III. Other Information

(1) Reasons of Loss or inadequate Profit

During the Financial Year 2016-2017, the profitability of the Rossell Tea Division of the Company has been adversely affected on account of a significant decline in average price realization per kg. of Tea, coupled with cost push attributable to crop loss due to severe pest attack in the Tea Estates of the Company at Assam. The adversity was further aggravated in view of significant losses in the Rossell Hospitality Division in its inception stage with lower increase in revenue than expected, which is prolonging the gestation period of the Division.

(2) Steps taken or proposed to be taken for improvement

The Company has taken necessary measures to combat the vagaries of nature and continues to work on quality upgradation of its production of Tea. The improvement in quality of the Company's Teas has been recognized in the trade and become a benchmark. Emphasis is given to sell the produce at quality conscious segment of the market for better realization and higher Exports. The Company proposes to continue its policy to produce and market "a quality product through a prudent cost management." Presently the Company owns 7 Tea Estates in the State of Assam and is on the constant lookout for more Tea Estates both in India and overseas. The Tea realization is expected to improve in the current financial year, owing to better domestic as well as overseas demand due to drought conditions in Kenya and Sri Lanka during recent months. This is likely to impact the global supply scenario, thus favourably supporting tea prices.

As regards Aviation Product and Services, the Company continues to focus on the Indian Defense Sector to address the increased potential for business. The Company has signed various MOUs with OEMs for offset work in this sector. A new

world class facility has been set up at Bangalore with enhanced capabilities to meet the needs for quality and timely production by Rossell Techsys Division. The Division has been catering to the requirements of certain International Companies, with hefty order book with long term contracts. This is likely to bring the Division to the break-even level soon and turnaround is expected from next Financial Year, with higher order executions.

Rossell Hospitality has appointed Ernst and Young (EY) to conduct a detailed study on the format including competition analysis and draw out a map for revenue enhancement starting June, 2017 across all outlets. The Division is on a cusp of delivering significant revenue enhancement in view of critical changes like increase in portion sizes, new Kebab Xpress look, introduction of new products, renewed Menu presentation, price revision of core products, bundling food items and customer loyalty programme. Thus, various internal strategic measures are being taken and possibilities are being explored to assess, analyze and minimize losses of the Division by adopting a profitable business model.

(3) Expected increase in Productivity and Profits in measurable terms

Although the present fundamentals in the market have a favorable impact on the general business sentiments and growth in the various business verticals of the Company in days ahead, the productivity and profitability in respect of any of the businesses cannot be quantified in measurable terms, due to uncertainties involved.

PERFORMANCE

Rossell Tea

The Directors' view with satisfaction the performance of Rossell Tea Division for the financial year 2016-17. Despite it being a difficult year in more ways than one, the Division continued to reinforce its USP of a quality product through the year. We continued to produce benchmark teas as we have done all these years.

The financial year 2016-17 began on the back of excellent winter rains in 2015 into early 2016. In April, at the start of the fiscal 2016-17, very wet and dull conditions were experienced, especially in upper Assam. This led to severe pest attacks and onset of fusarium, an airborne fungus, leading to crop losses and damage to large tea-bearing areas. This had a major impact on land productivity in terms of lower crops on Estates pushing up the cost of production.

The start of the season initially saw very large offerings of CTC teas carried over from the financial year 2015-16, due to a very high levels of production in March 2016. On arrival in the marketplace, CTC prices were pushed down to levels not seen for many years. The depressed prices continued through the season, especially for quality CTCs. Change in the buying pattern of major packeteers was also responsible for this. Ironically, the medium CTC continued to rule firm at their earlier levels.

Due to low CTC prices, producers moved to leverage this by increasing Orthodox capacities. The Orthodox came into a firm market except that levels for top quality whole leaf was lower. Medium Orthodox continued to rule firm.

Our Orthodox average for the period under review is ₹ 235.39 and the Assam district average of ₹ 212.80. For the CTC category also for the same reasons, our prices this year were ₹ 187.00 per kg, whilst overall Assam CTC average was ₹ 142.57. Close to 18% or more Orthodox was produced in Assam during 2016. In both categories, Orthodox and CTC, our averages were significantly higher than Assam averages.

On the export front, the challenges continued to be present. In Iran, LCs were taking longer than usual and payments were taking even longer. This caused producer-exporters to divert exportable teas to the auction system, which turned out to be beneficial. Your Company exported a total of 0.89 million kgs. We are optimistic that in the financial year 2017-18, we should be able to export 1.50 million kgs. or near thereto.

Our selling policies remained as before with our produce of quality CTC and Orthodox teas. With the market for CTC teas being weak, we maximized production of the Orthodox category and despite overall lower production in 2016-17, we produced 3.18 million kgs of Orthodox against 2.52 million kgs in the previous year.

Thus, prudent production mix allowed us to realize the best possible value for our teas. Our policy of prudent cost management, despite rising wages and burgeoning cost of production, helped us to realize the best possible margins under adverse conditions.

The Company continued with its programmed upgrades of its field assets and all programmes for uprooting and replanting were met in totality. The Company's capital expenditure programme was also completed on schedule. Rossell continued to focus on its programmes and investments in the area of workers' housing and hygiene. Irrigation is always a focus area and we are pleased to report that all Estates are now adequately equipped with Irrigation infrastructure. Modernization of factories remains our priorities as usual.

Aviation Products and Services

Aerotech Services Division continues to provide techno-logistic support under 4 different long term contracts. The work requirement continues to be the same of providing support services to the global Original Equipment Manufacturers (OEMs) for its equipment fitted on various Indian platforms. The support services are provided to IAF, Indian Navy, Indian Army and Hindustan Aeronautics Ltd. as and when they require. The Field Service Engineers (FSEs) strive to achieve the highest standards in knowledge and work execution.

In the Financial year 2016-2017, Rossell Techsys has grown by over 100% in its export business. It has also strengthened its' order book with a total potential of close to USD 100 Million to be executed over the next five to seven years. It has achieved significant credibility and reputation in the Aerospace business. It has the distinction of being nominated in three consecutive years, 2014, 2015 and 2016, as the 'Boeing Supplier of the year'. It won this award for the year 2015. Further, it is also the recipient of the "Boeing Performance Excellence Award" two years in a row, the Gold category in 2015 and Silver category in 2016. The Division was also the recipient of the "Excellence in Aerospace Indigenization Award" instituted by SIATI (Society for Indian Aerospace and Technologies Industries) for the projects executed for the Indian Air force, resulting in significant foreign exchange savings for the country. The Division continues to maintain very high customer ratings on quality and delivery and maintains AS: 9100, ISO: 9001, ISO: 27001 and BS: 18001 (OHSAS) certifications. It has also embarked on getting ISO 31000 compliance, another first to its credit. The Division operates out of two buildings in the same vicinity in the total area aggregating to 87,000 Sq. ft.

Rossell Hospitality

During the year under review, Kebab Xpress added three outlets, one each in Noida, South Delhi and North Delhi taking the total count to 13 outlets with revenues enhancement of 15% from ₹ 1,150.85 lakhs in the preceding financial year to ₹ 1,325.02 lakhs in the current financial year. Energies were engaged to consolidate the business across outlets and focused approach towards delivery is yielding encouraging trends.

PROSPECTS

Rossell Tea

Major producers, Sri Lanka and Kenya have had a very poor start to their 2017 season. Till March, Sri Lanka was 3.90 million kgs behind the previous year. Kenya too has built up a deficit of 49.50 million kgs over 2016. The Indian tea belt in Assam, where all our Estates are located has had a steady start to the season, where crops have been stable and prices too are superior to 2016 so far. Overall fundamentals are strong.

As it appears, prices tend to settle down after the first flush in May, going into the second flush. As far as the market is concerned as of now, we expect prices to be stable. There is one discerning factor, last year for the first time, top quality teas CTC and Orthodox actually showed a decline in their value in the market place, while medium teas appreciated within their price bands. This year we expect a reversal of this trend with prices for quality teas being higher.

Exports have always been a critical area of performance and we have a fair idea of quality and quantity trends in the sophisticated continental markets. In Iran, a more robust trading platform for Indo-Iranian trade needs to be set in place. The threat of US sanction against Iran continues to be a dampener. However, with a new government in place in Iran, we expect a smoother year of trade.

Finally, we have indications from arrivals at the auction centers, that Orthodox production out of Assam is likely to be significantly higher than last year, indicating year on year increase in this category for 3 years in succession. Thus, there are all the more reasons that tea trade between India and Iran has to be smooth.

Aviation Products and Services

Aerotech Services Division expect a new long term contract to be finalized in the next few months. The Division has achieved all the laid down milestones. Foreign OEMs continue to appreciate the work done by FSEs in completing complex tasks to the satisfaction of the customer.

Rossell Techsys Division expect to witness significant increase in revenue in the financial year 2017-18 through financial years 2021-22 not only on account of various strategic agreements signed with its existing customers and also increased traction with new customers in the domain. The Division has also won its first contract in the build to print of electrical panel assemblies that is expected to fuel in-house competency growth in small sheet metal and precision machining.

Rossell Hospitality

The Division has appointed Ernst and Young (EY) to conduct a detailed study on the format including competition analysis and draw out a map for revenue enhancement starting June, 2017 across all outlets. They shall also be looking at critical cost parameters and processes.

All the outlets are on a cusp of delivering significant revenue enhancement in view of critical changes like increase in portion sizes, new Kebab Xpress look, introduction of new products, renewed Menu presentation, price revision of core products, bundling food items and customer loyalty programme.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

a. INDUSTRY STRUCTURE AND DEVELOPMENTS

Rossell Tea

International crops for 2016 were 2,124.90 million kgs Black Tea against 1,905.20 million kgs in 2015.

North Indian crops totaled 1,026.94 million kgs against 981.06 million kgs, whilst South India's contribution was 212.21 million kgs against the previous year's crop of 227.57 million kgs. Overall India's production in 2016 was 1,239.15 million kgs as against 1,208.63 million kgs in 2015, (+) 30.52 million kgs.

Weather once again played a major role in Indian cropping pattern. Whilst the year started with a bumper crop in March due to winter rains, it soon gave way to inclement weather leading to pest attacks and some fungal diseases due to heavy rains and dull cold condition. Upper Assam stood most affected with erratic cropping, whilst the North Bank and Central Assam overall had normal crops through the year.

The CTC market on the back of a very large harvest in March and early-April was extremely sluggish leading to weak price levels till the onset of the Second Flush. However, Second Flush pricing was satisfactory, thereafter, as soon as the rains teas came into the market, CTC prices were again weaker for the high quality teas, which was unusual. In the Financial Year 2017-2018, we expect prices to be stable.

In the coming year, enhanced exports at higher price levels along with a quality product will be our goal. It is a matter of reality that for this to happen, India will need to have re-established a robust trading platform with Iran. The weaker western currencies were a dampener to our export earnings despite higher value earnings. Out of 0.89 million kgs exported in 2016, we exported 0.42 million kgs to western markets and 0.47 million kgs to Iran.

Anticipating weaker CTC prices through the year, given the flexibility within our in house capacities, we moved to a product-mix, which saw a higher production of Orthodox by 0.66 million kgs over the previous year of 2.52 million kgs. This was a positive move paying us dividends.

Aviation Products and Services

Aerotech Services has established itself as a reliable partner to global Original Equipment Manufacturers (OEMs) for providing quality and timely technical product support. The Division is being assigned additional responsibilities by OEMs.

Rossell Techsys has grown significantly in its Wire Harnesses Engineering and Manufacturing Competency. There is now adjacent growth in to electrical panels too. The number of customers in wire harness has grown to 3. It is expected that at least two more customers shall be added in the Financial Year 2017-2018. Efforts are being made to grow the competencies of embedded systems and test solutions in the export arena. The Division has bought 4 acres of land in Bangalore at the Aerospace Park. It will start construction thereon in July 2017 and the target is to move into that building in 2018. There are plans to build approx 1,50,000 sq. ft. to start with and can go up to 4,50,000 sq. ft. to meet the growth and the orders enhancement it has achieved.

Rossell Hospitality

Favourable demographics and growing working population should augment demand for food service chains. With the advent of eating out culture, attraction to media and people traveling abroad, the QSR category looks attractive. Though the recent economic headwinds were deterrent to the QSR segment, long term perspective looks promising. The market size of the food service sector is estimated to be \$ 9.6 billion by 2018. It is growing at 5-6% per annum.

Rossell Hospitality Division has no plans to add new outlets in the Financial Year 2017-2018. All efforts are focused on making the unit economics work and consolidate business parameters to arrive at sustenance. The opportunities for an Indian food brand serving Indian food are enormous and KEBAB XPRESS plans to play a significant role in this space.

b. OPPORTUNITIES AND THREATS

Rossell Tea

i) Production

As we review any forthcoming year, an opportunity and threat scenario of the world crop and more importantly of the Indian crop has to be reviewed. The former to evaluate export opportunities and the latter for a domestic selling plan. This is a major indication of what is likely to happen as we go through a production year.

Sri Lanka and Kenya have had a very poor start to their 2017 season, especially Kenya, which has built up a deficit of 49.50 million kgs over 2016. The Sri Lankan crops are (-) 3.90 million kgs by April 2017. Subsequently, weather has not been conducive and flooding has occurred in tea areas recently. Should these indicators persist then Indian CTC and Orthodox teas should have a strong market for export.

ii) Climate Change

In recent times, this phenomenon has become an important factor for all agricultural produce including tea. Weather has in a manner become rather erratic, especially in the face of rising temperatures and unpredictable rainfall episodes. Pest attacks are more due to deforestation, resulting in some crop losses. Whole of agricultural activity in India is involved, not just tea. We at Rossell practice sustainable agriculture, which minimizes the impact of such erratic conditions. Further, we also practice adaptive strategies to minimize the negative impact, one of these is a strong irrigation support.

iii) Consumption

Consumption of the Indian subcontinent is increasing by 3% annually, while in China there is a similar trend in green tea consumption. In India we largely expect a stable market and over the medium term the market could be demand led. Further, distinct market segmentation into best, good, medium and plain teas, is here to stay. The consumer is willing to pay for quality and hence we see this as a great opportunity.

iv) Quality

Your Company's stated policy and practice is to produce the best possible quality teas, CTC and Orthodox. In this area our record is very good and consistent. With this has come continuing international recognition for Rossell and continuous enhancement of brand equity for the Company.

v) Markets

Internationally the Middle East, an important market, continues to be in a state of flux politically. Nonetheless, there is good support from Iran and other markets for our teas.

Aviation Products and Services

With Services having been recognized by the Ministry of Defense, Government of India as eligible avenue for offset discharge, Foreign Companies look for availing more and more services from eligible Indian Companies for offset.

Rossell Techsys sees opportunities in business enhancements in the adjacent competencies to wire harnesses, i.e. engineering and manufacture of electrical panel assemblies. The situation is ripe for either commencing altogether a new infrastructure setup for small sheet metal and precision machining for mechanical parts or acquiring a Company already in the business.

With the Government of India diluting the requirements of FDI investments in Aerospace and Defense, it is foreseen that more foreign Companies may consider forming partnerships and joint ventures in India, especially between global wire harness manufacturing Companies, who are incumbent Tier I Companies for global players like Boeing and Indian Companies in the Aerospace and Defense segment, in particular.

Rossell Hospitality

Growing disposable income, increasing urbanization, growth of tourism industry, India gaining attention of international players, improving retail infrastructure and domestic consumption potential are all contributing to the good opportunity in this segment.

The major challenges faced by the organized segment mainly are food regulations and licenses (the Indian food and processing industry is governed by multiple legislations and dealing with them is a challenge), highly fragmented and competitive industry and high real estate prices.

Any downturn in the economy hurting consumer's sentiments directly affects sales. With a base kitchen support, the Division is able to bring consistency across all food categories.

Risks and rewards will continue to exist and will be an integral part of the playing field.

c. SEGMENT-WISE BUSINESS PERFORMANCE

Rossell Tea

Exports having touched 1.48 million kgs during 2015-2016 were affected owing to many reasons beyond our control. Keeping the larger interest of the Company in consideration, it was considered appropriate to not to take unnecessary risk by carrying forward old stock to the new season i.e. 2017-2018. This has resulted in our exports being 0.89 million kgs only during the financial year 2016-2017. No doubt it was lower than previous year, but indeed it was very difficult to achieve even this figure under the prevailing circumstances. Rossell has overall done better than its peers in these challenging conditions.

This clearly indicates that even in a very depressed market conditions, Rossell Tea could withstand the pressure and continues to be ahead of most Assam producers in terms of price realization. During the year, while the domestic price realization per kg. was ₹ 198.32, it was ₹ 293.35 for export.

Aviation Products and Services

The overall performance of this business segment has been very encouraging, with Aerotech Division revenue at ₹ 1,017.37 lakhs during the financial year 2016-2017.

The sales performance of Rossell Techsys Division exceeded targets specified at the start of the financial year 2016-2017. During the year, total sales were ₹ 2,797.09 lakhs, including export sales of ₹ 2,779.08 lakhs, as against total sales of ₹ 1,313.07 lakhs in the financial year 2015-2016, including export sales of ₹ 1,256.51 lakhs.

The revenue increase has been due to rise in shipments over multiple platforms to the Rossell Techsys's premier customer Boeing.

Rossell Hospitality

Rossell Hospitality Division ended the Financial Year 2016-2017 with a total of 13 operating outlets across Delhi NCR and is focusing to consolidate the business. The revenues have increased from ₹ 1,150 .85 lakhs in the previous year 2015-2016 to ₹ 1,325.02 lakhs in the current year 2016-2017.

d. OUTLOOK

Rossell Tea

Season 2017 started on the back of useful rains in February and March, 2017. Production in March and April indicated this to be a good start. However, weather in April was extremely wet with low temperature. May is facing some adverse weather conditions in pockets. We hope the pest attacks and fungal diseases seen last year, resulting in crop losses, would not occur at least up to the same extent. Nevertheless, outlook seems to be encouraging both in the field and production front. Thus, overall fundamentals are strong.

The market has started satisfactorily, particularly for best quality CTC on the back of shortage of quality teas in the domestic market. Certain grades which can replace Sri Lankan teas are also selling much higher than corresponding period last year. The lower Kenyan crops and Sri Lankan crops open up opportunities for Indian export. We hope the market will be buoyant through to August. Thereafter, the trade arrangement between India and Iran would play a pivotal role in deciding the trend.

Aviation Products and Services

Aerotech Services Division is confident of securing more contracts from the existing as well as new OEMs. The Division will continue to provide timely support to the satisfaction of both the OEMs and the end-customers.

In the year 2017- 2018 the Rossell Techsys should see added business contracts in the coming months/quarters. The Division has submitted number of proposals to various customers, results of which are expected in the third and fourth quarters of the year.

Rossell Hospitality

Given strong fundamentals of the Indian economy, Rossell Hospitality Division expect a good growth later in the year.

The Division has appointed Ernst and Young (EY) to draw out a map for revenue enhancement including competition analysis starting March, 2017 and also to look at critical cost parameters and processes. Rossell Hospitality's strategy is now to consolidate the business parameters on existing outlets and work on each unit economics to carve the way ahead with significant upside to the revenues in view of detailed study inputs from EY.

RISKS AND CONCERNS

Rossell Tea

Weather historically has played an important role in the success or failure of any agro-horticultural pursuits including plantations. Tea is a perennial crop and hence with climate change, repeated erratic rainfall and weather conditions, the bushes are weakened, like any living organism, taking over a season to recover.

What can be in our control is "good agricultural practices" bolstered with a mitigative and adaptive strategy to deal with climate change. Augmenting irrigation assets and their effective use is of paramount importance and we have invested substantially to ensure this. Planting of trees, excavating water bodies and microclimatic control are other palliative steps. Reducing carbon footprint through effective energy use is another way.

Tea is a labour intensive industry employing 1.25 million workers and providing for over 2.00 million dependents. The wage structure as it has evolved over the year provides for wage as also a social responsibility on the employer to provide housing with attendant bathing and toilet facilities, education at primary level, medical and maternity care, subsidizing rations at immense cost to the workers among other responsibilities. Currently, the cost structure is under stress except in 'good years'.

There is a need to produce good quality teas, which we have achieved to a great extent. We have practiced sustainable agriculture and our uprooting and replanting programme is the sustainable 'spine' on which the future of the Company, will happily depend. This is a long-term prudent policy to invest in replanting old and declining teas.

Aviation Products and Services

Aerotech Services Division is subject to Penalty Clause in the contract for delay in providing service. The engineers of the Division have been active and ensured that there was no delay any time in providing the required technical support. The risk of variation in foreign exchange is the real one and unless properly guarded, it can affect the overall earning.

In Rossell Techsys Division, most of the contracts / strategic agreements are long term in nature. Hence these are susceptible to major variations in foreign exchange especially when the rupee gains. The Division has firmed fixed price commitments pegged at a single forex rate during the term of contract. These contracts are usually between 5 and 7 years. Therefore, it is difficult to formulate an effective hedging strategy.

Rossell Hospitality

The business of Rossell Hospitality Division is directly proportionate to the happiness/success quotient of the economic sentiments. Inherently there are ups and downs in the market place. Attrition of entry level employees, developing right talent and maintaining set standards are certain main concerns for the industry.

f. **INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY**

FINANCIAL AND OPERATIONAL PERFORMANCE g.

Along with the continual emphasis on quality upgradation of products and services, prudent cost management has been the stated objective of all the Divisions of the Company.

The operating profit before depreciation in respect of Rossell Tea Division for the year was ₹ 442.97 lakhs, as againgst ₹ 2,005.00 lakhs in the previous year.

The Aviation Products and Services business segment of the Company made a profit of ₹ 486.99 lakhs before depreciation against ₹ 701.50 lakhs in the previous year.

Rossell Hospitality Division posted a loss before depreciation of ₹ 1,036.80 lakhs as against ₹ 930.98 lakhs in the previous

With unallocated income at Corporate level amounting to ₹ 246.96 lakhs, the overall profit before depreciation of the Company is ₹ 140.12 lakhs as against ₹ 2,158.63 lakhs in the previous year. We have audited the internal financial controls over financial reporting of Rossell India Limited ("the Company") as of 31st March, 2017 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls system over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Annexure B to the Independent Auditors Report

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

We have audited the accompanying Consolidated Financial Statements of Rossell India Limited (the "Company"), its Subsidiary, CAE Rossell India Limited and Joint Venture, R. V. Enterprizes Pte. Ltd., Singapore (collectively referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31st March, 2017, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended and a summary of the significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

Management is responsible for the preparation of these Consolidated Financial Statements in terms of the requirements of the Companies Act, 2013 (the "Act") that give a true and fair view of the Consolidated Financial position, Consolidated Financial performance and Consolidated Cash Flow of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The Management of the Company, its Subsidiary and its Joint Venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the respective assets of the Company and its Subsidiary and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of these consolidated financial statements by the Management.

AUDITORS' RESPONSIBILITY

- 3. Our responsibility is to express an opinion on these Consolidated Financial Statements based on our audit.
 - While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
 - We conducted our examination in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the examination to obtain reasonable assurance about whether the Consolidated Financial Statements are free from material misstatement.
- 4. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated Financial Statements. The procedures selected depend on the Auditor's judgment, including the assessment of the risks of the material misstatement of the Consolidated Financial Statements, whether due to fraud or error. In making those risk assessments, we considered the internal financial control relevant to the Group's preparation and presentation of the Consolidated Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial control system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the management, as well as evaluating the overall presentation of the Consolidated Financial Statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditor referred to in the Other Matter below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

BASIS OF QUALIFICATION

The auditors of the Joint Venture reported that "Management has evaluated the impairment assessment of loans to subsidiary of Joint Venture with a carrying value of ₹ 2,287.43 lakhs (Group Share of Joint Venture – 26%) as at 31st March, 2017 taking into account the business plan and cash flow projections of the said subsidiary. We have taken note of management's position but because we have not been able to verify independently management's evaluation of the impairment assessment, consequently we were unable to determine whether any adjustments to the carrying value of the loans to subsidiary of Joint Venture as at year end would be necessary".

Annexure – A to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Rossell India Limited ("the Company"), its Subsidiary, CAE Rossell India Limited and Joint Venture, R. V. Enterprizes Pte. Ltd., Singapore (collectively referred to as "the Group") in conjunction with our audit of the Consolidated Financial Statements of the Company for the year ended 31st March, 2017.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Management of Holding and its Subsidiary Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls system over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the

financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Group has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

OTHER MATTERS

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to the Subsidiary Company and Joint Venture, is based on the corresponding reports of the auditors of such companies. Our opinion is not qualified in respect of this matter.
