)

The interest rate sensitivity is based on the closing balance of secured term loans from banks and financial institutions.

INDEPENDENT AUDITOR'S REPORT

To The Members of **Narayana Hrudayalaya Limited**

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **Narayana Hrudayalaya Limited** ("the Parent") and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group"), which includes Group's share of loss in its associates, which comprise the Consolidated Balance Sheet as at March 31, 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash flows and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial information of the subsidiaries and associates referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ('Ind AS') and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2022, their consolidated profit, their consolidated total comprehensive profit, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on these consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matters as reported

Impairment of Assets of Cash Generating Unit

Impairment evaluation carried out by the Management for tangible, intangible assets and goodwill (hereinafter collectively referred to as "Assets") relating to one of the Cash Generating Units (hereinafter referred to as "the CGU") of one of the Subsidiaries of the Parent because of its continued losses.

The Consolidated Balance Sheet includes Rs. 723 million of Assets relating to the CGU. (refer note 4 to the consolidated financial statements).

Impairment of the Assets of the CGU has been identified as a key audit matter due to:

- The significance of the carrying value of the Assets being assessed; and

Auditor Response

Principal audit procedures performed:

- Evaluated the design and implementation of the relevant controls and the operating effectiveness of such internal controls which *inter-alia* includes the completeness and accuracy of the input data considered, reasonableness of the assumptions considered in determining the present value of future cash flows.
- Obtained the business projections of the CGU (prepared by the Management) and performed the following procedures:
 - Conducted inquiries with the Parent/ Subsidiary personnel to identify if factors that, in our professional judgement, should be taken into account in the analysis were considered.

Key Audit Matters as reported	Auditor Response
<ul style="list-style-type: none"> The assessment of the carrying value of the Assets involves assumptions and exercising significant judgements in estimating the recoverable value of the CGU, including taking into account the effect of the pandemic relating to COVID-19. Any adverse changes to these assumptions could result in lower recoverable value than the carrying amount. 	<ul style="list-style-type: none"> ii. Compared the actual revenues and cash flows generated by the CGU during the year with the plan and estimates considered in the previous year. iii. Verified if the cash flow projections of the CGU considered for the assessment of impairment were as per cash flow projections reviewed and approved by the Board of Directors of the Parent and the Subsidiary. iv. Evaluated the Management's future cash flow projections, with regard to the appropriateness of key assumptions considered, including discount rate, growth rate, sensitivity analysis of the key assumptions etc. duly considering the impact of the COVID-19 pandemic and also considering the historical accuracy of the Parent's estimates in the prior periods, and comparison of the assumptions with observable market data wherever available. v. Involved our valuation specialists to review key assumptions considered in the future cash projections such as discount rate and growth rate.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Parent's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, Corporate Overview, Key Highlights, Directors' Report, Report on Corporate Governance, Management Discussion & Analysis Report, etc. but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries is traced from their financial statements audited by the other auditors.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group including its associates in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the

going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the

related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse

consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements of three subsidiaries, whose financial statements reflect total assets of Rs. 40.65 Million as at March 31, 2022, total revenues of Rs. 61.76 Million and net cash inflows amounting to Rs. 10.68 Million for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include Group's share of net loss of Rs. 85.26 Million for the year ended March 31, 2022, as considered in the consolidated financial statements, in respect of two associates, whose financial statements have not been audited by us.

These financial information have been audited by other auditors and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associates, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associates is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on the separate financial statements of the subsidiaries and associates, referred to in the Other Matters section above we report, to the extent applicable that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books, and the reports of the other auditors.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

- d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors of the Parent Company as on March 31, 2022 taken on record by the Board of Directors of the Parent and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Parent and its subsidiary companies incorporated in India is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Parent and subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies, for the reasons stated therein.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Parent to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group and its associate;
 - ii) The Group and its associates did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii) There were no amounts, which were required to be transferred, to the Investor Education and Protection Fund by the Parent and its subsidiary companies incorporated in India.
 - iv) (a) The respective Managements of the Parent and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us that, to the best of their knowledge and belief, as disclosed in the note

51 (iii) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Parent or any of such subsidiaries to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Parent or any of such subsidiaries, associates ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (b) The respective Managements of the Parent and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us that, to the best of their knowledge and belief, as disclosed in the note 51 (iv) to the consolidated financial statements, no funds have been received by the Parent or any of such subsidiaries from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Parent or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances performed by us on the Parent and its subsidiaries which are companies incorporated in India whose financial statements have been audited under

the Act, nothing has come to our notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material mis-statement.

- v) The Parent Company has not declared or paid any dividend during the year. As stated in note 14(b) to the consolidated financial statements, the Board of Directors of the Parent Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

No dividend has been proposed, declared or paid by any of the subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, where applicable.

2. With respect to the matters specified in clause (xxi) of paragraph 3 and paragraph 4 of the Companies (Auditor's Report) Order, 2020 ("CARO"/ "the Order") issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and its subsidiaries included in the consolidated financial statements to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports.

ANNEXURE “A” to the Independent Auditor’s Report

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2022, we have audited the internal financial controls over financial reporting of Narayana Hrudayalaya Limited (hereinafter referred to as “Parent”) and its subsidiary companies, which are Companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent and its subsidiary companies which are incorporated India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (“the ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Parent and its subsidiary companies which are incorporated in India, internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on internal financial controls system over financial reporting on the Parent and its subsidiary companies, which are incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal

financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us, the Parent and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by

the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

to the Consolidated Financial Statements for the year ended 31st March 2022

1. Group overview

Narayana Hrudayalaya Limited ('the Company' or 'the Holding company') together with its subsidiaries and associates (collectively referred to as 'Narayana Hrudayalaya Group' or 'the Group') is primarily engaged in business of rendering medical and healthcare services. Narayana Hrudayalaya Limited, the flagship company of the Group, was incorporated on 19 July 2000 under the Companies Act, 1956 with its registered office in Bengaluru. The Group was rebranded as 'Narayana Health' in 2013. It has a network of multispeciality, and super speciality hospitals spread across multiple locations. The Group owns and operates certain hospitals and enters into management agreements with hospitals under which the Group acquires the operating control of the hospitals.

2. Basis of preparation of the consolidated financial statements

2.1. Statement of compliance

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules 2015 notified under Section 133 of Companies Act 2013 (the 'Act') and other relevant provisions and amendment rules issued thereafter.

The consolidated financial statements were authorized for issue by the Company's Board of Directors on May 20, 2022.

Details of the Group's accounting policies are included in Note 3.

2.2. Functional and presentation currency

These consolidated financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts are presented in ₹ in million, except share data and per share data, unless otherwise stated.

2.3. Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities (including derivative instruments)	Fair value
Net defined benefit (asset)/liability	Fair value of plan assets less present value of defined benefit obligations

2.4. Use of estimates and judgements

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements is included in the following notes:

- Note 29 – Assessment of contingent liabilities and commitments;
- Note 30 – leases and lease classification;
- Note 34 – consolidation: whether the Group has control over an investee;
- Note 46 – Provision for taxes;
- Note 48 – financial instruments and
- Note 40 – share based payments

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting

in a material adjustment in the year ending March 31, 2022, is included in the following notes:

- Note 47 – recognition of deferred tax assets
- Note 31 – measurement of defined benefit obligations: key actuarial assumptions;
- Note 29 – recognition and measurement of contingencies; key assumptions about the likelihood and magnitude of an outflow of resources; and
- Note 4 – useful life of property, plant and equipment and intangible assets

2.5. Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 48 – financial instruments
- Note 40 – share-based payments

3. Significant accounting policies

3.1. Basis of consolidation

a. Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

b. Non-controlling interests (NCI)

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition.

Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

c. Loss of control

When the Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognized in the statement of profit or loss.

d. Equity accounted investees

The Group's interests in equity accounted investees comprise interests in associates.

An associate is an entity in which the Group has significant influence, but not control or joint control, over the financial and operating policies.

Interests in associates are accounted for using the equity method. They are initially recognized at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit or loss and Other Comprehensive Income (OCI) of equity- accounted investees until the date on which significant influence ceases.

e. Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

3.2. Financial instruments

a. Recognition and initial measurement

Trade receivables issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022

b. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortised cost; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities, or expected cash outflows or realising cash flows through the sale of the assets;

- how the performance of the portfolio is evaluated and reported to the Group's management.
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed.
- how managers of the business are compensated – e.g., whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume, and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows.
- terms that may adjust the contractual coupon rate, including variable interest rate features.
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g., non-recourse features).

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022

A prepayment feature is consistent with the sole payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost represented by borrowings, trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest rate method.

Derivative financial instruments

Hedge accounting

The Group uses derivative financial instruments to manage risks associated with interest rate fluctuations relating to foreign currency loan taken by the group.

Derivatives are recognized and measured at fair value. Attributable transaction costs are recognized in statement of profit and loss.

Cash flow hedge:

The Group has designated derivative financial instruments taken for interest rate as 'cash flow' hedges relating to foreign currency loan taken by the group.

The use of derivative financial instruments is governed by the Group's policies approved by the Board of Directors, which provide written principles on the use of such instruments consistent with the Group's risk management strategy.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cashflow hedges is recognized in other comprehensive income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognized immediately in statement of profit or loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognized in other comprehensive income and accumulated in equity at that time remains in equity and is recognized when the forecast transaction is ultimately recognized in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognized immediately in the statement of profit and loss.

Others:

Changes in fair value of foreign currency derivative instruments not designated as cash flow hedges and the ineffective portion of cash flow hedges are recognized in the statement of profit and loss and reported within foreign exchange gains/ (losses).

c. Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the group

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022

neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Group enters into transactions whereby it transfers assets recognised on its balance sheet but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

d. Offsetting

Financial assets and financial liabilities are offset, and the net amount presented in the balance sheet when, and only when, the Group has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3.3. Inventories

The inventories of medical consumables, drugs and surgical instruments are valued at lower of cost or net realizable value. In the absence of any further estimated costs of completion and estimated costs necessary to make the sale, the net realizable value is the selling price. The comparison of cost and net realizable value is made on an item-by-item basis. Cost of these inventories comprises of all costs of purchase and other costs incurred in bringing the inventories to their present location after adjusting for goods and service tax wherever applicable, applying the first in first out method.

3.4. Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term deposits with an original maturity of three months or less which are subject to insignificant risk of changes in value.

3.5. Treasury Shares

The Company has created an Employee Benefit Trust (EBT) for providing share-based payment to its employees. The Company treats EBT as its extension and shares held by EBT are treated as treasury shares.

Own equity instruments that are acquired (treasury shares) are recognized at cost and deducted from equity. When the treasury shares are issued to the employees by EBT, the amount received is recognized as an increase in equity and the resultant gain / (loss) is transferred to / from securities premium.

3.6. Cash flow statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing, and financing activities of the Group are segregated. Bank overdrafts are classified as part of cash and cash equivalents, as they form an integral part of an entity's cash management.

3.7. Revenue recognition

Revenue from operations

The Group recognizes revenue from medical and healthcare services to patients, on sale of medical consumables and drugs within the hospital premises and on providing services towards patient amenities.

Revenue is measured at the fair value of the consideration received or receivable. Revenue is recognized upon transfer of control of promised products or services to customers/ patients in an amount that reflects the consideration we expect to receive in exchange for those products or services. Sales and Service Income exclude Goods and Service Tax (GST) and are net of trade / volume discounts, where applicable.

'Unbilled revenue' represents value to the extent of medical and healthcare services rendered to the patients who are undergoing treatment/ observation on the balance sheet date and is not billed as at the balance sheet date. 'Unearned revenue' comprises billings in excess of earnings.

Other healthcare services

Revenue is recognized on pro-rata basis on the completion of such services over the duration of the program.

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022

Interest

Interest income is recorded using the effective interest rate (EIR) which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

Dividend

Dividend income is recognised when the Group's right to receive dividend is established.

3.8. Property, Plant and Equipment

Recognition and measurement

Property, plant, and equipment are measured at cost which includes capitalized borrowing costs, less accumulated depreciation, and impairment losses, if any. The cost of an item of Property, Plant and Equipment comprises its purchase price, including import duties and other non-refundable taxes or levies, freight, any directly attributable cost of bringing the asset to its working condition for its intended use and estimated cost of dismantling and restoring onsite; any trade discounts and rebates are deducted in arriving at the purchase price. Subsequent expenditures related to an item of tangible fixed asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance. Cost includes expenditures directly attributable to the acquisition of the asset.

Depreciation and amortization

The Group depreciates property, plant, and equipment over the estimated useful life on a straight-line basis from the date the assets are ready for intended use. Assets acquired under finance lease and leasehold improvements are amortized over the lower of estimated useful life and lease term. Freehold land is not depreciated. The estimated useful lives of assets for the current and comparative period of significant items of property, plant and equipment are as follows:

Block of assets	Useful life
Building	40-60 years
Electrical installation	10 years
Medical equipment	13 years
Office equipment	5 years
Other equipment including air conditioners	15 years
Furniture and fixtures	10 years
Computers	3 years
Vehicles	5 years

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted appropriately.

The Group believes that the useful life as given above best represent the useful lives of the assets based on the internal technical assessment and these useful lives are as prescribed under Part C of Schedule II of the Companies Act, 2013 except for building at Grand Cayman and vehicles.

The cost and related accumulated depreciation are eliminated from the consolidated financial statements upon sale or disposition of the asset and the resultant gains or losses are recognized in the consolidated statement of profit and loss.

Amounts paid towards the acquisition of property, plant and equipment outstanding as of each reporting date are recognized as capital advance and the cost of property, plant, and equipment not ready for intended use before such date are disclosed under capital work- in-progress.

3.9. Business combination, goodwill, and other intangible assets

Business combination

Business combinations are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued, and liabilities incurred or assumed at the date of exchange. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022

Transaction costs incurred in connection with a business combination are expensed as incurred.

Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective estimated useful lives on a straight-line basis, from the date that they are available for use.

The estimated useful lives of intangibles are as follows:

Block of assets	Useful life
Computer software	3 years
Third party contracts and Electronic medical records	5 years
Customer relationship	10 years

Amortisation method

The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Internally generated intangible assets

An internally generated intangible asset arising from development (or from the development phase of an internal project) is recognized if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial, and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognized for internally generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally generated intangible asset can be recognized, development expenditure is recognized in statement of profit and loss in the period in which it is incurred.

Subsequent to initial recognition, internally generated intangible assets are reported at cost less accumulated amortization and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

Amortization

The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

The estimated useful lives of intangibles are as follows:

Block of assets	Useful life
Computer software	10 years

Goodwill

Goodwill is measured as the excess of the sum of the consideration transferred, over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

In case of a bargain purchase, before recognizing a gain in respect thereof, the Group determines whether there exists clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. Thereafter, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognizes any additional assets or liabilities that are identified in that reassessment. The Group then reviews the procedures used to measure the amounts that Ind AS requires for the purposes of calculating the bargain purchase. If the gain remains after this reassessment and review, the Group recognizes it in other comprehensive income and accumulates the same in equity as capital reserve. This gain is attributed

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022

to the acquirer. If there does not exist clear evidence of the underlying reasons for classifying the business combination as a bargain purchase, the Group recognizes the gain, after reassessing and reviewing (as described above), directly in equity as capital reserve.

3.10. Government grants

Grants from the Government are recognized when there is reasonable assurance that:

- (i) the Group will comply with the conditions attached to them; and
- (ii) the grant will be received.

Government grants related to revenue are recognized on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate. Such grants are deducted in reporting the related expense.

Government grants related to assets, including non-monetary grants at fair value, shall be presented in the balance sheet by setting up the grant as deferred income.

The grant set up as deferred income is recognized in profit or loss on a systematic basis over the useful life of the asset.

3.11. Employee benefits

Short term employee benefits

Employee benefits payable wholly within twelve months of receiving services are classified as short-term employee benefits. These benefits include salary and wages, bonus, and ex-gratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognized as an expense as the related service is rendered by the employees.

Post-employment benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to separate entity and has no obligation to pay any further amounts. The Group makes specified obligations towards employee provident fund and employee state insurance to Government

administered provident fund scheme and ESI scheme which is a defined contribution plan. The Group's contributions are recognized as an expense in the consolidated statement of profit and loss during the period in which the employee renders the related service.

Defined benefit plans

The Group's gratuity benefit scheme is a defined benefit plan. The Group's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned and returned for services in the current and prior periods; that benefit is discounted to determine its present value. The calculation of Group's obligation under the plan is performed periodically by an independent qualified actuary using the projected unit credit method.

The gratuity scheme is managed by a third-party administrator. Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income (OCI). The Group determines the net interest expense (income) on the net defined liability (assets) for the period by applying the discount rate used to measure the net defined obligation at the beginning of the annual period to the then net defined benefit liability (asset), taking into account any changes as a result of contribution and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in the consolidated statement of profit and loss. The Company recognizes gains and losses in the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in the consolidated statement of profit and loss.

Compensated absences

The employees can carry-forward a portion of the unutilized accrued compensated absences and utilize it in future service periods or receive cash compensation on any leave accumulated in excess of forty five days or on termination of employment. Since the employee has unconditional right to avail the leave, the benefit is classified as a short-term employee benefit. The

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022

Group records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

Employee Stock Option Plan (ESOP)

The grant date fair value of equity settled share-based payment awards granted to employees is recognized as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognized as expense is based on the estimate of the number of awards for which the related service is expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that do meet the related service conditions at the vesting date.

3.12. Borrowing cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalized as part of the cost of that asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

3.13. Leases

The Company's lease asset classes primarily consist of leases for land & buildings and equipment. The Company, at the inception of a contract, assesses whether the contract is a lease or not lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a time in exchange for a consideration. This policy has been applied to contracts existing and entered into on or after April 1, 2019.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments

made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension, or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognizes the lease payments associated with these leases as an expense over the lease term.

3.14. Earnings per share

The basic earnings per share is computed by dividing the consolidated net profit attributable to equity shareholders for the period by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the net profit attributable to equity shareholders for the year relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share.

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022

3.15. Income tax

The Income-tax expense comprises current tax and deferred tax. It is recognized in profit and loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

Current income tax

Current tax comprises the expected tax payable or receivable on the taxable income for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted by the reporting dates.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the assets and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

Deferred tax liabilities are recognized for all taxable temporary differences.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and

assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis, or their tax assets and liabilities will be realized simultaneously.

Minimum Alternative tax

According to Section 115JAA of the Income tax Act, 1961, Minimum Alternative Tax (MAT) paid over and above the normal income tax in a subject year is eligible for carry forward for fifteen succeeding assessment years for set-off against normal income tax liability. The MAT credit asset is assessed against the entity's normal income tax during the specified period.

3.16. Foreign exchange transactions and translations

Transactions in foreign currency are translated into the respective functional currencies using the exchange rates prevailing at the dates of the respective transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at the reporting date of monetary assets and liabilities denominated in foreign currencies are recognized in the Consolidated Statement of Profit and loss and reported within foreign exchange gains/ (losses).

Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

For the purposes of presenting the consolidated financial statements, assets, and liabilities of Group's foreign operations with functional currency different from the Company are translated into Company's functional currency i.e., INR using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising if any are recognized in other comprehensive income and accumulated in equity.

On the disposal of foreign operation, all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to the Consolidated Statement of Profit and Loss.

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022

If the Group disposes off part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is reattributed to OCI. When the Group disposes off only part of an associate while retaining significant influence, the relevant proportion of the cumulative amount is reclassified to profit or loss.

3.17. Impairment

a. Impairment of financial instruments

The Group recognizes loss allowances for expected credit losses on:

- financial assets measured at amortized cost;

At each reporting date, the Group assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

The Group measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e., the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative, qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022

realistic prospect of recovery. This is generally the case when the Group determines that the trade receivables does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

b. Impairment of non-financial assets

The Group's non-financial assets, inventories, and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

The Group's corporate assets do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss.

3.18. Segment Reporting

Operating results are regularly reviewed by the Chief Operating Decision Maker ('CODM') who makes decisions about resources to be allocated to the segment and assess its performance. Segment results that are reported to the CODM include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

3.19. Non-current assets or disposal group held for sale

Non-current assets or disposal groups comprising assets and liabilities are classified as held for sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use.

Such assets or disposal groups are generally measured at the lower of their carrying amount and fair value less costs to sell. Losses on initial classification of assets held for sale and subsequent gain and losses on remeasurement are recognized in the consolidated statement of profit and loss.

Once classified as held-for-sale, intangible assets, property, plant and equipment and investment properties are no longer amortised or depreciated, and any equity-accounted investee is no longer equity accounted.

3.20. Provisions and contingencies

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

3.21. Share issue expenses

Share and debenture issue expenses are adjusted against the securities premium account as permissible under Section 52 of the Companies Act, 2013, to the extent any balance is available for utilisation in the securities premium account.

3.22. Dividend

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors. The Company declares and pays dividends in Indian rupees and are subject to applicable taxes.

3.23. Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

3.24 On March 24, 2021, the Ministry of Corporate Affairs (MCA) through a notification, amended Schedule III of the Companies Act, 2013, applicable for financial periods commencing from

April 1, 2021. Pursuant to such amendments below changes have been made in the consolidated financial statements

- (a) non-current security deposits of ₹ 262.98 million and current security deposits of ₹ 36.29 million as at March 31, 2021 have been reclassified from 'Loans' to 'Other financial assets'.
- (b) current maturities of long term borrowings of ₹ 924.56 million as at March 31, 2021 have been reclassified from 'other financial liabilities' to 'short term borrowings'.

3.25 Standards Issued but Not Effective

On March 23, 2022, the Ministry of Corporate Affairs (MCA) has notified Companies (Indian Accounting Standards) Amendment Rules, 2022. This notification has resulted into amendments in the following existing accounting standards which are applicable to Company from April 1, 2022.

- i. Ind AS 101 – First time adoption of Ind AS
- ii. Ind AS 103 – Business Combination
- iii. Ind AS 109 – Financial Instrument
- iv. Ind AS 16 – Property, Plant and Equipment
- v. Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets
- vi. Ind AS 41 – Agriculture

Application of above standards are not expected to have any significant impact on the group's financial statements.

The Group uses a provision matrix to determine the expected credit loss on the portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At each reporting period, the historically observed default rates are updated and changes in forward-looking estimates are analysed. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows.

30 Leases

The Group has adopted Ind AS 116 'Leases', effective annual reporting period beginning April 1, 2019. Ind AS 116 replaces Ind AS 17 – Leases and related interpretation and guidance. The Group has applied the standard to its leases, using the modified retrospective approach, with the cumulative effect of initially applying the Standard, recognized on the date of initial application (April 1, 2019). Comparative information has not been restated.

Accordingly, the Group recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Group's incremental borrowing rate at the date of initial application.

The following is a summary of practical expedients elected by the Group on initial application:

Applied a single discount rate to a portfolio of leases with reasonably similar characteristics in similar economic environment.

Treated leases with remaining lease term of less than 12 months as if they were "short term leases"

Applied the exemption not to recognize right-of-use assets and liabilities for leases of low value assets

Application of hindsight, in determining the lease term if the contract contains options to extend or terminate the lease

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

(₹ in million)

Particulars	March 31, 2022		March 31, 2021	
	Increase	Decrease	Increase	Decrease
Discount rate (0.5% movement)	(11.16)	0.66	(4.75)	5.29
Future salary increase (0.5% movement)	(0.67)	(9.83)	3.80	(3.67)
Attrition rate (0.5% movement)	(5.79)	(4.92)	0.27	(0.58)
Mortality rate (0.10% movement)	(5.39)	(5.32)	(0.28)	(0.01)

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

32 Segment information

Operating Segments

Ind AS 108 "Operating Segment" ("Ind AS 108") establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. Based on the "management approach" as defined in Ind AS 108, Operating segments are to be reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The CODM evaluates the Group's performance and allocates resources on overall basis. The Group's sole operating segment is therefore 'Medical and Healthcare Services'. Accordingly, there are no additional disclosures to be provided under Ind AS 108, other than those already provided in the financial statements.

Entity wide disclosures - Geographical information

Geographical information analyses the Group's revenue and non-current assets by the Group's country of domicile (i.e. India) and other countries. In presenting the geographical information, segment revenue has been based on the geographical location of the customers and segment assets which have been based on the geographical location of the assets.

38 Leasehold land includes 36 acres of land acquired by Narayana Hospitals Private Limited ("NHPL") in the year 2008 under perpetual lease from Government of Gujarat amounting to ₹ 1,652.38 million. The aforesaid land has been granted to NHPL by Government of Gujarat at a concessional rate under Gujarat Health Project for construction of heart hospital with certain conditions including but not limited to the following:

- 1,000 bed hospital for cardiac surgery should be built and be operational within 18 months from the date of completing legal formalities/ handing over with clear title and after obtaining all necessary permissions from all concerned departments. Self dependent 100 seat medical college under Medical Council of India ('MCI') Rules should be built and be operational within 36 months. Total project including 5,000 bed super-specialty hospital should be completed within 6 years;
- Self dependent medical college, to be established by NHPL, should be set up with total adherence to rules governed by MCI and Government of India;
- 5% surgery in the proposed health city should be done free. Only medicines and disposables should be charged;
- 20% cardiac surgeries should be performed at the subsidised rate of ₹ 0.07 million only, which includes every expense;
- Beneficiaries of the above said 5% and 20% surgeries will be referred by the Government of Gujarat;
- 15% out-patients should be given free consultation. Diagnostics fees will be charged at 50%;
- After achieving, 5,000 surgeries annually, 1,000 surgeries should be performed under concessional rate of ₹ 0.07 million and 250 surgeries should be performed free and
- Number of student intake and fees for the proposed medical college should be according to the prevailing government rules.

NHPL was unable to start the project on the specified date and received a show cause notice from the Government of Gujarat on December 22, 2010. Subsequent to the show cause notice, NHPL replied on January 19, 2011 assuring the Government of Gujarat that the entire project will be completed by June 2016.

As per the letter dated January 19, 2011, the timelines committed by NHPL are as follows:

Commissioning timelines	
a) 500 bed multispecialty hospital	June-2012
b) 1000 bed multispecialty hospital (expansion)	June-2012
c) 100 seat Medical College	June-2013
d) 5000 bed Health City	June-2016

The Company commenced operations in its Ahmedabad unit on May 3, 2012. As of March 31, 2022, the Group is yet to achieve the above timelines. The Group based on its past projects with government and other authorities believes that the terms/ conditions of grant of leasehold land at concessional rate would be renegotiated and no liability or adjustment to recorded assets is required as at March 31, 2022.

39 In the year 2008-09, NHPL was allotted 35 acres of land by Jaipur Development Authority ('JDA') for establishing a medical college at Bagrana Grama, Jaipur ("Bagraana"). Subsequently, NHPL has surrendered 25 acres of land to JDA and retained 10 acres of land. However, in the year 2013-14 JDA intimated NHPL that 6,000 sq. meters of land out of the 10 acres land retained will be utilised for the completion of ring road project. Subsequently, JDA gave another proposal of land allotment at Govind Pura Ropada, in lieu of 10 acres at Bagrana, NHPL gave its consent on the same through letter dated April 24, 2015.

Since this land is given in lieu of land allotted at Bagrana, NHPL has requested JDA that the land at Govind Pura Ropada to be valued the same as it was during the time of allotment of land in Bagrana in March 2008.

As at March 31, 2022, NHPL has paid ₹ 54.44 million (March 31, 2021 : ₹ 54.44 million) to JDA and accrued the balance payable of ₹ 53.39 million (31 March 2021 : ₹ 47.45 million). NHPL would capitalize this amount along with any other payment once NHPL gets the land registered in its name. As at March 31, 2022, NHPL has assessed the status of the advance paid and on grounds of prudence has recorded a provision for the above advance amounting to ₹ 54.44 million. The Company continues to engage with JDA for resolution of the above.

42 Healthcare Service Agreement with Dharamshila Cancer Foundation and Research Centre (DCFRC)

On March 31, 2017, the Company's wholly owned subsidiary Narayana Hrudayalaya Surgical Hospital Private Limited ('NHSPL') entered into Healthcare Services Agreement ("Agreement") with Dharamshila Cancer Foundation and Research Centre ("Society"). Accordingly, NHSPL has a control over the operations of Dharamshila Hospital and Research Centre ("Hospital") and provide healthcare services using the assets which are owned by the society. The arrangement of NHSPL with the Society attracts the application of business combination as per IndAS103. NHSPL commenced the provision of healthcare services at the Hospital on 1st April 2017 ("Commencement Date"). The term of the Agreement is 25 years, which the Parties may extend for a further period on such terms as may be mutually agreed. Neither Party shall have the right to terminate the Agreement before 10 years of the Commencement Date. The Hospital is renamed as "Dharamshila Narayana Superspeciality Hospital, A Unit of Dharamshila Cancer Foundation And Research Centre" as per the Agreement.

In terms of the Agreement, the Society is entitled to retain an annual revenue amount of ₹ 180 million per annum with an annual escalation of 5% during the term NHSPL is in control of the operations of the Hospital. The fair value, applying the Discounted Cash Flow approach based on discount rate of 15.23% is determined by discounting the estimated annual amounts of revenue which the Society is entitled to retain from the Commencement Date. The excess amount of such fair value over the fair value of net assets of the Hospital, which NHSPL uses in exercise control over the operations of the Hospital, has been attributed towards goodwill.

Measurement of fair values

The carrying value of all financial assets approximates the fair value.

B. Financial risk management

The Group's activities expose it to a variety of financial risks: credit risk, market risk and liquidity risk.

(i) Risk management framework

The Group's risk management is carried out by a central treasury department under policies approved by the Board of Directors. The Board supervises overall risk management, as well as policies covering specific areas, such as foreign exchange risk, credit risk and use of financial instruments.

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022 (Contd.)

48 Financial instruments: Fair value and risk managements (Contd.)

(ii) Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The credit risk arises principally from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and financial institutions and other financial instruments.

Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom credit has been granted after obtaining necessary approvals for credit. The collection from the trade receivables are monitored on a continuous basis by the receivables team.

The Group establishes an allowance for impairment that represents its estimate of expected losses in respect of trade and other receivables based on the past and the recent collection trend. The maximum exposure to credit risk as at reporting date is primarily from trade receivables amounting to ₹ 4,958.09 million (previous year: ₹ 3,287.52 million). The movement in allowance for impairment in respect of trade and other receivables during the year was as follows:

(₹ in million)

Allowance for credit loss	As at March 31, 2022	As at March 31, 2021
Opening balance	502.33	564.33
Foreign currency translation	(25.21)	(15.58)
Credit loss recognised /(reversed)	112.32	(46.42)
Closing balance	589.44	502.33

No single customer accounted for more than 10% of the revenue as of March 31, 2022, March 31, 2021. There is no significant concentration of credit risk.

Credit risk on cash and cash equivalents is limited as the Group generally transacts with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

(iii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. In addition, the Group maintains line of credit as stated in Note 16.

(iv) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, such as foreign exchange rates and interest rates.

Foreign currency risk

The Group operates internationally and a major portion of the business is transacted in several currencies and consequently, the Group is exposed to foreign exchange risk through operating and borrowing activities in foreign currency.

The currency profile of financial assets and financial liabilities as at March 31, 2022 and March 31, 2021 are as follows:

Cash flow and fair value interest rate risk

The Group's main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to cash flow interest rate risk.

Notes

to the Consolidated Financial Statements for the year ended 31st March 2022 (Contd.)

48 Financial instruments: Fair value and risk managements (Contd.)

(a) Interest rate risk exposure

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to optimize the Group's position with regard to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

Type of Derivative	No. of Contracts	As at March 31, 2022		As at March 31, 2021	
		Amount Hedged (in USD million)	Fair Value (D million)	Amount Hedged (in USD million)	Fair Value (₹ million)
Interest rate swap	3	47.95	(27.69)	47.95	(165.08)

The Group has entered into derivative financial instruments with a counter-party (bank) with investment grade credit ratings. Derivatives valued using valuation techniques with market observable inputs are mainly interest rate swaps. The most frequently applied valuation techniques include swap models using present value calculations. The models incorporate various inputs including the credit quality of counterparties, interest rate curves and forward rate curves of the underlying. As at March 31, 2022, the changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationships and other financial instruments recognized at fair value.

The exposure of the Group's borrowing to interest rate changes at the end of the reporting period with respect to long term borrowings with variable interest rates from banks are as follows:

Particulars	(₹ in million)	
	As at March 31, 2022	As at March 31, 2021
Variable rate long term borrowings including current maturities	2,886.83	2,979.57
Total borrowings	2,886.83	2,979.57

(b) Sensitivity

The Group's main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to cash flow interest rate risk.

Particulars	Impact on profit or loss	
	As at March 31, 2022	As at March 31, 2021
Sensitivity		
1% increase in interest rate	(28.87)	(29.80)
1% decrease in interest rate	28.87	29.80

The interest rate sensitivity is based on the closing balance of secured term loans from banks.
