## Annexure - "B" to the Auditors' Report

# Report on the Internal Financial Controls under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Kalyani Investment Company Limited ("the Company") as of 31st March, 2018, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

## Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

## Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

## Meaning of Internal Financial Controls with reference to financial statements

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use or disposition of the Company's assets that could have a material effect on the Financial Statements.

## Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March, 2018, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Since the Company is not a Systemically Important Non Deposit taking Core Investment Company, it is not required to obtain Certificate of Registration under Section 45-IA of the Reserve Bank of India Act, 1934.

The Company is a subsidiary of Sundaram Trading and Investment Private Limited.

## 2. Statement of Significant Accounting Policies :

## 2.1 Basis of Accounting and Preparation of Financial Statements:

These accounts have been prepared under historical cost convention and comply with the Accounting Standards, specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013. All income and expenses having a material bearing on the financial statements are recognised on the accrual basis.

## 2.2 Use of Estimates:

The preparation of the financial statements in conformity with the GAAP requires that the Management makes estimates and assumptions, which affect the reported amounts of assets and liabilities, disclosure of contingent liabilities, as at the date of the financial statements and the reported amounts of revenue and expenses during the year under report. Contingencies are recorded, when it is probable that a liability will be incurred and the amount can be reasonably estimated. Actual results could differ from those estimates.

## 2.3 Plant, Property and Equipments and Depreciation:

## a) Plant, Property and Equipments:

Plant, Property and Equipments are stated at their original cost of acquisition including incidental expenses related to acquisition and installation of the concerned assets. Plant, Property and Equipments are shown net of accumulated depreciation, wherever applicable and amortisation.

## b) Depreciation and Amortisation:

i) Depreciation on Plant, Property and Equipments is calculated on straight-line basis using the rates arrived at based on the useful lives estimated by the management. Depreciation is charged on pro-rata basis for assets purchased / sold during the year.

The Management's estimate of the useful lives of various fixed assets which is in line with the provisions of Schedule II to the Companies Act, 2013 is given below:

Nature of the Asset	Estimated Useful Life
Furnitures and Fixtures	10 years

## 2.4 Investments:

- a) Long Term Investments are carried at cost. Provision for diminution is made to recognise a decline other than temporary, in value of investments.
- b) Short Term Investments are carried at lower of cost and fair value.

## 2.5 Revenue Recognition:

- a) The Company recognises income on accrual basis. However, revenue recognition is postponed in respect of specific items of income, where the ultimate collection, thereof is uncertain.
- b) Interest income is accrued over the period of the loan / investment.
- c) Dividend is accrued in the year in which it is declared whereby a right to receive is established.
- d) Profit / loss on sale of investments is recognised as per the terms of the underlying contracts.

a) Employee benefits include interalia, amounts paid for the services of the Key Management Personnel on deputation. No separate provisions of retirement benefits or privilege leave benefits of such employees are recognised in the books of the Company. The Company is not liable for payment of gratuity.

## b) Privilege leave benefits:

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

## 9th Annual Report 2017-2018

Notes forming part of the Standalone Financial Statements for the year ended 31st March, 2018 (continued):

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end. Actuarial gains / losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where the Company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

## 2.7 Taxation:

- a) Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.
- b) Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Deferred tax liabilities are recognised for all taxable timing differences. Deferred tax assets are recognised for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each reporting date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

c) Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period i.e. the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognises MAT credit as an asset in accordance with the guidance note on "Accounting for Credit Available in respect of Minimum Alternative Tax" under the Income Tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

## 2.8 Foreign Currency Translation:

In accordance with the paragraph 46A of the Accounting Standard - 11, "The effects of changes in foreign exchange rates", the Company has exercised the irrevocable option and accordingly, the exchange differences arising on reporting of long-term foreign currency monetary items at rates different from those at which they were initially recorded during the period or reported in previous financial statements, in so far as they relate to the acquisition of a depreciable capital asset, is added to or deducted from the cost of the asset and is depreciated over the balance life of the asset and in other cases, is accumulated in "Foreign Currency Monetary Item Translation Difference Account" in the financial statements and amortised over the balance period of such long term asset or liability, by recognition as income or expense in the statement of profit and loss. Long-term foreign currency monetary item means any asset or liability that is expressed in a foreign currency and has a term of twelve months or more at the date of origination of the asset or liability.

## Notes forming part of the Standalone Financial Statements for the year ended 31st March, 2018 (continued):

Transactions in foreign currency, other than those covered by long-term foreign currency monetary items are accounted at the exchange rates prevailing on the dates of transactions. Gains / losses arising out of fluctuations in the exchange rates in respect of these transactions are dealt with in the statement of profit and loss in the period in which they arise.

## 2.9 Impairment:

The management has a policy to review at each balance sheet date, the carrying amounts of its assets to determine whether there is any indication that those assets were impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money and the risk specific to the asset. Reversal of impairment loss is recognised immediately as income in the statement of profit and loss.

## 2.10 Earnings per share:

In determining earnings per share, the Company considers the net profit after tax and includes the post tax effect of extraordinary / exceptional item, if any. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period.

## 2.11 Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Where the Company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

Contingent assets are neither recognised nor disclosed.

## 2.12 Cash flow statement:

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

## 2.13 Cash and cash equivalents:

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

## Annexure to the Auditor's Report

# Report on the Internal Financial Controls under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March, 2018, We have audited the internal financial controls with reference to financial statements of Kalyani Investment Company Limited (hereinafter referred to as "the Holding Company") and its Associate companies, which are companies incorporated in India, as of that date.

## Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the of the Holding Company & the Associate companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over Financial Reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to financial statements issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

## Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls with reference to financial statements (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

## Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

## Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, the Holding Company & its Associate companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March, 2018, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements in so far as it relates to the two associate companies, which are companies incorporated in India, is based on corresponding reports of the auditors of such companies incorporated in India.

Notes forming part of the Consolidated Financial Statements for the year ended 31st March, 2018:

### 1. Company Overview:

The Company is a Non Deposit taking Core Investment Company, as defined in the Core Investment Companies (Reserve Bank) Directions, 2011. Since the Company is not a Systemically Important Non Deposit taking Core Investment Company, it is not required to obtain Certificate of Registration under Section 45-IA of the Reserve Bank of India Act, 1934.

The Company is a subsidiary of Sundaram Trading and Investment Private Limited.

Operating Cycle of the Company is considered to be of 12 months.

### 2. Statement of Significant Accounting Policies :

### 2.1 Basis of Accounting and Preparation of Consolidated Financial Statements:

These consolidated financial statements comprise the financial statements of the Company and its associates (together referred to as 'the Group'). These consolidated financial statements of the Group have been prepared under historical cost convention and comply with the Accounting Standards, specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013. All income and expenses having a material bearing on the financial statements are recognised on the accrual basis.

#### Principles of consolidation:

These consolidated financial statements of the Group are prepared in accordance with the Accounting Standard 23 "Accounting for Investments in Associates in Consolidation" as notified.

These consolidated financial statements are presented, to the extent possible, in the same format as that adopted by the Company for its standalone financial statements.

The financial statements of the associates have been drawn for the year ended 31st March, 2018.

#### Associates

The Group's investments in its associates are accounted for under the equity method. An associate is an entity in which the Group has significant influence

Under the equity method, the investment in an associate is carried in the balance sheet at cost plus post acquisition changes in the Group's share of net assets of the associate. Goodwill related to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment. The consolidated statement of profit and loss reflects the share of the results of operations of the associate. Unrealised gains and losses resulting from transactions between the Group and the associates are eliminated to the extent of the interest in the associate.

Consolidation of Associates has been done on the basis of the Provisions of Accounting Standard 23 (Accounting for Investments in Consolidated Financial Statements). During the year the closing balances in the accounts in Reserve and Surplus Note which relate only to the Associate Companies have been adjusted to the retained earnings. The closing balances in these accounts in the previous year have been similarly adjusted.

After application of the equity method, the Group determines whether it is necessary to recognise decline, other than temporary, in the value of the Group's investment in its associates, such reduction being determined and made for each investment individually. The Group determines at each reporting date whether there is any objective evidence that the investment in associate is impaired.

Section 129(3) of the Companies Act, 2013 requires preparation of consolidated financial statements of the Company and all of the subsidiaries including associate company and joint venture business in the same form and manner as that of its own. Accounting Standard (AS) 23 on Accounting for Investment in Associates in Consolidated Financial Statements defines Associate Company as an enterprise in which an entity has significant influence and which is neither a subsidiary nor a joint venture of that party. It mentions that if an investing party holds, directly or indirectly through intermediaries, 20% or more of the voting power of the enterprise, it is presumed that the investing party does have significant influence, unless it can be clearly demonstrated that this is not the case.

The Company holds investments in below mentioned entities which by share ownership are deemed to be Associate Companies:

# Consolidated Financial Statements 2017-2018

Notes forming part of the Consolidated Financial Statements for the year ended 31st March, 2018(continued):

#### 2.2 Use of Estimates:

The preparation of the consolidated financial statements in conformity with the GAAP requires that the Management makes estimates and assumptions, which affect the reported amounts of assets and liabilities, disclosure of contingent liabilities, as at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the year under report. Contingencies are recorded, when it is probable that a liability will be incurred and the amount can be reasonably estimated. Actual results could differ from those estimates.

### 2.3 Plant, Property and Equipments and Depreciation:

#### a) Plant, Property and Equipments:

Plant, Property and Equipments are stated at their original cost of acquisition including incidental expenses related to acquisition and installation of the concerned assets. Plant, Property and Equipments are shown net of accumulated depreciation, wherever applicable and amortisation.

### b) Depreciation and Amortisation:

i) Depreciation on Plant, Property and Equipment is calculated on straight line basis using the rates arrived at based on the useful lives estimated by the management. Depreciation is charged on pro-rata basis for assets purchased / sold during the year.

The Management's estimate of the useful lives of various Plant, Property and Equipments which is in line with the provisions of Schedule II to the Companies Act, 2013 is given below:

Nature of the Asset	Estimated Useful Life
Furnitures and Fixtures	10 years

#### 2.4 Investments:

- a) Long Term Investments are carried at cost. Provision for diminution is made to recognise a decline other than temporary, in value of investments
- b) Investment in associate companies are accounted as per the 'Equity method' and accordingly, the share of post acquisition reserves of each of the associate companies has been added to / deducted from the cost of investments.
- Short Term Investments are carried at lower of cost and fair value.

#### 2.5 Revenue Recognition:

- a) The Group recognises income on accrual basis. However, revenue recognition is postponed in respect of specific items of income, where the ultimate collection, thereof is uncertain.
- b) Interest income is accrued over the period of the loan / investment.
- c) Dividend is accrued in the year in which it is declared whereby a right to receive is established.
- d) Profit / loss on sale of investments is recognised as per the terms of the underlying contracts.

## 2.6 Employee Benefits :

a) Employee benefits include interalia, amounts paid for the services of the Key Management Personnel on deputation. No separate provisions of retirement benefits or privilege leave benefits of such employees are recognised in the books of the Group. The Group is not liable for payment of gratuity.

## b) Privilege leave benefits:

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end. Actuarial gains / losses are immediately taken to the consolidated statement of profit and loss and are not deferred. The Group presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where the Group has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

## 2.7 Taxation:

- a) Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.
- b) Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred income tax relating to items recognised directly in equity is recognised in equity and not in the consolidated statement of profit and loss.

Deferred tax liabilities are recognised for all taxable timing differences. Deferred tax assets are recognised for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Group has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each reporting date, the Group re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Group writes down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

### Notes forming part of the Consolidated Financial Statements for the year ended 31st March, 2018(continued):

c) Minimum alternate tax (MAT) paid in a year is charged to the consolidated statement of profit and loss as current tax. The Group recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Group will pay normal income tax during the specified period i.e. the period for which MAT credit is allowed to be carried forward. In the year in which the Group recognises MAT credit as an asset in accordance with the guidance note on "Accounting for Credit Available in respect of Minimum Alternative Tax" under the Income Tax Act, 1961, the said asset is created by way of credit to the consolidated statement of profit and loss and shown as "MAT Credit Entitlement". The Group reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period.

## 2.8 Foreign Currency Translation:

In accordance with the paragraph 46A of the Accounting Standard - 11, "The effects of changes in foreign exchange rates", the Group has exercised the irrevocable option and accordingly, the exchange differences arising on reporting of long-term foreign currency monetary items at rates different from those at which they were initially recorded during the period or reported in previous financial statements, in so far as they relate to the acquisition of a depreciable capital asset, is added to or deducted from the cost of the asset and is depreciated over the balance life of the asset and in other cases, is accumulated in "Foreign Currency Monetary Item Translation Difference Account" in the consolidated financial statements and amortised over the balance period of such long term asset or liability, by recognition as income or expense in the consolidated statement of profit and loss. Long-term foreign currency monetary item means any asset or liability that is expressed in a foreign currency and has a term of twelve months or more at the date of origination of the asset or liability.

Transactions in foreign currency, other than those covered by long-term foreign currency monetary items are accounted at the exchange rates prevailing on the dates of transactions. Gains / losses arising out of fluctuations in the exchange rates in respect of these transactions are dealt with in the consolidated statement of profit and loss in the period in which they arise.

## 2.9 Impairment

The management has a policy to review at each balance sheet date, the carrying amounts of its assets to determine whether there is any indication that those assets were impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money and the risk specific to the asset. Reversal of impairment loss is recognised immediately as income in the consolidated statement of profit and loss.

## 2.10 Earnings per share:

In determining earnings per share, the Group considers the net profit after tax and includes the post tax effect of extraordinary / exceptional item, if any. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period.

#### 2.11 Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognised when the Group has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Where the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the consolidated statement of profit and loss net of any reimbursement.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognise a contingent liability but discloses its existence in the consolidated financial statements.

Contingent assets are neither recognised nor disclosed.

## 2.12 Cash flow statement:

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

## 2.13 Cash and cash equivalents:

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.
