Balance carried forward	13665.98	15686.14

2. Dividend:

Due to loss during the year on the operations of the company your directors have not recommended any dividend for the year on the equity shares of the Company.

3. Operations:

The sales for the year are ₹ 121340.71 lacs compared to ₹ 130491.45 lacs in the previous year. The profit for the year (before depreciation) was ₹ 3870.76 lacs against a profit of ₹ 9294.21 lacs in the previous year. The loss before tax amounted to ₹ (4909.18) lacs as against profit of ₹ 2501.30 lacs in the previous year. The loss after provision of current tax / taxes for the year is ₹ (4909.18) lacs against a profit of ₹ 2476.30 lacs for previous year and loss after deferred tax was ₹ (2020.16) lacs against profit of ₹ 2014.73 lacs for previous year.

4. Exports:

The Company's exports were of ₹ 15291.84 lacs as compared to ₹ 16558.91 lacs in the previous year. This decrease in Export Turnover is on account of lower export sale of Synthetic Rutile.

5. Division wise Performance:

a) PVC Division:

The turnover of the division was ₹ 54558.22 lacs as compared to ₹ 65917.92 lacs in the previous year, a decrease of 17% the turnover of this division is lower compared to previous year, this is due to lower production during first three quarter of the years because of water scarcity being faced at company's Shupuram Unit, in Southern Tamilnadu, which has faced draught during first three quarters of the year, this has affected

the working of this division. The demand for PVC continues to show positive growth. The Government has identified irrigation, power and infrastructure, as thrust areas and increased activity in these sectors are likely to boost demand of PVC Resin.

b) Caustic Soda Division:

The turnover of the division was ₹ 40904.17 lacs as compared to ₹ 41807.78 lacs in the previous year, an decrease of 2% in the turnover during the year. This is due to lower production during first three quarter of the years because of water scarcity being faced at company's Shupuram Unit, in Southern Tamilnadu, which has faced draught during first three quarters of the year, this has affected the working of this division.

c) Soda Ash Division:

The turnover of the division was ₹ 20736.67 lacs as compared to ₹ 19635.00 lacs, an increase of 6% during the year. The turnover of this division has been mainly due to higher production and sales during the year. The demand for the product of this segment is consistent. Also looking to the demand and supply position in coming years and no major new capacities coming up in near future the working of this division is expected to be stable.

d) Synthetic Iron Oxide Pigment:

The turnover of the division was ₹ 2595.82 lacs as compared to ₹ 3058.99 lacs in the previous year. The product manufactured in this division has taken quite a long time to stabilize. Also this being specialty chemical the validation process was slow and longer. The company is confident of gradually ramping up the capacity and meet product variants as required by the customers. Also as explained above company's Sahupuram plant which is located in South Tamilnadu, which has faced severe draught during the year due to which the activities of this division had been affected.

The product of the company has been accepted both in the international as well as domestic market and company is developing wider customer base for this product in both the markets. This product is also helping the company to use waste coming out from its Synthetic Rutile (BI) plant to manufacture value added commercial product.

e) C-PVC Division:

The turnover of the division was ₹ 2189.12 lacs. This being the first year of operation of this plant the product being specialty chemical, has a longer approval process. The product has been well accepted by the customers and current year the plant has started working at its capacity. Also as explained above company's Sahupuram plant which is located in South Tamilnadu where this plant is also located has experienced water crisis situation during the first three quarters of the year.

- 5.1 There are no material changes and commitments affecting the financial position of the Company which have occurred between the end of the financial year 2017-18 and the date of this Report.

6. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

6.1 Industry Structure and Developments:

- 6.1.1 Caustic Soda is an Alkaline used in sector like Soap, Detergent, Paper and Chemicals (alumina sector). The demand for caustic soda is driven by the upturn in the production growth in these sectors. The installed capacity of caustic soda is about 36.70 lakhs tonnes out of which 50% of the capacities are in the Western part of India, 25% in Southern India.
- 6.1.2 Soda Ash is mainly used in industries such as Detergents, Dye intermediaries, Sodium Silicate, Ore Refining, Glass Industry, Pesticides, Paper, Pharmaceuticals and Mining Industries. Sodium Bicarbonate which is manufactured by Soda Ash Industries is being used in Bakeries and also by Chemical and Pharmaceuticals Industries. The total installed capacity in Soda Ash Industries is 33.61 lakhs MT. All these capacities are concentrated in Western part of India due to availability of required raw material i.e. Salt, Lime Stone and Coal/Lignite. The demand for Soda Ash is increasing by 5% annually mainly due to demand from Detergent and Glass sector.

6.1.3 PolyVinyl Chloride (PVC)

PolyVinyl Chloride (PVC) is the most commonly used thermoplastic. PVC is produced from Vinyl Chloride Monomer (VCM), which is obtained from Ethylene Dichloride (EDC), a derivative of ethylene and chlorine. PVC is used in variety of items, such as Pipes and Fittings, Wires and Cables, Calendered Sheets, Blow Molded Bottles, Profiles, Footwear, Roofing, Automotive Parts, Table Clothes, Shower Curtains and Furniture. In India the per capita consumption of PVC is significantly less as compared with developed countries.

Total domestic installed capacity of PVC Industry is 1.35 Mill. TPA. The domestic demand of PVC is about 2.90 Mill. TPA. The shortfall 1.55 Mill. TPA in supply is met by imports. The market for PVC is expanding by 5 to 6% p.a. and hence, there is scope for increasing capacities.

6.1.4 CPVC

Chlorinated Polyvinyl Chloride (CPVC) is a specialty Polymer having characteristics such as high glass transition temperature, high heat deflection temperature, outstanding flame and smoke properties and chemical inertness. CPVC due to these properties find application in the Hot water plumbing Sanitary pipe, Industrial Pipes and fire-retardant systems.

CPVC is manufactured by chlorinating Polyvinyl Chloride. Polyvinyl Chloride normally contains 56-57% chlorine and when chlorinated further to 66-67%, it is called Chlorinated Polyvinyl Chloride. DCW's CPVC is produced under technical licenses from Arkema, France, (Presently KEMONE) it is a most clean technology with zero effluent discharge.

CPVC market is estimated to 125000 MT/year and growing at the CAGR of 15%. At present DCW is the only domestic producer having capacity of 12000 MT/year and rest of the demand is met by the imports.

6.1.5 Synthetic Iron Oxide Pigment (SIOP)

SIOP are widely used in Coating, Construction, Plastic and Paper Industries as a coloring matter. As a specialty pigment, the demand for this product is increasing due to growth in Infrastructure and Housing, Commercial Projects. Apart from catering to the domestic demand, the pigment are being exported to countries viz. U.S.A., Europe, Africa, Japan and to other Asian Countries.

6.2 Opportunities and Threats

The domestic demand for all the products manufactured by the Company is growing which gives opportunity to expand its production capacities and take benefits of the expanding market. Company's Caustic Soda, Synthetic Rutile and PVC Units are near to Tuticorin Port in Tamil nadu and this gives opportunity to the Company to easily export its products. Company has opportunity to go for backward/forward integration in the products it manufactures which can make the Company more competitive.

The low cost imports coming in to the country can be a threat in future. However, Company's efforts over the years have made it a low cost producer and hence the Company is capable of facing international competition.

6.3 Segment-wise or product-wise performance.

6.3.1 Caustic Soda Division:

The Company continues to be a major player in South India with a market share of approximately 20%. The demand for caustic soda is expected to grow at a steady rate, due to increased demand from alumina manufacturers. The Company has captive use of HCL & Chlorine which helps to maintain Caustic Production at full level.

6.3.2 Soda Ash Division:

The Soda Ash Industry continues to grow at a compounded rate of 4% - 5% per annum and this trend is expected to continue. Anti-dumping duty imposed on import of Soda Ash from countries of Iran, Pakistan, China, Ukraine, Kenya, Turkey, Russia, European Union and the US by Govt. of India will protect the industry against dumping of Soda Ash from these countries.

6.3.3 PVC Division:

The Company, one of the country's five producers of PVC resin, has maintained its market share of nearly 7%. Anti-dumping duty imposed on PVC resin imports from China, USA, Mexico, European Union, Indonesia will protect the domestic industry against dumping of PVC resin from these countries. Automation cum De-bottlenecking program implemented in this unit will help the Company in reducing cost and increasing production of this division.

6.3.4 Synthetic Iron Oxide Pigment Division:

With starting of Synthetics Iron Oxide Pigment (SIOP) Division, the company entered into specialty chemical business. The plant was under stabilisation stage and has since started production. This plant has been established with company's patented technology and technological help from Huntsman pigments (formerly Rockwood Pigments). This plant will consume leach liquor generated from Synthetic Rutilke plant and will help in reducing pollution. This division once fully operational will give more stability to the bottom line.

6.3.5 C-PVC:

The new C-PVC Plant which was commissioned and has since stabilized is a specialty chemical and your company is first in India to manufacture C-PVC domestically. At present entire C-PVC demand is being met by way of imports. This plant will help the country to conserve foreign exchange and also will help the country to move towards Make in India. This product being specialty chemical it needs to pass acceptability tests by the user industry. The product has since stabilized and company will be able to achieve full production in this plant by second half of the year.

6.4 OUTLOOK :

The Company has diversified operations with five business segments viz. PVC, CPVC, Chlor- Alkali, SIOP & Soda Ash. It is thus reasonably protected from the vagaries of individual business cycles of these products. By the commencement of commercial production at company's new Synthetic Iron Oxide Pigment plant and C-PVC plant, the company has entered into specialty chemical segment and this will give more stability to the bottom line of the company in coming years.

6.5 Risks and concerns

The Company's performance depends upon number of factors viz., fluctuations in the exchange rates of Rupee with major International currencies, change in raw-material prices, change in duty structure on the raw material imported and Company's various products, change in Government policies in the sectors in which company operates etc.

6.6 Internal Control systems and their adequacy

Company has adequate internal control system commensurating with the nature of its business and size of its operations. Internal Audit is conducted on a regular basis by a reputed firm of Chartered Accountants. The reports of the internal audit along with comments from the management are placed for review before Audit Committee.

6.7 Financial Performance with respect to Operative Performance

The Gross Revenue of the Company for the year was ₹ 1213.40 crores against the gross revenue of ₹ 1304.91 crores of the previous year. The Profit Before Tax was ₹ (49.09) crores compared to ₹ 25.01 crores of the previous year. Water shortage at Shahupuram Works due to near draught condition in Tamilnadu and consequent lower production has caused decrease in revenue and loss to the Company.

6.8 Material Developments in Human Resources/Industrial Relation front, including number of people employed.

Company continues to give at most importance to human resources development and keeps relations cordial. Number of permanent employees have been mentioned hereinafter.

7 Cautionary Note:

Statement in this report describing the company's objectives, projections, estimates, expectation and prediction may be "forward looking statements". Actual results could differ materially from those expressed or implied due to variations in prices of raw materials and realization of finished goods, changes in government regulation, tax regimes, economic developments and other incidental factors.

ANNEXURE TO THE DIRECTORS' REPORT

Information on Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo pursuant to Section 134(3)(m) of the Companies Act, 2013 read with Rule 8 of the Companies (Accounts) Rules, 2014.

A) CONSERVATION OF ENERGY:

(I) THE STEPS TAKEN OR IMPACT ON CONSERVATION OF ENERGY;

SAHUPURAM

Chlor-Alkali Plant

- 1) Recoating of 35 Nos. selective High Voltage element Anodes reduced standard voltage from 3.70 V to 3.40 V resulting in a saving of 215 KWH.
- 2) By modifying the recovery Lye Pump pipe lines, running of one 5 HP Pump was avoided.
- 3) Liquid chlorine plant cooling water pipelines are interconnected in such a way that during the time of Shutdown raw water can be directly utilized instead of running cooling water pump for compressor head cooling.
- 4) Reduction in auxiliary power consumption achieved in Process Cooling Tower Fan from the present level of 170.0 KWH To 130.0 KWH per day by replacing the aluminum blades to FRP blades.

Synthetic Rutile plant

- 1) Effective operation control (feed rate optimization) implemented in roaster section resulted in savings of energy.
- 2) By replacement of existing conventional type Oil Pre heaters with ceramic heaters in SR plant roaster area, resulted in energy saving.
- 3) Instead of running 2 pumps for feeding leach liquor to both Lamella clarifier, by line modification running of one pump avoided, which resulted in energy saving.
- 4) In Roasters, equipment loading capacity optimized to 4tons / hour - per Roaster consistently thereby reducing the fuel consumption.
- 5) By re-engineering, compressor cooling tower water pump capacity was reduced to 20HP from 40HP, resulted in energy savings.

PVC Plant

- 1) Provided one lower capacity pump in PVC raw water pump house in addition to higher capacity pumps and depending upon the process requirement on low load conditions the low capacity pump is put on line instead of running higher capacity pumps in under loaded condition, which resulted in energy saving

Installation of Supermizers & Variable Frequency Drives

- 1) Supermizer the electronic device to reduce the energy consumption in three phase induction motors are being used continuously in all plants to save energy under variable load conditions. During the year 2017 - 18, 166 Supermizers were continuously in service resulting in an annual saving of about 17.45 Lacs units.
- 2) Energy Conservation through operations of VFDs has resulted in a saving of 43.30 Lacs units per annum.

Energy Conservation activities

- 1) National Energy Conservation week celebrations organized during Dec 2017 and out of 36 suggestions received, 19 suggestions validated for implementation. By completing 11 projects out of 19, energy saving achieved was 2,40,000 electrical units per annum and 46 MT of FO in 2017-18. This includes 4nos. projects as system

improvements. Balance 8 projects with overall saving potential of 4,62,520 units per annum with 500 MT of Steam is being implemented this year in 2018-19.

- 2) Numbers of Cost Improvement Program (CIP) organized during 2017-18, number of energy related projects evaluated for implementation was 15 and Energy Saving through implementation of the 10 projects achieved was 1,74,373 units per annum. Balance 5 projects are being implemented in 2018-19.

DHRANGADHRA

- 1) Installation of variable speed drive for ID fan of boiler 1, resulted in power saving of 10 kwh.
- 2) 50 Nos. light fittings renewed with mettle halides replacing mercury vapor lamps resulted in power savings of 37.50 kwh per day.
- 3) Installed Oxygen analysers in boiler 3 & boiler 1. Due to combustion air control, boiler efficiency went up 1.42% over last year. In addition, all the soot blowers in boiler 1 & 2 were revamped & optimized the flue gas temperature.
- 4) Installed high capacity & high efficiency pump in obsorber area of capacity 350 m3/hr with material of construction of nickel & cast iron combination to service both final & inter transfer pumping requirement. This has resulted in ower savings of 14 kwh in addition to reduction in maintenance expense.

II) STEPS TAKEN BY THE COMPANY FOR UTILISING ALTERNATE SOURCE OF ENERGY :

The alternate source of energy like Solar Energy is used in place of Conventional Electrical Energy for illuminating the Administration Office area by installation of Solar PV Cells

THE CAPITAL INVESTMENT ON ENERGY CONSERVATION EQUIPMENTS:

An investment of ₹ 34.70 lakhs were made for energy conservation which includes investment on energy conservation equipments.

TECHNOLOGY ABSORPTION

THE EFFORTS MADE TOWARDS TECHNOLOGY ABSORPTION AND BENEFITS DERIVED LIKE PRODUCT IMPROVEMENT, COST REDUCTION, PRODUCT DEVELOPMENT OR IMPORT SUBSTITUTION.

CHLOR ALKALI PLANT

- 1) In house Efforts are undertaken to recycle a part of DM plant Effluents for Hydro Chloric Acid synthesis and thereby reducing Specific water consumption and Effluent Generation.
- 2) Recoating of Selective Anodes is undertaken to reduce the specific power consumption to optimum levels.
- 3) Installation of Temperature scanners in certain Chlorine filling points to monitor the skin temperature of Chlorine Tonner under filling is being undertaken on safety aspect.

SYNTHETIC RUTILE

- 1) To avoid hazardous reaction inside iron reactor and to increase the equipment availability in SIOP additional reactors provided at IOP to reduce the free acid content in leach liquor supplying to SIOP and carryout the neutralization reaction outside SIOP.
- 2) In digester MOC of stand pipe changed from PVDF to PTFE results in maintenance cost reduction.

PVC

- 1) During the year 17-18, Lower K PVC resin, a special PVC grade campaigning was carried out in all the reactors on several occasions by marching towards the annual Low k resin production 18,000 MT. The Unit surpassed the previous highest of low K resin production.
- 2) One leaky RVC receiver tank was replaced with a spare VCM road tanker after suitable modification to meet plant requirements to avoid plant stoppage and new procurement.

- 3) In New Fluid Bed dryer hot water circulation lines were modified in such a way to use the heating panels of Old Fluid bed dryer.

Cogen Power Plant

In house screening mechanism developed to segregate required size of coal for SR plant Roasters from imported coal of size 0-50 mm received for consumption in Cogen Power Plant. The segregated coal of size 3-8mm is being consumed in our SR plant Roasters as a substitute fuel in place of charcoal

CPVC plant

- 1) CPVC Resin plant & Compounding plant were commissioned successfully and it is the first of its kind in India to manufacture CPVC Resin.
- 2) Both CPVC resin & CPVC compound are well received by Indian customers and have entered the market in a big way.
- 3) Presently two grades of CPVC resin & CPVC compound (Pipe grade & Fitting grade) are being manufactured.

SIOP Plant

- 1) With Leach Liquor from Ore of Indian Origin the quality of Yellow and red pigment found to be good. With Leach liquor from ore of imported origin, the red pigment quality is acceptable in the market.
- 2) Exports made to Huntsman / Venator in paper bags. The red and yellow product certification – CE marking -is complete

III) INFORMATION REGARDING IMPORTED TECHNOLOGY.

(imported during the last 3 years reckoned (from the beginning of the financial year)

There was no technology imported in the last 3 years

IV) EXPENDITURE INCURRED ON RESEARCH AND DEVELOPMENT

Capital - Nil, Recurring - ₹ 59.69 Lakhs

C) FOREIGN EXCHANGE EARNINGS AND OUTGO:

Foreign Exchange earning : ₹ 151.30 crores

Foreign Exchange outgo : ₹ 570.68 crores

Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

4. Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs (financial position) of the Company as at 31st March, 2018, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

5. Emphasis of Matter

5.1 We draw attention to Note No. 31 to the financial statements which describes the uncertainty related to the outcome of the petitions/appeals filed by the company in the matter of:

- a. electricity tax demand of ₹ 5346.66 lakhs on captive power generated and other matters during the period 2003 to 2012;

- b. custom duty demand of ₹ 6139.98 lakhs of coal imported and other matters by the company during 2011 and 2012; and
- c. Execution of assignment deeds of the lands at Sahupuram works in respect of which the state government has issued notice of repossession and demanded lease rent for the period occupied by the company. The land is treated as freehold.

No provision has been made for the aforesaid demands in view of the factors stated in the said note.

- 5.2 The Trade receivables, Trade payables and other Receivable, Advances and Payables are reconciled to the extent third party confirmations received. In cases where the confirmations have either not received or called for are subject to the confirmation and reconciliation (Refer Note No 32).

Our opinion is not modified in respect of these matters.

6. Report on Other Legal and Regulatory Requirements

- 6.1 As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 6.2 As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.
 - e. On the basis of the written representations received from the directors as on 31st March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements – Refer Note No 31 of the financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses – Refer Note No 35 of the financial statements.
 - iii. There was no delay in transferring amounts, which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE “B” TO AUDITOR’S REPORT

**Annexure referred to in our report of even date to the members of DCW Limited on the accounts
for the year ended 31st March 2018**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

1. Report on the Internal Financial Controls

We have audited the internal financial controls over financial reporting of DCW Limited as at 31st March, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

2. Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

3. Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

4. Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in

accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

5. Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected.

Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

6. Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH, 2018

Company Overview

DCW Ltd (formally Dhrangadhra Chemical Works Limited), was incorporated in January 1939. The Registered Office of the Company is located at Dhrangadhra, Gujarat – 363315. Its shares are listed in Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). It is one of the multi-product, multi-location & heavy chemical manufacturing company. DCW has two manufacturing units located at Dhrangadhra in Gujarat and at Sahapuram in Tamil Nadu.

1. Significant Accounting Policy

1.1. Basis for preparation:

The Financial Statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (Act) read with Rule 4A of Companies (Accounts) Second Amendment Rules, 2015, Companies (Indian Accounting Standards) Rules, 2015; and the other relevant provisions of the Act and Rules thereunder. The Financial Statements have been prepared under historical cost convention basis except for derivative financial instruments, certain financial assets and financial liabilities which have been measured at fair value at the end of each year reporting period, as stated in the accounting policies set out below.

The Company's presentation and functional currency is Indian Rupees (₹) and all values are rounded off to the nearest lakhs (INR 00,000), except when otherwise indicated.

1.2. Use of Judgement, Assumptions and Estimates

The preparation of the Company's financial statements requires management to make informed judgements, reasonable assumptions and estimates that affect the amounts reported in the financial statements and notes thereto. Uncertainty about these could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in the future periods. These assumptions and estimates are reviewed periodically based on the most recently available information. Revisions to accounting estimates are recognized prospectively in the Statement of Profit & Loss in the period in which the estimates are revised and in any future periods affected.

In the assessment of the Company, the most significant effects of use of judgments and/or estimates on the amounts recognized in the financial statements relate to the following areas:

- Financial instruments;
- Useful lives of property, plant & equipment;
- Valuation of inventories;
- Measurement of recoverable amounts of assets / cash-generating units;
- Assets and obligations relating to employee benefits;
- Evaluation of recoverability of deferred tax assets; and
- Provisions and Contingencies.
- Classification of lease as operating or financial lease
- Impairment of non-financial assets

1.3. Current Non Current Classification

Any asset or liability is classified as current if it satisfies any of the following conditions:

- I. The asset/liability is expected to be realized/settled in the company's normal operating cycle;
- II. The asset is intended for sale or consumption;
- III. The asset/liability is held primarily for the purpose of trading
- IV. The asset/liability is expected to be realized / settled within twelve months after the reporting period;
- V. The asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- VI. In case of liability, the company doesn't have an unconditional right to defer the settlement of liability for at least twelve months after the reporting date.

All the assets and liabilities are classified as non-current.

NOTES FORMING PART OF THE BALANCE SHEET

For the purpose of current / non-current classification of assets and liabilities, the company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

A. Property, plant & equipment

- a) The cost of an item of property, plant and equipment is recognized as an asset only if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.
- b) An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment loss.

The company identifies and determines cost of each part of an item of property, plant and equipment separately, if the part has a cost which is significant to the total cost of that item of property, plant and equipment and has useful life that is materially different from that of the remaining item.

- c) Property, plant and equipment are stated at cost net of tax / duty credit availed, less accumulated depreciation and accumulated impairment loss, if any.
- d) The initial cost of an asset comprises its purchase price or construction cost (including import duties and non-refundable taxes), any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation (if any) and the applicable borrowing cost till the asset is ready for its intended use.
- e) Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.
- f) Items such as spare parts, stand-by equipment and servicing equipment that meet the definition of property plant and equipment are capitalized as property, plant and equipment. In other cases, the spare parts are inventorised on procurement and charged to Statement of Profit & Loss on issue/consumption.
- g) When significant parts of property, plant and equipment are required to be replaced at intervals, the Company derecognises the replaced part and recognises the new part with its own associated useful life and it is depreciated accordingly. All other repair and maintenance cost are recognised in the Statement of Profit and Loss as and when incurred.
- h) An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds if any and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.
- i) The company has elected to consider the carrying value of all its property, plant and equipment appearing in the financial statements prepared in accordance with Accounting Standards notified under the section 133 of the Companies Act 2013, revised together with Rule 7 of the Companies (Accounts) and used the same as deemed cost in the opening Ind As Balance Sheet prepared on 1st April, 2015.

B. Capital Work In Progress and Capital Advances

Cost of assets not ready for intended use, as on the balance sheet date, is shown as capital work in progress.

C. Depreciation

- a) Depreciation on property, plant and equipment is provided on the straight line basis, over the useful lives of assets (after retaining the residual value of up to 5%). Residual values of the fixed assets are held at 5% except that of Furniture and fixtures and Office equipment at Re. 1 as estimated by the Chartered

NOTES FORMING PART OF THE BALANCE SHEET

Engineer & Valuer. The useful lives determined are in line with the useful lives as prescribed in the Schedule II of the Act except in case of following assets which are depreciated over their useful life as determined by a Chartered Engineer and Valuer

Asset Description	Useful Life (Years)
Continuous Process Plant	20
Cogeneration Power Plant	25
Electrical Installation Other than in Cogen Power Plant	15
Salt Works	1
Cars & Two Wheelers	5

- b) The residual values and useful lives of property, plant and equipment are reviewed at each financial year end and changes, if any, are accounted in the period in which the estimates are revised and in any future periods affected.
- c) Items of property, plant and equipment costing not more than ₹ 5,000 each are depreciated at 100 percent in the year in which they are capitalised.
- d) The Company depreciates components of the main asset that are significant in value and have different useful lives as compared to the main asset separately.
- e) The spare parts are depreciated over the estimated useful life based on internal technical assessment.
- f) Expenditure on major repairs and overhauls which qualify for recognition in the item of Property, Plant and Equipment and which result in additional useful life is depreciated over the extended useful life of the asset as determined by technical evaluation.
- g) Depreciation is charged on additions / deletions on pro-rata monthly basis including the month of addition / deletion.

D. Accounting for Leases

At the inception of an arrangement, the Company determines whether the arrangement is or contains a lease and whether it is a finance lease or an operating lease.

If substantially all the risks and rewards incidental to ownership of the leased asset are transferred to the Company as lessee the arrangement is treated as a finance lease otherwise it is considered as an operating lease.

The Company which has an operating lease (as a lessee) recognises the lease rentals as expense in the statement of Profit & Loss on a straight line basis with reference to lease terms and other considerations.

E. Investment Property

Investment properties comprise portions of freehold land that are held for long-term rental yields and/or for capital appreciation. Investment properties are initially recognised at cost.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model recommended by the International Valuation Standards Committee.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal.

The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the statement of profit and loss in the period of de-recognition

NOTES FORMING PART OF THE BALANCE SHEET

F. Non-Current Assets Held For Sale

The Company classifies non-current assets held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use of assets and actions required to complete such sale indicate that it is unlikely that significant changes to the plan to sell will be withdrawn. Also, such assets are classified as held for sale only if the management expects to complete the sale within one year from the date of classification.

G. Inventories

Raw-materials, work-in-process, finished goods, packing materials, stores, spares, components, consumables and stock-in-trade are carried at lower of cost and net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on item-to-item basis.

Cost of inventories comprises all costs of purchases, duties, taxes (other than those subsequently recoverable from tax authorities) and all the other costs incurred in the normal course of business in bringing inventories to their present location, including appropriate overheads apportioned on a reasonable and consistent basis and is determined on the following basis:

- a) Raw materials and finished goods on weighted average basis.
- b) Work in process at raw material cost plus cost of conversion.
- c) Stores and spares on weighted average basis.

Customs duty on raw materials / finished goods lying in bonded warehouse is provided for at the applicable rates. Excise duty on finished stocks lying in bond is provided for at the applicable assessable value.

Obsolete, slow moving, surplus and defective stocks are identified and where necessary, provision is made for such stocks.

H. Revenue Recognition

Revenue is recognized when it's probable that economic benefits associated with a transaction flows to the Company in the ordinary course of its activities and the amount of revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates allowed by the company.

Revenue includes only the gross inflows of economic benefits, including excise duty, received and receivable by the company, on its own account. Amounts collected on behalf of third parties such as sales tax, value added tax and goods and service tax are excluded from revenue.

Sale of goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, revenue and the associated costs can be estimated reliably and it is probable that economic benefits associated with the transaction will flow to the company. Sale value of goods is measured at the fair value of the consideration received or receivable, net of returns and applicable trade discounts or rebates. It includes applicable excise duty and surcharge but excludes sales tax and Goods & Service Tax (GST)

Sale of Services

Revenue from sale of services is recognized when the stage of completion can be measured reliably. Stage of completion is measured by the services performed till balance sheet date as percentage of total services contracted.

Other claims are booked when there is a reasonable certainty of recovery. Claims are reviewed on a periodic basis and if recovery becomes uncertain, provision is made in the accounts.

NOTES FORMING PART OF THE BALANCE SHEET

Interest Income

Interest income is recognised using Effective Interest Rate (EIR) method.

I. Employee Benefits

Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized as an expense at an undiscounted amount in the Statement of Profit & Loss for the year/period in which the related services are rendered.

Post employment Benefits:

The Company's post-employment benefit consists of provident fund, gratuity and superannuation fund. The Company also provides for leave encashment which is in the nature of long term benefit.

I. Defined Contribution Plans:

Defined Contribution plans are employee state insurance scheme and government administered pension fund scheme for all applicable employees and superannuation scheme for eligible employees.

The Superannuation Fund is a Defined Contribution Scheme managed by LIC and SBI Life Insurance Company and contributions are made to the funds is charged to the Statement of Profit and Loss.

Recognition and Measurement of Defined Contribution Plans:

The company recognizes contribution payable to a defined contribution plan as an expense in Statement of profit and Loss when employee render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before reporting date, the excess is recognized as an asset to the extent that prepayment will lead to, for example, a reduction in future payments or cash refund.

II. Defined Benefit Plans:

i. Provident Fund scheme:

The company makes specified monthly contributions towards Employee Provident Fund scheme to a separate trust administered by the company. The minimum interest payable by the trust to the beneficiaries is being notified by the government every year. The company has an obligation to make good the shortfall, if any, between the return on investments of the trust and the notified interest rate.

ii. Gratuity Scheme:

The Company operates defined benefit plan for Gratuity. The company contributes to a separate entity (a fund), towards meeting the Gratuity obligation. The Company has created an Employees Group Gratuity Fund which has taken a Group Gratuity Assurance Scheme with the Life Insurance Corporation of India.

Recognition and measurement of defined benefit plans:

The cost of providing such defined benefit is determined using the projected unit credit method of actuarial valuation made at the end of the year. The defined benefit obligations recognized in the balance sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

NOTES FORMING PART OF THE BALANCE SHEET

Actuarial gains and losses are recognised in other comprehensive income for gratuity and recognised in the Statement of Profit & Loss for leave encashment.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability / asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

J. Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences in relation to borrowings denominated in foreign currency to the extent regarded as an adjustment to the borrowing costs.

Exchange differences are regarded as an adjustment to borrowing costs for an amount equivalent to the extent to which an exchange loss does not exceed the difference between the cost of borrowing in functional currency when compared to the cost of borrowing in a foreign currency and the amount of gain in relation to any settlement or translation of a borrowing, to the extent of any unrealised loss in respect of the same borrowing, previously recognised as an adjustment to such borrowing cost.

Borrowing costs that are attributable to the acquisition or construction of qualifying assets (i.e. an asset that necessarily takes a substantial period of time to get ready for its intended use) are capitalized as a part of the cost of such assets till the month in which the asset is ready for use. All other borrowing costs are charged to the Statement of Profit & Loss.

K. Segment Accounting

The Managing Directors monitor the operating results of the business Segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements.

The Operating segments have been identified on the basis of the nature of products / services.

Segment revenue includes sales and other income directly identifiable with / allocable to the segment including inter-segment revenue.

Expenses that are directly identifiable with / allocable to segments are considered for determining the segment result. Expenses which relate to the Company as a whole and not allocable to segments are included under unallowable expenditure.

Income which relates to the Company as a whole and not allocable to segments is included in un-allocable income.

NOTES FORMING PART OF THE BALANCE SHEET

Segment result includes margins on inter-segment and sales which are reduced in arriving at the profit before tax of the Company.

Segment assets and liabilities include those directly identifiable with the respective segments. Un-allocable assets and liabilities represent the assets and liabilities that relate to the Company as a whole and not allocable to any segment.

Inter-Segment transfer pricing

Segment revenue resulting from transactions with other business segments is accounted for at actual cost incurred for producing the goods or at market prices of the products transferred as the case may be and as agreed to by the respective segments.

L. Foreign Currency Transactions

Monetary items:

Initial Recognition

On initial recognition, transactions in foreign currencies are entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate between the functional currency and foreign currency at the same date of transaction.

Measurement of foreign currency items at reporting date

Foreign currency monetary items of the company are translated at the closing rates.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit & Loss either as profit or loss on foreign currency transaction and translation or as borrowing costs to the extent regarded as an adjustment to borrowing costs.

Non – Monetary items:

Non-monetary items that are measured in terms of historical cost are recorded at the exchange rates at the dates of the initial transactions.

M. Provisions, Contingent Liabilities and Contingent Assets

- a) Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expenses relating to a provision are recognised in the Statement of Profit & Loss net of any reimbursement.
- b) If the effect of time value of money is material, provisions are shown at present value of expenditure expected to be required to settle the obligation, by discounting using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.
- c) Contingent liabilities are possible obligations arising from past events and whose existence will only be confirmed by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or present obligations where it is not probable that an outflow of resources will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability. Contingent liabilities are not recognized in the financial statements but are disclosed unless the possibility of an outflow of economic resources is considered remote.
- d) Show-cause notices issued by various Government Authorities are not considered as obligation. When the demand notices are raised against such show cause notices and are disputed by the Company, these are classified as disputed obligations.

NOTES FORMING PART OF THE BALANCE SHEET

- e) Contingent Assets are not recognised but reviewed at each balance sheet date and disclosure is made in the Notes in respect of possible effects that arise from past events and whose existence is confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company and where inflow of economic benefit is probable.

N. Fair Value measurement

- a) The Company measures financial instruments i.e. derivative contracts at fair value at each balance sheet date.
- b) Fair value is the price that would be received on selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date.
- c) While measuring the fair value of an asset or liability, the Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure the fair value using observable market data as far as possible and minimising the use of unobservable inputs. Fair values are categorised into 3 levels as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices that are observable for the assets or liability, either directly (i.e. as prices for similar item) or indirectly (i.e. derived from prices)

Level 3: inputs that are not based on observable market data (unobservable inputs)

O. Financial Instruments

i. Financial Assets other than derivatives

All financial assets are recognised initially at fair values including transaction costs that are attributable to the acquisition of the financial asset.

A financial asset is measured (subsequent measurement) at the amortised cost if the asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and the contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Amortised cost is net of any write down for impairment loss (if any) using the effective interest rate (EIR) method taking into account any discount or premium and fees or costs that are an integral part of the EIR.

A financial asset is derecognised either partly or fully to the extent the rights to receive cash flows from the asset have expired and / or the control on the asset has been transferred to a third party. On de-recognition, any gains or losses are recognised in the Statement of Profit & Loss.

ii. Financial Liabilities other than derivatives

All financial liabilities are recognised initially at fair value net of transaction costs that are attributable to the respective liabilities.

After initial recognition, financial liabilities are subsequently measured at amortised cost using the effective interest rate method ("EIR"). Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit & Loss.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit & Loss.

NOTES FORMING PART OF THE BALANCE SHEET

iii. Derivative financial instruments

The Company uses derivative financial instruments, such as foreign exchange forward contracts to manage its exposure to foreign exchange risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value with the changes being recognised in the Statement of Profit & Loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

iv. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

P. Classification of Assets and Liabilities as Current and Non-Current:

All assets and liabilities are classified as current if they are expected to be realised / settled within twelve months after the reporting period. All other assets and liabilities are considered as non-current.

Q. Impairment

Non-financial Assets

At each Balance Sheet date, an assessment is made of whether there is any indication of impairment. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of the asset's or Cash-Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Financial Assets

The Company applies Expected Credit Loss ("ECL") model for measurement and recognition of impairment loss on the financial assets measured at amortised cost.

Loss allowances on trade receivables are measured following the 'simplified approach' at an amount equal to the lifetime ECL at each reporting date right from initial recognition. In respect of other financial assets measured at amortised cost, the loss allowance is measured at 12 month ECL for financial assets with low credit risk at the reporting date. Where there is a significant deterioration in the credit risk, the loss allowance is measured since initial recognition of the financial asset.

R. Taxes on Income

Current Tax

Income-tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, by the end of reporting period.

Deferred tax

Deferred tax (both assets and liabilities) is calculated using the balance sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. The amount of deferred tax assets is reviewed at each reporting date.

NOTES FORMING PART OF THE BALANCE SHEET

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current tax and Deferred Tax items are recognised in correlation to the underlying transaction either in the Statement of Profit & Loss, other comprehensive income or directly in equity.

S. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period, adjusted for the effect of all dilutive potential equity shares.

T. Cash and Cash equivalents

Cash and cash equivalents include cash at bank, cash, cheques and draft on hand. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

Cash Flows

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

U. Government Grants

Government grants are recognized to the extent they are received in cash or kind.

When the grant relates to an expense item, the same is deducted in reporting the related expense in the Statement of Profit or Loss for which it is intended to compensate.

Government grants relating to property, plant and equipment are presented as deferred income and are credited to the Statement of Profit & Loss on a systematic basis over the useful life of the asset and in the proportions in which depreciation expense on the assets is recognised.

Grants related to income are deducted in reporting the related expense.

V. Significant Accounting Judgements, Estimates and Assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements, Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

NOTES FORMING PART OF THE BALANCE SHEET

W. Impairment of non-financial assets

At each Balance Sheet date, an assessment is made of whether there is any indication of impairment. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of the asset's or Cash-Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Note: The Company does not expect any outflow in respect of the above contingent liabilities.

* Includes:

- i) Sales Tax Assessments of Dhrangadhra Unit are pending for 1994-95, 1995-96, 1997-98, 2004-05, 2005-06 and 2014-15 to 2016-17. In respect of Sahupuram Unit Central Sales Tax Assessments and Tamil Nadu General Sales tax assessment are completed up to 2010-11.

**Includes:

- i) The Commissioners of Customs, Tuticorin and Kandla during the year issued Order rejecting the classification of coal imported by the company during the year 2011 and 2012 as Steam Coal and reclassified the same as Bituminous Coal and demanded differential duty of ₹ 1311.31 lakhs along with applicable interest of ₹ 490.58 lakhs and imposed penalty of ₹ 1309 lakhs. The Company has filed appeal with CESTAT against the said Orders. The appeal is pending with CESTAT. The Company has been legally advised that it has a fair chance of winning the case before CESTAT. Accordingly no provision has been made in the accounts and has been disclosed as contingent liability.
- ii) In the matter of Export Duty on Upgraded Benefited Ilmenite classification dispute, the Company has given an undertaking to remit the disputed duty in case; the dispute is decided against the Company by the highest judicial forum. As at 31st March 2017 the duty liability is ₹ 2124.36 Lakhs (Previous year – ₹ 1971.01 Lakhs). Since the Company has got the favourable order from the adjudicating authority in some of the shipments made by the Company, relating to the same period, the Company is hopeful of getting favourable order in all the shipments where the duty has been demanded by the department.

Includes:

- i) The Tamil Nadu Government vide Government order dated 23-09-1996 issued under TamilNadu Electricity (Taxation & Consumption) Act, 1961, exempted specified industries (including the industry in which the company operates) permanently from payment of Electricity Tax on consumption of power generated captive. The Supreme Court vide order dated 15th May, 2007 held that the withdrawal of the permanent exemption by the Act of 2003 was invalid. In November, 2007 the TamilNadu government passed the TamilNadu tax on consumption or Sale of Electricity (Amendment) Act, amending the Act of 2003 to invalidate the permanent exemption granted with retrospective effect. The writ petition filed by the company against this amendment

NOTES FORMING PART OF THE BALANCE SHEET

has been dismissed by the Madras High Court. The SLP filed by the company against the High Court Order has been admitted by the Supreme Court.

The Electrical Inspectorate, Government of Tamil Nadu's vide letter dated 2nd September 2014 informed the Company that the electricity tax exemption would not be applicable to the Company and demanded Electricity Tax of ₹ 2026.72 lakhs and interest of ₹ 1541.98 lakhs for the period 2003 to 2012. The Company has filed writ petition before the Hon'ble High Court of Judicature at Madras and has also obtained interim stay of the said demand vide Order dated 22nd September, 2014 on payment of ₹ 640 lakhs towards pre-deposit.

The appeal filed before the Hon'ble Supreme Court and the writ petition filed before the Hon'ble Madras High Court are pending for adjudication.

The company has been legally advised and is hopeful of favourable outcome before the Supreme Court on the invalidity of and the retrospective application of the Amending Act of 2003 and in the writ petition filed before the Hon'ble Madras High Court. An amount of ₹ 422.69 lakhs has been provided on a prudent basis in the earlier financial year. No provision is considered necessary by the management for the balance electricity tax demand and has been disclosed as contingent liability.

- ii) In the matter of leasehold land in respect of the salt works at Kuda, Dhrangadhra, which is an "Operating Lease", the Honourable Supreme Court has admitted the SLP filed by the Company against the Order of the Gujarat High Court upholding that the lease of the aforesaid land is not permanent and hence is terminable. The Company is confident of succeeding in the Supreme Court.
- iii) In the matter of disputed demand of ₹ 498.94 lakhs consequent to revision in the lease rent rates fixed by the Tariff Authority for Major Ports (TAMP) from 2006 to 2016 in respect of the port lands taken on lease by the Company from the V. O. Chidambaranar Port Trust, the Company has obtained interim stay from the Honourable High Court of Judicature at Madras vide order dated 01.08.2014. The company is confident of succeeding in this matter.
- iv) In the matter of lease rental of land admeasuring 793.39 acres at Sahupuram Works, the assignment deeds in respect of which are yet to be executed by the State Government in favour of the Company. (Details refer note no. 36).

NOTES FORMING PART OF THE BALANCE SHEET

NOTE 36:

Land includes a land costing ₹ 3.91 lakhs (fair valued at ₹ 2380.20 lakhs on transition date) admeasuring 793.39 acres at Sahupuram Works, the assignment deeds in respect of which are yet to be executed by the State Government in favour of the Company.

The Company had remitted the above land cost as per State Government order in the year 1989. The assignment deed of the said land in favour of the Company was not executed by the State Government, demanding double the market value of the land and the State Government demanded lease rent from 1989. As the assignment deed of the land was not executed by the State Government, the Company filed writ petition before the Honourable Madras High Court which ordered the State Government to pass orders on merits on the application seeking the said assignment, filed by the Company and granted interim stay against collection of lease rent.

The State Government vide order dated 31st March 2017 has finally rejected the request for the assignment of land citing certain non-fulfilment of condition of original lease, and ordered to collect the arrears of lease rent from 1989 to till date with 12% interest and also issued orders to repossess the said land. The Company has filed writ petition against the said order before the Honourable Madras High Court which is pending for hearing.

The Company has been legally advised that it has a very good case on the above matter and hence the ownership of the land would eventually be transferred in the name of the Company as per Sec 53A of the Transfer of Property Act. The lease rent demanded has been disclosed under Contingent Liability and therefore the land is treated as “freehold”.

NOTE 41- FAIR VALUE MEASUREMENTS:

The following disclosures are made as required by Ind AS -113 pertaining to Fair value measurement:

a. Accounting classification and fair values

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

(₹ In lakhs)

Financial Liabilities	Carrying amount at Amortised Cost	Fair value	Fair value measurement hierarchy level
As on 31st March, 2018			
Fixed Rate Borrowings	-	-	Level 2
As on 31st March, 2017			
Fixed Rate Borrowings	-	-	Level 2

b. Measurement of fair values:

The following tables shows the valuation techniques used in measuring Level 2 fair values.

Type	Valuation technique
Fixed Rate Borrowings	Discounted cash flows: The valuation model considers the present value of expected payment discounted using appropriate discounting rates.

c. Financial risk management

The Company has exposure to the Credit risk, Liquidity risk and Market risk arising from financial instruments.

Risk Management Framework: The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors has established the Risk Management Committee (RMC), which is responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits to control / monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Audit Committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks

NOTES FORMING PART OF THE BALANCE SHEET

faced by the Company. The Audit Committee is assisted by internal audit. Internal audit undertakes reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is approved by the Board of Directors.

d. Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables.

Trade receivables: The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

The following table provides information about the exposure to credit risk and measurement of loss allowance using Life time expected credit loss for trade receivables:

Cash and cash equivalents:

The Company held cash and cash equivalents of ₹ 355.01 lakhs as at 31 March 2018 (Prev Year: ₹ 157.76 lakhs). The cash and cash equivalents are held with reputed banks.

e. Liquidity Risk:

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

f. Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and commodity prices, will affect the Company's income or the value of its financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables, long term debt and commodity prices. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and commodity price risk.

Interest rate risk:

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates, in cases where the borrowings are measured at fair value through the Statement of profit and loss. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to Interest rate risk:

Company's interest rate risk arises from borrowings. The interest rate profile of the Company's interest-bearing long term financial instruments is as follows:

(₹ In lakhs)

Particulars	31 st March 2018	31 st March 2017
Fixed-rate instruments:		
Financial liabilities - measured at amortised cost	-	-
Variable-rate instruments:		
Financial liabilities - measured at amortised cost	47,875.40	47,998.82
Total	47,875.40	47,998.82

Cash flow sensitivity analysis for variable-rate instruments: A reasonably possible decrease by 100 basis points in interest rates at the reporting date would have positive impact (before tax) by ₹ 478.75 lakhs and ₹ 479.99 lakhs for the outstanding balance as on 31.3.2018 and 31.3.2017 respectively. Similarly a reasonable possible increase by 100 basis points in interest rate would have negative impact (before tax) by same amounts.

Currency risk:

The Company is exposed to currency risk on account of its operating and financing activities. The functional currency of the Company is Indian Rupee.

To the extent the exposures on purchases and borrowings are not economically hedged by the foreign currency denominated receivables, the Company uses derivative instruments, like, foreign exchange forward contracts to mitigate the risk of changes in foreign currency exchange and principal only swap rates. Company does not use derivative financial instruments for trading or speculative purposes.

NOTES FORMING PART OF THE BALANCE SHEET

The Company evaluates exchange rate exposure arising from foreign currency transactions and the Company follows established risk management policies including the use of derivatives like foreign exchange forward contracts to hedge exposure:

Exposure to currency risk:

The currency profile of financial assets and financial liabilities as on 31st March 2018 & 31st March 2017 are as below:

(₹ In lakhs)

Net exposure (B-A)	95,666.11	68,772.49	26,893.62

Sensitivity analysis:

A reasonably possible strengthening of the Indian Rupee against USD at March 31 by 4% would have positive impact (before tax) by ₹ 931.54 lakhs and ₹ 1,075.74 lakhs for the net outstanding balance as on 31.3.2018 and 31.3.2017 respectively. Similarly a reasonably possible weakening of the India Rupee against USD would have a negative impact (before tax) by same amounts.

Capital Management

For the purpose of the Company's capital management, capital includes issued capital, convertible instruments and reserves. The primary objective of the Company's Capital Management is to maximise shareholder value. The company manages its capital structure and makes adjustments, if any, required in the light of the current economic environment and other business requirements.

Note 42. Standards Issued but not yet effective:

The standard issued, but not yet effective up to the date of issuance of the company financial statement is disclosed below. The Company intends to adopt the standard when it becomes effective.

Amendments to Ind AS 7, Statement of Cash flows

The amendment to Ind AS 7 introduces an additional disclosure that enables users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. Management is of the view that the amendment will have impact only on disclosures in relation to cash flow statement within the financial statements.

IND AS 115 Revenue from Contracts with Customers

IND AS 115 was issued in February 2015 and establishes a five step model to account for revenue arising from contracts with customers. Under IND AS 115 revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled for transferring goods or services to a customer. The new revenue standard will supersede the current revenue recognition requirements under IND AS. The standard comes into force from accounting period commencing on or after 1st April, 2018. The Company will adopt the new standard on the required effective date. The Company is in process of examining the applicability of the standard.

Amendments to Ind AS 102, Share Based payments

The amendment is not relevant for the Company as it does not have any cash-settled share based payments or share based payments with a net-settled feature

Note 43.

The standalone financial statements were authorised for issue in accordance with the resolution passed by the Board of Directors on 29th May 2018.

Note 44.

The figures of previous year have been rearranged & regrouped where ever necessary and / or practicable to make them comparable with those of the current year.
