MANAGEMENT DISCUSSION & ANALYSIS REPORT

The outlook presented herein is based on management's own assessment and it may vary due to future economic and other developments in the country and abroad.

INDUSTRY & ECONOMY OVERVIEW

Global Economy

According to World Bank, global GDP is projected to accelerate to 2.7 percent in 2017, up from a post-crisis low of 2.4 percent in 2016 before strengthening further to 2.9 percent in 2018-19. During 2016-17, global economic growth was firm as compared to 2015-16 growth which was at a slow pace. Some of the factors for this outturn / growth include pickup in manufacturing and trade contributing to an improvement in confidence; favorable global financing conditions; stabilising commodity prices; firming of oil prices etc. Growth in advanced economies is expected to accelerate to 1.9 percent in 2017, a benefit to their trading partners. Growth in Emerging Markets and Developing Economies (EMDE) is expected to recover to 4.1 percent this year and to 4.6 percent in 2018, as obstacles to activity diminish in commodity-exporting countries.

Indian Economy

India is presently the fastest growing major economy in the world. But India's growth in the Fiscal 2017 unexpectedly slowed down to 7.1 percent as compared to 7.6 percent in 2015-16 and 7.2 percent in 2014-15. For 2017-18, the GDP growth is expected to be around 7.5-7.7 percent. The factors contributing to this positive outlook are controlled inflation, improvement in exports, rise in domestic demand, decline in oil prices, boost to reforms, infrastructure spending and the supportive macro-economic policies among others. The economy was under pressure during the second half of the fiscal 2017 due to the November withdrawal and replacement of large-denomination currency notes.

With the global economy under uncertainties, the Indian Government is sticking to its fiscal deficit target while pursuing the growth agenda. The Fiscal deficit continued within the targeted 3.5% of the Country's GDP in 2016-17. The Union Budget 2017 has proposed to further bring down the fiscal deficit for 2017-18 to 3.2% of the GDP and to 3% in the following year. (India's GDP is about \$2 Trillion)

Rigorous endeavour was made by the Government of India in building consensus for the Goods and Services Tax (GST) and now GST is likely to be implemented from 1st July, 2017. Further, enactment of The Insolvency and Bankruptcy Code, 2016 by the Parliament in the Sixty-Seventh Year of the Republic of India was another major achievement. These steps will certainly contribute towards improving the ease of doing business in India and to promote entrepreneurship amongst reorganisation and insolvency resolution of corporate persons, partnership firms and individuals in a time bound manner for maximisation of value of assets of such persons, availability of credit and balancing the interests of the stakeholders including alteration in the order of priority of payment of Government dues etc.

The domestic challenges are not invincible. Our competitive advantages remained unaffected by demonetisation due to deep domain knowledge of sector we operate in and clear established "Right to Win" in our chosen business. It is expected that with the right reforms India will continue to surge ahead of its peers.

NBFC Sector

NBFCs are emerging as an alternative to mainstream banking. They are also emerging as an integral part of Indian Financial System and are contributing towards Government's agenda of financial inclusion.

The success of NBFCs has been driven by factors like their ability to control risks, to adapt to changes and create demand in markets that are likely to remain unexplored by banks and other bigger players. NBFCs, in India, are today operating in a dynamic scenario especially after the revised regulatory framework by the RBI launched with the objective of harmonising working of NBFCs with banks and financial institutions and address regulatory gaps.

Over the years their activities have kept on expanding so much that the difference between the banks and NBFCs is getting minimised. The biggest contribution of NBFCs is their ability to cater to the needs of the Micro, Small & Medium Enterprises (MSMEs) which account for nearly 40 percent of India's total employment and form the backbone of the India Growth Story.

According to Financial Stability Report (FSR) released by RBI:-

- NBFC loans expanded 16.6 percent in 2015-16, twice as fast as 8.8 percent credit growth across the banking sector on an aggregate level,
- The aggregate balance sheet of the NBFC sector expanded 15.5 percent in fiscal 2016 as compared with 15.7 percent the previous year,
- Net profit as a percentage of total income remained at 15.3 percent between March, 2015 and March, 2016 and Return on Assets (RoA) stood at 22 percent during the same period,
- Despite the lenient bad loan norms, NBFCs also performed better in terms of asset quality. Bad loan norms are stringent for full-fledged commercial banks as compared to that of NBFCs, and
- The gross non-performing assets (GNPA) ratio for the NBFC sector declined to 4.6 percent of total advances in March, 2016 from 5.1 percent in September, 2015.

Government Initiatives

Several measures have been outlined in the last three successive Union Budgets that aim at reviving and accelerating investment cycle and putting the economy back on high trajectory of growth. Implementation of GST, as a measure of major reforms, is expected to herald a new era of indirect taxation in the economy.

The onus of several welfare schemes has shifted to the States from the Centre. Also, there has been a higher disbursement of salaries due to the implementation of the 7th Pay Commission recommendations. The States now also have to incur hefty interest liabilities under the Ujwal Discom Assurance Yojana (UDAY). Moreover, in the current fiscal, the fiscal plans will also be subject to the unknown impact of the GST. Any adverse impact, even if in the short run, could be detrimental to the fiscal math.

COMPANY'S POSITION

The Company is registered with the RBI as a Non-Banking Financial Institution and is categorized as Non-Deposit taking NBFC" (NBFC-ND). The operation of the company during the year was centered in dividend income; interest income and Share Trading. The company was investing in shares, securities etc. The main income of the Company is dividend income on long-term investments & interest on fixed deposit and profit from sale of investments. The results of the Company's operations for the financial year ended 31st March, 2017 have been dealt with in the Director's Report.

The Company, being into finance and investment activity, the impact of movement of stock markets affects its profitability.

OPPORTUNITIES AND THREAT

The year FY 2016-17 started on a note of optimism. However, slow pace of reforms, sluggish investment cycle, sluggishness in some of the major economies abroad, Euro zone crisis, Brexit and demonetisation soon led to the sliding of Indian GDP growth. It is however believed that Indian economy will sustain its growth momentum and hence the growth of financial services sector presents exciting opportunities like India's long-term growth story remains intact notwithstanding declining growth in the past year or two. This presents good opportunities for us to grow our business in the medium to long term. We further believe the policy liberalization, Government emphasis on infrastructure spending and forward-looking regulatory changes will help markets grow in size.

At the same time, there could be some threats for growth of financial services sector like high inflation, high interest rates, liquidity issues, global commodities prices, current account deficit and Euro zone crisis which can play spoilsport with the India growth story. While positive Government policies and regulatory changes do enlarge the scope of opportunities for financial sector companies, lack of or delay in reforms or certain regulatory changes can significantly impact the performance of NBFCs business. As regards our Company a thorough due diligence is conducted at our end through market enquiries before making investments. The execution of investment transactions is monitored on regular basis with reference to target price.

It is a fact that India has been at a low investment grade level for almost a decade. Therefore, for the last decade, the global perception of risk in Indian Bond markets has remained the same, inspite of the high growth rates and major economic reforms. One of the main reasons for this stickiness is the high level of consolidated debt of the government. This is a cause for concern as sovereign ratings are critical in determining the flow of global capital. The surging NPA's in the banking sector presents another major cause of concern.

OUTLOOK

A significant portion of the Company's income arises from investment and trading operation, which are largely dependent on the condition of the stock market. "ANNEXURE B" TO THE INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS OF NBI INDUSTRIAL FINANCE COMPANY LIMITED
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **NBI Industrial Finance Company Limited** ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".
