The Act is now largely in force. On September 12, 2013, the Ministry of Corporate Affairs ("MCA") had notified 98 Sections for implementation. Subsequently, on March 26, 2014, MCA notified most of the remaining Sections (barring those provisions which require sanction / confirmation of the National Company Law Tribunal ("Tribunal") such as variation of rights of holders of different classes of shares (Section 48), reduction of share capital (Section 66), compromises, arrangements and amalgamations (Chapter XV), prevention of oppression and mismanagement (Chapter XVI), revival and rehabilitation of sick companies (Chapter XIX), winding up (Chapter XX) and certain other provisions including, inter alia, relating to Investor Education and Protection Fund (Section 125) and valuation by registered valuers (Section 247). MANAGEMENT DISCUSSION AND ANALYSIS

Pursuant to clause 49 of the Listing Agreement, the Management Discussion and Analysis Report is given below:

Industry Structure, Development & Outlook

For the last few years the Indian tourism sector has been one of the largest service industries in the country in terms of its contribution to the Gross Domestic Product (GDP) and Foreign Exchange Earnings, as well as for providing employment to millions. Despite negative signals from global economy, the number of foreign tourist arrival in the country in 2013 showed an increase of about 4.1% over 2012 and hospitality sector have become the most vibrant tertiary's and has a strong hold on the economy. The Ministry of Tourism in consultation with State Government/ UT administration had proposed to set up Tourist Police at prominent tourist spots. Clean India Campaign has been initiated by the Ministry of Tourism with the objective to increase tourist arrivals to the country and to improve quality of services and provide a hygienic environment in and around tourist destinations across the country. The World Travel and Tourism Council (WTTC) named India as one of the fastest growing tourism industries for the next 10 to 15 years.

Tourism in India is witnessing widespread growth on the back of increasing inbound tourism by the burgeoning Indian middle class, rising inflow of foreign tourists and successful government campaigns for promoting 'Incredible India'. Infrastructure development holds the key to India's sustained growth in the Tourism sector. India Tourism launched two new campaigns: an International Campaign called 'Find What You Seek' and a Domestic Campaign called 'Go Beyond' and there has been a growth of 1.70% in the January-March 2014 period in the number of tourists availing of "Visa on Arrival" scheme as compared to the same period in 2013.

Hotels are an important component of the tourism sector. They contribute in the overall tourism experience through the standards of facilities and services offered by them. The constant transformation has made the Indian hotel industry more functional and practical and has gained a level of acceptance world over. The standards of facilities and services offered have evolved over the last decade towards the extensive use of technology, environment friendly services, pricing, market segmentation, regional preferences, etc. The Indian hotel industry has seen a significant growth in room inventory across categories from upscale luxury to limited services and boutique & budget hotels. The occupancy has seen continued gains both from the domestic and the international traveler in both the business and leisure segment. However, because of increase in inventory as well as current economic position, there is pressure on room rates. With the continued growth in India's GDP, improvement in the per capita income and increased aspirational spending, the Indian hospitality sector is expected to grow much faster than most countries around the world.

This is the first time when Hon'ble Finance Minister has focused on Tourism as one of the government priorities and also announced the E-Visa for most of the countries and all these steps together with long awaited introduction of GST are likely to give boost to Hotel Industry.

Opportunities, Threats, Risks and Concerns

Hotels form one of the most important support service that affect the arrival of tourist to a country. The strengths of the industry includes that India is one big package of culture and legend that never fails to captivate the imagination of the visitor. It provides vast natural and cultural diversity, the manpower costs in the Indian hotel industry is reasonable in the world. The peak season in the country is from September to March. Over the long term, the hotel industry has growth potential. When it comes to diverse topography, India is one of the best destination.

Tourists also have second thoughts about visiting India because of the political turbulence and negative publicity here. Growth in hotel supply in recent times has outstripped demand in a number of Indian cities. escalating land prices, increasing energy costs, depleting water levels and a scarcity of trained manpower are challenges that will need to be addressed and overcome. With increasing affluence in India, the composition of the market is undergoing a change. Domestic travel and tourism is experiencing rapid growth as is domestic corporate travel. These segments will require due attention whilst we continue to focus on traditional markets. Source markets are changing with demand from the SAARC nations, China, Japan and the Middle east growing steadily. The tourism Ministry will need to orient itself to this development.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

NOTE : 1

SIGNIFICANT ACCOUNTING POLICIES:

a. Basis of Accounting

The financial statements have been prepared to comply in all material respects with the Accounting Standards notified by Companies (Accounting Standards) Rules, 2006, (as amended) read with General Circular No. 15/2013 dated 13th September, 2013 and General Circular No. 8/2014 dated 4th April 2014 issued by Ministry of Corporate Affairs and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared under the historical cost convention on accrual basis. The accounting policies have been consistently applied by the Company.

b. Use of Estimates

The preparation of financial statements is in conformity with Generally Accepted Accounting Principles requiring management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from the estimates.

c. Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

- i. Revenue from rendering of hospitality services is recognized when the related services are performed.
- ii. Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.
- iii. Dividend income from investments is recognized when the Company's right to receive payment is established.
- iv. Income from hiring of vehicles is recognized on accrual basis on the basis of agreed rate.

d. Income in Foreign Exchange

The bills for services rendered are raised in Indian Rupees. The payment received in foreign currency against these bills is credited and accounted for at the rate / rates prevalent on the date of receipt of payment. The gains / losses arising out of fluctuation in the exchange rates are accounted for on realization from bank.

h. Foreign Exchange Transactions

Transactions in foreign currency are recorded at the exchange rates prevailing at the time of the transaction, while those remaining unsettled at the year-end are translated at the year-end rates resulting in exchange differences being recognized as income /expenses (net).

Foreign Currency balances at the year-end are converted at the year-end rate of exchange except those covered by forward cover contracts in respect of foreign currency loans, which are converted at the contracted forward rates.

i. Employee Benefits

- i. Provision for gratuity and leave encashment are based on actuarial valuation as on the date of the Balance Sheet. The valuation is done by approved actuary using projected unit credit method.

It is a defined contribution scheme and the contribution is charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due. There are no obligations other than the contributions payable to the respective fund.

j. Taxation

- i. Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act. Deferred income taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal/adjustment of timing differences of earlier years.
- ii. Deferred Tax is provided during the year, using the liability method on all temporary differences at the Balance Sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes in accordance with mandatory Accounting Standard (AS-22).
- iii. Deferred Tax asset is recognized only to the extent that there is a reasonable certainty that sufficient taxable profit will be available against which such deferred tax asset can be realized.
- iv. Deferred Tax asset and liability are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the Balance Sheet date.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

k. Fixed Assets and Depreciation

i. Fixed Assets

Fixed assets are stated at cost of acquisition or construction or at revalued amounts, net of impairment loss if any, less depreciation/ amortization. Cost represents the direct expenses incurred on acquisition /construction of the assets and the relative share of indirect expenses relating to construction allocated in proportion to the direct costs involved.

ii. Depreciation

- a. Depreciation as per straight line method is charged in the accounts.
- b. The charge is on the basis of rates as prescribed under Schedule XIV to the Companies Act, 1956 pro rata from the month of purchase. If the asset is purchased on or before the 15th of month, depreciation is charged from the month of purchase, otherwise depreciation is charged from the month following the month of purchase.

l. Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments or short-term investments. All other investments are classified as long-term investments. Current investments are valued at the lower of cost and fair value. Changes in the carrying amount of current investments are recognized in the Statement of Profit and Loss. Long-term investments are valued at cost, less any provision for diminution, other than temporary, in the value of such investments; decline, if any, is charged to the Statement of Profit and Loss. Cost comprises cost of acquisition and related expenses such as brokerage and stamp duties.

m. Inventory

- i. Inventory is valued at cost or net realizable value, whichever is lower.
- ii. Operating equipment in circulation is valued at weighted average cost less estimated diminution in value on account of usage.
- iii. Shares held as Stock- in -trade are valued at cost or market value whichever is lower.
- iv. Net realizable value is estimated selling/ realizable value in the normal course of business less cost of completing the sale.

Cost is determined on weighted average basis.

n. Leases

When the Company is the lessee

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

When the Company is the lessor

Assets subject to operating leases are included in fixed assets. Lease income is recognized in the Statement of Profit and Loss on a straight-line basis over the lease term. Costs including depreciation are recognized as an expense in the Statement of Profit and Loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the Statement of Profit and Loss.

o. Impairment

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, each asset/ group of assets is identified for which there are separately identifiable cash flows (cash generating units).

p. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

q. Cash and cash equivalents

Cash and cash equivalents comprise cash at bank, cash/ cheques in hand and fixed deposits with banks with maturity period of three months or less.

r. Dividend

Dividend proposed on equity shares, if any, is accounted for pending approval at the AGM.

s. Provisions and contingent liabilities

Provisions are recognized for present obligations of uncertain timing or amount arising as a result of a past event where a reliable estimate can be made and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events, are also disclosed as contingent liabilities unless the probability of outflow of resources embodying economic benefit is remote.

37. The Company has classified the various benefits provided to employees as under:-

1. Defined contribution plans
 - a. Provident fund
2. Defined benefits plans
 - a. Contribution to Gratuity fund
 - b. Compensated absences – Earned leave

In accordance with Accounting Standard 15, actuarial valuation was done in respect of the aforesaid defined plans based on the following assumptions: -

Economic Assumptions

The discount rate and salary increases assumed are key financial assumptions and are considered together; it is the difference or 'gap' between these rates which is more important than the individual rates in isolation.

Discount Rate

The discounting rate is based on the gross redemption yield on medium to long-term risk free investments. For the current valuation a discount rate of 8 % p.a. compound, has been used.

Salary Escalation Rate

The salary escalation rate usually consists of at least three components, viz. Regular increments, price inflation and promotional increases. In addition to this any commitments by the management regarding future salary increases and the Company's philosophy towards employee remuneration are also taken into account. Again a long- term view as to the trend in salary increase rates is taken rather than be guided by the escalation rates experienced in the immediate past, if they have been influenced by unusual factors.

INDEPENDENT AUDITORS' REPORT ON CONSOLIDATED FINANCIAL STATEMENTS OF ASIAN HOTELS (WEST) LIMITED AND ITS SUBSIDIARY

To the Board of Directors of Asian Hotels (West) Limited

Report on the Financial Statements

We have audited the accompanying Consolidated Financial Statements of **Asian Hotels (West) Limited** ('the Company'), and its subsidiaries ('the Group') which comprise the Consolidated Balance Sheet as at March 31, 2014, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended, and Notes to Financial Statements comprising of summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal controls relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the Company's preparation and presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- i. In case of Consolidated Balance Sheet, of the Consolidated state of affairs of the Group as at March 31, 2014;
- ii. In case of Consolidated Statement of Profit and Loss, of the loss of the Group for the year ended on that date; and
- iii. In case of Consolidated Cash Flow Statement, of the cash flows of the Group for the year ended on that date.

(-) 37.02 lacs (Previous Year Rs. (-) 182.03 lacs) for the year then ended. Financial statements of one subsidiary have been audited by other auditors whose reports have been furnished to us, and our opinion, in so far as it relates to the amounts included in respect of that subsidiaries, is based solely on the report of the other auditors.

However, financial statements of other subsidiary which reflects total revenues of Rs. 153.47 lacs (Previous Year 589.28 lacs) for the year ended March 31, 2014, have been drawn up from the management certified financial statements and have not been audited by their auditors.

36. The Company has classified the various benefits provided to employees as under:-

1. Defined contribution plans

a. Provident fund

2. Defined benefits plans

a. Contribution to Gratuity fund

b. Compensated absences – Earned leave

In accordance with Accounting Standard 15, actuarial valuation was done in respect of the aforesaid defined plans based on the following assumptions: -

Economic Assumptions

The discount rate and salary increases assumed are key financial assumptions and are considered together; it is the difference or 'gap' between these rates which is more important than the individual rates in isolation.

Discount Rate

The discounting rate is based on the gross redemption yield on medium to long-term risk free investments. For the current valuation a discount rate of 8 % p.a. compound, has been used.

Salary Escalation Rate

The salary escalation rate usually consists of at least three components, viz. Regular increments, price inflation and promotional increases. In addition to this any commitments by the Management regarding future salary increases and the Company's philosophy towards employee remuneration are also taken into account. Again a long- term view as to the trend in salary increase rates is taken rather than be guided by the escalation rates experienced in the immediate past, if they have been influenced by unusual factors.
