

Results for the Quarter and Year ended March 31, 2020 under IFRS
IT Services Revenues^{2&3} in Constant Currency grew by 3.9% for the year
EPS for the year grew at 11.2% YOY

Bangalore, India and East Brunswick, New Jersey, USA – April 15, 2020 - Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO) today announced financial results under International Financial Reporting Standards (IFRS) for its quarter and year ended March 31, 2020.

Highlights of the Results

Results for the Year ended March 31, 2020:

- Gross Revenue was ₹610.2 billion (\$8.1 billion¹), an increase of 4.2% YoY
- IT Services Segment Revenue was at \$8,256.2 million, grew at 1.7% YoY
- Non-GAAP^{2&3} constant currency IT Services Segment Revenue increased by 3.9% YoY
- IT Services Operating Margin⁴ for the year was at 18.1%, an expansion of 0.2% YoY
- Net Income for the year was ₹97.2 billion (\$1.3 billion¹), an increase of 8.0% YoY
- EPS for the year was ₹16.67 (\$0.22¹) per share and grew 11.2% YoY

Results for the Quarter ended March 31, 2020:

- Gross Revenue was ₹157.1 billion (\$2.1 billion¹), an increase of 4.7% YoY
- IT Services Segment Revenue was at \$2,073.7 million, a decrease of 1.0% QoQ
- Non-GAAP³ constant currency IT Services Segment Revenue increased by 0.4%QoQ
- IT Services Operating Margin⁴ for the quarter was at 17.6%, a decrease of 0.8% QoQ
- Net Income for the quarter was ₹23.3 billion (\$308.5 million¹), a decrease of 6.3% YoY
- EPS for the quarter was ₹4.09 (\$0.05¹) per share, a decrease of 1.1% YoY
- The Board has not recommended any final dividend. The interim dividend of ₹1 declared by the Board at its meeting held on January 14, 2020 shall be considered as the final dividend for the financial year 2019-20. Thus, the total dividend for the financial year 2019-20 remains ₹1 per equity share

Performance for the quarter & year ended March 31, 2020

Abidali Z. Neemuchwala, CEO and Managing Director said, “In these unprecedented times, I am extremely proud of how the Wipro team has come together and worked 24/7 to ensure the safety and well-being of each other while continuing to serve our clients. We hope that all of us stay safe and strong during these tough times. We are confident that our broad portfolio of services and our ability to execute to our commitments makes us well-positioned to gain market share.”

Jatin Dalal, Chief Financial Officer said, “The quarters ahead seem challenging and require a tremendous response on costs. We also anticipate our working capital to increase, but our strong balance sheet provides us the confidence that we will emerge stronger and better. Further, due to the volatility in the external environment, we have decided not to provide a quarterly guidance on revenues.”

1. For the convenience of the readers, the amounts in Indian Rupees in this release have been translated into United States Dollars at the certified foreign exchange rate of US\$1 = ₹ 75.39, as published by the Federal Reserve Board of Governors on March 31, 2020. However, the realized exchange rate in our IT Services business segment for the quarter ended March 31, 2020 was US\$1= ₹ 73.95.
2. YoY growth rates for the year ended March 31, 2020 have been computed by adjusting revenues for the year ended March 31, 2019 for the impact of divestments.
3. Constant currency revenue for a period is the product of volumes in that period times the average actual exchange rate of the corresponding comparative period.
4. IT Services Operating Margin refers to Segment Results Total as reflected in IFRS financials.
5. The estimated impact of COVID-19 on our business is due to service discontinuity caused by inability of our employees to work from home or contract cancellations/ ramp down attributed to the COVID-19 pandemic.

We estimate that the IT Services Revenues for the quarter ended March 31, 2020 were negatively impacted by COVID-19 by approximately \$14 -\$16 million⁵(0.7%-0.8% of revenues). Due to the uncertainty around the course of the COVID-19 pandemic, we do not have visibility into the extent to which it will disrupt our operations, and we have decided to not provide revenue guidance for the quarter ending June 30, 2020. We anticipate that we will resume providing revenue guidance when we have increased certainty of both demand and supply side factors.

IT Services

Wipro continued its momentum in winning deals globally as described below:

- Wipro has won a multi-year engagement in Mexico with one of the world's largest Spanish language media companies to redefine their workplace experience. This engagement enables their digital strategy to deliver enhanced user experience and move to a flexible and secure model leveraging VirtuaDesk™, Wipro's digital IP, and security expertise. Wipro will also leverage its deep media expertise and innovation to enable the client in their long-term business objectives.
- A large US-based healthcare company has awarded Wipro a multi-year contract to transform its contact center operations using Design Thinking, AI Automation & Analytics leveraging Wipro HOLMES™ and other digital technologies.
- A multinational professional services firm has awarded Wipro a Digital Workspace Services contract under which Wipro will provide IT support and transform the end user experience for its employees globally, leveraging its design-led approach.
- Wipro has won a multi-year engagement with a top Australian utility company for modernizing their core back-office platform leveraging SAP S/4 HANA digital core. This program will enable the client to consolidate and streamline their Corporate Finance, Supply Chain & Procurement functions in a single integrated platform.

Wipro continued to partner with our customers during Covid-19, some examples of how we collaborated are below:

- Our customer, an American food service, facilities, and uniform services provider caters to over 5000 client locations across the US, majority of which are now inaccessible due to the COVID-19 pandemic. The company's Chief Growth Officer collaborated with Wipro to map nursing homes in these locations that may be in dire need of help and which could be serviced by the local task teams. We successfully developed a Google Distance Matrix API based solution to map the top 10 service locations that could aid nursing homes in their serviceable regions. Especially for the New York state nursing homes that are more severely affected than most, we could provide same day location mapping results for priority outreach. This solution now has the ability to cover all nursing homes, enabling our customer to take its humanitarian effort nationwide.
- One of the European governments recently announced multi - billion in loans for corporates to avail during the COVID-19 crisis. Within a span of 3 days, we helped our customer, one of the largest banks in Europe, update and go-live with their loan processing applications to ensure their corporate customers' businesses stay up and running. These applications can now process interest-free loans in just 15 minutes, and so far, nearly 10,000 of the bank's corporate customers have benefited immensely.
- Amidst the COVID-19 crisis, we helped our customer, a Postal Services company in Middle East, launch a special medicine delivery service as a part of the government's quick response for citizens.

- Even amidst the operational issues posed by the pandemic, we were able to help our client, a clothing retailer in South Africa, successfully go-live with a large Oracle retail implementation. This is an example of a 100% 'remote' cutover, and has enabled the client to optimize its operations significantly to serve their customers.

Analyst Recognition

- Wipro was recognized as the "Star Performer of the year" in Everest Group PEAK Matrix™ Service Provider of the Year awards
- Wipro was positioned as a Leader in Gartner Magic Quadrant for Managed Workplace Services, Europe, David Groombridge, 25 Feb 2020

- India SRE Segment Results for the quarter was a loss of ₹0.48 billion (\$6.4 million¹)

Please refer the table on page 9 for reconciliation between IFRS IT Services Revenue and IT Services Revenue on a non-GAAP constant currency basis.

About Non-GAAP Financial Measures

This press release contains non-GAAP financial measures within the meaning of Regulation G and Item 10(e) of Regulation S-K. Such non-GAAP financial measures are measures of our historical or future performance, financial position or cash flows that are adjusted to exclude or include amounts that are excluded or included, as the case may be, from the most directly comparable financial measure calculated and presented in accordance with IFRS.

The table on page 9 provides IT Services Revenue on a constant currency basis, which is a non-GAAP financial measure that is calculated by translating IT Services Revenue from the current reporting period into U.S. dollars based on the

currency conversion rate in effect for the prior reporting period. We refer to growth rates in constant currency so that business results may be viewed without the impact of fluctuations in foreign currency exchange rates, thereby facilitating period-to-period comparisons of our business performance. Further, in the normal course of business, we may divest a portion of our business which may not be strategic. We refer to the growth rates in both reported and constant currency adjusting for such divestments in order to represent the comparable growth rates.

This non-GAAP financial measure is not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, the most directly comparable financial measure calculated in accordance with IFRS and may be different from non-GAAP measures used by other companies. In addition to this non-GAAP measure, the financial statements prepared in accordance with IFRS and the reconciliation of these non-GAAP financial measures with the most directly comparable IFRS financial measure should be carefully evaluated.

Results for the quarter and year ended March 31, 2020, prepared under IFRS, along with individual business segment reports, are available in the Investors section of our website www.wipro.com

Quarterly Conference Call

We will hold an earnings conference call today at 07:15 p.m. Indian Standard Time (09:45 a.m. U.S. Eastern Time) to discuss our performance for the quarter. The audio from the conference call will be available online through a web-cast and can be accessed at the following link- <https://links.ccwebcast.com/?EventId=Wipro200415>

An audio recording of the management discussions and the question and answer session will be available online and will be accessible in the Investor Relations section of our website at www.wipro.com

About Wipro Limited

Forward-Looking Statements

The forward-looking statements contained herein represent Wipro's beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro's control. Such statements include, but are not limited to, statements regarding Wipro's growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to

maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry. The conditions caused by the COVID-19 pandemic could decrease technology spending, adversely affect demand for our products, affect the rate of customer spending and could adversely affect our customers' ability or willingness to purchase our offerings, delay prospective customers' purchasing decisions, adversely impact our ability to provide on-site consulting services and our inability to deliver our customers or delay the provisioning of our offerings, all of which could adversely affect our future sales, operating results and overall financial performance. Our operations may also be negatively affected by a range of external factors related to the COVID-19 pandemic that are not within our control.

Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.

The Company is organized into the following operating segments: IT Services, IT Products and India State Run Enterprise segment (ISRE).

IT Services: The IT Services segment primarily consists of IT Service offerings to customers organized by industry verticals.

The industry verticals are as follows: Banking, Financial Services and Insurance (BFSI), Health Business Unit (Health BU), Consumer Business Unit (CBU), Energy, Natural Resources & Utilities (ENU), Manufacturing (MFG), Technology (TECH) and Communications (COMM). Key service offerings to customers includes software application development and maintenance, research and development services for hardware and software design, business application services, analytics, consulting, infrastructure outsourcing services and business process services.

IT Products: The Company is a value-added reseller of desktops, servers, notebooks, storage products, networking solutions and packaged software for leading international brands. In certain total outsourcing contracts of the IT Services segment, the Company delivers hardware, software products and other related deliverables. Revenue relating to the above items is reported as revenue from the sale of IT Products.

India State Run Enterprise segment (ISRE): This segment consists of IT Services offerings to entities/ departments owned or controlled by the Government of India and/ or any Indian State Governments
