Industry Legacy

Zero Debt

Disciplined Balance Sheet

50% Share

Of India's National Grid

20+ Years

Consistent Profitability

The New Techno Electric

Digital Infrastructure Platform

Moving beyond pure-play EPC to bridge the gap between traditional power infrastructure and the new digital economy.

A fundamental change in DNA.

Data Centers

Leveraging power expertise to build high-value digital assets.

Smart Metering

Driving grid digitalization and efficiency with advanced tech.

Annuity Cash Flows

Owning & operating assets for long-term recurring revenue.

EXECUTIVE SUMMARY

Q4 Performance

- Continuing our trajectory of delivering all time high revenues for the company
- Significant order opportunities in the pipeline

Data Center Acceleration

- Mumbai EDC gone live
- Noida DC – Phase 0 Live by May 26.
- Gurgaon EDC fully occupied
- Plan to commence Phase II for Chennai DC

Operational Excellence

Healthy execution across EPC, Data Centers, and Smart Metering; robust order pipeline supported by TBCB bidding.

Strategic Positioning

Margins supported by disciplined cost control; strong tailwinds in transmission and AI-ready digital infrastructure.

KEY UPDATES FOR THE Q4FY26

Data Center Segment

- ✓ **Mumbai Data Center (EDC)**
Successfully Gone Live for a capacity of 0.5 MW.
-  **Chennai Data Center**
Receiving strong interest from global and domestic cloud operators, planning to commence capex on Phase II
-  **Cloud Services Launched**
Operations commenced, starting with the Gurgaon EDC facility.
-  **Upcoming Operations**
Noida Phase 0 (500 KW) scheduled for **31st May 2026**.
-  **Strong Market Response**
Chennai Data Center seeing high demand; active discussions with large-scale global enterprises.
-  **Expansion Pipeline**
Identified 3-4 additional locations for future Edge Data Centers.

Smart Meter Business

Transmission

- ✓ We are among the early movers in the **digital substation segment**, reinforced by our recent order for **four 132kV digital substations**
- ✓ **L1 status** in two major order opportunities with a combined value of approximately **INR 800 Cr.**

RESULT SUMMARY – Q4 & 12M FY 26

Consolidated Income Statement Overview

Consolidated

Particular (In INR Mn)	Q4 FY25	Q4 FY26	FY25	FY26
Revenue From Operations	8,158	10,100	22,687	32,516
Less: Operating Expense	6,891	8,779	19,294	27,898
EBITDA	1,267	1,321	3,393	4,618
<i>EBITDA %</i>	<i>15.53%</i>	<i>13.08%</i>	<i>14.95%</i>	<i>14.20%</i>
Add: Other Income	531	320	1,600	1,495
Less: Depreciation	18	31	81	170
Less: Finance Cost	36	57	105	193
PBT	1,744	1,554	4,806	5,751
Less: Tax	397	408	1,025	1,265
PAT - Continued Operations	1,346	1,145	3,781	4,487
<i>PAT Margin %</i>	<i>15.50%</i>	<i>10.99%</i>	<i>15.57%</i>	<i>13.19%</i>

- ▶ Geopolitical tensions in the GCC region led to supply chain disruptions and increased logistics and procurement costs
- ▶ Higher energy and execution-related expenses during the quarter exerted temporary pressure on EBITDA margins.

ABOUT US

Company Overview

Debt Free Company
Zero debt on books

AA Long Term
Stable credit rating

BSE,NSE Listed
Has a market cap of US \$1.75 Billion as on 31st Dec 2025

200 MWh
Renewable projects commissioned

45+ Years
Rich experience in the power sector

\$1B+
power transmission executed, AMI and FGD projects

550+ Professionals
in team (engineering, commercial, graduates, Post-graduates)

\$600M
transmission projects in PPP model

450+ Projects
completed since inception

250 MW
Planned Data Centers

Business Verticals

EPC Business

Transmission

- ▶ Strong expertise in **EHV substations** (up to **765 kV**) and transmission lines, with a strategic expansion into **Smart Grid Substations**
- ▶ Distribution Systems Management (Digitization)
- ▶ Execution of **Balance of Plant** (Thermal/ Hydro) and **Flue Gas Desulphurization**
- ▶ Step up (Upside) **Power Evacuation Solutions** (Switchers)
- ▶ **Captive Power Plants and renewable power evacuation** on Turnkey Solutions Basis (Waste Heat Based)

Asset Holding Business

Data Center

- ▶ **National Expansion:** Hyperscale campuses — Chennai (36 MW, live), Kolkata (12 MW, under development), and Noida (16 MW, Under Development) — for a 250 MW portfolio.
- ▶ **Edge Network:** 20-year BOM @ contract to deploy 102 interconnected Edge Data Centers.
- ▶ **Capabilities:** Colocation, managed/cloud services, disaster recovery, and 9-layer security

Other Asset Creation Businesses

TBCB Business

- ▶ Successfully secured **4 projects** under the Government's **BOOT** model, with **3** commissioned and monetized and **1 under development** (completion by FY27).
- ▶ Techno Electric has attracted significant investor interest in its TBCB transmission portfolio; evaluating platform-based growth opportunities.

Smart Metering

- ▶ Won the contract for implementation of Advanced Metering Infrastructure (AMI) Service Provider for Smart Prepaid Metering on DBFOOT# basis in 5 states.
- ▶ 4 projects are under various phases of Installation.
- ▶ 1 project has entered the implementation phase.

About Techno Electric & Engineering Co. Ltd.

Journey So Far

TECHNO PEDIGREE

India's Power Sector Evolution: Involved in establishing NTPC's first power station in Shaktinagar, showcasing our foundational role in India's energy infrastructure.

Building India's National Grid: Built over 50% of PGICL's substations; out of 276 substations owned by PGCIL 160 bears the mark of our EPC excellence.

Power Generation Projects: Involved in nearly all NTPC power station installations.

Engagement with Utilities: Experience in multi-year engagements with marquee Navratana CPSUs/State Utilities

PAST DECADE

Strategic Partnerships: Fostered strategic partnerships with companies from China, South Korea, Canada and other nations, jointly delivering US \$500 Mn worth of projects.

Transmission Assets: Developed Transmission Assets worth US \$600 Mn under the Public-Private Partnership (PPP) model.

Renewable Projects: Developed 207.35 MW of renewable energy projects at a CAPEX of US \$200 Mn, first few projects to be registered under the UNFCC for carbon Credits.

FUTURE OUTLOOK

Data Centers: Mission to build data centers with a capacity of 250 MW in all major Tier 1, 2 and 3 cities across India by F2030.

Smart Meters: Plan to install 1 Mn Smart Meters yearly with the Government of India. To date, we have installed 0.5 Mn smart meters.

Active Projects: Actively executing projects worth over US \$500 Mn is under the CAPEX mode, funded through our robust balance sheet. Projects include AMI projects and Transmission projects like NERES XVI, NERGS 1 and INDIGRID under the TCB model.

Strategic Value Proposition

- **Annuity Income Profile:** 10-year revenue visibility with 93 months of O&M phase ensuring stable cash flows.
- **Grid Modernization:** Establishing Techno as a key partner in India's digital energy transition.
- **Data Platform:** AMI infrastructure creates a foundation for future data-driven energy services.

Execution Excellence

- **Proven Delivery:** Successful J&K completion validates execution capability in complex environments.
- **Risk Mitigation:** DBFOOT model minimizes upfront capital risk while maximizing long-term project returns.

Techno Digital - National Footprint. Hyperscale Ready. Edge Enabled.

102 cities

Globally, Single Largest deployment of EDGE Data Centers across India

70000 km

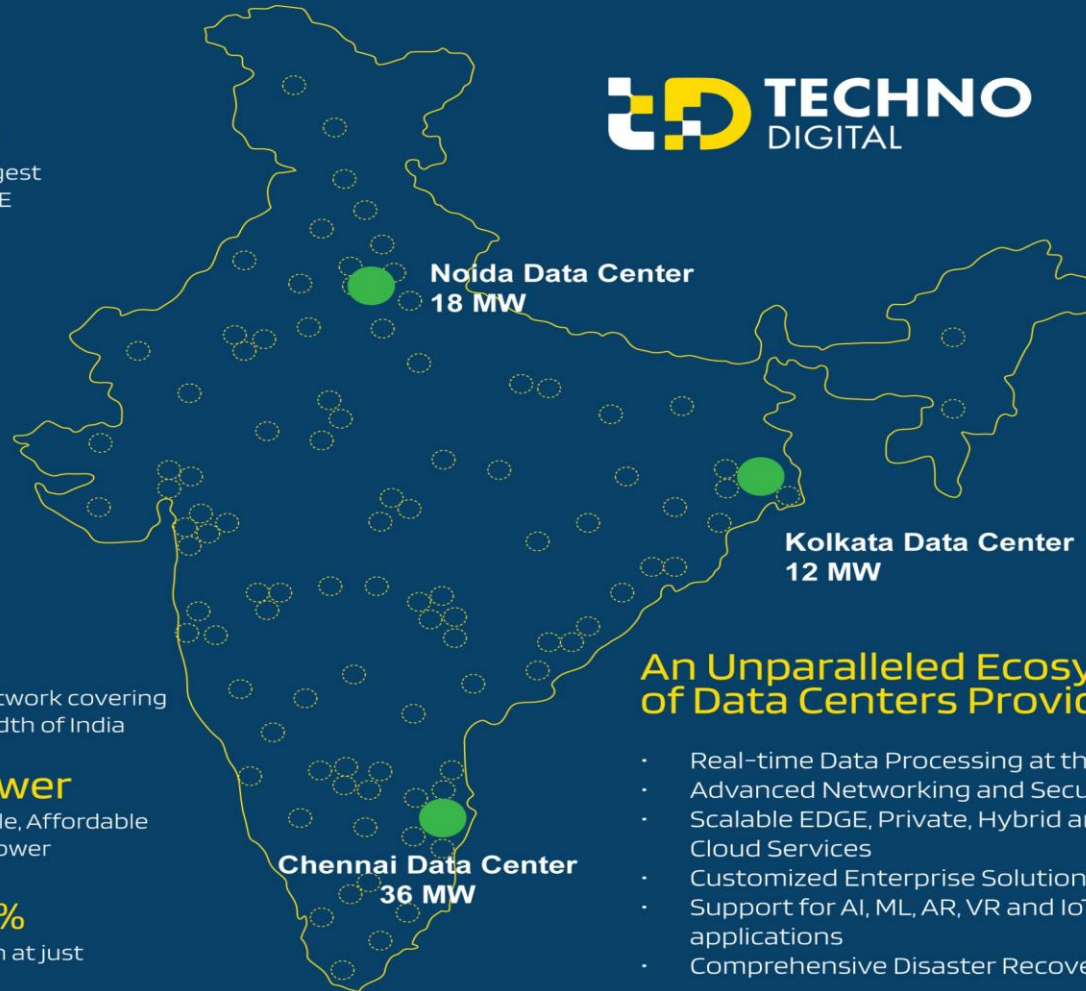

of High-capacity network covering the length and breadth of India

Reliable Power

Access to Sustainable, Affordable and most Reliable Power

Serving 40%

of India's population at just millisecond latency

An Unparalleled Ecosystem of Data Centers Providing:

- Real-time Data Processing at the EDGE
- Advanced Networking and Security
- Scalable EDGE, Private, Hybrid and Sovereign Cloud Services
- Customized Enterprise Solutions
- Support for AI, ML, AR, VR and IoT apps applications
- Comprehensive Disaster Recovery Plans

Techno Digital - National Footprint. Hyperscale Ready. Edge Enabled

TECHNO ELECTRIC & ENGINEERING COMPANY LIMITED

Techno Digital is building India's largest AI-first, edge-powered digital infrastructure seamlessly bridging Tier 1 metros and emerging cities with hyperscale-ready campuses and 102 edge facilities. Backed by the legacy of Techno Electric & Engineering Co. Ltd, we're not just powering data - we're powering India's digital leap.

Techno Combined Solutions with Chennai, Kolkata, Noida and Edge Data Centers

The Hybrid Infrastructure of Chennai (36 MW) , Kolkata (12 MW) , Noida (16 MW) Data Center combines Centralized Processing Power with the Low-latency Benefits of our edge data centers across 102 locations, enabling businesses to process data closer to the source while leveraging the Chennai, Kolkata and Noida Data Center's Computational Resources.

Centralized Management

Centralized management and monitoring tools provide:

- Proactive infrastructure management
- Performance optimization
- Rapid issue response across all data centers

Unified Operational Framework

Unified operational framework across Chennai, Kolkata, and edge locations to ensure:

- Operational policies
- Faster execution
- Regulatory compliance

Managed Services Roadmap

Set up a central NOC and SOC with advanced IT tools, CRM with billing, and a business portal seamlessly linked to Edge and Hyperscale Data Centers to deliver services closer to end users.

The integration of Chennai, Noida and Kolkata data centers with Edge Data Centers is a testament to our commitment to a **Secure, Adaptable, and Efficient Data Management Solution**, ready to meet the demands of the evolving Digital Economy. We aim to operate a network of hyperscale and edge data centers with industry's Least Latency in the country.

MARKET OUTLOOK

Market Outlook – India’s Transmission Story

India’s power story is unfolding faster than anyone projected

271 GW

All-Time Peak Demand (May 21, 2026)

459 GW

Projected Peak Demand by FY36 (CEA)

₹7.93 Lakh Cr

Transmission Investment Plan (FY27–36)

\$31 Billion

India HVDC Market by 2035 (Kotak Neo)

Demand Acceleration & Generation Buildout

Record-Breaking Peak Demand Trajectory

- FY25: **250 GW** (up from 190 GW in FY21); all-time peak of **271 GW** on May 21, 2026
- CEA projects: **289 GW by FY27** and **459 GW by FY36** — nearly doubling in a decade; 6.4% CAGR through 2030

Generation Portfolio: 520 GW Today → 1,121 GW by FY36

- Solar: 140→509 GW | Wind: 55→155 GW | BESS+PSP: ~0→174 GW / 888 GWh
- **70% non-fossil** capacity by FY36 (from 52% today) — all requiring new transmission infrastructure

Transmission Investment & Technology Shift

CEA Transmission Plan FY27–FY36: ~USD 85 Billion

- ~**1,37,500 circuit km** of new transmission lines to be built across India
- ~**8,27,600 MVA** new substation capacity; total: **₹7.93 lakh crore (~USD 85B)**

HVDC: The Long-Distance RE Backbone

- India HVDC market: **\$15B (2025) → \$31B (2035)** (Kotak Neo) — critical for RE evacuation from renewable-rich states
- Enables lower transmission losses and higher grid efficiency for long-distance renewable evacuation

Techno Electric’s 765kV Expertise at the Heart of India’s Energy Transition — Every solar park evacuated, every wind corridor energised — all run through high-voltage substations. Of ~500 substations of 400 KV and above built over three decades in India, approximately 350 were built by Techno Electric.

Market Outlook – Indian Data Centre Industry

Entering a Phase of Execution at Scale

375 → 1,500 MW

Capacity Growth (2020–2025)

4.5 – 8 GW

Target Capacity by 2030 (Jefferies)

USD 30 Billion

Estimated Capex Required (Infra + GPUs)

\$70–100 Billion

Potential Investment Unlocked (Budget 2026-27)

Capacity Trajectory & Growth Drivers

Capacity Growth: 375 MW → 1,500 MW (2020–2025)

- 4x growth in 5 years — fastest pace among major emerging markets (MeitY)
- Data localisation mandates, 5G rollout, and rapid cloud migration to India
- AI/GenAI workloads demanding high-density compute and GPU clusters

2030 Target: 4.5 GW (Conservative) to 8 GW (Jefferies Bull Case)

- Conservative: **4.5 GW**; Jefferies bull case: **8 GW by 2030** — driven by data consumption, cloud adoption, and AI workloads
- **~USD 30 billion** capex required across digital infra and GPU/AI hardware procurement

Policy Tailwinds & Investment Climate

Union Budget 2026–27: Tax Holiday Until 2047

- **Tax holiday until 2047** for eligible foreign cloud service providers through India-based data centres
- Estimated to unlock **\$70–100 billion** in foreign cloud and AI infra investments in India

India as Global Cloud & AI Infrastructure Hub

- FDI and hyperscaler commitments accelerating — Microsoft, Google, and AWS deepening India infra bets
- Favourable tax policy significantly strengthening India's competitive positioning vs other markets

Techno Electric's Differentiation is Power-Led — As AI-driven workloads intensify, power delivery is the binding constraint in data centre execution. Our transmission heritage and mission-critical delivery capability position us precisely at the centre of India's data centre growth.
