Investor Presentation – For the year ended 31st Mar-2018

Disclaimer

- ❑ This presentation has been prepared by Aster DM Healthcare Limited (the "Company"), content of which was compiled from sources believed to be reliable for informational purposes only and are based on information regarding the Company and the economic, regulatory, market and other conditions as in effect on the date hereof. Subsequent developments may impact the information contained in this presentation, which neither the Company nor its advisors or representatives are under an obligation to update, revise or affirm. Contents in the Presentation does not constitute or form part of an offer or invitation for sale or subscription of or solicitation or invitation of any offer to buy or subscribe for any securities, nor shall it or any part of it form the basis of or be relied on in connection with any contract, commitment or investment decision in relation thereto in India, the United States or any other jurisdiction.
- ❑ Prospective and existing investors should make their own evaluation of the Company as the information provided here does not purport to be all inclusive or to contain all of the information a prospective or existing investor may desire. Interested parties shall conduct their own due diligence and investigation on the information, before relying and acting thereon. Company makes no representation or warranty as to the accuracy or completeness of this information and shall not have any liability for any representations (expressed or implied) regarding information contained in, or for any omissions from, this information or any other written or oral communications transmitted to the recipient in the course of its evaluation of the Company.
- ❑ This presentation may contain certain "forward looking statements", which are based on certain assumptions and expectations of future events. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Though such forward-looking statements are based on reasonable assumptions, it can give no assurance that such expectations will be met. Neither the Company nor any of its advisors or representatives assumes any responsibility to update forward-looking statements or to adapt them to future events or developments.

Aster – Snapshot, Evolution and Footprint

Aster – An Integrated Healthcare Provider

Operational and Financial Overview

Strategy and Leadership

Aster DM Healthcare – At a Glance (1/2)

Total Facilities | **327**

One of Largest Private healthcare service providers operating in Asia (GCC& India)

Present in 9 Countries
(UAE, Saudi Arabia, Qatar, Oman, Bahrain, Philippines, Kuwait, Jordan and India)

Largest No. of Medical Centers / Polyclinics in GCC

Largest chain of Pharmacies in the UAE

Aster DM Healthcare – At a Glance (2/2)

Revenue - FY18

← INR ~6,760 CR →

Revenue - FY18

EBITDA - FY18

← INR ~651 CR →

EBITDA - FY18

Note:

1. Above shown percentage of revenue and EBITDA by hospitals clinics and pharmacies are calculated based on gross segmental numbers before allocation of inter-segment revenue and unallocated corporate overheads

The Aster DM Healthcare Edge

Aster DM – A Healthcare Ecosystem

- Presence across hospitals, clinics & pharmacies and providing primary, secondary and tertiary/ quaternary care
- Strategic and sizeable network of clinics enable patient feeder structure

Synergies in Operations due to Presence in GCC & India

- GCC operations contributes ~83% of revenue and Indian operations contributes ~17% of revenue
- GCC network leveraged to promote medical value tourism to India
- India network leveraged to source high quality medical professionals
- Low cost of debt in GCC (5% - 6%)

Strong track record of performance since inception

- Built notable financial, operational, societal growth trajectory in GCC
- Rapid scale-up in hospitals, clinics, pharmacies across geographies

Seasoned core management team

- Directors/officers with an average tenure of 18 years of healthcare experience
- Strong second line of management with managerial, healthcare and regulatory experience to provide stability

Differentiated Asset-light Business Model in GCC

- Asset light model which is built around a leased asset as against the traditional system of owned asset
- Established units in GCC exhibit high average return on capital employed (ROCE) (25% - 30%, excluding corporate overheads for established units of more than 3 years)

De-risked Business Model

- Diversified revenue sources from multi-geography and multi-economic segment operations
- Presence across all economic segments through our three brands – Medcare, Aster and Access
- GCC operations exposed to stable currencies pegged to US dollars, creating a natural hedge to currency fluctuations

Benchmark healthcare practices

- Highest standards of patient care reflected in several industry recognitions and patient endorsements on rating platforms

Aster DM Healthcare - Evolution

GCC

Building the foundations

1987: Commenced operations as a single doctor clinic in Dubai

Aster – An Integrated Healthcare Provider

Operational and Financial Overview

Strategy and Leadership

Aster – A Healthcare Ecosystem

PATIENT LIFE CYCLE MANAGEMENT

RESOURCE TALENT MANAGEMENT

- Aster, over 30 years, has created a healthcare eco-system across two geographical regions
- In GCC region, Aster's primary care clinics act as the initial touch-points in the patient journey, while pharmacies and hospitals continue the care
- For complex tertiary care patients are transferred to Aster's Hospitals in India
- Indian operations acts as a source of talent (doctors, nurses and other employees) to GCC operations
- Within GCC operations, clinic doctors have the opportunity to hone their surgical skills in Aster's hospitals

Aster - An Integrated Healthcare Provider

Aster – Snapshot, Evolution and Footprint

Aster – An Integrated Healthcare Provider

Operational and Financial Overview

Strategy and Leadership

IADMHL – Strategy & Outlook (1/2)

Strengthening of hub and spoke model in GCC

- To capitalize on the existing primary care clinics network in GCC by adding secondary / tertiary care hospitals
- In FY18, 65 bed Aster Hospital, Doha commenced operations to utilize the untapped Aster clinics network in Doha
- Planned addition of ~240 beds over next 2 years in UAE to capitalize on Aster and Access brand clinics, located farther away from our existing Aster Hospital in Mankhool, Dubai
- Above strategy will enable expansion of our quality services in middle and low economic segments category of patients, where there is a supply-demand gap

A comprehensive human resource strategy utilizing our geographical diversity and catering to future growth

- To create an enabling environment for skill development and growth of doctors and paramedics, providing quality care to our patients
- Maintain the current high retention of senior doctors across the group
- Identify and add to the strong pipeline of doctors for our expansion & replacement requirements; early identification is key, especially in GCC countries due to strict licensing requirements
- Selective GCC licensing of doctors from our Indian hospitals – to enable need based transfer to GCC hospitals & clinics
- Retention of skilled paramedics in Indian operations, by fulfilling aspiration of career growth outside India

Scalable systems implementation, tightly integrated with operations/market requirements

- Systems implementation with focus on scalability and future business requirements
- Enhancement of patient experience through technology at each patient touchpoints
- Information systems to drive productivity improvement

Strengthening of our medical tourism network

- To further strengthen integration of GCC & India operations to provide consistent quality experience to patients across geographies
- To position our premium segment Medcare hospitals as service provider of choice for affluent international patients travelling to Dubai for medical tourism; Strategy in-line with Dubai government's medical tourism strategy with a vision of making as a globally recognized destination for elective health and wellness treatments

iADMHL – Strategy & Outlook (2/2)

Profitability growth & brand positioning using product-mix and technology

- Focus on margin expansion through sale of own / exclusive licensed products
- Shift to online ordering of prescription for enhanced patient experience

Building of brand, talent and capability in KSA – a key market in GCC

- There is significant demand for quality healthcare services in Kingdom of Saudi Arabia (KSA), currently the largest economy in GCC with the highest population; Further, current policy reforms expected to improve the business environment in KSA
- Having successfully diversified our revenue streams in KSA, ADMHL further plans to strengthen our brand, talent pipeline and management capability

Specialized, asset-light growth in India

- Focus on key centres of excellence - Orthopedics, Medical Oncology, Cardiac Sciences, Neurosciences, Gastroenterology, Women and Child, Bariatric, Integrated Liver care, Nephrology, Urology, NICU & Dermatology
- Growth in addition to the current committed projects to follow an asset-light model in metropolitan and tier-I cities with large format hospitals (400 to 500 beds each)
- Expansion into tier-II and tier-III cities in partnership with local hospitals by leveraging IT/tele-medicine, instead of building/leasing hospitals

Cost Optimization

- Back office integration across strategic business units
- Clear demarcation of medical and non-medical activities in hospitals/clinics and re-allocation of activities accordingly
- Centralization of purchases to utilize our economies of scale
