Message to the Shareholders

"The Company is geared up to improve its capacity utilisation particularly from the new facility during the current fiscal."

How would you summarise the year went by in terms of economic perspective?

India's economic growth remained robust, growing at 6.8% in FY19, despite several challenging macro-economic factors. Despite a weak fourth quarter, the yearly GDP positions the Country as the fastest growing economy in the world. On the other hand, the global economy grew moderately at ~3% with continued tensions between the US and China. This did help the Indian exporting community, where the players

leveraged the cost of production and quality products compared to China. Further, a stable government at the centre in the recently concluded elections in India, will augment formation and implementation of policies for a stronger economic growth in the coming years.

How would you summarise the packaging industry scenario during the year under review?

In the last couple of years, the industry has been in a phase of expansion leading to pressures in the pricing

and profitability of manufacturing companies. The next few years will also see a churning in the Indian FIBC industry, with marginal and unorganized players finding it difficult to sustain rising compliances and higher quality benchmarks. This would leave integrated manufacturing players like us to offer value-added products and grow sustainably.

Could you please elaborate on the competitiveness of Kanpur Plastipack amidst this evolving industry scenario?

Your company is favourably placed to capitalize on emerging opportunities by offering unmatched quality products with a growing customer base. The year gone by was dedicated towards improving the operational efficiency and setting up the new manufacturing facility. We now have the infrastructure for rapid scaling up and the investments made so far will help us in our growth trajectory. The customer acquisitions made during the last 18 months were at a record high, surpassing the numbers of the last two decades. This shows a strong affinity to 'brand' Kanpur Plastipack and validates the investments made by the company.

What reasons would you ascribe for a subdued performance during the year?

As we mentioned earlier, the industry is passing through a phase of overcapacity and rationalisation. This process of evolution has started to happen after a decade of almost double-digit growth. Globally demand has seen a dip with Inventory cut backs and uncertainties in Political and Economic scenarios all of which leading to pressures on margins. However, when we compare the financial performance with industry benchmarks, we have done well. Our revenues stood at ₹334 Crores, and our EBITDA was ₹32.78 Crore. The increase in financial costs and depreciation led to a pressure on the bottom line. Teething troubles at the new plant are all over and the restructuring process under way will allow for improvements as we go along.

Do you believe that the new plant set up marks a stepping-stone for Kanpur Plastipack's Corporate Journey?

20th July, 2018 will remain a landmark day in the corporate history of the Company, where we commissioned our greenfield project almost a decade after we did our last major expansion in the year 2008. The current plant has been planned and built to world standards benchmarked to the best, enabling us to serve a wider global customer base and thereby adding to our existing customer portfolio. Our new plant is also certified for food grade by BRC (British Retail Consortium) which makes us among the few companies globally to produce packaging material that can serve clients in the food and chemicals sector. In addition, the infrastructure created at our facility will also allow us to ramp up capacity quickly and meet the growing demand in the coming years without significant investments.

What are the improvement areas that would help the Company achieve its targets?

As a strategic action plan the company's focus shall be to achieve economies of scale, improve productivity and focus on value-added products. The improved infrastructure and steps towards Operational Excellence will help us in customer retention. Attempts are being to widen the geographical spread of the company as well.

At Kanpur Plastipack we have been proactive in adapting practices that are future-ready. In 2011, the Company started the diversification process by introducing in its product portfolio high tenacity Multi-Filament Yarn (MFY). This has now become an independent vertical with five lines having a total

manufacturing capacity of 550 MT per month. With our installed capacity of 6,600 MT MFY, we are currently the second largest player in the Country and the only one to produce a wide variety of Yarn products in bulk quantity.

In addition, we have also invested in our human capital, with a new Management team for different functionalities. These initiatives will eventually culminate to make our organization future-ready and seize every opportunity in an ever changing business environment.

What would be your message for the shareholders?

Kanpur Plastipack now stands at a pivotal point to transform into a market leader across its key products. World class facilities attract world class customers. This is the mantra that we worked upon and going forward we do believe that this mantra will work. In addition, our long-standing customer relationships remain a core strength to our brand, quality and sustainable future. The Company's inherent strengths of its legacy and its technical competence will help it to fight and offset adversities.

The year 2018-19 was a year under transition and we believe that now, with all the investments on capacity enhancement and improvements in the existing facilities, your company is all set to utilize the yield in the years to come. We are grateful to our shareholders who have always showed their belief on the Company.

Integrated Manufacturing

Kanpur Plastipack Limited manufactures various products for multiple applications in packaging for several downstream customers. We are adding value in our manufacturing process through a two-pronged approach. One, we are expanding our capacities aligning it to the increasing market demands and varied customer aspirations. Two, we continue to upgrade our facilities and strengthen our integration process as it adds to our profitability levels and superior quality.

One of our key growth engine drivers over the years has been our relentless pursuit to offer quality and innovative products to our customers. We continue to remain one of the very few companies in the world who deliver unmatched solutions in Industrial Bulk Packaging with consistent service and top quality.

The quality quotient that defines our brand is built on the foundation of a strong integrated manufacturing set up. Following the commissioning of our new unit, we will be offering a wider variety of food grade bags from our certified facilities.

Driving Operational Excellence

With rising opportunities in the global and domestic markets, we have been significantly investing in human resources and in improving our operational efficiency. We have set up efficient technologies in both our existing as well as new plants translating into low production cost. The project on operational excellence is beginning to bear through which will lead to improve performance and strengthen our margins in the coming years.

Review of Operations and Outlook:

During 2018-19, your Company showed continued acceleration and momentum in upgrading the facilities. Your Company has achieved yet another milestone and recorded a turnover of ₹ 334 Crores. During the year your Company has commenced commercial production from its Green field project at Unit no. 3 which was duly inaugurated on the 20th of July, 2018. The Company undertook a massive exercise of refurbishment of the old unit located at the registered office of the Company. This had become a necessity to streamline the layout and enhance the longevity of the building and structure. This will help in improving the operational performance of the Company. Therefore, the year 2018-19 was a year in transition. We believe that now your Company is all set to utilize its improved infrastructure and enhanced capacities for better results in the years to come. Highlights of the performance during 2018-19:

Financial

- Turnover increased by 17% to ₹ 334 Cr (PY ₹ 285 Cr.)
- Net worth of the company went up by around 21%.

- Profit Before Tax ₹ 21.66 Cr.
- Profit After Tax ₹ 16.20 Cr.

Operational:

- **Volumes of Sales recorded during FY 2018-19:**

Product	2018-19
FIBC :	10218
MFY :	3012
Fabrics :	1622
Bags :	352

- Total number of active customers went up to : Export - 82, Domestic - 237.
- The geographical footprint expanded and we now sell to 40 countries globally.
- The Roof top Solar plant generated 5 Lacs units of electricity during the year reducing the carbon foot print by about 8 Lacs Kg.
- The Dealer Operated Polymer Warehouse activity of IOCL remained steady and we sold 13640 MT this year.

Your Company continues to leverage on technological upgradation and innovation. The management continues to lay emphasis on exports of value added products and expanding the geographical reach of its export market is your Company's priority.

Risks to the global economy have surfaced due to an increase in protectionist policies and the uncertainties surrounding "BREXIT". Being an export oriented unit, your Company cannot remain isolated from issues related to International Trade. Increased competition from new manufacturers within India and enhancement in capacities has led to a pressure in the market both on sales and pricing. The current financial year will be a challenging one for the company as we gear up to use our new built up capacity and continue its march towards growth. We are, however, confident of being able to handle this challenge.

Credit Rating:

Bank Loan Facilities have been rated with BBB+/Stable for Long Term and A2 for Short Term Facilities by CRISIL.

Share Capital:

Out of 2387774 partly paid up equity shares issued under Rights Issue, your Company has received call money on 23,73,693 partly paid up equity shares and accordingly converted them into fully paid up. However, shareholders of 14081 partly paid up equity shares did not paid call money and your Company had to forfeit these shares.

As on 31.03.2019 your Company has total shares capital of ₹ 14,31,25,640.00 divided into 1,43,12,564 equity shares of ₹ 10/- each.

Dividend:

Your Directors have recommended a final dividend @ 18% i.e. ₹ 1.80 per Equity Share for the financial year 2018-19. Payment of dividend is subject to the approval of shareholders.

Directors:

Shri Shashank Agarwal is retiring by rotation at the ensuing Annual General Meeting and is eligible for re-appointment. In view of the valuable service, guidance and support received from him, your Directors recommend his re-appointment.

The Board of Directors with the approval / ratification of the Shareholders by way of Special Resolution re-appointed Shri P. S. Khamesra and Shri Subodh Kumar for a further period

of 5 years as Independent Directors w.e.f. 01/04/2019 to 31/03/2024 as recommended by the Nomination and Remuneration Committee.

Shri Sobhagya Mal Jain retired from the Board after completing his term as an Independent Director on 31/03/2019. The Board of Directors took on record its sincere appreciation and gratitude towards the exemplary contribution made by him during his tenure. On the recommendation of the Nomination and Remuneration Committee, Shri Dharam Bir Prasad was appointed by the Board of Directors w.e.f. 27/05/2019 as an Additional Independent Director to fill the vacancy so created. His regularization as an Independent Director shall be placed before the Shareholders for approval at the ensuing Annual Meeting.

Management Discussion & Analysis

Global Economic Overview

The Global Economy grew at 3.6% in 2018 while the advanced economies and the Emerging Markets & Developing Economies (EMDEs) grew by 2.2% and 4.5%, respectively. The economy, during the year, faced certain headwinds in terms of moderating international trade and investments, escalating trade tension and financial stress in some countries, especially in emerging markets. Further, China's growth also declined on account of regulatory constraints and an increase in trade tensions with the US.

This had a significant impact on the business environment and resulted in worsening of financial market sentiments and tightening of financial conditions for the vulnerable emerging

markets. The International Monetary Fund estimated global growth at 3.6% in 2018, down from 3.8% in the previous year Macro-economic distress (Source: *The World Bank*)

Outlook

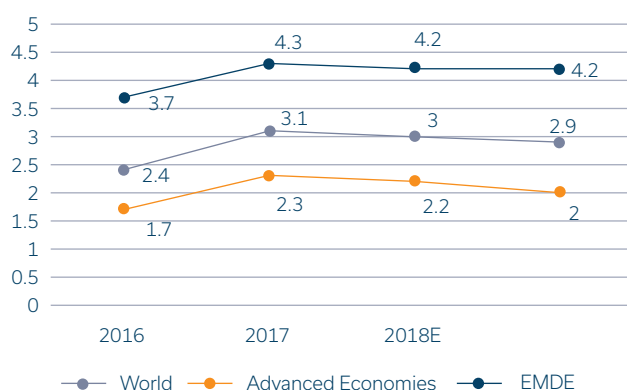

The silver lining has been the growth in the American economy which however has got partially offset by the slowdown in the Euro zone led primarily once again by Italian deficits and the continued uncertainty surrounding BREXIT. Headwinds indicate a slowdown in the World economy and its consequent impact on exports cannot be ruled out. As always, the direction of Oil prices will govern the prospects for third world countries and for many in India the ongoing trade war between China and the USA may have a lasting

impact on supply chain networks and the financial markets across the globe.

Indian Economic Overview

The Indian economy emerged as the fastest growing major economy in 2018-19 for the second time in a row as it continues its growth trajectory. The GDP growth for the year stood at 7% in 2018-19, falling marginally due to stress in the financial and banking sector with rising NPAs and subdued consumption as the after effects of GST and demonetisation still hampered business.

Industrial activity across sectors showed only a marginal improvement as labor-intensive sectors such as textiles, gems and jewelry, leather, etc. continued to struggle throughout the year. Crude prices saw a significant uptrend in the first half of the year, rising by more than 40% before retracing back during the second half. Despite softer overall growth, the industrial growth showed a robust momentum registering Index of Industrial Production (IIP), base 2011-12, for the April-January period for 2018-19 at 4.4%.

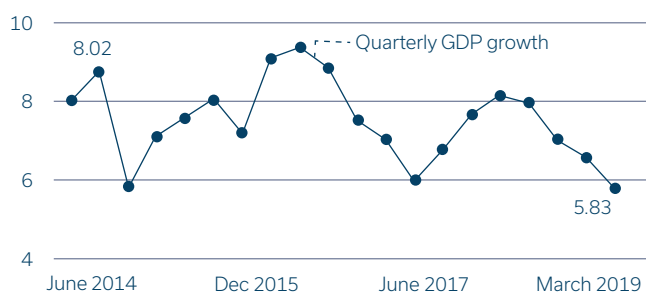

Outlook

Going ahead in the next fiscal year, the GDP is expected to pick up to register 7.2% in 2019-20 and 7.3% in 2020-21. The formation of a stable government at the Centre for the next five years, digitisation of the economy and FDI inflows at the backdrop of economic reforms will push the growth in the coming years. The efforts taken towards strengthening the financial sector balance sheets will further enhance the governance of the public sector banks. Further, reforms for hiring and dismissal regulations would help incentivize job creation and absorb the country's large demographic dividend. (Source: IMF)

Indian GDP

Slump Continues

India's quarterly GDP growth slumped to a five-year low of 5.38% in the last quarter of FY 19. The previous low in the last five years was 5.92% in the third quarter of FY 15

India's Export Scenario

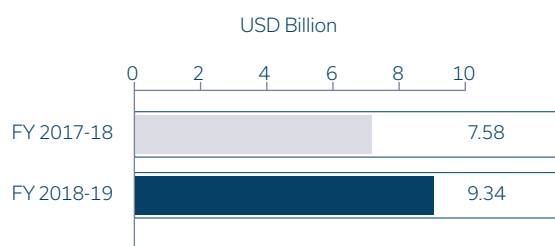

India's merchandise export in FY19 is expected to grow at 7.3%, slightly lower than 9.8% in 2017-18 on account of muted growth in the Country's traditional export of Gems & Jewellery, Leather and Textiles coupled with a liquidity crunch and Rupee appreciation. However, the pharmaceuticals, petroleum, and engineering sector witnessed significant growth in exports during the year. The plastics sector recorded a growth of above 20% driven largely by robust raw material exports. India exports both plastic raw materials and finished products to over 200 countries across the globe. "Plastics are among the fastest growing industries in India and offers immense potential in terms of capacity, infrastructure and skilled manpower," as per Ashok Basak, Chairman of India's Plastics Export Promotion Council (PLEXCONCIL).

The Indian currency saw a significant depreciation, falling to lows of 74.3 per USD mark mid-year before recovering. The last month of FY2018-19 saw the Rupee recover sharply to 68-69 per USD range on the back of renewed portfolio inflows as well as revised views on a likely long pause from the US Fed on its interest rates.

In addition, the government is grappling with challenges on various export promotion schemes and incentives offered to the exporting community. The MIES scrips and the interest subvention are on the radar of the WTO and importing countries like the USA who have become increasingly aggressive in their protectionist policies.

During the year, India's exports of plastics were valued at USD9.34 billion as against USD 7.58 billion in FY18 registering a growth of 23.1%. India's plastics industry is targeting at least a 3% share of the global polymer export market by 2025, to be achieved by a combination of capacity expansion and technology upgrades.

YoY growth in Indian Plastic Exports

Outlook

India is a trade deficit country heavily dependent on imports of OIL for its needs. The balance of payments has always been against India. Additionally, the monsoon plays a significant role as the agrarian economy still drives the entire consumption sector providing employment to millions. The delayed onset of monsoon and the political posturing of the Trump administration create a level of uncertainty difficult to make judgments. The massive mandate in the just concluded elections to the Parliament will no doubt lead to a much better implementation of reforms and improve investment and consumer sentiment. However, an appreciating currency does not help the exporters.

Industry Overview

Plastic

The plastic industry is one of the fastest-growing industries in India, comprising of more than 30,000 processing units, 85-90% of which are small and medium-sized enterprises. The sector provides trading opportunities to more than 2,000 exporters. Further, several government initiatives such as 'Make in India', 'Skill India', 'Digital India', and 'Swachh Bharat Abhiyan' are opening up opportunities for accelerated growth in the plastics industry. In addition to this, the government has also introduced several industry-friendly policy measures including a scheme for setting up plastic parks to encourage the domestic plastic processing industry, deregulation of the petrochemical sector and allowance of 100% FDI under the automatic route to facilitate fresh investments.

The Indian plastics export industry also offers excellent potential backed by some of the key advantages in terms of capacity, infrastructure, and skilled manpower. One of the major factors driving the growth of the industry is the availability of raw materials in the country. This reduces the dependence of the plastic processors on imports since raw materials can be manufactured domestically. This is a major advantage as it contributes significantly towards the growth of the Indian plastic industry

Company Overview

The company now has three self-owned fully operational units within a 20 Km radius of each other in Kanpur. The newly commissioned Unit 3 has been established as a world class facility and has also been certified as a food grade factory. We are proudly serving customers in more than 40 countries across Europe, Asia, North & South America, Africa and Australia with exports accounting for almost 70% of the company's Turnover. Almost 90% of FIBC's and PP fabric are also exported. Our unwavering commitment to the quality of our products, infrastructure, and processes has helped us receive crucial certifications - ISO 9001:2015 from BSCIC, ISO 22000:2005 from BSI, BRC Certification as per Global Standard for Packaging and Packaging Material from Intertek, HACCP Certification from BSI (Food Grade certification), and AIB International Certification.

Your Company's principle areas of business are :

- Manufacturing of PP Fabrics and FIBCs
- Manufacturing of Multi Filament Yarn,
- Trading of plastic granules and
- Solar power generation activities.

FIBC and Fabrics

Industrial Bulk packaging is the bulwark of any advanced economy. India is now gaining traction as a major global supplier, possessing nearly 42% of the global market share of FIBCs. FIBC as a packaging medium is prevalent in developed countries like the US and Europe due to high mechanization and low human intervention. The industry is further anticipated to demonstrate firm growth driven by acceptability and an increase in usage by the pharmaceutical and food industry. Globally, the Indian FIBC industry faces competition from China, Turkey and certain countries in South America.

However, in recent times, they are increasingly losing market shares to their Indian counterparts, which, in turn leads to industry wide growth of 10-15% in India. (Economic times – Markets, Marketwatch, Businesswire)

It is interesting to note that India is the number one country as a supplier of FIBC's in almost all major markets. India is responsible for almost 49% of imports into the USA , 43% into Canada and more than 60% into the EU in the year 2018 where a perceptible shift is taking place from the original sources like China and Turkey to India respectively.

6% +

Estimated global FIBC market CAGR during 2018-2022

This segment represents almost 60% of the company's turnover and is stated to grow with the increased capacity now available.

Multifilament Yarn

High Tenacity fully drawn Multi Filament Yarn (MFY) made out of Polypropylene is finding increasing acceptance as the best material for use in the stitching of Woven sacks and FIBC's apart from a value added application in geo textiles. An expected growth in the domestic packaging and technical textiles sector makes this product find itself on safe grounds. The global market for geo-textiles, growing at a CAGR of 10.59 per cent between 2014 and 2019, is projected to reach \$8,632.83 million by 2019, according to a report by leading market research agency Markets and Markets. The Asia-Pacific region, especially India and China, is projected to gain the major market size by value by 2019.

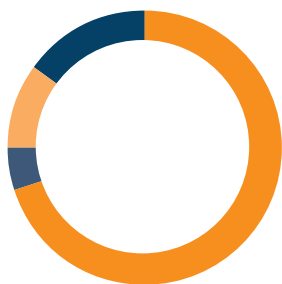

Other applications of MFY are used in polypropylene filter cloth, safety net, elastic band, container bag, and many others. It is now a fully blown vertical of the company and represents almost 12% of its turnover. Applications for this product have been growing and increasing regularly and with the expected growth in the domestic packaging and technical textiles sector, the outlook is positive. The Company is on its way to become a market leader in this segment to become the largest player in North India with its ongoing capacity additions.

Trading of Plastic Granules

The Company has been operating as Dealer Operated Polymer Warehouse (DOPW) of Indian Oil Corporation Limited for their Polymer division. During the year, the segment not only delivered a steady performance but also continued to add value to the company, in terms of profitability.

Solar Energy

KPL strongly believes in sustainability. It is one of the major consumers of electricity produced by solar power, not only saving on costs but reducing the negative impact on the environment. Your company was a pioneer in the region to install roof top solar power generating systems. During the year, the rooftop solar grid system (capacity 506 KW) has produced 5,00,774 units of electricity. The system has also saved emission of 8,21,270 Kgs of Carbon-Di- Oxide during the year.

Net Profit Margin	5.01	5.72
Return on Net worth	12.78	15.22
EBIDTA Margin	10.15	10.93

Profitability of the Company was impacted primarily due to increased allocation of depreciation on the new CAPEX as well as higher finance costs.

The Company undertook a massive exercise of refurbishment of the old unit located at the registered office of the Company. This had become a necessity to streamline the layout and enhance the longevity of the building and structure. This will help in improving the operational performance of the Company.

Risk Management

We identify following risks associated with the Company and regularly monitor them to mitigate the same. A brief of the same is given herein below:

Risk	Explanation	Mitigation
Raw Material Price Risk	The principle raw materials used by the company are PP and LDPE Granules which are Petrochemical products produced from derivatives of crude oil which is volatile.	The company has a well thought out purchase policy to cover the sales. Further it also monitors the prices and has long-term agreements with suppliers to minimize any adverse impact.
Economy Risk	Any headwinds faced by the economy may affect the Company's operations, and in turn profitability. Factors such as price volatility, geopolitical tensions and inflationary prices might impact the growth of the Company.	The Company's footprints are spread across the globe in around 40 countries. This helps the Company avoid dependence for revenues from any single country and mitigate any possible economic risk. Further, the company's long term experience in the industry also helps it better understand the business environment and take measures accordingly.
Technology Risk	Failure of the company to keep itself updated with the latest technologies can lead to significant loss of revenue and clients.	The Company is committed to technological upgradation and has a fully integrated and well-equipped facility with its state of art factory at unit 3. This helps in meeting the additional demand of the industry and also to enhance the quality of its products and sustain market share.
Competition Risk	The growth of the packaging industry with entry of new players and the improved performance of existing players pose a risk of losing market share and customers.	Your Company's experience, leverage of strong relationship with customers, its consistent focus on quality, on-time deliveries, product customization, and pricing has enabled it to remain ahead of its peers and achieve market leadership.

Internal Control System

The Company has a requisite system of internal controls which are regularly evaluated, tested & revisited by the Management and the Internal Auditors. Further, the report of the Internal Auditors is reviewed by the Top Management and the Audit Committee periodically.

Human Resource Development

KPL believes that the indispensable element in driving growth, prosperity, and development in the organization is its workforce. The Company, therefore, provides training and conducts development programmes for the employees in order to inculcate the essential competencies for growth on a

personal and organizational level. The employees are headed by managers with relevant experience and proficiency in the organization. KPL holds a team of 1471 employees as on 31st March, 2019.

Cautionary Statement

Statements in this report describing the Company's objectives, expectations or predictions may be forward-looking within the meaning of applicable laws and regulations. The actual results may differ materially from those expressed in this statement because of many factors like economic condition, availability of labour, price conditions, crude price, domestic and international market, changes in Government policies, tax regime, etc.

The Members of
Kanpur Plastipack Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Kanpur Plastipack Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2019, and the Statement of Profit and Loss (including other comprehensive income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2019, and profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters ('KAM') are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1. Greenfield Project at Gajner Road, Kanpur Dehat-

Acquisition/Construction/Development of Property, Plant and Equipment, forming part of the company's greenfield project at Gajner Road, Kanpur. The company has set up a new manufacturing facility, which was completed during the year. The Project involved substantial capital outlay and also a substantial increase in borrowed funds and was therefore considered as one of the 'Key Audit Matters'. The company has capitalized the property, plant and equipment of the said project on cost basis. Verification of the Cost of the project and the resulting assets involved extensive verification procedures and also judgments with respect to proper classification, estimation with respect to allocation of common project costs, capitalization of general borrowing costs etc.

How our audit addressed the key audit matter

For the matter referred to above, our procedures included, among others, procedures of physical examination, end to end verification of high value transactions, other relevant documentation/correspondence, including project and other reports submitted to Banks and other authorities, assessing management's conclusions etc. in view of the laid down accounting and measurement principles.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's

annual report, but does not include the standalone financial statements and our auditors' report thereon. The other information included in the annual report, are expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

After the Other Information is made available to us, if, based on the work we have performed, we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going

concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because

the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in **"Annexure A"** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

(A) As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on 31st March, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the

Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations as at 31st March, 2019 on its financial position in its standalone financial statements.
- ii. The Company does not have any long term contracts requiring a provision for material foreseeable losses.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- iv. The disclosures in the standalone financial statements regarding holdings as well as dealings in specified bank notes during the period from 8th November, 2016 to 30th December, 2016 have not been made in these standalone financial statements since they do not pertain to the financial year ended 31st March, 2019.

- (C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its Directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any Director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

(xi) In our opinion and according to the information and explanations given to us, the company has paid/provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 r.w. Schedule V of the Companies Act, 2013.

(xii) The company is not a Nidhi Company and hence the reporting under clause (xii) of CARO 2016 Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us, the company has complied with Sections 177 and Section 188 of the Companies Act, 2013, where applicable, for all transactions with related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.

(xiv) During the year the company has not made any preferential allotment or private placement of shares or fully or partly

convertible debentures and hence reporting under clause (xiv) of CARO 2016 is not applicable to the Company. The company has however made a Rights Issue to existing shareholders, which has been covered under clause (ix) above.

(xv) In our opinion and according to the information and explanations given to us, the company has not entered into any non-cash transactions with its directors or directors of its subsidiary or associate companies or persons connected with them and hence provisions of Section 192 of the Companies Act, 2013 are not applicable.

(xvi) In our opinion the company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Kanpur, 27th May, 2019

Annexure “B” to the Independent Auditors’ Report

(Referred to in Para 2(f) under ‘Report on Other legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Under Section 143(3)(i) of the Companies Act, 2013 (“The Act”)

We have audited the internal financial controls with reference to financial statements of Kanpur Plastipack Limited (“the Company”) as of 31st March, 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Opinion

In our opinion, to the best of our information, and according to the explanations given to us, the company has, in all material aspects, an adequate internal financial controls with reference to Financial Statements and such internal financial controls over financial reporting were operating effectively as at 31st March, 2019 based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in Guidance Note of Audit of International Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Financial Statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Financial Statements included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to Financial Statements.

Meaning of Internal Financial Controls with Reference to Standalone Financial Statements

A company’s internal financial controls with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted

accounting principles. A company's internal financial controls with reference to Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to Financial Statements, including

the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial controls with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Note no. 1 Company Overview & Significant Accounting Policies

Company Overview

Kanpur Plastipack Limited ('KPL' or 'The Company') is a Public Limited company, domiciled in India and incorporated on 26th July, 1971 under the provisions of the Companies Act, 1956 and having its registered office at D-19-20, Panki Industrial Area Kanpur, Uttar Pradesh-208022, India.

The Company is a two star export house, engaged in manufacturing of HDPE/PP Woven Sacks, PP Box Bags, Flexible Intermediate Bulk Containers (FIBC's), Fabrics and High Tenacity PP Multi Filament Yarn. The company is also a Consignment Stockiest of M/s Indian Oil Corporation Limited and owns and operates solar power generation facility at A-1/A-2, Panki Industrial Area, Kanpur. The company completed the commissioning of a new industrial Unit for manufacturing of Flexible Intermediate Bulk Containers (FIBC's) at Gajner, Kanpur during the year, which has resulted in expansion of its manufacturing capacity and also reduced its dependence on leased capacity.

These Financial Statements were authorized by the Board of Directors for issue in accordance with the Resolution passed on 27th May, 2019.

Note no.2 Significant Accounting Policies

1.1 Basis of Preparation and Presentation:

The Financial Statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 ("Act") read with Companies (Indian Accounting Standards) Rules, 2015, as amended; and the other relevant provisions of the Acts and Rules thereunder.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:

- i) Certain financial assets and liabilities that are measured at fair value
- ii) Defined benefit plans-plan assets/liabilities measured at fair value

Historical cost is generally based on the fair value of the consideration given in exchange of goods and services.

The financial statements are presented in Indian Rupees ('INR/₹') and all values are rounded to nearest lakhs (₹ 00,000), except where otherwise indicated.

1.2 Current v. Non Current classification:

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

(a) An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle.
- Held primarily for purpose of trading.
- Expected to be realized within twelve months after the reporting period.

All other assets are classified as non-current.

(b) A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and deferred tax liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its general operating cycle.

1.3 Use of Estimates, Assumptions and Judgements:

The preparation of financial statements requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements and the results of operations during the year. Differences between actual results and estimates are recognised in the year in which the results are known or materialise. Estimates and underlying assumptions are reviewed on an ongoing basis.

Notes Forming Integral Part of the Balance Sheet

Judgments:

In the process of applying the Company's accounting policies, management has made the following judgments, which have a significant effect on the amounts recognised in the financial statements:

i. Operating lease commitments — Company as lessee

The Company has taken various commercial properties on leases. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a substantial portion of the economic life of the commercial property, and that it does not retain all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

ii. Recoverability of Debts/advances

The company has several debts outstanding in the ordinary course of business, some of which remain outstanding beyond their due date. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, such debts/advances to be good and recoverable and classified the same as Current Assets.

Estimates:

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

i. Taxes, including Evaluation of recoverability of Deferred tax assets:

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and

the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the domicile of the company.

ii. Gratuity benefit:

The cost of defined benefit plans (i.e. Gratuity benefit) is determined using actuarial valuation. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases.

iii. Fair value measurement of financial instrument:

The fair value of financial assets and financial liabilities recorded in the balance sheet has been arrived at on the basis of the quoted prices in active markets, wherever available. For such financial assets and financial liabilities which cannot be measured based on quoted prices in active markets, their fair value is measured using other accepted valuation techniques. Changes in assumptions used in applying these methods could affect the reported fair value of financial instruments.

iv. Warranty provision/Quality Claim

Provision for quality claims is determined based on the historical percentage of claims expense to sales for the same types of goods for which the claim is currently being determined. The same percentage to the sales is applied for the current accounting period to derive the expected claim expense to be accrued. It is adjusted to account for unusual factors, if any. It is very unlikely that actual claims will exactly match the historical warranty percentage, so such estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence.

Notes Forming Integral Part of the Balance Sheet

1.4 Property, Plant and Equipment

- i) Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.
- ii) The initial cost of an asset comprises its purchase price (including import duties and non-refundable taxes, if any), any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by the management, borrowing cost for qualifying assets (i.e. assets that necessarily take a substantial period of time to get ready for their intended use).
- iii) Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.
- iv) Spare parts which meet the definition of Property, plant and equipment are capitalized as Property, plant and equipment. In other cases, the spare parts is inventorised on procurement and charged to Statement of Profit and Loss on consumption.
- v) An item of Property, plant and equipment and any significant part initially recognised separately as part of Property, plant and equipment is de-recognised upon disposal; or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the assets is included in the Statement of Profit and Loss on consumption.
- vi) The residual value and useful lives of Property, plant and equipment are reviewed at each financial year end and changes, if any, are accounted in the line with revisions to accounting estimates.
- vii) In the previous year, the Company had elected to use exemption available under Ind AS 101 to continue with the carrying value for all its Property, Plant and Equipment as recognised in the financial statements as at the date of transition to Ind-ASs, measured as per previous GAAP and use that as its deemed cost as at the transition date.
- viii) Capital work- in- progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date and advances made for the same.

- ix) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. The useful lives for various categories of property, plant and equipment are as given below:

Sl.No.	Description	Useful life (in years)
1.	Buildings	60 years
2.	Plant and equipment qualifying as Continuous Process Plant	25 years
3.	Other Plant and Equipment for three shift working (Useful life is estimated for a three shift working)	25 years
3.	Furniture and fittings	10 years
4.	Office equipment	05 years
5.	Vehicles	08 years

- x) Depreciation on property, plant and equipment is provided on prorata basis on straight-line method using the useful lives of the assets estimated by management and in the manner prescribed in Schedule II of the Companies Act 2013.

1.5 Inventories:

- i. **Basis of Valuation:** Inventories are stated at lower of cost and net realizable value. The comparison of cost and net realizable value is made on an item-by-item basis.
- ii. **Method of Valuation-** Cost of inventories comprises of expenditure incurred in the normal course of business in bringing inventories to their present location including appropriate overheads apportioned on a reasonable and consistent basis.
- iii. The inventories of finished goods, which were in transit or lying at port as at the reporting period have been valued at lower of cost and market value. The cost has been worked out as per the Retail Method.

The inventories have been physically taken by the management periodically.

1.6 Revenue Recognition:

The company derives its revenues primarily from sale of merchandise and C&F commission agency services.

Effective 1st April, 2018, the Company has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS 115 replaces Ind AS 18 Revenue and Ind AS 11 Construction Contracts. The Company has adopted Ind AS 115. However there was no effect of initially applying this standard as at the date of initial application (i.e. 1st April, 2018).

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding central taxes or duties collected on behalf of the Government. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Amounts disclosed are net of returns, trade discounts, rebates, but including Goods and Services Tax collected on behalf of the Government. However the GST collected and paid has been shown as a deduction under the heading 'Revenue from Operations' and only the net Revenue from Operations has been stated in the Statement of Profit and Loss.

The Company assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The Company has concluded that it is acting as a principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks. The specific recognition criteria described below must also be met before revenue is recognised:

a) Sale of goods:

- a. Inland sales have been accounted for at the time of dispatch of goods from the factory.
- b. Export Sales have been recognized only after the company loses control over the material i.e. once the goods have been shipped on board.
- c. Sales have been recorded net of rebates and trade discounts but are grossed up for Goods and Services Tax collected thereon.

b) Job Work Income:

Job Work income is recognized upon completion of the assigned job, on the basis of the contractual terms.

c) Commission Income

Commission income is recognized to the extent it is probable that economic benefits will flow to the company and the revenue can be reliably measured and the company has contractual right to such revenue.

d) Interest Income

Interest Income is recognised on time proportion basis taking into account the amount outstanding and the applicable interest rates and is disclosed in "other income".

e) Export Incentives:

The revenue in respect of export incentives has been recognized to the extent it is probable that economic benefits will flow to the company and the incentive value can be reliably measured.

1.7 Employee Benefits:

Short term employee benefits

All employee benefits payable/available within twelve months of rendering the services are classified as short term employee benefits. Benefits such as salaries, wages and bonus, etc., are recognised in the Statement of Profit and Loss in the period in which the employee renders the related service.

Provident fund

Eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the employees and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employees' salary. The Company contributes a part of the contributions to the Government administered Provident/Pension Fund. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable through the provident fund scheme as an expense, when an employee renders related services.

Notes Forming Integral Part of the Balance Sheet

Other long term employee benefits

The company does not have any structured Employee's Gratuity Fund Scheme. However the company provides for its gratuity liability as a defined benefit plan. The liabilities with respect to Gratuity Plan are determined by actuarial valuation. The Company does not make any contributions and meets its gratuity liability from its own sources as and when the claims arise.

1.8 Government Grants:

- Government Grants are recognised at their realizable value when there is reasonable assurance that the grant will be received and all the attached conditions will be complied with.
- When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset

The company is an exporter and receives grants in the form of Duty Drawbacks, Import entitlement etc. the same are recognized only after the primarily conditions of the respective schemes have been complied. In respect of the Merchant Export Incentive Scheme (MEIS), a claim for grant of the licence under the Scheme can be filed only after realization of export proceeds. Accordingly, the value of incentive receivable, in respect of the export realisations received during the year have been accounted for at realizable value.

The company is also entitled to grants in the nature of interest subsidy under the Technology Upgradation Fund Scheme (TUFS). The claims filed for reimbursement of interest expense incurred have been recognised and netted off against the interest expense for the year.

1.9 Borrowing Costs

- Borrowing cost consists of interest and other costs incurred in connection with the borrowing of funds.
- Borrowing costs that are attributable to the acquisition or construction of qualifying assets (i.e. an asset that necessarily takes a substantial period of time to get ready for its intended use) are capitalized as a part of the cost of such assets. All other borrowings costs are charged to the Statement of Profit and Loss.

1.10 Foreign currencies

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Company's financial statements are presented in Indian Rupee (₹) which is also the Company's functional and presentation currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the prescribed exchange rate prevailing at the date of transaction.

Measurement of foreign currency items at the balance sheet date

Foreign currency monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Exchange differences

Exchange differences arising on settlement or translation of monetary items are recognised as income or expense in the period in which they arise.

1.11 Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

1.12 Offsetting of financial Assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

1.13 Taxes

Tax expense for the year comprises of current tax and deferred tax.

Notes Forming Integral Part of the Balance Sheet

a) Current Tax

- (i) Current income tax, assets and liabilities are measured at the amount expected to be paid to or recovered from the taxation authorities in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS) enacted in India by using tax rates and the tax laws that are enacted at the reporting date.
- (ii) Current income tax relating to item recognised outside the Statement of Profit and Loss is recognised outside Profit or Loss (either in other comprehensive income or equity). Current tax items are recognised in correlation to the underlying transactions either in OCI or directly in equity.

b) Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets and liabilities are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or direct in equity.

1.14 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share consolidation, without a corresponding change in resources, if any.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all potentially dilutive equity shares, if any.

The partly paid up equity shares have been treated as potential equity shares in accordance with Ind-AS 33, for the period for which the same remained partly paid up.

1.15 Provisions, Contingent Liabilities and Commitments

- (i) Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.
- (ii) The expenses relating to a provision is presented in the Statement of Profit and Loss net of reimbursements, if any.
- (iii) If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in provision due to the passage of time is recognized as a finance cost.
- (iv) Contingent liabilities are possible obligations whose existence will only be confirmed by future events

Notes Forming Integral Part of the Balance Sheet

not wholly within the control of the Company, or present obligations where it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured with sufficient reliability.

- (v) Contingent liabilities are not recognized in the financial statements but are disclosed unless the possibility of an outflow of economic resources is considered remote.

1.16 Several debit and credit balances are subject to confirmation by parties.

1.17 Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or liability is measured in accordance with Ind-AS 113, using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non- financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized

within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to fair value measurement as a whole at the end of each reporting period).

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above. The quantitative disclosures of fair value measurement hierarchy are contained in Note No.35.

Note No.3 Recent Indian Accounting Standards (Ind-As) - Disclosures pursuant to Para 30 of Ind-AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors

The company has not applied the following New Indian Accounting Standards/amendments to the existing Standards, which though issued, were not effective as at the Reporting date:

1.1 Applicability of Ind-AS 116 - Leases w.e.f. 01.04.2019

Ind AS 116, which is effective for accounting periods starting on and after 01.04.2019, will replace the existing leases standard, Ind AS 17 Leases and sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. Whereas the new standard substantially carries forward the lessor accounting requirements of

Notes Forming Integral Part of the Balance Sheet

Ind AS 17, there is substantial change in lease accounting for lessees. The standard introduces a single, on-balance sheet lessee accounting model for lessees. Under the new standard, a lessee will recognise 'right-of-use asset' representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The standard also contains enhanced disclosure requirements for lessees. The Company will adopt Ind AS 116, effective annual reporting period beginning 1st April, 2019. The Company will apply the standard to its leases, retrospectively, with the cumulative effect of initially applying the standard, recognised on the date of initial application (1st April, 2019). Accordingly, the Company will not restate comparative information, instead, the cumulative effect of initially applying this Standard will be recognised as an adjustment to the opening balance of retained earnings as on 1st April, 2019. On that date, the Company will recognise a lease liability measured at the present value of the remaining lease payments. In accordance with the standard, the Company will elect not to apply the requirements of Ind AS 116 to short-term leases and leases for which the underlying asset is of low value. The Company is in the process of finalising changes to systems and processes to meet the accounting and reporting requirements of the standard. Previously, the Company recognised operating lease expense on a straight-line basis over the term of the lease, and recognised assets and liabilities only to the extent that there was a timing difference between actual lease payments and the expense recognised.

1.2 Amendment to Ind AS 12 Income taxes (amendments relating to income tax consequences of dividend and uncertainty over income tax treatments)

The amendment relating to income tax consequences of dividend clarify that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events. The Company does not expect any impact from this pronouncement. It is relevant to note that the amendment does not amend situations where the entity pays a tax on dividend which is effectively a portion of dividends paid to taxation authorities on behalf of shareholders. Such amount paid or payable to taxation authorities continues to be charged to equity as part of dividend, in accordance with Ind AS 12.

1.3 Amendment to Ind AS 109 Financial Instruments - Prepayment Features with Negative Compensation -

The amendments notified, pertain to classification of a financial instrument with prepayment feature with negative compensation, where the terms of the contract of financial instrument permit the lender/issuer to put the instrument to the borrower for repayment before the maturity at an amount less than the unpaid amounts of principal and interest. The company does not expect this amendment to have any impact on its financial statements.

1.4 Amendment to Ind AS 19 Employee Benefits - Plan Amendment, Curtailment or Settlement-

The amendments to Ind AS 19, Employee Benefits relate to effects of plan amendment, curtailment and settlement. When an entity determines the past service cost at the time of plan amendment or curtailment, it shall remeasure the amount of net defined benefit liability/asset using the current value of plan assets and current actuarial assumptions which should reflect the benefits offered under the plan and plan assets before and after the plan amendment, curtailment and settlement. The company does not expect this amendment to have any significant impact on its financial statements.

1.5 Amendment to Ind AS 23 Borrowing Costs -

The amendments clarify that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalisation rate on general borrowings. The company does not expect this amendment to have any significant impact on its financial statements.

1.6 Amendments to Ind AS 28 Long-term Interests in Associates and Joint Ventures -

The company does not currently have any long-term interests in associates and joint ventures.

1.7 Amendments to Ind AS 103 Business Combinations and Ind AS 111 -

Joint Arrangements - The company does not currently have any long-term interests in associates and joint ventures.

NOTE - 30 DIVIDEND

The Company recognizes a liability to make payment of dividend to owners of equity when the distribution is authorized and is no longer at the discretion of the Company and is declared by the shareholders. A corresponding amount is recognised directly in equity.

The dividends paid in the years reported in these financial statements are duly disclosed in the Statement of changes in Equity of the year in which payment has been made, irrespective of the year in which the same were proposed.

Dividends paid during the year ended 31st March, 2019 include an amount of 1.80 per equity share towards final dividend for the year ended 31st March, 2018.

Dividends declared by the Company are based on the profit available for distribution. Distribution of dividends out of general reserve and retained earnings is subject to applicable dividend distribution tax. On 27th May, 2019, the Board of Directors of the Company have proposed a final dividend of 1.80 per share in respect of the year ended 31st March, 2019 subject to the approval of shareholders at the Annual General Meeting. The proposal is subject to the approval of shareholders at the Annual General Meeting, and if approved, would result in a cash outflow of approximately ₹ 310.58 Lakhs, inclusive of corporate dividend tax of ₹ 52.96 Lakhs.
