Your Directors have pleasure in presenting the management discussion and analysis report for the year ended on 31st March, 2015.

(A) INDUSTRY STRUCTURE AND DEVELOPMENT

Our Company is a leading manufacturer of metal containers. The Company is manufacturing wide range of Open Top Sanitary Cans (OTS) and General Purpose Cans for packing Processed Food, Ready-to-eat Foods, Canned Vegetables, Fruit Pulps, Juices, Pickles, Dairy Products, etc. and Aerosol Cans for Deodorants, Room Freshners, Pesticides, etc. The Company is having manufacturing plants at Anand and Kanjari in Gujarat.

In the year 2001, the Company has diversified into manufacturing Rolled Sugar Cones at its Vithal Udyog Nagar Plant, Kheda Dist., Gujarat, which takes care of the requirement of Ice-Cream Cones of dairies in Gujarat and other Ice-Cream manufacturers.

(B) OPPORTUNITIES, THREATS AND CONCERNS

Our Company is a leading and established Company in tin packaging industry in India. The growth of FMCG sector are the catalyst to growth in packaging. Packaging of essential products like food, beverages, milk, vegetables, etc., are the key driving segment of packing industry. We are conscious of the emerging opportunities in the can manufacturing sector in India as well as abroad and we shall endeavour to take benefit of every good opportunity in the very best interest of our shareholders.

In the year 2011, the Company had undertaken modernisation and expansion at Kanjari Plant in a phased manner. The work of installation of Oven as well as the imported Printing and Coating Line was completed and commissioned in the third quarter of accounting year 2011-12. Thereafter, the Company placed order for a new Soudronic Body Maker. The Body maker has also arrived and installed. The commercial production has started in the month of April, 2014.

In the year 2012, our Company had also undertaken expansion of Sugar Cone Division. The second equipment was installed and commissioned in the third quarter of the accounting year 2012-13. As demand for Sugar Cones continues to be increasing, the Company installed third imported equipment, in June 2014. With the installation of the third machine, the production capacity of Sugar Cone Division has become 1,500 lakhs of cones per annum, which will take care of the requirement of dairies in Gujarat and other Ice-cream manufacturers.

Opportunities

- a) Our Company is a leading manufacturer of Open Top Sanitary Cans (OTS), General Purpose Cans and Aerosol Cans with topline of more than Rs.14,661 lakhs during the year under review. With the installed capacity of 18,000 MT per annum and a large customer base, the Company's can business offers the opportunity to gain a significant market share and consolidate its presence in the industry.
- b) Edge in raw material procurement The Company has adopted a policy of having multiple source of vendors for all critical raw material consumables and components to ensure uninterrupted supply. It also ensures the most cost effective procurement of these materials. The Company sources bulk of its tinplate requirement from the overseas suppliers and part from indigenous sources. The deciding criteria is better prices and credit terms. The Company has been able to command competitive prices, flexible and liberal credit terms from all the suppliers due to the large volume of procurements every year.
- Expansion of export market With the installation of the new Printing and Coating machinery, the Company would be enable to compete more effectively and tap the export market.
- d) Innovation and product development The Company continues its efforts in innovation and product development. The Company has installed state of the art 3 Piece welded can making line from Soudronic AG, Switzerland consisting of Cepak automatic Duplex Slitter with sheet feeder and high speed automatic side seam welder SOUCAN 650 to produce cans @400 cpm. The line is equipped with weld monitor with both Powder and Liquid stripe application unit. The line further consists of German CANTEC Combination machine, where spin flanging, beading and seaming takes place in one unit. Cans are then palletized on automatic MECTRA Italy Palletizer, which ensures untouched hygienic automatic palletizing, strapping, wrapping of the cans as against age old carton packing.
- e) Professional and technically qualified human resources The Can Division has its own independent, experienced and qualified management team and work force at its plants. The Company relies on Mumbai Head Office for policy level decisions, such as procurement of major raw material, sales, accounts, etc. The Company has followed a conscious strategy of recruiting workers and supervisors from the surrounding towns and villages of each locations, so as to ensure cordial IR atmosphere and discipline. The Company has encouraged a democratic style of workers' representation in all discussions between the Company's workers, relating to the latter's welfare and wage issues.

Threats

- a) Raw material price Raw material price increase are threatening the financial backbone of the metal packaging industry. The squeeze on margin caused by increased raw material prices, rising energy cost, transportation cost and labour cost is putting enormous pressure on the company.
- b) Competition from unorganized sector The Can Division has been in existence for more than five decades and enjoys an unblemished track record for all its customers. The Division has emerged as one of the top suppliers in the country and is the foremost in the western region.
- c) Alternate packing material Competition from substitutes such as, aluminium and other flexible packing material is a threat to the tin container industry. While these have been taking away some market share due to the price advantage, tin container has a distinct advantage when it comes to convenience, branding and shelf life over other packing options.
- Lower margins Traditionally the can sales have been restricted to low value added products, which are very sensitive to price increase, resulting into lower margins and encouraging the unorganized sector into

the industry. However, growth in niche areas such as, Aerosol cans and export market, which are the emerging opportunities, will significantly boost the bottom line. This is always low margin and high volume industry.

(C) OUTLOOK

Your Company continues to maintain its relatively stable and progressive growth outlook. The initiative taken by your Company for technology up-gradation, reducing overheads and finance costs, improving operating parameters and optimising operating costs will enable the company to face challenges in coming times. Company has a vision to consolidate its position as market leader in metal packaging segment.

(D) RISK

There is a trend towards alternate packaging which is cheaper as compared to metal packaging with a shorter shelf life in spite of the fact that metal packaging has an edge over them in terms of shelf life, sustainability, etc. The fluctuation in the price of tinplate in the international market, the shrinking margins and high volatile foreign currency fluctuations pose a serious concern in the coming years. However, your company continuously assessed the associated business risks and undertook all measures to minimise its impact on its operation.

(E) INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

In the opinion of the Management, there are adequate internal control system and procedures commensurate with the size of the company and nature of its business. The Company has engaged the services of an independent Chartered Accountants to carry out the internal audit and ensure that recording and reporting are adequate and proper, the internal controls exist in the system and that sufficient measures are taken to update the internal control system.

(F) DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

Your Company has achieved a total sales turnover of Rs.15,960 lakhs for the year ended 31st March, 2015 as compared to Rs.13,225 lakhs for the previous year – a growth of 21%. The profitability has also shown an improved trend as compared to previous year.

During the year under review, the Company has achieved a sales turnover of Rs.14,661 lakhs of metal cans and its components as compared to Rs.12,275 lakhs in the previous year, thereby registering a growth of 21%. This growth has been achieved mainly due to good mango season leading to better realisation and increase in the dairy demand from Gujarat dairies. The Company has executed export orders worth Rs.901 lakhs of metal cans and its components during the year under review as compared to Rs.589 lakhs in the previous year. This increase in export sales is mainly due to reasonably good demand from Middle East countries.

The Sugar Cone Division has achieved a sales turnover of Rs.1,300 lakhs as compared to Rs.950 lakhs in the previous year – a growth of 37%. This increase in sales turnover of Sugar Cone is due to expansion of production capacity and increase in overall ice-cream demand. As mentioned in the last year's report, the additional third equipment was successfully installed at its Vithal Udyog Nagar Unit, Kheda District and the commercial production was started in the first quarter of the Accounting Year 2014-15. With the installation of the third machine, the production capacity of Sugar Cone Division has become 1500 lakhs of cones per annum.

The mango season for the current year is somewhat affected due to unseasonal climatic condition, mainly in Western parts of India i.e., Gujarat Region and Konkan Region of Maharashtra.

However, the Company is hopeful of overall better performance during the current year.

(G) CORPORATE SOCIAL RESPONSIBILITY

Your Company recognises the fact that, beyond the day-to-day conduct of its business, as a responsible corporate citizen, it has to discharge its duties towards the larger society in which it operates.
