AstraZeneca Pharma India Limited marks 37% growth as the Company announces Q2 results

Revenue rises 37% in Q2 2025-26; seven new approvals in H1 reinforcing our leadership across therapy areas

Bengaluru, November 07, 2025: AstraZeneca Pharma India Limited (“the Company”), a science-led biopharmaceutical company, announced financial results for the quarter ended September 30, 2025. The Company delivered revenue growth of **37%** in Q2 FY2025–26, reflecting disciplined execution and momentum across Oncology, Biopharmaceuticals (CVRM, R&I, V&I), and Rare Disease.

Financial performance Summary:

Summary	(Value in INR Mn)			
	Q2 2025 Jul -Sept’25	H1 2025 Apr’25-Sep’25	Q2 2024 Jul24-Sep’24	H1 2024 Apr’24-Sep’24
Total revenue from Operations	5,590.9	10,854.0	4,080.0	7,955.2
Profit before exceptional item and tax	781.1	1531.7	510.3	934.3
Profit after exceptional item and tax	542.2	1100.5	384.3	266.4
Oncology	3,977.5	7,673.6	2,677.5	5,071.7
Biopharmaceuticals (CVRM, R&I and V&I)	1,267.5	2,457.5	1,180.9	2,444.2
Rare Disease	38.1	42.3	5.4	7.5

Bhavana Agrawal, Chief Financial Officer & Director of the Company, said, “Our strong Q2/H1 results reflect AstraZeneca’s strong growth trajectory and unwavering commitment to science-led progress. We continue to strengthen our leadership across therapy areas by advancing an innovation-first portfolio that delivers both patient impact and business value. Every approval and milestone underscore our focus on accelerating access to breakthrough treatments and driving sustainable, long-term growth.”

Praveen Akkinipally, Country President & Managing Director, AstraZeneca Pharma India Ltd., added, “Our performance this quarter/in H1, is a clear testament to AstraZeneca’s purpose in action, translating cutting-edge science into life-changing medicines for patients in India. As we scale across our therapy areas, our focus on innovation, partnerships, and patient-centricity is shaping a more accessible and outcomes-driven healthcare ecosystem. Our momentum reinforces our vision to transform healthcare delivery and set new benchmarks for scientific excellence in India.”

Key milestones:

- **Durvalumab – endometrial cancer:** Received regulatory approval from CDSCO to import for sale and distribution of Durvalumab solution for infusion for two additional indications. Durvalumab in combination with carboplatin and paclitaxel is now indicated for first-line treatment of adults with primary advanced or recurrent endometrial cancer who are candidates for systemic therapy; followed by maintenance treatment with Durvalumab in combination with Olaparib in endometrial cancer that is *pMMR*.

- **Durvalumab – muscle invasive bladder cancer (MIBC):** Received regulatory approval from CDSCO to import for sale and distribution of Durvalumab Solution for Infusion 120 mg/2.4 ml and 500 mg/10 ml for an additional indication as adjuvant treatment following radical cystectomy for adult patients with MIBC.
- **Eculizumab – rare disease leadership:** Launched **Eculizumab**, the first anti-complement therapy approved in India by CDSCO for the treatment of *atypical Haemolytic Uremic Syndrome (aHUS)* and *Paroxysmal Nocturnal Hemoglobinuria (PNH)*, marking a significant milestone in rare diseases.
- **Osimertinib – NSCLC:** Received regulatory approval to import for sale and distribution of Osimertinib tablets for an additional indication in combination with pemetrexed and platinum-based chemotherapy for the first-line treatment of patients with locally advanced or metastatic NSCLC with *EGFR exon 19 deletions or exon 21 (L858R) substitution mutations*.
- **Trastuzumab deruxtecan – HER2 spectrum expansion:** Received regulatory approval from CDSCO to import for sale and distribution of **trastuzumab deruxtecan** for an additional indication in *HER2-low* and *HER2-ultralow* metastatic breast cancer patients who have received at least one endocrine therapy in the metastatic setting.
- **Osimertinib – NSCLC (stage III, monotherapy):** Gained CDSCO regulatory approval for an additional indication of **Osimertinib** as monotherapy for import for sale and distribution for the treatment of patients with locally advanced, unresectable (stage III) NSCLC with *EGFR exon 19 deletions or exon 21 (L858R) substitution mutations* whose disease has not progressed during or following platinum-based chemoradiation therapy.
- **Benralizumab – EGPA:** Received regulatory approval from CDSCO to import for sale and distribution of **Benralizumab** for an additional indication as an add-on treatment for adult patients with relapsing or refractory *eosinophilic granulomatosis with polyangiitis (EGPA)*.
