# For Every Generation. For Every Celebration.

In today's era, when jewellery is no longer just a fashion choice, but an extension of who you are and your emotion, TBZ - The Original stands out as a brand that resonates with your vision and aspirations. Our extensive range of collections, spanning across lightweight to bold designs, traditional to contemporary and subtle to glamorous, is a testament to our commitment to creating intricately-tailored designs, catering to the distinct expressions FOR EVERY GENERATION and FOR EVERY CELEBRATION.

Our 160+ years of rich heritage and a multi-generational client base has uniquely positioned us to understand the varied preferences and budgets of different consumer segments. Leveraging this and fuelled by our spirit for sustained innovation, we continue to introduce multiple product lines and implement strategic marketing campaigns in response to the evolving market trends and consumer aspirations.

The Company's unparalleled craftsmanship along with its advanced in-house diamond manufacturing facility further enables it to create products that are high in quality, excellent by design and finished to perfection – making them the first-choice for consumers. Moreover, by striking a great balance between affordability and exclusivity, we cater to both price-conscious consumers and the premium segments, clearly establishing our prominence across diverse markets, adorning generations of consumers in their life's ordinary and precious moments.

**TBZ - The Original Story**

# Adorning Generations With Grace And Timeless Radiance

Rooted in over 160+ years of artistry and design excellence and redefining the fine jewellery industry through a diverse and enchanting portfolio, closely aligned with evolving trends, we are Tribhovandas Bhimji Zaveri Limited (TBZ / the Company). From heirloom-inspired designs to contemporary and minimalist elegance, each piece at TBZ - The Original delivers unmatched quality and effortlessly transcends the boundaries of time to add that perfect touch of grace to every special moment, across generations.

Since 1864, when we opened our first flagship store in the iconic Zaveri Bazaar - Mumbai, to now, our passion for innovation and commitment to product authenticity has remained unwavering. This, combined with our premium craftsmanship, precision and deep connection with consumers, has helped us win the trust of families across Indian households.

We offer a distinguished collection of affordable and premium handcrafted pieces - ranging from gold, diamond, jadau and platinum jewellery, which continuously evolves with the changing consumer taste and aspirations, becoming an integral part of their jewellery journeys.

# Message from Chairman

The Indian economy has demonstrated remarkable resilience and growth despite external shocks, fuelled by strong consumer demand and supportive government policies.

## Dear Shareholders,

I am pleased to present to you the Annual Report for the financial year 2024-25 and sharing the key developments and progress made during the year by your Company.

While the global economy dealt with significant challenges resulting in steady yet subdued growth, the emerging and developing economies demonstrated resilience, accounting for approximately 45% of the global GDP. India, meanwhile, retained its position as the fastest growing economy, growing by 6.4% in the year under review. A key contributor to this was the Indian gem and jewellery market. Accounting for nearly 6-7% of the country's GDP and swelling by an impressive CAGR of 8.93%, the industry is recognised as a global hub for the jewellery market due to its cost-effective production and highly skilled workforce. A rich cultural heritage where jewellery holds deep, social and emotional significance, growing wedding sector and celebrations, rising disposable incomes, evolving consumer preferences and gold's significance as a safe-haven asset are amongst the innumerable factors contributing to this growth.

## A trusted brand for every celebration, every generation

Backed by a legacy of 160+ years and strengthened by a stunning collection of jewellery across multiple themes and price points, we offer countless designs for every celebration and every generation. Our multi-generational clientele serves as our guiding light, enabling us to understand and navigate the dynamic market landscape with confidence and clarity. A team of skilled craftsmen, along with our robust in-house manufacturing facility, strengthen us further, helping us to execute our design vision and achieve operational efficiency. By blending tradition with contemporary designs, combined with our relentless focus on innovation and quality, the brand continues to meet consumer expectations, build lasting trust and reinforce its market leadership.

## Demonstrating sustained performance

Your Company delivered consistent revenue growth and profitability in FY 2024-25, indicative of our ability to

efficiently engage with the customers and closely align with their needs. Our Total Operating Income surged by 14% and reached ₹ 2,620 crore. EBITDA witnessed a significant 27% YoY jump, reaching ₹ 176 crore and underscoring our operational strength while our PAT grew impressively by 34% YoY to ₹ 72 crore.

TBZ - The Original's robust balance sheet, lowering debt levels and strong cash position lay a solid foundation for its continued progress as India gears up for the next phase of growth.

### Key highlights for FY 2024-25

The year was marked by three new store openings, expanding our reach geographically and empowering our vision to deliver a first-class in-store experience to our consumers, where they can explore and choose from a plethora of jewellery options, guided by our skilled and competent team. The stores in Rourkela and Bhubaneswar marked our entry into the culturally-rich state of Odisha and expanded our presence in Eastern India while a new franchise store in Jaipur paved our way into the pink city, enabling us to showcase our signature collection to passionate jewellery enthusiasts.

The store openings were complemented by our digital and marketing initiatives, which forged an emotional bond and resonated with the consumers during their big and small moments in life, through localised campaigns and personalised offers. While campaigns like **Shaadi Matlab TBZ** and **Tyohaar Matlab TBZ** reinforced our leadership in the festive, wedding and bridal jewellery segment, the Akshaya Tiritiya Campaign struck a chord with our consumer sentiment during the New Year. Our yearly signature IP for promoting Diamonds as a category was highly anticipated and well received again with our Diamond No Making (DNM) Festival.

We also unveiled our new campaign with Brand ambassador Sara Ali Khan, for the festive season. The campaign was met with a positive response and heavily promoted across all ATL, in store and Digital platforms. During the year, we garnered 20.2 million organic social media impressions, 647.5K engagements and our follower base grew to 25.42%.

Additionally, our digital marketing outreach delivered a total of **223.14** million impressions. Our strong engagement initiatives and omni-channel approach proved vital in acquiring new customers and retaining existing ones. Our Company gained approximately 45%-50% new customers and retained around 45% of the active consumer base.

The Indian jewellery industry is witnessing a transformative shift as the younger generation, in particular, now prefer functional, stylish and lightweight jewellery over the traditional ones. Keeping pace with this evolution, we introduced a new range of collection.

### Empowering our communities

At TBZ - The Original, empowering our women and our communities through responsible social action is equally crucial. Aligned with this, we organise and participate in various education, health and awareness campaigns, providing our women with the resources and opportunities to live a better life and uplift their families. Project Pankhi, Crisis Intervention Centre and Ek Disha are only a few of the many initiatives which help us to contribute towards a better, more educated and a fair and equitable society. During the year, we supported 17,030 beneficiaries through ₹ 99,31,801 CSR spending.

### Looking ahead

As we close this year and step into the next, we are filled with hope and optimism and ready to accelerate our growth, supported by a robust Indian economy and the momentum in its gems and jewellery industry. Driven by factors like increased rural demand, a high volume of weddings and potential reductions in gold import duties, the gems and jewellery market demonstrates a strong growth trajectory, estimated to touch USD 168.62 billion by 2030. The industry is also witnessing a consistent rise in the number of organised players who are elevating it through their innovative designs and quality finish.

As torchbearers of quality, creativity and authenticity and the first in India to introduce 100% BIS-hallmarked 22-karat gold jewellery and certified solitaire diamonds, we are poised to push the boundaries and capitalise on this massive growth opportunity.

### In conclusion

I take this opportunity to thank our craftsmen and employees, integral pillars of our steadfast growth and success. Your exceptional skills and continued dedication enable us to aim high and make significant strides in our journey. My heartfelt gratitude to our investors, shareholders, partners and all other stakeholders for your sustained trust and support. We pledge to create enduring value and deliver uncompromising excellence in all that we do.

Warm Regards,

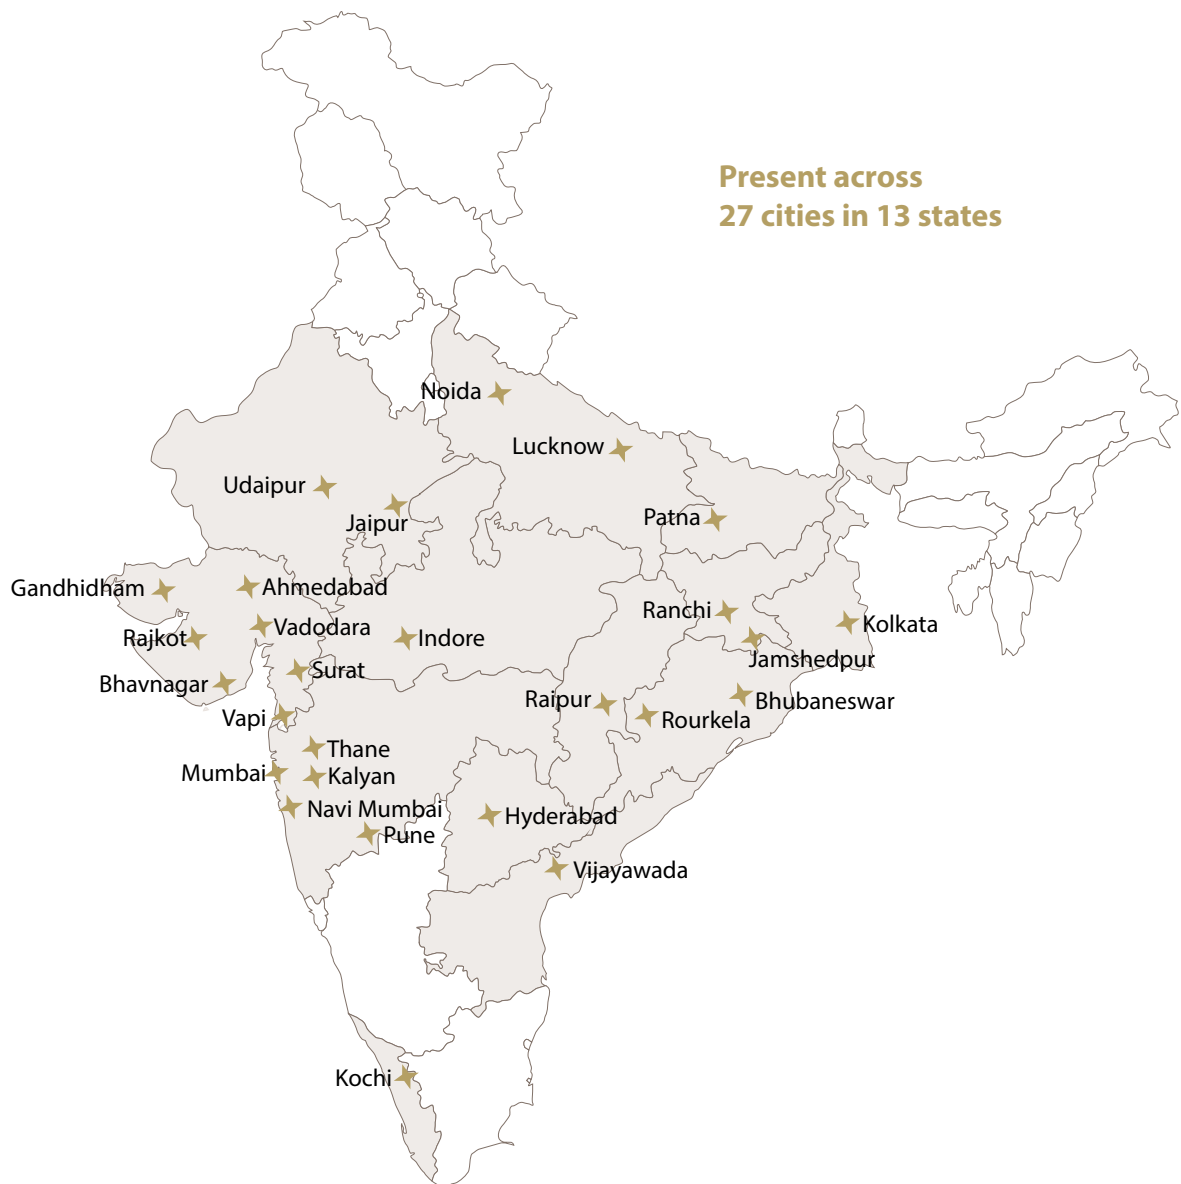

**Shrikant Zaveri**

## CELEBRATING 3 NEW STORES IN JAIPUR, BHUBANESWAR & ROURKELA

Dedicated to strengthening our footprints and providing a world-class jewellery buying experience to our customers, we opened three new stores in FY 2024-25. The stores are an opportunity for our consumers to explore our exquisite collection closer to their homes and benefit from the vast knowledge and experience of our skilled workforce.

# Many celebrations, one brand - Crafted to stand apart

A wedding, cocktail party, birthday or just another day out – TBZ - The Original's expansive jewellery collection stands apart as an indisputable choice in the mind of our consumers, no matter their age or occasion. This distinctive edge is driven by the trust earned over the last 160+ years through our innovative prowess, bespoke designs, high quality, superior in-store experience and our ability to respond with agility and resilience to the dynamic economic landscape.

## INNOVATION

Innovation upholds our legacy and fuels our ambition to be the leading jewellery brand in India. Backed by a thorough market research, we introduce a variety of new jewellery lines every year and experiment across multiple themes, price points and demographics. Other than helping us to match the evolving tastes and preferences of our consumers, it allows us to capitalise on the remarkable growth of the expanding Indian middle class and their surging aspirations and spending in India.

## DESIGN EXCLUSIVITY

Unique, original and bespoke designs underpin our ability to retain and nurture a loyal base of multi-generational clientele. Each piece is created with unmatched attention to detail, powered by the creativity of our skilled craftsmen and our in-house diamond manufacturing facility. We don't just run behind trends. We also ensure that each of our designs are curated to match the diverse personalities and expectations of our varied consumers and can be worn across a wide range of occasions.

### EXCEPTIONAL IN-STORE EXPERIENCE

Well-trained employees at our stores know just how to make the customer's visit pleasant and memorable. Customising the experience as per consumers' need, budget and occasion, our team gently guides them through our exclusive jewellery pieces to their utmost satisfaction. Being a future-focussed organisation, we also offer personalised digital experience to our consumers, ensuring seamless engagement across multiple channels.

### HIGH-QUALITY STANDARDS

Quality is paramount at TBZ - The Original. Our processes and policies, coupled with our commitment to authenticity and design and craftsmanship excellence, ensure that we deliver products which meet the highest standards of quality and foster customer trust and loyalty.

## Our Portfolio

# Timeless collection for every celebration

Cherished by millions across India, we offer an exclusive variety of gold, diamond, platinum and stone-studded collection, across a variety of themes, inspired by our rich cultural heritage and bold vision for the future. Featuring an ecstatic blend of traditional and modern designs, our portfolio is differentiated by our relentless pursuit for innovation, deep understanding of consumer's needs and aspirations, in-house manufacturing facilities and close attention to quality and details.

Jewellery is not just an accessory – it's also an extension on one's personality. At TBZ - The Original, we understand this. Our designs, therefore, are especially curated to offer infinite options for the specific needs and moods of our consumers. Be it a light-weight earring for their office or a bold statement necklace to mark a momentous occasion, a stone-studded jewellery when they wish to stand out or a sleek diamond set for quiet soulful evenings, our timeless collection holds a masterpiece for every celebration, catering to different price points.

Central to our portfolio's success is our loyal base of clients spanning many generations. Constant engagement with them provides valuable feedback, offering insights into the changing preferences and trends among different age groups. Integrating such insights into our product development and strategy has enabled us to remain at the forefront of the jewellery industry and create products and designs that resonate with our customers across all demographics.

## Our manufacturing facility

# Manufacturing one masterpiece at a time

Our unique and stunning portfolio, establishing us a distinguished and trusted brand, is attributed to our state-of-the-art manufacturing facility in Kandivali, Mumbai. Equipped with latest equipment and advanced technology, the facility serves as the foundation for TBZ - The Original's innovation and manufacturing excellence.

By ensuring precision, consistency and quality at every stage – from design conceptualisation to final polish, it empowers us to build a collection that is meticulous and seamlessly fulfils the expectations of our consumers across diverse segments.

The in-house diamond jewellery manufacturing enables us to oversee our products at every step, offering absolute control on quality and helping us to bring our design vision to a luxurious reality. Besides ensuring design exclusivity, it also results in lower costs and higher margins, providing us with a competitive edge in the industry. Additionally, adoption of advanced inventory management systems and process automation has significantly improved our operational efficiency.

## Marketing initiatives

# Driving impact with strategic marketing

A slew of marketing campaigns were implemented throughout the year to drive brand awareness, expand our reach and grow our customer base. We launched our festive campaign for FY 2024-25 with a new campaign featuring our long time brand ambassador Sara Ali Khan. Her youthful charm, elegance and vibrant personality resonate perfectly with our brand's ethos of timeless beauty and contemporary style.

## KEY CAMPAIGNS

Many customer-centric campaigns and targeted outreach programmes were rolled out in FY 2024-25 to build engagement, ensure sustained customer loyalty and drive repeat visits to our stores.

### TyohaarMatlabTBZ:

The campaign showcased our jewellery for key looks such as Bridal, festive and everyday wear as adorned by Sara Ali Khan. We also unveiled an exclusive digital launch of IRIS, a pastel-hued diamond collection. The campaign showcased pink-hued diamond rings and earrings, set in a green embrace.

### ShaadiMatlabTBZ:

The campaign was designed to highlight premium bridal jewellery, reinforcing the Company's leadership in the wedding jewellery segment.

### Gift of Love:

Launched in December 2024, the campaign featured a festive red theme and focussed on diamond jewellery as timeless gifts for the holiday season.

### Diamond No Making (DNM) Festival:

The festival was launched in July 2024 and offered 100% off on diamond jewellery making charges, driving high footfall and brand engagement.

### Festival of Diamonds:

In the Month of July 2024, the Company launched three new diamond collections – Sway, Maya and Sitara – set against scenic monsoon backdrops, enhancing the seasonal appeal.

### Brides of TBZ:

In August 2024, we celebrated 160 years of TBZ - The Original with a bridal campaign, offering 0% making charges on diamond jewellery and up to 50% off on gold jewellery making charges.

### Localised Festive Campaigns:

Tailored campaigns for East (Durga Puja), South (Varalakshmi) and Rest of India, with the launch of the "Vivaaha" Bridal Edit 2024, were initiated in September 2024.

### Akshaya Tritiya Campaign:

The campaign focussed on capturing new year sentiment by offering 50% off on gold jewellery making charges and 100% off on diamond jewellery making charges. Additional cashback for SBI Credit Card holders was also offered.

### Right Choice Right Price:

Launched in June 2024, the campaign highlighted the Company's wide range, competitive pricing and 160 years of trust. Key offerings included 103% value for old gold against new purchases and flat ₹ 399 per gram making charges on select gold jewellery.

Other than these, festive promotions were launched in October and November 2024, offering flat ₹ 499 per gm making charges on gold jewellery and 100% off on making charges for diamond jewellery.

# Together for a Better Tomorrow

At TBZ, we remain committed to building bridges of hope and creating pathways for transformation for the underserved and disempowered through focussed CSR initiatives in the areas of education, women empowerment, healthcare and community engagement. By empowering marginalised communities, we strengthen families, uplift our neighbourhoods and contribute to a more equitable society.

Our Corporate Social Responsibility (CSR) philosophy has always been centred on creating a meaningful impact in the lives of economically and socially challenged communities across India. Through an integrated approach to development, we aim to foster long-term, sustainable change – especially for victimised women. Social responsibility is deeply embedded into our business ethos, enabling us to address societal challenges such as gender-based violence and promote gender equality. We also aim to provide comprehensive support to survivors of all ages

affected by physical, emotional, verbal and sexual abuse in domestic relationships.

Since 2016, TBZ has been actively working to support women who face social neglect. Recognising the alarming rise in domestic violence during the COVID-19 pandemic, the Company launched several targeted initiatives to assist and protect women in distress. Crisis intervention, one of the key enablers among these initiatives, facilitates dialogue and emotional support to distressed women.

## Flagship Project:

### **PANKHI – EMPOWERING WOMEN SURVIVORS TO RECOVER & REHABILITATE**

Our flagship initiative, "Pankhi", is dedicated to providing education and support services to adolescents and women survivors who have suffered from domestic violence, with the aim to help them heal and rebuild their lives with dignity. Launched in 2016, Pankhi has supported hundreds of neglected and victimised women by offering them guidance and resources to become self-reliant – socially, emotionally and economically. The programme adopts a holistic approach, involving skill development, education, counselling and community engagement, to uplift women in distress.

Our commitment to women empowerment is strengthened by long-standing collaborations with esteemed organisations such as Stree Mukti Sanghatana, Urja Trust, Cultural Academy for Peace and Ahmedabad Women Action Group. These partnerships equip us with the necessary resources to reach and support numerous women through counselling, mental health care, family welfare programmes, government scheme facilitation and educational assistance.

During the year, we continued to broaden our outreach and deepen our impact, taking big strides in our journey towards women empowerment and gender equality. Our efforts include:

- ✦ Prevention and awareness campaigns
- ✦ Access to essential services (helplines, legal aid, shelter homes)
- ✦ Support for survivors in public and private spaces
- ✦ Advocacy with government bodies for policy formulation and reform
- ✦ Collaboration with local shelters to provide safe spaces and crisis intervention

### Gender equality:

Our CSR efforts are aimed at promoting gender equality, a key enabler in raising awareness, providing education on best practices and progressing towards eradication of gender discrimination.

#### Broader Impact and Outreach of our Campaigns

- ✦ Current Presence in Mumbai, Kochi and Ahmedabad
- ✦ Our initiatives have directly impacted over 1,083 survivors across India
- ✦ 14,750 individuals were empowered through multiple awareness sessions on various topics
- ✦ 3,530 Joint sessions were organised with immediate families to resolve gender-based issues under project Pankhi
- ✦ “Bindi” and “mulgi zali ho” were recognised as the most famous performances on gender sensitisation
- ✦ Police, community women, community leaders, hospital staff, counsellors and college students (both male and female) were actively engaged in our programmes

- ✦ Gender-based violence was addressed through education, direct services and awareness campaigns, with sessions covering topics such as identification of survivors, relevant laws and available support schemes

## PANKHI HELPLINE

Pankhi helpline is a free helpline for survivors, connecting them with the nearest NGO. The survivor receives prompt support through the contacted NGO and Crisis Intervention facility is also extended, if required, empowering the affected women to make the right decisions for themselves.

NGOs and support networks play a critical role in this endeavour by offering immediate care, spreading awareness and contributing to the much-needed cultural and attitudinal change.

### Crisis Intervention Centre

Crisis Intervention Centres provide immediate support to victims and their families, offering shelter, food, legal aid, healthcare, mental health support and a pathway to rehabilitation. Safe shelters offer survivors a secure space to escape violent environments and receive timely aid. These shelters also provide emotional support, contributing to the recovery, restoration and empowerment of domestic violence victims. Other than offering a safe space, the Crisis Intervention Centres also play a crucial role in providing comprehensive support to the survivors through counselling, career guidance and organising programmes that facilitate them with the necessary tools for self-sufficiency.

31 women were supported during the year under this project.

### Case Study :

A widow survivor lived alone in her house. After the demise of her second husband and minimal contact with her stepchildren, she decided to hire a caretaker to help her with the daily tasks. Consumed by isolation and lack of family support and emotional intimacy, she started showing signs of psychological discomfort. Taking undue advantage of this, her caretakers robbed her financially, raising an alarm and concern amongst her bankers, who approached us for guidance and support. Considering the situation, our counsellors acted immediately and attempted to establish contact with her close and distant family members, but encountered opposition. Fortunately, the women's neighbours and fellow community members showed care, expressing their readiness to help. Encouraged by their support and to prevent further decline in the women's mental health, the organisation collaborated with the local government hospital to facilitate her admission into a private nursing home, where she could receive specialised medical treatment. Intervention was also sought from the local police to secure her financial assets and prevent further exploitation.

Through these concerted efforts, involving law enforcement, financial institutions and medical professionals, alongside community support, the woman is now receiving appropriate medical and psychological care in a safe environment and is experiencing a significant improvement in her condition. This case highlights the importance of interagency collaboration and community support in addressing the complex needs of vulnerable individuals.

### Women Healthcare Intervention

Often, women neglect their own health due to societal and family responsibilities. Recognising this issue, TBZ, in collaboration with Cancer Patient Aid Association, hosted cancer screening camps in Mumbai for the detection of cervical cancer and breast cancer amongst women from disadvantaged communities.

Cervical Cancer is the fourth most prevalent cancer among women worldwide. In India, breast cancer accounts for 14% of all female cancers. The free screening camps, therefore, served as a gamechanger for many participants, aiding them in detection of life-threatening health disorders. A total of 4 medical camps were organised screening 134 participants. Conducted four HPV & Breast Cancer Detection camps in underprivileged areas of Mumbai.

### Ek Disha

English language is not just a subject taught in schools – in an increasingly interconnected world, it is a gateway to personal development and global opportunities. Recognising this, we partnered with Pehlay Akshar Foundation, offering them comprehensive support in their mission of 'empowering children through English literacy and fostering the development of a learning mindset'. Since 2022-23, the partnership has led to the establishment of English Room and English Room on Wheels in 3 schools of Mumbai and Thane.

Construction of English room: Thane school refurbished

### English Room and English Room on Wheels:

These initiatives are a testament to our focus on providing quality education and helping underprivileged children to learn and master English language.

- ✦ English Room: Dedicated learning places (libraries) are being set up in government schools, where trained teachers use digital media and play-based methods to teach Spoken English.
- ✦ English Room on Wheels: In places where setting up a library is not possible, materials and books to learn English are being provided in big boxes.

26 teachers have been trained and 1,169 students have been supported through a total of 2,251 sessions conducted under this initiative in FY 2024-25. 128 story telling sessions were also organised other than 188 theatre sessions. Children also participated and performed in the KALA GHODA art festival during the year.

### TEACHER, GIDRELANE SCHOOL

“

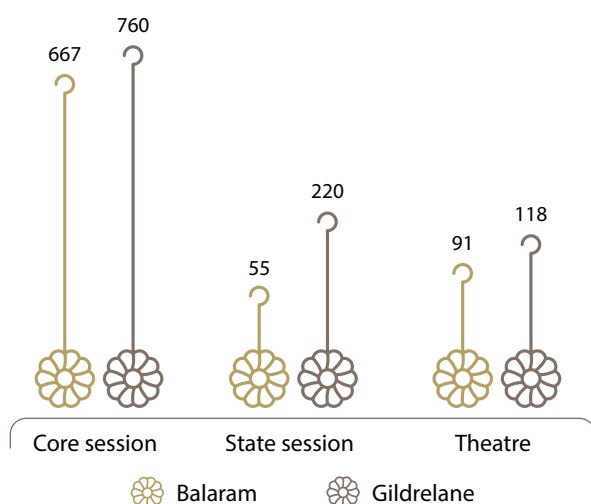

*Pehlay Akshar Foundation plays a vital role in helping our students learn English. They use engaging audio-visual aids that make learning enjoyable and effective. These tools are incredibly helpful in developing new skills and enhancing knowledge. The Foundation also provides training for teachers, which has been immensely beneficial for our school.*

### STUDENT, BALARAM SCHOOL

“

I really enjoy spending time in The English Room. Samreen Ma'am makes learning fun and exciting. She teaches us English through games and stories, which makes it easy to understand and remember. We read many interesting stories and I always look forward to our sessions. Studying in the English Room is fun and Samreen Ma'am is amazing!

### ACTIVITIES CONDUCTED 2024-25

### Continuing Our Commitment to Inclusion

We remain committed to fostering inclusion and supporting individuals with disabilities. This year, support was extended to two esteemed institutions – Victoria Memorial School for the Blind and Muskan Foundation – each of them contributing remarkably to the field of inclusive education. The students enrolled under these organisations benefit from a range of personalised therapies, tailored to their developmental needs, including music and dance therapy, physiotherapy, speech therapy and vision therapy. Holistic support is further ensured through dedicated teachers, who add immense value through their specialised knowledge and vast experience in this sector.

We also continue to empower students by providing training in the Expanded Core Curriculum. This curriculum imparts essential life skills such as independent living, self-determination, social interaction, recreation and leisure and orientation and mobility – equipping students to become more confident and self-reliant in their daily lives.

Our vision for sustainable societal change goes beyond student support. We believe in strengthening the ecosystem around each child by also focussing on their teachers and parents. To this end, we conduct capacity-building workshops and awareness sessions for parents, enabling them to better understand their child's needs and provide effective, compassionate care, thus helping families to navigate challenges while building a strong, inclusive support system.

TBZ, in association with Salaam Bombay Foundation, supported 10 young minds to receive training in technology and coding, offering them a platform to develop and display their skills and win the Regional Championship in a coding competition. The students were selected on the basis of their aptitude for robotics and willingness to learn and innovate. The selected candidates were picked up from schools where robotics education is already being provided by SBF.

## VOLUNTEERING ACTIVITIES

At the beginning of the new academic year, many students were challenged by a lack of access to clean uniforms. To address this, TBZ, in collaboration with the Rotary Club of Ghatkopar, arranged the stitching of 50 uniforms.

TBZ employees participated in a blood donation drive conducted with assistance from Sion Hospital Blood Bank. This initiative aimed to support the treatment of thalassaemia patients and encourage Sion Hospital to continue providing crucial medical assistance to thousands of individuals.

Blood Donation Drive

TBZ employees took part in a beach cleaning drive, demonstrating their commitment to environmental conservation. The event saw enthusiastic participation, with employees expressing satisfaction and happiness for contributing to a meaningful cause.

## GLOBAL ECONOMIC OVERVIEW

Global growth remained steady, yet underwhelming in FY 2024. The global economy proved resilient despite significant challenges, inflation declined and fell within targets set by the central bank and risks to outlook became more balanced, although growth remained below its longer-run average. Global growth was influenced by a mix of factors, geopolitical tensions, continued strong growth in emerging economies and the impact of monetary policy tightening in the developed countries.

The global economic activity sustained modest momentum with world GDP projected to have grown by 3.2% in 2024, according to the International Monetary Fund (IMF). The world witnessed its fair share of uncertainty given the rising geopolitical tensions and rate cuts. However, the world seems to be slowly finding the right balance between spiralling inflation and return to growth.

In the emerging market and developing economies, disruptions to production and shipping of commodities – especially oil – conflicts, civil unrest and extreme weather events resulted in downward revisions to the outlook for Middle East, Central Asia and sub-Saharan Africa. However, the forecast for emerging Asia was positive. Surging demand for semiconductors and electronics, driven by significant investments in artificial intelligence propelled growth and this trend was supported by substantial public investment in China and India. Meanwhile, Emerging Market and Developing Economies (EMDEs) have undergone a remarkable transformation, as they accounting for approximately 45% of the global GDP, as compared with 25% at the turn of the century.

## OUTLOOK

The forecast for FY 2025 is broadly unchanged from that in FY 2024, primarily due to the upward revision in the United States offsetting downward revisions in other major economies. As inflation moves closer to target levels and monetary easing supports economic activity, global growth is expected to stabilise. The global economy is expected to grow by 3.3% in 2025 and 2026, below the historical average of 3.7% in 2000-19. This is seen to be supported by improved household consumption, which is expected to be driven by income tax cuts, anticipated interest rate reductions and a return to positive real wage growth. However, risks and challenges may continue, such as the elevated interest rates.

Although global headline inflation is anticipated to decline to 4.2% in FY 2025 and to 3.5% in FY 2026, amidst risks from geopolitical tensions, wage and services costs and trade protectionism. Driven by firmer trade and investment, a broad-based and moderate expansion of 2.7% per year in inflation is forecasted for FY 2025 and FY 2026. Persistent services and wage inflation in several regions might lead to diverging monetary policy responses.

## INDIAN ECONOMIC OVERVIEW

India is poised to lead the global economic landscape, maintaining its position as the fastest-growing major economy. The economy is projected to grow by 6.4% in FY 2024-25, compared to 8.2% growth in FY 2023-24. At a time when global growth is expected to hover at 2.7% in 2025 and 2026, India's remarkable performance highlights its resilience and growing significance in shaping the world's economic trajectory. India's continued resilience highlights its growing significance in the global economy, establishing its role as a key driver of economic stability and expansion.

India's sustained momentum continues to be driven by a thriving services sector and a revitalised manufacturing base and is well supported by transformative initiatives and key reform-based policies by the government. Infrastructure modernisation, tax simplification and policy reforms are not only fuelling domestic growth, but are also reinforcing India's role as a key pillar in maintaining global economic stability. As China's economic growth slows to 4%, India's growth is a testament to ambition, innovation and immense potential in the economy.

Moving ahead, GDP growth is projected to remain steady at 6.7% in the next two fiscal years of FY 2025-26 and FY 2026-27, significantly outpacing global and regional peers. This underscores India's solid economic fundamentals and its capacity to sustain momentum, despite global uncertainties.

India's services sector is poised for robust growth, while manufacturing activity is also strengthening as a result of government initiatives to enhance logistics infrastructure and simplify tax systems. Supported by a stronger labour market, improved access to credit and lowering inflation, private consumption in India is expected to accelerate. With a steady growth outlook, India remains a crucial player in shaping the world's economic future. Supported by rising private investments, healthier corporate balance sheets and favourable financing conditions, investment growth is likely to remain steady in India. Investment growth in India is likely to remain steady, bolstered by rising private investments, healthier corporate balance sheets and favourable financing conditions.

## INDUSTRY REVIEW

### Indian Gems & Jewellery Industry

The Indian gems and jewellery market has been a prominent global player. It is a vital contributor to the Indian economy, accounting for 6-7% of the country's GDP. It employs approximately 2.5 million workers and is one of the fastest-growing, highly export-oriented and labour-intensive sectors. India is recognised as a global hub for the jewellery market due to its cost-effective production and highly skilled workforce. As the 8<sup>th</sup> largest exporter, which contributes to 3.2% of exports, India's gems and jewellery market is integral to the growth of the economy. The industry, estimated to be sized at USD 100 billion in FY 2024, is flourishing at an impressive compound annual growth rate (CAGR) of 8.93%, catalysed by an increase in disposable income among consumers and a deep-seated cultural significance that elevates the role of jewellery in social and economic spheres. Growth is anticipated to be driven by strong domestic and global demand, strategic initiatives and factors like rising disposable incomes, urbanisation, increasing demand for gold, diamonds and precious stones, cultural significance, evolving consumer preferences and festive season and the fast-growing wedding market in India.

### Factors driving growth

Some of the key growth drivers of the jewellery industry are as below:

- India's gems and jewellery market thrives on the country's rich cultural heritage, where jewellery is

more than just an accessory - it holds deep social, religious and investment significance. This cultural affinity, combined with seasonal demand, continues to reinforce India's position as a global jewellery powerhouse.

- Gold is intrinsic to the Indian culture, closely tied to religious beliefs, traditions and festivals. Festivals such as Diwali and Akshaya Tritiya further boost jewellery sales, as gold purchases are widely associated with prosperity and auspicious beginnings.
- A major driver of demand is the wedding sector, which accounts for nearly 50% of total market consumption, driven by traditional investments in bridal sets and gold ornaments. India is estimated to have around 11-13 million weddings per year and the demand for bridal jewellery looks set to remain strong over the long term. Bridal jewellery dominates the gold jewellery landscape, enjoying 50-55% of market share; weddings, together with festivals, constitute the two major gold purchase occasions in India.
- The Indian jewellery market is witnessing a notable shift as consumer preferences evolve toward lightweight and daily-wear jewellery, particularly among younger buyers and the expanding base of working professionals. This growing demand for practical yet stylish designs has fuelled the popularity of 14K and 18K gold pieces, reflecting an industry that seamlessly blends aesthetic appeal with functionality while adapting to global trends.
- India's gems and jewellery market is driven by well-established players with strong brand identities and a significant influence over industry dynamics. These key stakeholders play a crucial role in shaping the market's future, in driving growth and in adapting to evolving consumer preferences.
- Gold remains the most popular form of investment for the agricultural communities. Gold demand in the agricultural segment is seasonal and closely linked to the harvesting season.

### Future Outlook

Driven by factors like increased rural demand, a high volume of weddings and potential reductions in gold import duties, the gems & jewellery market demonstrates a strong growth trajectory. The size of the gems & jewellery industry is estimated to touch USD 168.62 billion by 2030. With a positive outlook, the industry continues to integrate global fashion trends, respond to demographic shifts and navigate economic signals. This adaptability reinforces India's position as a dominant force in the global gems and jewellery sector, ensuring sustained growth and competitiveness on the world stage.

At IJS Signature 2025 that opened to a global stage in January 2025, Gem & Jewellery Export Promotion Council (GJEPC) celebrated India's rich heritage by incorporating the ancient Brahmi script into the overarching show theme of 'Brilliant Bharat'. The IJS theme showcased India's exceptional jewellery craftsmanship on the global stage. Adding a unique touch and cultural dimension to the event, the participants were encouraged to make jewellery based on the Brahmi theme, highlighting the timeless beauty of Indian craftsmanship.

### Key Challenges

Despite the strong growth of the gems and jewellery industry, the industry faces several challenges in the aftermath of a tough macro-economic, geopolitical uncertainties, rising interest rates, demand slump in major consumer markets and issues related to rough diamond sourcing. The outbreak of geo-political tensions earlier between Russia & Ukraine and then between Israel & Hamas deeply impacted jewellery exports as the demand has been volatile in the overseas markets. Additionally, with 60+ countries undergoing elections this year, this can further hamper trade in these countries.

Some of the key challenges are:

- Gold price volatility
- Rising costs of raw materials such as diamonds and platinum
- Heavy reliance on imports, making the sector highly sensitive to global economic fluctuations and geopolitical developments, influencing consumer purchasing behaviour
- Government regulations and increasing import duties, impacting the competitiveness and profitability of industry players

To counter competition from China, India needs world-class and robust infrastructure, education, empowerment and on-ground execution to elevate the industry further and to achieve the goal of Viksit Bharat. It is also in need of investments in advanced technology for gemstone processing and to implement skill development programmes to elevate craftsmanship and productivity. Government initiatives and support can position India as a global trading hub for gold and diamonds and strengthen India's global leadership, while creating substantial employment opportunities.

According to GJEPC, the sector needs the following initiatives:

- Support for co-funding global diamond promotion campaigns;
- Inclusion of jewellery parks in the harmonised infrastructure list;

- An Infrastructure Support Fund to develop a gem bourse;
- Advancing a platinum jewellery ecosystem and expanding trading centres.

### India: A Global Hub for Gems & Jewellery

India stands as a global leader in the gems and jewellery industry, ranking among the largest consumers and exporters worldwide. The country boasts exceptional expertise in gold refining, diamond cutting and the creation of intricately handcrafted jewellery, solidifying its reputation as a premier hub for fine craftsmanship. Based on its potential growth and value addition, the industry has been declared as a key focus area for export promotion by the Government.

India is a global jewellery manufacturing hub and also the world's largest diamond cutting and polishing centre. India majorly exports cut and polished diamonds, lab-grown synthetic diamonds, coloured gemstones, synthetic stone, plain and studded gold jewellery, silver and platinum jewellery, imitation jewellery and articles of gold, silver and others. Its dominance in diamond cutting and jewellery manufacturing cements India's position as a global leader in the industry. In collaboration with industry stakeholders, the Government remains committed to aggressively promote jewellery exports.

### Gems & Jewellery Exports

According to the GJEPC, India exports 75% of the world's polished diamonds. The sector plays a crucial role in boosting the country's foreign exchange earnings (FEEs). To encourage further growth, the Indian government permits 100% Foreign Direct Investment (FDI) in the sector. As per data released by GJEPC, the overall gross exports in FY 2025 (un USD til February 2025) stood at USD 2,422.9 million, reaffirming its strong international presence and competitive edge in the global market.

India exports gems and jewellery to key markets, including the USA, Hong Kong, UAE, Belgium, Singapore, Israel, Thailand, the UK, Switzerland and the Netherlands. Until June 2024, the USA remained the largest importer, with jewellery imports valued at USD 2.4 billion, compared to USD 2.69 billion in FY 2023-24. Hong Kong and the UAE also ranked among India's top export destinations, with shipments worth USD 1.1 billion and USD 1.5 billion, respectively, contributing 15.21% and 21.18% of total exports until June 2024, reaffirming India's strong global footprint in the gems and jewellery trade.

Some of the key export destinations like Belgium, Singapore, Switzerland and the Netherlands have shown steep growth in gems and jewellery imports from India

since the pre-pandemic year. Additionally, the opening of the India Jewellery Exposition (IJEX) centre in Dubai and the signing of agreements with key export destinations such as UAE, Australia, Israel, the UK and Canada, among others continue to drive exports in the post-pandemic era too.

During the period April-March 2025, net exports amounted to USD 23,473.64 million, a 12.6% growth YoY, while total imports during the year stood at USD 19,706.79 million, as per data from Gems & Jewellery Export Promotion Council (GJEPC). In April-May 2025, gross exports of Gems & Jewellery declined to USD 4,639.81 million vs USD 4,129.57 million during these two months of the previous financial year.

#### Gems & Jewellery Imports

India imports gold to meet the high demand from its jewellery industry and as a store of value, with imports rising during the festive and wedding seasons. However, imports of gold fell sharply, reaching their lowest levels in recent years due to weak demand amid high prices.

In the same period of April-March 2025, India imported USD 19,706.79 million, a decline of 17.6% YoY. In the two months of April-May 2025 of the current financial year of FY 2025-26, India made net imports of USD 3,748.62 million vis-à-vis USD 3,845.69 million in the same period of the previous fiscal year, as per data from GJEPC. Due to the economic uncertainties, buyers are shown leaning more towards the yellow metal as a haven for investments rather than splurging on lifestyle.

In a move to strengthen India's global competitiveness in the diamond sector, the Ministry of Commerce & Industry introduced the Diamond Imprest Authorisation (DIA) Scheme, effective 1<sup>st</sup> April, 2025. This initiative allows duty-free imports of natural cut and polished diamonds under ¼ carat (25 cents), including semi-processed, broken and half-

cut diamonds. The scheme aligns with beneficiation policies adopted by diamond-producing nations such as Botswana, Namibia and Angola, which mandate a minimum level of local value addition in diamond processing.

### Gold Jewellery

India, the world's second-largest consumer of gold, saw its demand rise of 5% at 802.8 tonnes in FY 2024, driven by strong jewellery and investment demand, reduction in import duty and purchases related to weddings and festivals. This growth positioned India ahead of China in gold jewellery consumption. With gold reserves of approximately 876 tonnes, India's consumption surpasses that of many developed nations, influenced by cultural traditions and demographic factors.

According to the World Gold Council, the consumption of the yellow metal is projected to be lower at 700-800 tonnes in FY 2025, moderating from the last nine years' peak. Increasing prices of gold is dampening jewellery demand, even as investment demand rises, particularly in gold Exchange Traded Funds (ETF). Domestic gold prices have reached a record high of 84,399 rupees per 10 grams. Jewellery demand makes up 70% of India's total gold demand.

A record 4,974 metric tonnes of gold was reportedly bought in FY 2024, pushing the total market value to USD 382 billion. Gold investments increased 25% during the same period, with ETFs experiencing their first positive inflows since 2020. China and India led these inflows, as investors sought gold bars and coins amid concerns over economic growth, persistent geopolitical tensions and falling interest rates.

### Key Drivers of India's Gold Affinity

- **Cultural Significance:** Gold plays a vital role in Indian culture and religion, symbolising prosperity and being integral to weddings, festivals and auspicious occasions.
- **Wealth Preservation & Investment:** Gold is seen as a safe-haven asset and serves as a hedge against economic uncertainty and inflation.
- **Jewellery Demand:** A major portion of India's gold consumption comes from jewellery, valued both as adornment and a traditional form of investment.
- **Investment Surge:** Gold investment demand grew notably in FY 2024, with retail investors increasing their exposure amid rising prices.

- **Rising Prices:** Gold prices surged 28% in 2024 and have already gained more than 25% in the first half of CY 2025, fuelling continued interest from investors anticipating further appreciation.

### Changing demographics

India's gold market is undergoing a huge shift due to the evolving demographics. With a younger, more financially savvy population and increased financial inclusion, potentially impacting traditional gold investment patterns, while still retaining cultural significance, India's gold market stands at a pivotal juncture.

### Wedding demand

Although record-high gold prices have dampened demand, particularly for jewellery, with purchases now largely limited to essential needs, primarily weddings. With weddings serving as a key driver of demand, gold jewellery has become an integral part of a bride's attire and a cherished gift from family and guests. Gold remains integral to Indian weddings, valued not only for its cultural and sentimental significance, but also as a symbol of prosperity and adornment, ensuring steady jewellery demand.

### Gold – A safe haven asset

Gold's appeal stems from several key factors. It is widely regarded as a safe-haven asset, maintaining its value even during economic downturns. Unlike paper currency, gold cannot be devalued through excessive printing, making it a strong hedge against inflation. Its price is generally more stable than stocks and other securities, offering investors a reliable store of value. In India, gold has historically been one of the most sought-after assets, playing a crucial role in wealth preservation and inheritance, alongside land ownership.

Investment demand for gold is expected to rise amid global geopolitical and macroeconomic uncertainties, as well as the asset class's relative outperformance. All these factors collectively contribute to the sector's positive growth outlook. Looking ahead, seasonal factors and wedding-related purchases are expected to lend support to gold demand in the near future. (Source: World Gold Council)

### Organised Jewellery Industry – India

The organised jewellery industry in India is a significant contributor to the economy, accounting for 7% of the country's GDP and employing over 5 million people. In

recent years, the sector - comprising chain stores and larger retailers - has gained substantial market share, driven by increasing formalisation, evolving consumer preferences and a demand for enhanced shopping experiences. India's jewellery sector is undergoing a significant transformation, with formalisation gaining momentum. Organised players now command 36-38% of the market, a notable increase from 22% in FY 2019, reflecting a shift towards transparency, efficiency and consumer trust.

This shift has been fuelled by increasing consumer trust in branded retailers, rising disposable incomes, mandatory hallmarking regulations and a growing preference for lightweight, versatile jewellery that suits modern lifestyles. India's organised jewellery sector is poised for strong growth, with projected revenue expansion of 17% in FY 2025-26, driven by robust wedding season demand and rising investment interest.

One of the key reasons behind the shift towards "the organised segment" is the assurance of quality and transparency. Organised jewellers offer hallmark-certified products, competitive pricing and clear buyback and exchange policies, making them a preferred choice for consumers. Additionally, buyers with legitimate financial transactions prefer associating with established brands that adhere to regulatory standards.

Compared to local jewellers and small shops, organised players provide a wider variety of contemporary designs, superior craftsmanship and a seamless shopping experience. Their ability to leverage advanced technology, customer service and branding further enhances trust and convenience for buyers. With a focus on quality, transparency and customer-centric services, organised jewellers are well-positioned to outperform their unorganised counterparts, shaping the future of India's jewellery industry.

Industry leaders are capitalising on these trends by expanding aggressively through franchise models and catering to evolving preferences for daily wear and studded jewellery. This transformation marks a new era for India's deep-rooted affinity for gold, blending tradition with contemporary style and convenience.

## GROWTH DRIVERS & OPPORTUNITIES

**Rising Disposable Income and Favourable Demographics Driving Jewellery Demand:** The growing young middle-class population, the rise of dual-income households and increasing disposable income have significantly boosted spending on luxury items, particularly high-quality branded jewellery. Gold, deeply embedded in Indian culture as a symbol of wealth and prosperity, continues to drive sustained demand, especially during ceremonies and celebrations.

Additionally, millennials, Gen Z and tech-savvy consumers, who are highly brand-conscious, are further propelling the demand for premium, branded jewellery. Emerging market consumers are increasingly drawn to established brands that evoke trust and offer an aspirational lifestyle, fuelling growth in the branded jewellery segment.

**Rapid Growth of E-Commerce and Digital Platforms:** The widespread adoption of smartphones and digital technology has revolutionised jewellery shopping, driving a surge in online sales and expanding market accessibility. Consumers now have access to a diverse range of jewellery designs and products at their fingertips. Additionally, the influence of social media has heightened awareness of fashion trends, jewellery styles and premium brands, shaping purchasing decisions. This shift in consumer behaviour presents immense growth opportunities for the gems and jewellery industry, enabling brands to reach a broader audience and enhance their market presence.

**Rising Demand for Lightweight Fashion Jewellery:** The growing preference for lightweight fashion jewellery, especially among younger consumers, is driving significant expansion in this segment. With a focus on affordability, style and versatility, millennials and Gen Z shoppers are increasingly opting for contemporary designs suited for everyday wear and special occasions. This evolving trend presents a lucrative opportunity for the Indian gems and jewellery industry, encouraging brands to innovate and cater to the demand for modern, budget-friendly jewellery options.

**Uncorporatised Jewellery Sector:** With half of the gems and jewellery sector remaining unincorporated, it offers significant opportunities for greater organisation and formalisation within the domestic retail segment. This shift is expected to drive efficiency, transparency and long-term growth in the industry.

**An Emerging Global Hub for Gems and Jewellery:** Amid shifting global economic dynamics and rising geopolitical tensions, India is gaining prominence as a preferred destination for the gems and jewellery industry. As one of

the world's fastest-growing economies, the country is well-positioned to benefit from the 'China Plus One' strategy, with international corporations actively diversifying their sourcing away from China.

### THREATS AND CONCERNS

**Inflation and surge in gold prices:** The surge in gold prices has significantly impacted gold consumption, particularly in jewellery, which accounts for nearly three-quarters of India's total demand. However, rising inflation and economic slowdowns in key markets could dampen consumer interest in gold, gems and jewellery. Weak demand in both domestic and international markets may also result in a decline in exports.

**Rising Geopolitical Tensions and G7 Sanctions on Russian Diamonds:** Rising geopolitical tensions, including the Russia-Ukraine war and conflicts in the Middle East, present challenges for India's gems and jewellery industry. The G7's sanctions on Russian diamonds - banning direct imports from 1<sup>st</sup> January, 2024 and restricting diamonds processed in third countries from 1<sup>st</sup> March, 2024 - have intensified concerns. With India heavily reliant on Russian rough diamonds, these restrictions could disrupt supply chains, impact the production of polished diamonds and weaken India's export market.

**Reliance on Imports:** India's gems and jewellery industry heavily depends on imports, sourcing nearly 90% of its raw materials, including rough diamonds and gold bars. This reliance makes the sector vulnerable to regulatory changes and supply chain disruptions, which could impact the availability of essential materials for diamond and gold jewellery production.

**Industry Fragmentation:** The Indian gems and jewellery industry remains highly fragmented and largely unorganised, dominated by small, family-run jewellery shops with long-standing customer trust. Many consumers prefer these local businesses over organised retailers due to price advantages, making it challenging for the organised sector to expand its market share.

### INDUSTRY OUTLOOK

India's gems and jewellery industry is entering FY 2026 with optimism, having successfully navigated challenging market dynamics in FY 2025. The growth of the sector in the coming years will be driven largely by the expansion of large retailers and established brands. These brands are shaping the organised market, creating new opportunities for growth. The increasing presence of organised players is enhancing product variety and design innovation.

Additionally, the relaxation of gold import restrictions is expected to further boost the industry.

With strong demand and positive industry developments, India's gems and jewellery sector is poised for significant growth, projected to reach USD 168.62 billion by FY 2030. The strong growth trajectory of the domestic jewellery sector underscores its crucial role in driving India's economic progress and enhancing its global stature, reinforcing the country's position as a powerhouse in the industry.

The industry is poised for a transformative decade, driven by innovation, global expansion and unprecedented growth, solidifying its position as a global leader. Improved availability of gold, the reintroduction of low-cost gold metal loans and the stabilisation of gold prices at lower levels are likely to drive volume growth in the short to medium term. India, home to 450 organised jewellery manufacturers, importers and exporters, continues to be a global hub for jewellery production and these businesses will continue to be greatly benefited from the government's progressive policies.

The domestic jewellery sector is experiencing significant growth, with projections suggesting the addition of over 5,000 new gems & jewellery stores being added in the next five years. This expansion will be driven by strong and sustained demand for gold and diamond jewellery, reflecting India's deep-rooted affinity for precious metals. With a robust outlook for the coming years, India continues to stand out as a shining star in the global jewellery market.

### Risk Management

The Company has an efficient risk management framework for the timely identification, assessment and mitigation of key business and operational risks. The Company's key risks and their corresponding mitigation measures are depicted below:

#### Macroeconomic risk

**Impact:** Geopolitical tensions, global economic slowdown, supply chain disruptions, high inflation and record-high gold prices could potentially affect consumer spending and the demand environment in both domestic and international markets and adversely influence the Company's exports, profitability and growth trajectory.

**Mitigation:** The Company is committed to expanding its geographical presence, enhancing its e-commerce capabilities and innovating its product offerings to strengthen its market position. Additionally, it maintains a strong focus on the domestic market, thereby mitigating the impacts of international economic challenges. Furthermore, its geographic diversification minimises reliance on any single economy in the event of adverse global circumstances.

#### Margin risk

**Impact:** Fluctuations in commodity prices and exchange rates could affect the Company's profit margins and overall profitability.

**Mitigation:** The Company adopts a strategic approach to minimise the risks associated with margin pressures and operational inefficiencies. This includes implementing cost optimisation measures, expanding its network through an asset-light franchise model, procuring inventory through increased participation in gold loan schemes and cultivating enduring supplier relationships. These initiatives empower the Company to effectively navigate volatile market conditions.

#### Competition risk

**Impact:** The gems and jewellery industry encounters fierce competition from the expanding influence of unorganised sector. The inability to deliver high-quality and aesthetically

appealing products could impact the market share and expansion prospects of organised players.

**Mitigation:** With its superior brand recognition, unique product offerings and stellar performance, the Company has solidified its position as a leading and preferred jewellery brand in India. Furthermore, continuous investments in research, product innovation and robust branding and marketing efforts enhance its brand positioning and customer relationships.

#### Raw material risk

**Impact:** The Company's inability to timely procure raw materials at competitive prices may adversely impact its operations and profitability.

**Mitigation:** With a highly skilled and dedicated team, along with a well-defined central procurement policy, the Company maintains effective inventory management practices. It capitalises on the gold loan scheme and strong partnerships with reputable suppliers of polished diamonds to secure raw materials promptly and cost-effectively.

#### Human Resources

TBZ - The Original regards its human resources as its most valuable asset and acknowledges their pivotal role in the Company's growth journey. Its well-crafted HR policies cultivate a culture of competitiveness, work-life balance and teamwork among employees, ensuring the organisation is future-ready. It strives to create a safe, transparent and inclusive work environment to enhance employee morale and productivity. The Company advocates for equal opportunities and encourages competitiveness to unlock the full potential of its workforce.

The Company places a strong emphasis on training and skill development initiatives to enhance employee capabilities and consistently engage its workforce. It regularly conducts skill development and training programmes across all levels to augment employee competencies. The Company is focussed on nurturing high levels of employee engagement, ensuring consistent performance and fostering an innovative mindset to mitigate attrition. It organises periodic interactive sessions between management and

employees to nurture a growth-oriented culture. As on 31<sup>st</sup> March, 2025, the Company's total employee strength stood at 1,071 employees.

#### Internal Controls

The Company has established well-framed internal control systems tailored to the nature, size and complexity of its business. These internal controls encompass various aspects of governance, compliance, audit, control and reporting. They ensure efficient use and safeguarding of the Company's assets, detect and prevent errors and fraud, address evolving risks in the business, prepare reliable and accurate financial reports in a timely manner, maintain accurate and comprehensive accounting records and ensure stringent compliance with laws and regulations.

The Company periodically monitors adherence to internal controls, ensuring proper documentation and regular evaluation and updation by both internal and statutory auditors. Audit firms appointed by the Company closely oversee and review the efficiency of these internal controls, promptly reporting any discrepancies to the management and Audit Committee for necessary action.

## GENERAL NOTES:

1. The Ministry of Corporate Affairs ("MCA"), vide its General circular nos. 14/2020 dated 8<sup>th</sup> April, 2020, 17/2020 dated 13<sup>th</sup> April, 2020 and 09/2024 dated 19<sup>th</sup> September, 2024 (collectively "MCA Circulars") and Securities and Exchange Board of India ("SEBI") vide its circular nos. SEBI/HO/CFD/CMD1/CIR/P/2020/79 dated 12<sup>th</sup> May, 2020 and SEBI/HO/CFD/CFD-PoD-2/P/CIR/2024/133 dated 3<sup>rd</sup> October, 2024 (collectively "SEBI Circulars"), have permitted companies to conduct AGM through Video Conference ("VC") / Other Audio Visual Means ("OAVM"), subject to compliance of various conditions mentioned therein. In compliance with the aforesaid MCA and SEBI Circulars, applicable provisions of the Companies Act, 2013 ("the Act") and Rules made thereunder and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, ("Listing Regulations"), the 18<sup>th</sup> Annual General Meeting ("AGM") of the Members of the Company is being convened and conducted through VC. The Registered Office of the Company shall be deemed to be the venue for the AGM.
2. The Explanatory Statement pursuant to Section 102 of the Act setting out material facts relating to the Special Business to be transacted at the AGM, is annexed hereto. Further, additional information as required under the Listing Regulations read with Circulars issued thereunder and Secretarial Standard on General Meetings ("SS-2") are also annexed.
3. The Company has enabled the Members to participate at the AGM through VC facility provided by KFin Technologies Limited, Registrar and Share Transfer Agents ("Kfintech" / "RTA"). The instructions for participation by Members are given in the subsequent pages. Participation at the AGM through VC shall be allowed for at least 1,000 Members on a first-come-first-served basis.
4. As per the provisions under the MCA Circulars, Members attending the AGM through VC shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.
5. As per Section 105 of the Act, a Member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on their behalf. Since the AGM is being held through VC as per the MCA Circulars, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for the AGM and hence the Proxy Form and Attendance Slip including Route Map are not annexed to this Notice.
6. Institutional / Corporate Members (i.e., other than individuals, HUF, NRI etc.) are required to send a scanned copy (PDF / JPG Format) of its Board or governing body Resolution / Authorisation etc., authorising its representative to attend the AGM through VC / OAVM and vote on its behalf. The said Resolution/ Authorisation should be e-mailed to the Company at [investors@tbzoriginal.com](mailto:investors@tbzoriginal.com) and to Company's RTA at [einward.ris@karvy.com](mailto:einward.ris@karvy.com) or [evoting.kfintech.com](mailto:evoting.kfintech.com). Further, Institutional Members / Corporate Members can also upload their Board Resolution / Power of Attorney / Authority Letter etc. by clicking on 'Upload Board Resolution / Authority Letter' displayed under 'e-voting' tab in their login.
7. The Register of Members and the Share Transfer Books of the Company will remain closed from Wednesday, 3<sup>rd</sup> September, 2025 to Tuesday, 9<sup>th</sup> September, 2025 (both days inclusive) for the purpose of determining eligibility of Members entitled to the dividend for the financial year 2024-25.
8. The dividend of ₹ 2.25/- per equity share having face value of ₹ 10/- each (i.e., 22.50%), as recommended by the Board of Directors, if approved by the Members at this AGM, shall be paid on or after Friday, 12<sup>th</sup> September, 2025, to those Members whose names appear in the Register of Members of the Company as on Record Date i.e. Tuesday, 2<sup>nd</sup> September, 2025. The National Automated Clearing House (NACH) facility should mandatorily be used by companies for the distribution of dividend to its Members. In order to avail the facility of NACH, Members holding shares in physical form are requested to provide bank account details to the Company or its RTA.
9. Members holding shares in electronic form are hereby informed that Bank particulars registered against their respective depository accounts will be used by the Company for payment of dividend. The Company or its RTA cannot act on any request received directly from the Members holding shares in electronic form for any change of bank particulars or bank mandates. Such changes are to be advised only to the Depository Participants ('DPs') of the Members.
10. Pursuant to the Finance Act, 2020, dividend income will be taxable in the hands of Shareholders w.e.f. 1<sup>st</sup> April, 2020 and the Company is required to deduct tax at source from dividend paid to Shareholders at the prescribed rates. The Members are requested to update their PAN with the Company or its RTA (in case of shares held in physical mode) and Depositories (in case of shares held in demat mode).

11. A Resident individual Shareholder with PAN and who is not liable to pay income tax can submit a yearly declaration in Form No. 15G/15H, to avail the benefit of non-deduction of tax at source by sending an e-mail to [investors@tbzoriginal.com](mailto:investors@tbzoriginal.com) latest by 11:59 p.m. (IST) on 31<sup>st</sup> August, 2025. Members are requested to note that in case their PAN is not registered or having invalid PAN or Specified Person as defined under section 206AB of the Income Tax Act, the tax will be deducted at a higher rate prescribed under Section 206AA or 206AB of the Act, as applicable.

Non-resident Members can avail beneficial rates under tax treaty between India and their country of residence, subject to providing necessary documents i.e. No Permanent Establishment and Beneficial Ownership Declaration, Tax Residency Certificate, Form 10F, any other documents which may be required to avail the tax treaty benefits by sending an e-mail to [investors@tbzoriginal.com](mailto:investors@tbzoriginal.com). The aforesaid declarations and documents need to be submitted latest by 11:59 p.m. (IST) on 31<sup>st</sup> August, 2025.

12. Non-resident Indian Members are requested to inform about the following immediately to the Company or RTA or the concerned DP's, as the case may be:
  - a. the change in the residential status on return to India for permanent settlement, and
  - b. the particulars of the NRE account with a bank in India, if not furnished earlier.
13. The Company has provided the facility for Members to exercise their right to vote on resolutions proposed to be considered at the AGM by electronic means both through remote e-voting and e-voting during the AGM. The process and instructions for remote e-voting are provided in the subsequent paragraphs. Such remote e-voting facility is in addition to e-voting that will take place at the AGM being held through VC.
14. Members joining the AGM through VC, who have not already cast their vote by means of remote e-voting, will be able to exercise their right to vote through e-voting at the AGM. The Members who have cast their vote by remote e-voting prior to the AGM may also join the AGM through VC but shall not be entitled to cast their vote again.
15. In case of joint holders attending the AGM, only such joint holder who is higher in the order of names will be entitled to vote.
16. In line with the MCA and SEBI Circulars, the Notice of the AGM along with the Annual Report 2024-25

are being sent only by electronic mode to those Members whose e-mail addresses are registered with the Company/Depositories. Members may please note that this Notice and Annual Report 2024-25 is also available on the Company's website at [www.tbztheoriginal.com/investors/annual-report](http://www.tbztheoriginal.com/investors/annual-report) and websites of the Stock Exchanges i.e., BSE Limited and National Stock Exchange of India Limited at [www.bseindia.com](http://www.bseindia.com) and [www.nseindia.com](http://www.nseindia.com) respectively and on the website of KFinTech at [www.kfintech.com](http://www.kfintech.com). Further, the Company has sent / will be sending a letter via post / courier providing the web-link, including the exact path, where complete details of the Annual Report and Notice of the AGM is available to those Members who have not so registered their e-mail IDs with the Company / DP's.

17. Members who have not registered their e-mail address are requested to register the same in respect of shares held in electronic form with the Depository through their DP's.

In respect of shares held in physical form, Members may register their e-mail address by writing to the Company's RTA, at Selenium Building, Tower-B, Plot No. 31 & 32, Financial District, Nanakramguda, Hyderabad, 500 032, along with the duly filled in Form ISR-1 and related proofs, available at [www.tbztheoriginal.com/](http://www.tbztheoriginal.com/) and on the website of the Company's RTA at [www.kfintech.com](http://www.kfintech.com). It may be noted that any service request can be processed only after the folio is KYC Compliant.

- 34./ **Procedure for Remote e-voting and e-voting during AGM:**
  - a) In compliance with the provisions of Section 108 of the Act, read with Rule 20 of the Companies (Management and Administration) Rules, 2014, as amended from time to time, Regulation 44 of the Listing Regulations (as amended), Secretarial Standard on General Meetings ("SS-2") issued by The Institute of Company Secretaries of India and MCA Circulars, the Members are provided with the facility to cast their vote electronically, through the e-voting services provided by Company's RTA (KFintech), on all the resolutions set forth in this Notice.
  - b) Members are requested to attend and participate at the ensuing AGM through VC / OAVM and cast their vote either through remote e-voting facility or through e-voting facility to be provided during AGM.
  - c) The remote e-voting period commences on Friday, 5<sup>th</sup> September, 2025 from (9:00 a.m. IST) and ends on Monday, 8<sup>th</sup> September, 2025 (5:00 p.m. IST). During this period, Members of the Company holding shares either in physical form or in demat form, as on Tuesday, 2<sup>nd</sup> September, 2025 ("Cut-off date") may cast their vote by remote e-voting. The remote e-voting module shall be disabled by KFintech for voting thereafter. Once the vote on a resolution(s) is cast the Member shall not be allowed to change it subsequently.
  - d) The facility of e-voting during the AGM will be available to those Members who have not cast their vote by remote e-voting. Members, who cast their vote by remote e-voting, may attend

the AGM through VC/OAVM, but will not be entitled to cast their vote once again on the resolutions. If a Member cast votes by both modes i.e. voting at AGM and remote e-voting, voting done through remote e-voting shall prevail and vote at the AGM shall be treated as invalid.

- e) Individual demat account holders would be able to cast their vote without having to register again with the e-voting service provider ("ESP") thereby not only facilitating seamless authentication but also ease and convenience of participating in e-voting process. Members are advised to update their mobile number and e-mail ID with their DP's to access e-voting facility.
- f) The voting rights of Members shall be in proportion to their shares in the paid-up equity share capital of the Company as on the Cut-off date i.e., Tuesday, 2<sup>nd</sup> September, 2025.
- g) Any person holding shares in physical form and non-individual shareholders, holding shares as on the Cut-off date, may obtain the login ID and password by sending a request at [evoting@kfintech.com](mailto:evoting@kfintech.com). In case they are already registered with KFintech for remote e-voting, they can use their existing user ID and password for voting.
- h) In case of Individual Shareholders holding securities in demat mode and who acquires shares of the Company and becomes a Member of the Company after sending of the Notice and holding shares as of the cut-off date may follow steps mentioned below under "Login method for remote e-voting and joining virtual meeting for Individual shareholders holding securities in demat mode."

- i. Launch internet browser by typing the URL: <https://evoting.kfintech.com/>
- ii. Enter the login credentials (i.e. user ID and password). Members holding shares in physical mode: user ID will be EVEN, followed by folio number. Members holding shares in demat account: user ID will be DP ID and Client ID. However, if Members are already registered with Kfintech for e-voting, they can use their existing user ID and password for voting purpose
- iii. After entering these details appropriately, click on "LOGIN".
- iv. Members will be required to mandatorily change their password. The new password shall comprise of minimum 8 characters with at least one upper case (A- Z), one lower case (a-z), one numeric value (0-9) and a special character (@, #, \$, etc.,). The system will prompt to change the password and update the contact details like mobile number, e-mail ID etc. on first login. Members may also enter a secret question and answer of their choice to retrieve the password (if required). It is strongly recommended that Members should not share their password with any other person and take utmost care to keep their password confidential.
- v. Members are required to login again with their new credentials.

- vi. On successful login, the system will prompt to select the 'EVEN' i.e., 'TBZ Limited' and click on 'Submit'.
- vii. On the voting page, enter the number of shares (which represents the number of votes) as on the Cut-off date under 'FOR/ AGAINST' or alternatively, Members may partially enter any number in 'FOR' and partially 'AGAINST' but the total number in 'FOR/AGAINST' taken together shall not exceed the total shareholding as mentioned herein above. Members may also choose the option 'ABSTAIN'. If the Member does not indicate either 'FOR' or 'AGAINST' it will be treated as 'ABSTAIN' and the shares held will not be counted under either head.
- viii. Members holding multiple folios/demat accounts shall choose the voting process separately for each folio/ demat accounts.
- ix. Voting has to be done for each item of the Notice separately. In case Members do not desire to cast your vote on any specific item, it will be treated as abstained.
- x. Members may then cast their vote by selecting an appropriate option and click on 'Submit'.
- xi. A confirmation box will be displayed. Click 'OK' to confirm else 'CANCEL' to modify. Once Members have voted on the resolution(s), they will not be allowed to modify their vote. During the voting period, Members can login any number of times till they have voted on the resolution(s).
- xii. Corporate/Institutional Members (i.e. other than Individuals, HUF, NRI etc.) are also required to send scanned certified true copy (PDF Format) of the Board Resolution/ Authority Letter etc., authorising its representative to attend the AGM through

VC / OAVM on its behalf and to cast its vote through remote e-voting. Together with attested specimen signature(s) of the duly authorised representative(s), to the Scrutiniser at e-mail id [pramodshah361@gmail.com](mailto:pramodshah361@gmail.com) with a copy marked to [evoting@kfintech.com](mailto:evoting@kfintech.com). The scanned image of the above-mentioned documents should be in the naming format "Corporate Name\_Even No."

- xiii. If you have forgotten your password, you can reset your password by using 'Forgot Password' available on <https://evoting.kfintech.com> and following the password reset options provided therein or contact Kfintech at toll free no.: 1800- 309-4001.

(B) Members whose e-mail IDs are not registered with the Company/DP's and consequently the Annual Report, Notice of AGM and e-voting instructions cannot be serviced, will have to follow the following process:

- i. In case shares are held in demat mode, please provide DP Id.-Client Id. (DP Id + Client Id), name, client master or copy of Consolidated Account Statement, self-attested scan copy of PAN card and Aadhar to [evoting@kfintech.com](mailto:evoting@kfintech.com).
- ii. If you are an individual shareholder holding securities in demat mode, please refer to the login method i.e. Login method for e-voting for individual shareholders holding shares in demat mode. If you are a non-individual shareholder holding securities in demat mode, please refer to the login method i.e. Login method for e-voting for non-individual shareholders holding shares in demat mode.
- iii. In case shares are held in physical mode, please provide Folio No., name of shareholder, scan copy of the share certificate (front and back) self-attested scanned copy of PAN card and Aadhar by email to [evoting@kfintech.com](mailto:evoting@kfintech.com).

### III. Other Information

#### a. Reason for loss or inadequacy of profits

The prices of Gold are very volatile during the financial year 2024-25, due to adverse global market scenario and ongoing geopolitical issues and war situations and change in tariff rates creating a wide impact. The price of Gold has reached a new high and a constant fluctuating market has an adverse impact on sales and customer sentiment. Global uncertainties lead to high volatile and fluctuating prices of Gold and impacted demand for gold jewellery and impacted sales. Customers tend to sell the old gold jewellery / old gold at a higher price or if they buy the jewellery than they buy with the exchange of old gold / gold jewellery which has impacted the sales and the margin. Customers are waiting for the gold price to be stabilized for making fresh purchases, this factor has impacted sales.

#### b. Steps taken or proposed to be taken for improvement / Expected increase in productivity and profits in measurable terms

The Company is continuously working on retail sales strategy to attract higher store footfalls, increase the share of diamond jewellery and focus on same store sales growth.

In this volatile market and adverse geopolitical situation, the Company has continued to focus on providing the safest, best & most convenient retail shopping experience to every customer by taking various initiatives and sales promo during the uncertain global market scenario. The Company is following the directives of the local authorities with complete adherence to all safety precautions as prescribed by them. The customers are provided with the social media-based communication and One on One consultations with customers. The focus is on ensuring that customers have online access to the brand. The Company is focusing on the 'affordable diamonds' campaign and other festive/occasion-based campaigns per region. The Company is confident that with its approach of focusing on Contemporary designs, Consumer friendly tech interventions and a well-trained and motivated sales team, it is well-positioned to take advantage of the rebound in consumer buying in the months to come. To protect liquidity and ensure adequacy of cash flows, the Company has taken several significant cost efficiencies measures & rationalised its inventory to eliminate any possibility of stress on its cash flows, thereby maintaining a stable and comfortable liquidity position. The Company shall come out of the shadow of this pandemic as a brand that is agile, lean and poised for sustainable growth in years to come.

The Company has taken adequate steps to rationalize its inventory in terms of right sizing it and the benefits of the same shall accrue over the current financial year and beyond. It has maintained strict control on its operating expenses. It has taken measures to reduce the debt cost by procuring its gold requirements through the Gold on Loan model. This measure also ensures that the metal is protected from price volatility by way of a natural hedge process.

#### **IV. Disclosures:**

The details of remuneration paid to all Executive Directors along with other relevant details are provided in the Corporate Governance Report which forms part of the Annual Report. As required the details of remuneration proposed to be paid to the Managing Director and Whole-time Directors are provided in respective resolutions and explanatory statements above. The above statement annexed with the notice is disclosed pursuant to the provisions of Sections 196, 197 and all other applicable provisions of the Act and Rules made thereunder read with Part II of Schedule V of the Act forming part of Item Nos. 5, 6 and 7 of the Notice.

**n. Commodity Price Risk or Foreign Exchange Risk and Hedging Activities:**

The Company has a price review mechanism to protect against material movements in prices of gold. Gold price is directly driven by various international factors and stringent domestic government policies. The Company monitors the gold price on a regular basis using pricing trends and forecasts from internationally reputed news agencies and international factors. In order to mitigate the risk of gold price fluctuation, the Company's endeavour is to maximise the procurement of gold under gold loan scheme from various banks which will help to reduce the risk due to gold price fluctuation by way of 'natural hedging'. In addition to procuring gold on loan, the Company also does hedge in domestic markets on the MCX Exchange as per business requirement to ensure protection from gold price fluctuation.

The Company procures gold from various banks and other domestic sources available and does not directly import gold from the international market, in that connection, the Company is not directly exposed to Foreign Exchange Risk. As foreign exchange fluctuation has an impact on gold price, the Company is updated with the currency forecast received from various banks and keeps a close eye on important data announcements such as unemployment data of US, G7 meetings, non-farm payroll of US, RBI announcements etc.

**o. Plant Location:**

In view of the nature of the Company's business i.e. Gems and Jewellery, the Company operates from various stores on pan India basis.

# Independent Auditor's Report

To the Members of  
**Tribhovandas Bhimji Zaveri Limited**

## Report on the Audit of the Standalone Financial Statements

### Opinion

We have audited the accompanying standalone financial statements of Tribhovandas Bhimji Zaveri Limited ("the Company"), which comprise the Balance Sheet as at 31<sup>st</sup> March, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information. (Hereinafter referred to as "standalone financial statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31<sup>st</sup> March, 2025, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

### Key Audit Matter

Key audit matter is this matter that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended 31<sup>st</sup> March, 2025. This matter was addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. We have determined the matter described below to be the key audit matter to be communicated in our report.

Key audit matter	How our audit addressed the key audit matter
<b>Existence and valuation of Inventories</b>	
The carrying values of Inventories of the Company are ₹ 1,46,297.42 lakh as at 31 <sup>st</sup> March, 2025 (Refer no. 12 of standalone financial statements) which constitutes 82.28 % of the Company's total assets. The Company's inventories mainly comprised of gold, diamond, silver and platinum in the distribution centers and retail outlets. Valuation of inventories is at lower of cost and net realizable value. Significant portion of inventories costs includes gold diamond, platinum and silver which are subject to risk of changes in the market value. The assessment of net realizable value of inventories is based on estimates and judgments by the management in respect of, among others, the economic condition, sales forecast, marketability of products and the quality of gold and diamond used to make jewellery products. Furthermore, there is higher inherent risk of theft and pilferage given the high intrinsic value and portable nature of individual inventory items.	<p>Our audit procedures over existence and valuation of inventories included the following:</p> <ul style="list-style-type: none"> <li>We evaluated the design, implementation and tested the operating effectiveness of key controls that the Company has in relation to safeguarding and physical verification of inventories including the appropriateness of the Company's standard operating procedures for conducting, recording and reconciling physical verification of inventories and tested the implementation thereof.</li> <li>Participated and observed the physical verification of inventory conducted by the management at retail outlet on sample basis as at 31<sup>st</sup> March, 2025.</li> </ul>

Key audit matter	How our audit addressed the key audit matter
<b>Existence and valuation of Inventories</b>	
Considering the above, we concluded that existence and valuation of inventories as a key audit matter for our audit.	<ul style="list-style-type: none"> <li>We compared the net realizable values on sample basis of gold, silver and platinum inventories calculated based on the current market price with their carrying value of inventories.</li> <li>We compared the results of independent gemological appraisal report of selected samples to the weight and purity of diamond jewellery with records in the inventories system.</li> <li>We evaluated the independence and objectivity of the gemologist appointed by management.</li> </ul>

### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report but does not include the standalone financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the other information identified above, if we conclude that there is a material misstatement therein we are required to communicate the matter to those charged with governance.

### Responsibilities of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting

policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence

that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of

most significance in the audit of the standalone financial statements for the financial year ended 31<sup>st</sup> March, 2025 and are therefore the key audit matter. We describe this matter in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order.

- (b) In our opinion, and according to the information and explanations given to us, the Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) In our opinion, and according to the information and explanations given and records examined by us, the Company has utilised the money obtained by the way of term loan (i.e. vehicle loan) during the year for the purposes for which they were obtained.
- (d) According to the information and explanations given to us and the procedures performed by us, and on an overall examination of the financial statements of the Company, we report that, *prima facie*, no funds raised on short-term basis have been used during the year for long-term purposes by the Company.
- (e) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, we report, *prima facie*, that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary. The Company does not have associates or joint ventures.
- (f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiary. The Company does not have joint ventures or associate companies.
10. (a) The Company has not raised money by way of initial public offer or further public offer (including debt instruments) and hence clause (x)(a) of paragraph 3 of the Order is not applicable to the Company.
- (b) According to the information and explanations given to us and on the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year hence clause 3(x)(b) of the Order is not applicable to the Company.
11. (a) Based on the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and as per information and explanations given to us, no fraud by the Company or on the Company has been noticed or reported during the year.
- (b) According to the information and explanations given to us, no report under sub-section 12 of section 143 of the Act has been filed by auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- (c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
12. In our opinion, Company is not a Nidhi company. Therefore, the provisions of clause (xii) of paragraph 3 of the Order are not applicable to the Company.
13. In our opinion and according to the information and explanations given to us, all transactions with related parties are in compliance with sections 177 and 188 of the Act and their details have been disclosed in the financial statements, as required by the applicable accounting standards.
14. (a) In our opinion, and according to the information and explanations given to us, the Company has an internal audit system commensurate with the size and nature of its business.
- (b) We have considered the internal audit reports of the Company issued till date, for the period under audit.

15. According to the information and explanations provided by the management, the Company has not entered into any non-cash transaction with directors or persons connected with him as referred to in Section 192 of the Act.
16. (a) To the best of our knowledge and as explained, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

We have audited the internal financial controls with reference to standalone financial statements of Tribhovandas Bhimji Zaveri Limited (“the Company”) as of 31<sup>st</sup> March, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### **Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditor’s Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting with reference to standalone financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”) and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we

comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting with reference to standalone financial statements.

### **Meaning of Internal Financial Controls with reference to financial statements**

A company’s internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with

generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls with reference to financial statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to standalone financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31<sup>st</sup> March, 2025, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

## 1 Corporate information

Tribhovandas Bhimji Zaveri Limited ('TBZ or the "the Company") known under the brand 'TBZ- the Original' was incorporated on 24<sup>th</sup> July, 2007 by conversion of a partnership firm Tribhovandas Bhimji Zaveri under Part IX of the Companies Act, 1956 whereby the partners of the partnership firm became shareholders with the shareholdings as agreed amongst the partners. The Company has been converted to a public limited company w.e.f. 3<sup>rd</sup> December, 2010. The Company is in the business of retail sales of ornaments made of gold, diamond, silver, platinum and precious stones through its 30 showrooms and 6 franchisee outlets located across in India. Equity shares of the Company are listed on the BSE Limited and National Stock Exchange of India Limited. The Company's Registered office is at 241 /43, Zaveri Bazar, Mumbai -400 002.

## 2 Basis of Preparation of financial statements and material accounting policies

### 2.1 Basis of Preparation of financial statements

#### a. Statement of compliance

The standalone financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 ("the Act") (as amended from time to time) and presentation and disclosure requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS Compliant Schedule III) as amended from time to time, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, from time to time and other accounting principles generally accepted in India. The Company follows indirect method prescribed in Ind AS 7 – Statement of Cash Flows for presentation of its cash flows.

#### b. Functional and presentation currency

The standalone financial statements are presented in Indian Rupees (INR), and all the values are rounded to the nearest Lakhs with two decimals, except when otherwise indicated.

#### c. Basis of measurement

The standalone financial statements have been prepared on accrual basis under the historical cost convention, except for the following assets and liabilities which have been measured at fair value as required by relevant Ind AS:

- derivative financial instruments,
- certain financial assets and liabilities (refer accounting policy regarding financial instruments), and
- defined employee benefit liability.

#### d. Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, (regardless of whether that price is directly observable or estimated using another valuation technique). In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability, if market participants would take those characteristics into account when pricing the asset or liability, at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

**e. Significant accounting judgements, estimates and assumptions**

The preparation of the Company's standalone financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Estimates and assumptions are reviewed on periodic basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The key assumptions concerning the future and other key sources of estimation, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities, within the next financial year, are described below. The Company has based its assumptions and estimates on parameters available when the standalone financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

**(a) Measurement of defined benefit obligations**

The cost of the defined benefit gratuity plan and other post-employment retirement benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the

future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at intervals in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Further details about gratuity obligations are given in Note – 39.5.

For the purpose of assessing the leave availment rate, the Company considered the past leave availment history of the employees.

**(b) Measurement and likelihood of occurrence of provisions and contingencies**

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made in the standalone financial statements.

(c) **Recognition of taxes**

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

(d) **Provision for sales return**

The Company developed a statistical model for forecasting sales returns. The model used the historical return data of each franchise to come up with expected return percentages. These percentages are applied to determine the expected value of the variable consideration. Any significant changes in experience as compared to historical return pattern will impact the expected return percentages estimated by the Company.

(e) **Provision for inventory**

The Company provides provision based on policy, past experience, current trend and future expectations of the inventory held by them.

(f) **Useful life of property, plant and Equipments and intangible assets**

The Company reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period. During financial years ended 31<sup>st</sup> March, 2025, there were no changes in useful lives of property plant and equipment and intangible assets other than those resulting from store closures / shifting of premises.

The Company at the end of each reporting period, based on external and internal sources of information, assesses indicators and mitigating factors of whether a store (cash generating unit) may have suffered an impairment loss. If it is determined that an impairment loss has been suffered, it is recognised in Statement of profit & loss.

(g) **Embedded derivative**

The Company enters into purchase gold contract, in which the amount payable is not fixed based on gold price on the date of purchase, but instead is affected by changes in gold prices in future. Such transactions are entered into to protect against the risk of gold price movement in the purchased gold. Accordingly, such unfixed payables (gold loan) are considered to have an embedded derivative. The Company designates the gold price risk in such instruments as hedging instruments, with gold inventory considered to be the hedged item. The hedged risk is gold prices movement.

(h) **Going concern**

During the current year ended 31<sup>st</sup> March, 2025, management has performed an assessment of the entity's ability to continue as a going concern. Based on the assessment, management believe that there is no material uncertainty with respect to any events or conditions that may cast a significant doubt on the entity to continue as a going concern, hence the standalone financial statements have been prepared on going concern basis.

(i) **Impairment of equity investment in a subsidiary company.**

As at 31<sup>st</sup> March, 2025 there are accumulated losses in a subsidiary company viz. Tribhovandas Bhimji Zaveri (Bombay) Limited. Tribhovandas Bhimji Zaveri (Bombay) Limited is taking ongoing steps to revamp its business operations.

Based on its future business plans and strategic growth projections, the Company has determined that no impairment is required at this stage.

## (j) Classification of Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an options to extend the lease if the Company is reasonably certain to exercise that options; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that options. In assessing whether the company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

## f. Current -non-current classification

All assets and liabilities are classified into current and non-current.

### Operating Cycle :

Based on the nature of services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

## 2.2 Material accounting policies

### a) Property, plant and Equipment

Property, plant and equipment are carried at cost less accumulated depreciation and impairment losses, if any.

The cost of Property, plant and equipment comprises its purchase price/acquisition cost, net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from tax authorities), any directly attributable expenditure on making the asset ready for its intended use. Subsequent expenditure on property, plant and equipment after its purchase/completion is capitalized only if it is probable that future economic benefit associated with the expenditure will flow to the company.

Property, plant and equipment not ready for the intended use on the date of balance sheet are disclosed as "Capital work-in-progress". Capital work in progress is stated at cost, net of accumulated impairment loss, if any.

If significant parts of an item of property, plant and equipment have different lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Gains or losses arising from disposal or retirement of property, plant and equipment are recognised in the Statement of Profit and Loss.

Depreciation on PPE has been provided on the basis using straight line method over the useful life of the assets, as prescribed in schedule II to the Company act 2013. Freehold land is not depreciated. Leasehold Improvement are amortised over primary period of lease.

Property, plant and equipment	Management estimate of useful life	Useful life as per Schedule II
Plant and machinery	3 to 15 years	15 years
Furniture and fittings	5 to 10 years	10 years

Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted, if appropriate.

Depreciation for the year is recognised in the Statement of Profit and Loss.

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

## b) Intangible assets

Intangible assets are recognised only when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of such assets can be measured reliably. Intangible assets are stated at cost less accumulated amortisation and impairment loss, if any. All costs relating to the acquisition are capitalised.

Intangible assets are amortised in the Statement of Profit and Loss over their estimated useful lives, from the date that they are available for use based on the expected pattern of consumption of economic benefits of the asset.

The Company's intangible assets comprise of Computer software which are being amortised on a straight line basis over their estimated useful life of five years. Amortisation method and useful lives are reviewed at each reporting date. If the useful life of an asset is estimated to be significantly different from previous estimates, the amortisation period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortisation method is changed to reflect the changed pattern.

## c) Impairment of non financial assets

Assessment for impairment is done at each balance sheet date as to whether there is any indication that a non-financial asset may be impaired. For the purpose of assessing impairment, the smallest identifiable Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or Company's of assets is considered as a cash generating unit.

If any indication of impairment exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made. Asset/cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognising the impairment loss as an expense in the Statement of profit and loss. Recoverable amount is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash

flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

## d) Investments Property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

The Company depreciates investment properties over a period of 30 years on a straight-line basis over its estimated useful life.

Any gain or loss on disposal of an investment property is recognised in statement of profit and loss.

The fair values of investment property is disclosed in the notes. Fair values is determined by an independent valuer who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

## e) Inventories

Inventories which comprise raw materials, finished goods, stock-in-trade and packing materials are carried at the lower of cost or net realizable value. Cost is determined on weighted average basis.

Cost of inventories comprises all costs of purchase and, other duties and taxes (other than those subsequently recoverable from tax authorities), costs of conversion and all other costs incurred in bringing the inventory to their present location and condition. In respect of purchase of goods at prices that are yet to be fixed at the year end, adjustments to the provisional amounts are recognised based on the year end closing gold rate.

**Diamond finished jewellery is valued at specific cost.**

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

## f) Borrowing Costs

Borrowing costs consist of interest and other costs (including exchange differences to the extent regarded as an adjustment to the interest costs) incurred in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition or construction of an asset, as defined in Ind AS 23, that necessarily takes a substantial period of time to get ready for its intended use are capitalized as a part of the cost of such assets. All other borrowing costs are recognized as an expense in the period in which they are incurred.

## g) Revenue from contract with customer

"Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company

expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer and sales under sale or return basis arrangements.

Revenue towards satisfaction of performance obligation is measured at the amount of transaction price (net variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as a part of contract."

### i) Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods. In determining the transaction price for the sale of product, the Company considers the effects of variable consideration.

#### (a) Variable consideration

Revenue is measured at fair value of consideration received or receivable net of returns, trade and scheme discounts, volume rebate excluding taxes or duties collected on behalf of the government.

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Some contracts for the sale of product provide customers with a right of return. The rights of return

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

give rise to variable consideration.

## (b) Rights of return

Certain contracts provide a customer with a right to return the goods within a specified period. The Company uses the expected value method to estimate the goods that will not be returned because this method best predicts the amount of variable consideration to which the Company will be entitled. The requirements in Ind AS 115 on constraining estimates of variable consideration are also applied in order to determine the amount of variable consideration that can be included in the transaction price. For goods that are expected to be returned, instead of revenue, the Company recognises a refund liability. A right of return asset and corresponding adjustment to change in inventory is also recognised for the right to recover products from a customer.

## (c) Assets and liabilities arising from rights of return

### Right of return assets:

Right of return asset represents the Company's right to recover the goods expected to be returned by customers. The asset is measured at the former carrying amount of the inventory, less any expected costs to recover the goods, including any potential decreases in the value of the returned goods. The Company updates the measurement of the asset recorded for any revisions to its expected level of returns, as well as any additional decreases in the value of the returned products.

### Refund liabilities:

A refund liability is the obligation to refund some or all of the consideration received (or receivable)

from the customer and is measured at the amount the Company ultimately expects it will have to return to the customer. The Company updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period. Refer to above accounting policy on variable consideration.

## ii) Interest Income :

Interest income is recorded using the Effective Interest Rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial assets or to the amortised cost of a financial liability.

## h) Foreign currency transactions

Foreign currency transactions are recorded at the exchange rates prevailing on the dates of the transactions. Exchange differences arising on foreign currency transactions settled during the period are recognized in the Statement of profit and loss.

Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated into functional currency at the exchange rates at the reporting date. The resultant exchange differences are recognized in the Statement of profit and loss.

## i) Employee benefits

### Short-term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

## Post-employment benefits

### *Defined contribution plans*

A defined contribution plan is a post-employment benefit plan under which the Company pays specified contribution to a Government administered scheme and has no obligation to pay any further amounts. The Company makes specified monthly contributions towards provident fund and employee state insurance, which are defined contribution plans, at the prescribed rates. The Company's contribution is recognised as an expense in the Statement of profit and loss during the period in which the employee renders the related service.

### *Defined benefit plans*

#### *Gratuity*

The Company operates a defined benefit gratuity plan in India. The Company contributes to a gratuity trust maintained by an independent insurance company. The Company's liabilities under the Payment of Gratuity Act are determined on the basis of actuarial valuation made at the end of each financial year using the projected unit credit method. Obligation is measured at the present value of estimated future cash flows using a discounted rate that is determined by reference to market yields at the Balance Sheet date on Government bonds, where the terms of the Government bonds are consistent with the estimated terms of the defined benefit obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and fair value of plan assets. This cost is included in 'Employee benefits expense' in the Statement of Profit and Loss. Re-measurement gains or losses and return on plan assets (excluding amounts included in net interest on the net defined benefit liability) arising from changes in actuarial assumptions are recognised in the period in which they occur, directly in OCI. They are included in retained earnings in the Statement of changes in equity and in the Balance Sheet. Re-measurements are not reclassified to the Statement of Profit and Loss in subsequent periods.

## Other long-term employee benefits

### *Compensated absences*

The Company provides for encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits for future encashment / availment. The Company makes provision for compensated absences based on an independent actuarial valuation carried out at the end of the year using the projected unit credit method. Actuarial gains and losses are recognised in the Statement of profit and loss.

## j) Leases

As per Ind AS 116- Lease, the determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

### *Where the Company is the lessee*

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the company's general policy on the borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

## Where the Company is the lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

## k) Income taxes

Income tax expense comprises current tax and deferred tax. It is recognised in the Statement of profit and loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

### Current tax

The Income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate

adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in India.

Current income tax relating to items recognised outside the Statement of Profit and Loss is recognised outside the Statement of Profit and Loss (either in OCI or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. The management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

### Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date, and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current tax and deferred tax relating to items recognised outside the Statement of Profit and Loss is recognised outside the Statement of Profit and Loss (either in OCI or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

## **l) Provision, contingent liabilities and contingent assets**

The Company creates a provision when there is a present obligation (legal or constructive) as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the balance sheet date and are discounted to its present value if the effect of

time value of money is considered to be material. These are reviewed at each year end date and adjusted to reflect the best current estimate. The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may or may not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognised nor disclosed in The standalone financial statements.

## **m) Investment in Subsidiaries**

The Company has elected to account for its equity investments in subsidiaries under Ind AS 27 on separate financial statements, at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed. On disposal of investments in subsidiaries, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of profit and loss.

## **n) Financial instruments**

A Financial instruments is any contract that gives rise to a financial assets of one entity and a financial liability or equity instrument of another entity.

### **Financial Assets**

#### **Initial recognition and measurement:**

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

## Financial asset :

### *Subsequent measurement*

For purposes of subsequent measurement, financial assets are classified in four categories:

- a) Debt instruments at amortised cost
- b) Debt instruments at fair value through other comprehensive income (FVTOCI)
- c) Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- d) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

## Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

## Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency. The Company has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

## Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

## De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's consolidated balance sheet) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither

transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

## Impairment of financial assets

In accordance with Ind-AS 109, the Company applies Expected Credit Loss ("ECL") model for measurement and recognition of impairment loss on the financial assets measured at amortized cost and financial assets measured at FVOCI. For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

## Financial liabilities :

### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

The measurement of financial liabilities depends on their classification, as described below:

## Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit and loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit and loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit and loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

## Loans and borrowings

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

## De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

## Offsetting

Financial assets and financial liabilities are offset and the net amount is presented in the Balance Sheet, if the Company currently has a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

## o) Derivative financial instruments and hedge accounting

### Initial recognition, subsequent measurement and fair value hedge

In order to hedge its exposure to commodity price risks, the Company also enters into forward contracts. The Company does not hold derivative financial instruments for speculative purposes. Such derivative financial instruments

# Notes to the Standalone Financial Statements

for the year ended 31<sup>st</sup> March, 2025

are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss. Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recognised in statement of profit and loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

## Embedded derivative

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract – with the effect that some of the cash flows of the combined instrument vary in a way similar to a standalone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified variable.

Derivative are initially measured at fair value. Subsequent to initial recognition, derivative are measured at fair value, and changes there in are generally recognised in profit and loss.

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company

wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Company's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

## p) Recent accounting pronouncements - Standard issued but not yet effective

Recent accounting pronouncements - Standard issued but not yet effective, the Ministry of Corporate Affairs (MCA) has notified the Companies (Indian Accounting Standards) Amendment Rules, 2025. This notification has resulted into amendments in the existing accounting standard i.e. Ind AS 21 – The Effects of Changes in Foreign Exchange Rates, which is applicable to the Company from 1<sup>st</sup> April, 2025 onwards. This amendment does not have any significant impact on the Company's financial statements.

#### a Terms / rights attached to equity shares

The company has only one class of equity shares having par value of ₹ 10 per share. Each holder of equity shares is entitled to one vote per share. The company declares and pays dividends in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to his share of paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid.

Failure to pay any amount called up on shares may lead to forfeiture of the shares.

On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

## 39.5 Gratuity and Other Post-employment benefit plans

### a) Defined contribution plans

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident Fund and Employees State Insurance, which are defined contribution plans. The Company has no obligations other than to make the specified contributions. The contributions are charged to the Statement of Profit and Loss as they accrue. The amount recognised as an expense towards contribution to Provident Fund and other funds for the year aggregated to ₹ 297.77 Lacs (31<sup>st</sup> March, 2024: ₹ 288.08 Lacs) which is shown under notes to financial statements 34 – ‘Employee benefits expenses’.

### b) Defined benefit plans

The Company operates gratuity plan through a Trust wherein every employee is entitled to the benefit equivalent to fifteen days salary last drawn for each completed year of service. The same is payable on termination of service or retirement, whichever is earlier. The benefit vests after five years of continuous service. In case of some employees, the Company's scheme is more favourable as compared to the obligation under Payment of Gratuity Act, 1972. The gratuity plan is funded. The Company contributes to the Fund based on the actuarial valuation report. The Company has contributed to the Insurer Managed Fund. The following tables summarise the components of net benefit expense recognised in the Statement of Profit and Loss, and the funded status and amounts recognised in the Balance Sheet for the respective plans:

Employee Turnover rate	4.00% - 50.00%	2.00% - 36.00%
The principal actuarial risks to which the Company is exposed are investment risk, interest rate risk, salary risk and longevity risk.		
Investment risk	The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.	
Interest risk	The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability.	
Longevity risk	The Company has used certain mortality and attrition assumptions in the valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.	
Salary Risk	The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

## 39.11 Fair value hedge of gold price risk in inventory

The Company enters into contracts for purchase of gold wherein the Company has the option to fix the purchase price based on market price of gold during a stipulated time period. The prices are linked to gold prices. Accordingly, these contracts are considered to have an embedded derivative (represented in the said option to fix the price) that is required to be separated from the host contract which is the gold loan liability. Such feature is kept to hedge against exposure in the value of inventory of gold due to volatility in gold prices. The Company designates the embedded derivative in the payable for such purchases as the hedging instrument in fair value hedging of inventory. The Company designates only the spot-to-spot movement of the gold inventory as the hedged risk. The carrying value of inventory which are designated under fair value hedge relationship are measured at fair value at each reporting date. There is no ineffectiveness in the relationships designated by the Company for hedge accounting.

Disclosure of effects of fair value hedge accounting on financial position:

## 39.12 Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders.

The board of directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The primary objective of the Company's Capital Management is to maximise shareholder value. The Company manages its capital structure and makes adjustments in the light of changes in the economic environment and the requirements of the financial covenants, if any.

The Company monitors capital using a ratio of 'adjusted net debt' to 'equity'. For this purpose, adjusted net debt is defined as total borrowings, comprising interest-bearing loans and borrowings less cash and cash equivalents. Equity comprises all components of equity.

The company's adjusted net debt to equity ratio was as follows.

	₹ in Lacs	
Particulars	31 <sup>st</sup> March, 2025	31 <sup>st</sup> March, 2024

## 39.13 Financial Instruments - Fair values and risk management

### 39.13.1 Financial Instruments - Fair values

Accounting classification and fair values

Carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy, are presented below.

- The fair value of financial instruments have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements)

The categories used are as follows:

- Level 1: Quoted prices for identical instruments in an active market;
- Level 2: Directly or indirectly observable market inputs, other than Level 1 inputs; and
- Level 3: Inputs which are not based on observable market data.

## 39.13 Financial Instruments - Fair values and risk management (Contd.)

### 39.13.2 Financial risk management

The company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payable. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables and cash and cash equivalents that derive directly from its operations.

The company is exposed to market risk, credit risk and liquidity risk. The company's senior management oversees the management of these risks. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

#### A Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's exposures to trade receivables (mainly institutional customers and credit sales), deposits with landlords for store properties taken on leases and other receivables including balances with banks.

##### *Trade receivables and other deposits*

The Company's retail business is predominantly on 'cash and carry' basis which is largely through cash and credit card collections. The credit risk on such credit card collections is minimal, since they are primarily owned by customers' card issuing banks. The Company has adopted a policy of dealing with only credit worth counterparties in case of institutional customers and credit sales and the credit risk exposure for institutional customers and credit sales are managed by the Company by credit worthiness checks. The Company also carries credit risk on lease deposits with landlords for store properties taken on leases, for which agreements are signed and property possessions timely taken for store operations. The risk relating to refunds of deposits after store shut down is managed through successful negotiations or appropriate legal actions, where necessary.

##### *Other financial assets*

The Company maintains exposure in cash and cash equivalents and term deposits with banks. The Cash and cash equivalents and term deposits are held with the banks with good credit ratings.

The Company's maximum exposure to credit risk as at 31<sup>st</sup> March, 2025 and 31<sup>st</sup> March, 2024 is the carrying value of each class of financial assets.

#### B Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company maintained a cautious liquidity strategy, with a positive cash balance throughout the year ended 31<sup>st</sup> March, 2025 and 31<sup>st</sup> March, 2024. Cash flow from operating activities provides the funds to service the financial liabilities on a day-to-day basis.

The Company regularly monitors the rolling forecasts to ensure it has sufficient cash on an on-going basis to meet operational needs. Any short term surplus cash generated, over and above the amount required for working capital management and other operational requirements, is retained as cash and cash equivalents (to the extent required) and any excess is invested in interest bearing term deposits with appropriate maturities to optimise the cash returns on investments while ensuring sufficient liquidity to meet its liabilities.

## 39.13 Financial Instruments - Fair values and risk management (Contd.)

### C Market risk

#### i. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

#### ii. Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing financial assets or borrowings because of fluctuations in the interest rates, if such assets/borrowings are measured at fair value through profit or loss. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing borrowings will fluctuate because of fluctuations in the interest rates.

#### *Exposure to interest rate risk*

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

Particulars	₹ in Lacs	
	Nominal amount	
	31 <sup>st</sup> March, 2025	31 <sup>st</sup> March, 2024
<b>Fixed-rate instruments</b>		
<b>Financial assets</b>		
Deposits with banks	7,312.85	3,774.03
<b>Financial liabilities</b>		
Secured term loans from banks	219.69	77.77
<b>Floating-rate instruments</b>		
<b>Financial liabilities</b>		
Cash credit from banks	6,926.52	13,562.36
Working capital demand loans from banks	38,830.00	16,812.98
Gold loan	24,022.89	22,850.33

The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

#### *Sensitivity*

The sensitivity to profit and loss in case of a reasonable possible change in interest rate of +/- 80 basis points (previous year +/- 80 basis points), keeping all other variables constant, would have resulted in an impact on profits by ₹ 441.74 Lacs (previous year ₹ 381.16 Lacs)

## 39.13 Financial Instruments - Fair values and risk management (Contd.)

### iii Price risk

Exposure from Borrowings:

The Company's exposure to price risk also arises from borrowings of the Company that are at unfixed prices, and therefore, payment is sensitive to changes in gold price. The option to fix gold prices are classified in the balance sheet as fair value through profit or loss. The option to fix gold prices are at unfixed prices to hedge against potential losses in value of inventory of gold held by the Company.

The Company applies fair value hedge for the gold purchased whose price is to be fixed in future. Therefore, there will no impact of the fluctuation in the price of the gold on the Company's profit for the year.

This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. For matter below, our description of how our audit addressed the matter is provided in that context.

Key audit matter	How our audit addressed the key audit matter
<b>Existence and valuation of Inventories</b>	
The carrying values of Inventories of the Company are ₹ 146,063.98 lakh as at 31 <sup>st</sup> March, 2025 (Refer no. 11 of consolidated financial statements) which constitutes 82.55 % of the Group's total assets. The Group's inventories mainly comprised of gold, diamond, silver and platinum in the distribution centers and retail outlets. Valuation of Inventories is at lower of cost and net realizable value. Significant portion of Inventories costs includes gold diamond, platinum and silver which are subject to risk of changes in the market value.	<p>Our audit procedures over existence and valuation of inventories included the following:</p> <ul style="list-style-type: none"> <li>We evaluated the design, implementation and tested the operating effectiveness of key controls that the Group has in relation to safeguarding and physical verification of inventories including the appropriateness of the Group's standard operating procedures for conducting, recording and reconciling physical verification of inventories and tested the implementation thereof.</li> </ul>

Key audit matter	How our audit addressed the key audit matter
<b>Existence and valuation of Inventories</b>	
<p>The assessment of net realizable value of inventories is based on estimates and judgments by the management in respect of, among others, the economic condition, sales forecast, marketability of products and the quality of gold and diamond used to make jewellery products. Furthermore, there is higher inherent risk of theft and pilferage given the high intrinsic value and portable nature of individual inventory items.</p> <p>Considering the above, we concluded that existence and valuation of inventories as a key audit matter for our audit.</p>	<ul style="list-style-type: none"> <li>Participated and observed the physical verification of inventory conducted by the management at retail outlet on sample basis as at 31<sup>st</sup> March, 2025.</li> <li>We compared the net realizable values on sample basis of gold, silver and platinum inventories calculated based on the current market price with their carrying value of inventories.</li> <li>We compared the results of independent gemological appraisal report of selected samples to the weight and purity of diamond jewellery with records in the inventories system.</li> <li>We evaluated the independence and objectivity of the gemologist appointed by management.</li> </ul>

### Information Other than the Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report but does not include the consolidated financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information identified above, if we conclude that there is a material misstatement therein we are required to communicate the matter to those charged with governance.

### Responsibilities of Management for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements

that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Board of Directors of the Companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the Companies included in the Group are responsible for assessing the ability of the Group continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management

either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

That respective Board of Directors of the Companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act 2013, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended 31<sup>st</sup> March, 2025 and are therefore the key audit matter. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# “Annexure A” to the Independent Auditor’s Report

**Referred to in paragraph 2(e) under the heading “Report on Other Legal and Regulatory Requirements” of our report of even date to the members of the Tribhovandas Bhimji Zaveri Limited on the consolidated financial statements for the year ended 31<sup>st</sup> March, 2025.**

## **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

In conjunction with our audit of the consolidated financial statements of Tribhovandas Bhimji Zaveri Limited as of and for the year ended 31<sup>st</sup> March, 2025, we have audited the internal financial controls with reference to consolidated financial statements of Tribhovandas Bhimji Zaveri Limited (hereinafter referred to as the “Holding Company”) and its subsidiary Company, which are companies incorporated in India, as of that date.

### **Management’s Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding Company, its subsidiary company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal financial control with reference to the consolidated financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditor’s Responsibility**

Our responsibility is to express an opinion on the Holding Company’s internal financial controls with reference to the consolidated financial statements. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to the consolidated

financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to the consolidated financial statements included obtaining an understanding of internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

### **Meaning of Internal Financial Controls with reference to Consolidated Financial Statements**

A company’s internal financial control with reference to the consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to the consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures

of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

#### **Inherent Limitations of Internal Financial Controls With Reference to these Consolidated Financial Statements**

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, the Holding Company, its subsidiary Company, which are companies incorporated in India, have maintained in all material respects, adequate internal financial controls with reference to these consolidated financial statements and such internal financial controls with reference to these consolidated financial statements were operating effectively as at 31<sup>st</sup> March, 2025, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

## 1 Corporate information

Tribhovandas Bhimji Zaveri Limited ('TBZ or the "the Company)" known under the brand 'TBZ- the Original' was incorporated on 24<sup>th</sup> July, 2007 by conversion of a partnership firm Tribhovandas Bhimji Zaveri under Part IX of the Companies Act, 1956 whereby the partners of the partnership firm became shareholders with the shareholdings as agreed amongst the partners. The Company has been converted to a public limited company w.e.f. 3<sup>rd</sup> December, 2010. The Company is in the business of retail sales of ornaments made of gold, diamond, silver, platinum and precious stones through its 30 showrooms and 6 franchisee outlets located across in India. Equity shares of the Holding Company are listed on the BSE Limited and National Stock Exchange of India Limited. The Company's Registered office is at 241 /43, Zaveri Bazar, Mumbai -400 002.

Tribhovandas Bhimji Zaveri (Bombay) Limited ("the subsidiary Company") was incorporated on 24<sup>th</sup> April, 1986, in Mumbai. The Company has been converted to a public company w.e.f. 27<sup>th</sup> December, 2010. The Company is involved in the business of goldsmiths, silversmiths, gem merchants and other related activities.

These consolidated financial statements comprise the company and its subsidiary (referred to collectively as the 'Group').

## 2 Basis of Preparation of financial statements and material accounting policies

### 2.1 Basis of Preparation of financial statements

#### a. Statement of compliance

The consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 ("the Act") (as amended from time to time) and presentation and disclosure requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS Compliant Schedule III) as amended from time to time, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, from time to time and other accounting principles generally accepted in India. The Group follows indirect method prescribed in Ind AS 7 – Statement of Cash Flows for presentation of its cash flows.

#### b. Functional and presentation currency

The financial statements are presented in Indian Rupees (INR), and all the values are rounded to the nearest Lakhs with two decimals, except when otherwise indicated.

#### c. Basis of measurement

The financial statements have been prepared on accrual basis under the historical cost convention, except for the following assets and liabilities which have been measured at fair value as required by relevant Ind AS:

- derivative financial instruments,
- certain financial assets and liabilities (refer accounting policy regarding financial instruments), and
- defined employee benefit liability

#### d. Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, (regardless of whether that price is directly observable or estimated using another valuation technique). In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability, if market participants would take those characteristics into account when pricing the asset or liability, at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

- Level 3 inputs are unobservable inputs for the asset or liability.

Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

**e. Significant accounting judgements, estimates and assumptions**

The preparation of the Group's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Estimates and assumptions are reviewed on periodic basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The key assumptions concerning the future and other key sources of estimation, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities, within the next financial year, are described below. The Group has based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

**(a) Measurement of defined benefit obligations**

The cost of the defined benefit gratuity plan and other post-employment retirement benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at intervals in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Further details about gratuity obligations are given in Note – 38.5.

For the purpose of assessing the leave availment rate, the Group considered the past leave availment history of the employees.

**(b) Measurement and likelihood of occurrence of provisions and contingencies**

A provision is recognised when the Group has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made.

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made in the financial statements.

(c) Recognition of taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

(d) Provision for sales return

The Group developed a statistical model for forecasting sales returns. The model used the historical return data of each franchise to come up with expected return percentages. These percentages are applied to determine the expected value of the variable consideration. Any significant changes in experience as compared to historical return pattern will impact the expected return percentages estimated by the Group

(e) Provision for inventory

The Group provides provision based on policy, past experience, current trend and future expectations of the inventory held by them.

(f) Useful life of property, plant and Equipments and Intangible assets

The Group reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period. During financial year ended 31<sup>st</sup> March, 2025, there were no changes in useful lives of property plant and equipment and intangible assets other than those resulting from store closures / shifting of premises.

The Group at the end of each reporting period, based on external and internal sources of information, assesses indicators and mitigating factors of whether a store (cash generating unit) may have suffered an impairment loss. If it is determined that an impairment loss has been suffered, it is recognised in statement of profit & loss

(g) Embedded derivative

The Group enters into purchase gold contract, in which the amount payable is not fixed based on gold price on the date of purchase, but instead is affected by changes in gold prices in future. Such transactions are entered into to protect against the risk of gold price movement in the purchased gold. Accordingly, such unfixed payables (gold loan) are considered to have an embedded derivative. The Group designates the gold price risk in such instruments as hedging instruments, with gold inventory considered to be the hedged item. The hedged risk is gold prices movement.

(h) Going concern

During the current year ended 31 March, 2025, management has performed an assessment of the entity's ability to continue as a going concern. Based on the assessment, management believe that there is no material uncertainty with respect to any events or conditions that may cast a significant doubt on the entity to continue as a going concern, hence the financial statements have been prepared on going concern basis.

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

## (i) Classification of Leases

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an options to extend the lease if the Group is reasonably certain to exercise that options; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that options. In assessing whether the company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

## f. Current -non-current classification

All assets and liabilities are classified into current and non-current.

### Operating Cycle :

Based on the nature of services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

### Basis of consolidation:

These consolidated financial statements relate to Tribhovandas Bhimji Zaveri Limited ("the Company") and entities controlled

by the Company. Control is achieved when the Company has power over the entity, is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability to affect the entity's returns by using its power over the entity.

The financial statements of the Company and its subsidiaries have been combined on a line by line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances, intra-group transactions and unrealised profit or losses. These consolidated financial statements are prepared by applying uniform accounting policies in use at the Group.

Goodwill is recognised when a change in Group's ownership interest (or otherwise), results in the Group acquiring control over a Company

Changes in the Group's ownership interests in subsidiary that do not result in the Group losing control over the subsidiary are accounted for as equity transaction (i.e transactions with owners in their capacity as owners)

Goodwill arising on consolidation is tested for impairment at each reporting date. If the recoverable amount of cash generating unit to which the goodwill is attributed is less than the carrying the amount of the unit an impairment loss is recognised, first to reduce the carrying amount of goodwill (and thereafter to the balance assets of the unit, pro rata to their carrying amounts).

Non-controlling interests are presented in the consolidated balance sheet within equity, separately from the equity of the owners of the Company. Total Comprehensive Income of subsidiary is attributed to the owners and to the non-controlling interests, (even if this results in the non-controlling interests having a deficit balance).

Entities controlled by the Company are consolidated from the date the control commences until the date control ceases.

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

The subsidiary companies which are included in the consolidation and the Company's holdings therein are as under:

Name of the Company	Country incorporation	Ownership interest 31 <sup>st</sup> March, 2025	Ownership interest 31 <sup>st</sup> March, 2024
Tribhovandas Bhimji Zaveri (Bombay) Limited	India	100%	100%

## 2.2 Material accounting policies

### a) Property, plant and Equipment

Property, plant and equipment are carried at cost less accumulated depreciation and impairment losses, if any.

The cost of Property, plant and equipment comprises its purchase price/acquisition cost, net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from tax authorities), any directly attributable expenditure on making the asset ready for its intended use. Subsequent expenditure on property, plant and equipment after its purchase/completion is capitalized only if it is probable that future economic benefit associated with the expenditure will flow to the Group.

Property, plant and equipment not ready for the intended use on the date of balance sheet are disclosed as "Capital work-in-progress". Capital work in progress is stated at cost, net of accumulated impairment loss, if any.

If significant parts of an item of property, plant and equipment have different lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Gains or losses arising from disposal or retirement of property, plant and equipment are recognised in the Statement of Profit and Loss.

Depreciation on PPE has been provided on the basis using straight line method over the useful life of the assets, as prescribed in schedule II to the Company act 2013. Freehold land is not depreciated. Leasehold Improvement are amortised over primary period of lease.

Property, plant and equipment	Management estimate of useful life	Useful life as per Schedule II
Furniture and fittings	5 to 10 years	10 years
Plant and machinery	3 to 15 years	15 years

Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted, if appropriate.

Depreciation for the year is recognised in the Statement of Profit and Loss.

### b) Intangible assets

Intangible assets are recognised only when it is probable that the future economic benefits that are attributable to the assets will flow to the Group and the cost of such assets can be measured reliably. Intangible assets are stated at cost less accumulated amortisation and impairment loss, if any. All costs relating to the acquisition are capitalised.

Intangible assets are amortised in the Statement of Profit & Loss over their estimated useful lives, from the date that they are available for use based on the expected pattern of consumption of economic benefits of the asset.

The Group's intangible assets comprise of Computer software which are being amortised on a straight line basis over their estimated useful life of five years. Amortisation method and useful lives are reviewed at each reporting

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

date. If the useful life of an asset is estimated to be significantly different from previous estimates, the amortisation period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortisation method is changed to reflect the changed pattern.

## c) Impairment of non financial assets

Assessment for impairment is done at each balance sheet date as to whether there is any indication that a non-financial asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit.

If any indication of impairment exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made. Asset/cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognising the impairment loss as an expense in the Statement of profit and loss. Recoverable amount is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in

the statement of profit & loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

## d) Inventories

Inventories which comprise raw materials, finished goods, stock-in-trade and packing materials are carried at the lower of cost or net realizable value. Cost is determined on weighted average basis.

Cost of inventories comprises all costs of purchase and, other duties and taxes (other than those subsequently recoverable from tax authorities), costs of conversion and all other costs incurred in bringing the inventory to their present location and condition. In respect of purchase of goods at prices that are yet to be fixed at the year end, adjustments to the provisional amounts are recognised based on the year end closing gold rate.

Diamond finished jewellery is valued at specific cost.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

## e) Borrowing Costs

Borrowing costs consist of interest and other costs (including exchange differences to the extent regarded as an adjustment to the interest costs) incurred in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition or construction of an asset, as defined in Ind AS 23, that necessarily takes a substantial period of time to get ready for its intended use are capitalized as a part of the cost of such assets. All other borrowing costs are recognized as an expense in the period in which they are incurred.

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

## f) Revenue from contract with customer

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer and sales under sale or return basis arrangements.

Revenue towards satisfaction of performance obligation is measured at the amount of transaction price (net variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as a part of contract.

### i) Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods. In determining the transaction price for the sale of product, the Group considers the effects of variable consideration.

### (a) Variable consideration

Revenue is measured at fair value of consideration received or receivable net of returns, trade and scheme discounts, volume rebate excluding taxes or duties collected on behalf of the government.

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable

consideration is subsequently resolved. Some contracts for the sale of product provide customers with a right of return. The rights of return give rise to variable consideration.

### (b) Rights of return

Certain contracts provide a customer with a right to return the goods within a specified period. The Group uses the expected value method to estimate the goods that will not be returned because this method best predicts the amount of variable consideration to which the Group will be entitled. The requirements in Ind AS 115 on constraining estimates of variable consideration are also applied in order to determine the amount of variable consideration that can be included in the transaction price. For goods that are expected to be returned, instead of revenue, the Group recognises a refund liability. A right of return asset and corresponding adjustment to change in inventory is also recognised for the right to recover products from a customer.

### (c) Assets and liabilities arising from rights of return

#### Right of return assets:

Right of return asset represents the Groups right to recover the goods expected to be returned by customers. The asset is measured at the former carrying amount of the inventory, less any expected costs to recover the goods, including any potential decreases in the value of the returned goods. The Group updates the measurement of the asset recorded for any revisions to its expected level of returns, as well as any additional decreases in the value of the returned products

#### Refund liabilities:

A refund liability is the obligation to refund some or all of the consideration received (or receivable) from the customer and is measured at the amount the Group

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

ultimately expects it will have to return to the customer. The Group updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period. Refer to above accounting policy on variable consideration.

## ii) Interest Income :

Interest income is recorded using the Effective Interest Rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial assets or to the amortised cost of a financial liability.

## g) Foreign currency transactions

Foreign currency transactions are recorded at the exchange rates prevailing on the dates of the transactions. Exchange differences arising on foreign currency transactions settled during the period are recognized in the Statement of profit and loss.

Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated into functional currency at the exchange rates at the reporting date. The resultant exchange differences are recognized in the Statement of profit and loss.

## h) Employee benefits

### Short-term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

### Post-employment benefits

#### Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the Group pays specified contribution to a Government administered scheme and has no obligation to pay any further amounts. The Group makes specified monthly contributions towards provident fund and employee state insurance, which are defined contribution plans, at the prescribed rates. The Group's contribution is recognised as an expense in the Statement of profit and loss during the period in which the employee renders the related service.

#### Defined benefit plans

##### Gratuity

The Group operates a defined benefit gratuity plan in India. The Group contributes to a gratuity trust maintained by an independent insurance Group. The Group's liabilities under the Payment of Gratuity Act are determined on the basis of actuarial valuation made at the end of each financial year using the projected unit credit method. Obligation is measured at the present value of estimated future cash flows using a discounted rate that is determined by reference to market yields at the Balance Sheet date on Government bonds, where the terms of the Government bonds are consistent with the estimated terms of the defined benefit obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and fair value of plan assets. This cost is included in 'Employee benefits expense' in the Statement of Profit and Loss. Re-measurement gains or losses and return on plan assets (excluding amounts included in net interest on the net defined benefit liability) arising from changes in actuarial assumptions are recognised in the period in which they occur, directly in OCI. They are included in retained earnings in the Statement of changes in equity and in the Balance Sheet. Re-measurements are not reclassified to the Statement of Profit and Loss in subsequent periods.

## Other long-term employee benefits

### Compensated absences

The Group provides for encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits for future encashment / availment. The Group makes provision for compensated absences based on an independent actuarial valuation carried out at the end of the year using the projected unit credit method. Actuarial gains and losses are recognised in the Statement of profit and loss.

## i) Leases

As per Ind AS 116- Lease, the determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

### Where the Group is the lessee

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the group general policy on the borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Leases in which a significant portion of the risks

and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

### Where the Group is the lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

## j) Income taxes

Income tax expense comprises current tax and deferred tax. It is recognised in the Statement of profit & loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

### Current tax

The Income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

Income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in India.

Current income tax relating to items recognised outside the Statement of Profit and Loss is recognised outside the Statement of Profit and Loss (either in OCI or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. The management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

## Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except: When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date, and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current tax and deferred tax relating to items recognised outside the Statement of Profit and Loss is recognised outside the Statement of Profit and Loss (either in OCI or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

## k) Provision, contingent liabilities and contingent assets

The Group creates a provision when there is a present obligation (legal or constructive) as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the balance sheet date and are discounted to its present value if the effect of time value of money is considered to be material. These are reviewed at each year end date and adjusted to reflect the best current estimate. The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for.

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may or may not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognised nor disclosed in the financial statements.

## I) Financial instruments

A Financial instruments is any contract that gives rise to a financial assets of one entity and a financial liability or equity instrument of another entity.

### Financial Assets

#### Initial recognition and measurement:

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Groups business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under Ind AS 115.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

### Financial asset :

#### Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- a) Debt instruments at amortised cost
- b) Debt instruments at fair value through other comprehensive income (FVTOCI)
- c) Debt instruments, derivatives and equity instruments at fair value through profit & loss (FVTPL)
- d) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

### Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Group. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

## Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency. The Group has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

## Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

## De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e. removed from the Group's consolidated balance sheet) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

## Impairment of financial assets

In accordance with Ind-AS 109, the Group applies Expected Credit Loss ("ECL") model for measurement and recognition of impairment loss on the financial assets measured at amortized cost and financial assets measured at FVOCI. For financial assets other than trade

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

receivables, as per Ind AS 109, the Group recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Group's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss

## Financial liabilities :

### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

The measurement of financial liabilities depends on their classification, as described below:

### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit & loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit & loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered

into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to Profit & Loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit & loss. The Group has not designated any financial liability as at fair value through profit and loss.

### Loans and borrowings

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

### De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

# Notes to the Consolidated Financial Statements

for the year ended 31<sup>st</sup> March, 2025

## Offsetting

Financial assets and financial liabilities are offset and the net amount is presented in the Balance Sheet, if the Group currently has a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

## m) Derivative financial instruments and hedge accounting

### Initial recognition, subsequent measurement and fair value hedge

In order to hedge its exposure to commodity price risks, the Group also enters into forward contracts. The Group does not hold derivative financial instruments for speculative purposes. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss. Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recognised in statement of profit and loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

### Embedded derivative

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract – with the effect that some of the cash flows of the combined instrument vary in a way similar to a standalone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified variable.

Derivative are initially measured at fair value. Subsequent to initial recognition, derivative are measured at fair value, and changes there in are generally recognised in profit and loss.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Group's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

## n) Recent accounting pronouncements – Standard issued but not yet effective

Recent accounting pronouncements – Standard issued but not yet effective, the Ministry of Corporate Affairs (MCA) has notified the Companies (Indian Accounting Standards) Amendment Rules, 2025. This notification has resulted in amendments in the existing accounting standard i.e., Ind AS 21 – The Effects of Changes in Foreign Exchange Rates, which is applicable to the Group from 1<sup>st</sup> April, 2025 onwards. This amendment does not have any significant impact on the Group's financial statements.

## 17 Equity share capital (Contd.)

### a Terms / rights attached to equity shares

The company has only one class of equity shares having par value of ₹ 10 per share. Each holder of equity shares is entitled to one vote per share. The company declares and pays dividends in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to his share of paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid.

Failure to pay any amount called up on shares may lead to forfeiture of the shares.

On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

## 38.5 Gratuity and Other Post-employment benefit plans

### a) Defined contribution plans

The Group makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident Fund and Employees State Insurance, which are defined contribution plans. The Group has no obligations other than to make the specified contributions. The contributions are charged to the Statement of Profit and Loss as they accrue. The amount recognised as an expense towards contribution to Provident Fund and other funds for the year aggregated to ₹ 317.20 Lacs (31<sup>st</sup> March, 2024: ₹ 308.26 Lacs) which is shown under notes to financial statements 33 – 'Employee benefits expenses'.

### b) Defined benefit plans

The Group operates gratuity plan through a Trust wherein every employee is entitled to the benefit equivalent to fifteen days salary last drawn for each completed year of service. The same is payable on termination of service or retirement, whichever is earlier. The benefit vests after five years of continuous service. In case of some employees, the Group's scheme is more favourable as compared to the obligation under Payment of Gratuity Act, 1972. The gratuity plan is funded. The Group contributes to the Fund based on the actuarial valuation report. The Group has contributed to the Insurer Managed Fund. The following tables summarise the components of net benefit expense recognised in the Statement of Profit and Loss, and the funded status and amounts recognised in the Balance Sheet for the respective plans:

## IX The principal actuarial risks to which the Group is exposed are investment risk, interest rate risk, salary risk and longevity risk.

Investment risk	The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.
Interest risk	The plan exposes the Group to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability.
Longevity risk	The Group has used certain mortality and attrition assumptions in the valuation of the liability. The Group is exposed to the risk of actual experience turning out to be worse compared to the assumption.
Salary Risk	The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

## 38.13 Fair value hedge of gold price risk in inventory

The Parent Company enters into contracts for purchase of gold wherein the Parent Company has the option to fix the purchase price based on market price of gold during a stipulated time period. The prices are linked to gold prices. Accordingly, these contracts are considered to have an embedded derivative (represented in the said option to fix the price) that is required to be separated from the host contract which is the gold loan liability. Such feature is kept to hedge against exposure in the value of inventory of gold due to volatility in gold prices. The Parent Company designates the embedded derivative in the payable for such purchases as the hedging instrument in fair value hedging of inventory. The Parent Company designates only the spot-to-spot movement of the gold inventory as the hedged risk. The carrying value of inventory which are designated under fair value hedge relationship are measured at fair value at each reporting date. There is no ineffectiveness in the relationships designated by the Parent Company for hedge accounting.

Disclosure of effects of fair value hedge accounting on financial position:

Hedged item - Changes in fair value of inventory attributable to change in gold prices

## 38.14 Capital management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders.

The board of directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The primary objective of the Group's Capital Management is to maximise shareholder value. The Group manages its capital structure and makes adjustments in the light of changes in the economic environment and the requirements of the financial covenants, if any.

The Group monitors capital using a ratio of 'adjusted net debt' to 'equity'. For this purpose, adjusted net debt is defined as total borrowings, comprising interest-bearing loans and borrowings less cash and cash equivalents. Equity comprises all components of equity.

The Group's adjusted net debt to equity ratio was as follows.

Particulars	₹ in Lacs	
	As at 31 <sup>st</sup> March, 2025	As at 31 <sup>st</sup> March, 2024

### 38.15.1 Financial Instruments - Fair values

Accounting classification and fair values

Carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy, are presented below.

- The fair value of financial instruments have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements)

## 38.15 Financial Instruments - Fair values and risk management (Contd.)

### 38.15.2 Financial risk management

The Group principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payable. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade and other receivables and cash and cash equivalents that derive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The group's senior management oversees the management of these risks. It is the group's policy that no trading in derivatives for speculative purpose may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

#### A Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's exposures to trade receivables (mainly institutional customers and credit sales), deposits with landlords for store properties taken on leases and other receivables including balances with banks.

##### *Trade receivables and other deposits*

The Group's retail business is predominantly on 'cash and carry' basis which is largely through cash and credit card collections. The credit risk on such credit card collections is minimal, since they are primarily owned by customers' card issuing banks. The Group has adopted a policy of dealing with only credit worth counterparties in case of institutional customers and credit sales and the credit risk exposure for institutional customers and credit sales are managed by the Group by credit worthiness checks. The Group also carries credit risk on lease deposits with landlords for store properties taken on leases, for which agreements are signed and property possessions timely taken for store operations. The risk relating to refunds of deposits after store shut down is managed through successful negotiations or appropriate legal actions, where necessary.

##### *Other financial assets*

The Company maintains exposure in cash and cash equivalents and term deposits with banks. The Cash and cash equivalents and term deposits are held with the banks with good credit ratings.

The Group's maximum exposure to credit risk as at 31<sup>st</sup> March, 2025 and 31<sup>st</sup> March, 2024 is the carrying value of each class of financial assets.

#### B Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Group maintained a cautious liquidity strategy, with a positive cash balance throughout the year ended 31<sup>st</sup> March, 2025 and 31<sup>st</sup> March, 2024. Cash flow from operating activities provides the funds to service the financial liabilities on a day-to-day basis.

The Group regularly monitors the rolling forecasts to ensure it has sufficient cash on an on-going basis to meet operational needs. Any short term surplus cash generated, over and above the amount required for working capital management and other operational requirements, is retained as cash and cash equivalents (to the extent required) and any excess is invested in interest bearing term deposits with appropriate maturities to optimise the cash returns on investments while ensuring sufficient liquidity to meet its liabilities.

## 38.15 Financial Instruments - Fair values and risk management (Contd.)

### C Market risk

#### i. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

#### ii. Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing financial assets or borrowings because of fluctuations in the interest rates, if such assets/borrowings are measured at fair value through profit or loss. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing borrowings will fluctuate because of fluctuations in the interest rates.

#### *Exposure to interest rate risk*

The interest rate profile of the Group's interest-bearing financial instruments as reported to the management of the Group is as follows.

Particulars	₹ in Lacs	
	Nominal amount	
	31 <sup>st</sup> March, 2025	31 <sup>st</sup> March, 2024
<b>Fixed-rate instruments</b>		
<b><u>Financial assets</u></b>		
Deposits with banks	7,312.85	3,774.03
<b><u>Financial liabilities</u></b>		
Secured term loans from banks	219.69	77.77
<b>Floating-rate instruments</b>		
<b><u>Financial liabilities</u></b>		
Working capital demand loans from banks	38,830.00	16,812.98
Cash credit from banks	6,926.52	13,562.36
Gold loan	24,022.89	22,850.33

The Group's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

#### *Sensitivity*

The sensitivity to profit and loss in case of a reasonable possible change in interest rate of +/- 80 basis points (previous year +/- 80 basis points), keeping all other variables constant, would have resulted in an impact on profits by ₹ 441.74 Lacs (previous year ₹ 381.16 Lacs)

#### iii Price risk

Exposure from Borrowings:

The Group's exposure to price risk also arises from borrowings of the Group that are at unfixed prices, and therefore, payment is sensitive to changes in gold price. The option to fix gold prices are classified in the balance sheet as fair value through profit or loss. The option to fix gold prices are at unfixed prices to hedge against potential losses in value of inventory of gold held by the Group.

The Group applies fair value hedge for the gold purchased whose price is to be fixed in future. Therefore, there will no impact of the fluctuation in the price of the gold on the Group's profit for the year.
