DEAR SIR,

**Sub: Result Presentation for quarter and year ended March 31, 2025**  
**Ref: Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements)**  
**Regulations, 2015.**

With reference to the above captioned subject, we enclose herewith the Result Presentation for the Quarter and year ended March 31, 2025. The aforesaid Result Presentation is also being disseminated on the website of the company at [www.poel.in](http://www.poel.in).

This is for your information and record.

Thanking You,

Yours faithfully,  
For **POCL ENTERPRISES LIMITED**

**AASHISH KUMAR K JAIN**  
**COMPANY SECRETARY & FINANCE HEAD**

# Financial Results

Year Ended March 2025

## **Disclaimer**

*This communication, except for the historical information, may contain statements which reflect the Management's current views and estimates and could be construed as forward-looking statements. The future involves many risks and uncertainties that could cause actual results to differ materially from the current views being expressed. Potential risks and uncertainties include such factors as general economic conditions, foreign exchange and commodity price fluctuations, competitive product and pricing pressures and regulatory developments.*

# About Us

- POCL Enterprises Limited operates with a separate management team and has created its own brand value with a registered trade name of POEL. POEL was established in 1988 and currently has 3 major divisions:
  - Metallic Oxides Division – Lead Oxides & Zinc Oxide
  - PVC Stabilisers Division – Lead Stabilisers and Calcium-Zinc Stabilisers
  - Metals Division – Lead Smelting, Refining & Alloying
- POEL currently has 4 factories as follows:
  - Unit 1 at Puducherry – Zinc Oxide, Litharge, Grey Oxide, Barton Pot Oxide & Red Lead
  - Unit 2 at Puducherry – PVC Stabilisers
  - Unit 5 at Thiruvallur – Zinc Refining & Zinc Oxide
  - Unit 6 at Maraimalai Nagar – Lead Smelting, Refining & Alloying
- POEL is a proud ISO 9001:2015, 14001:2015 and 45001:2018 certified Company. POEL is also listed on the Bombay Stock Exchange (BSE) with Scrip Code - 539195
- POEL is recognised with the esteemed Two Star Export House status and also AEO Tier-1 status which underscores POEL's significant contributions to global trade
- The brand “POEL” has been awarded the Brand Listing from the Multi Commodity Exchange (MCX) for Pure Lead manufactured at its Maraimalai Nagar facility.

# Product Applications

**Zinc Oxide** is used as an additive in numerous materials and products including cosmetics, food supplements, rubbers, plastics, ceramics, paints, etc. It's major industrial application is towards the Tyre manufacturing industry and associated rubber products.

**Lead Oxides** such as **Lead Sub-Oxide & Red Lead Oxide** is primarily used in the manufacturing of Lead-acid batteries.

**Litharge** is primarily used in the manufacturing of PVC Lead Stabilisers and rigid and flexible PVC Piping. It is also used in the manufacturing of paints and pigments, industrial ceramics, lubricants and greases, etc.

**PVC Stabilisers** has wide applications which includes PVC Pipes & Fittings, Window Profiles, Cable Insulations, Footwear and Foam Boards, etc.

**Lead Metal & Lead Alloys** are primarily used in the manufacturing of Lead-Acid Batteries & other battery components. It is also used in the manufacturing of Cable Sheaths, Ammunition, X-Ray Shields, etc.

# Promoters

**Padam Bansal**  
Non Executive

He holds a PhD from the University of Kansas and is a gold medallist in B.Pharm from Banaras Hindu University. Additionally, he is affiliated with multinational companies like Johnson and Johnson.

**Sunil Bansal**  
Managing Director,  
Finance

He possesses over three decades of experience in the area of finance, commercial dealings and material sourcing for the zinc and lead industry.

**Devakar Bansal**  
Managing Director,  
Operations

He possesses over three decades of experience in the area of production, particularly zinc and lead oxides, PVC stabilisers, and lead recycling

**Amber Bansal**  
Director, Finance  
and Operations

He is a qualified chartered accountant with over five years of experience at KPMG. He is now in charge of company's financial decisions and overall operations of the company.

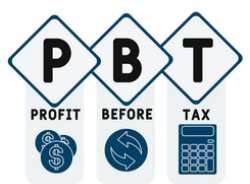

**Harsh Bansal**  
Director,  
Commercial Operations

He is an MBA from SP Jain with over eight years of experience in this lead and zinc industry. He is now in charge of company's procurement activities and expanding export client base.

2023-24	1.58%	6.36
2024-25	2.15%	11.18

# Expansion Plans & Future Outlook

**1. Fund Raising** – The Board of Directors of the Company have approved the raising of funds, aggregating to Rs. 74.72 Crores, through preferential issue of Equity Shares and Convertible Warrants on private placement basis. The rationale for this capital raise is multifaceted. This fund raising is instrumental in achieving several key strategic objectives of POEL, such as funding organic and inorganic growth opportunities, meeting working capital requirements, funding of Capital Expenditure (Capex) Initiatives. The capital infusion will be directly channeled towards pivotal projects and initiatives that are critical to realizing our long-term growth objectives.

**2. Diversification Plan** – The company is actively exploring expansion opportunities, into the recycling sector to expand its horizons. Comprehensive pre-feasibility studies are currently being undertaken to assess the viability of entering several promising recycling markets, including rubber, e-waste, and EV battery recycling, to determine the optimal path for the company's expansion.

### **3. Lead Refining & Smelting Capacity Expansion at Unit 4 – Maraimalai Nagar**

Our current Lead Refining & Smelting unit is running at full capacity and hence the management decided to set up an additional unit with a Refining & Smelting capacity of 11,000 MTPA & 11,000 MTPA respectively. The CAPEX was undertaken in the month of Feb 2024 and all work has been completed. We are presently awaiting the necessary regulatory approvals to initiate commercial production. This unit has a total annual revenue potential of approx. INR 200 Crores and will also help in increasing the profit margin as well.

### **4.Reduced Carbon Footprints**

In line with our commitment to environmental sustainability, we have transitioned to LPG fuel as a replacement for furnace oil and light diesel oil at both our Pondicherry facilities. This initiative has significantly reduced our carbon footprint and has also yielded cost savings, which is also reflected in our Q3 & Q4 2024-25 financial results. We are actively exploring the implementation of this transition at our other facilities located at Tamil Nadu.

## **5. Lead-Free PVC Stabilizers Unit set up at Unit 2 – Puducherry**

Based on the National Green Tribunal guidelines of phasing out the use of Lead based stabilizers in PVC Pipes & fittings, POEL has actively set up a Lead-Free PVC Stabilizers division with a capacity of 2,400 MTPA at its existing facility in Puducherry. Initial R&D was successfully completed and wide range of products have been approved by its customers. The installation and erection of all necessary machineries are now complete, and commercial production of Lead-Free PVC Stabilizers have commenced.

## **6. Commercial Sales of Zinc Metal**

Currently, POEL recycles zinc scrap and manufactures Zinc Metal for its own consumption for manufacturing Zinc Oxide. The company is actively expanding into the commercial sale of zinc metal to domestic and international markets through value-added processing. Following successful completion of the trial phase, POEL projects initial sales of approximately 1,200 metric tons p.a., from this new revenue stream, which is expected to contribute significantly to the company's sales and profitability growth.
