Dear Sir/Ma'am,

### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

#### ➤ ECONOMIC OVERVIEW:

##### GLOBAL ECONOMY

The global economic recovery is continuing, even as the pandemic resurges. The fault lines opened up by COVID-19 are looking more persistent – near-term divergences are expected to leave lasting imprints on medium-term performance. Vaccine access and early policy support are the principal drivers of the gaps.

After rebounding to an estimated 5.5% in 2021, global growth is expected to decelerate markedly in 2022 - to 4.1 %, reflecting continued COVID-19 flare-ups, diminished fiscal support and lingering supply bottlenecks.

##### INDIAN ECONOMY

###### **Impact of pandemic on economy:**

- Economic impact of “second wave” was much smaller than that during the full lockdown phase in 2020-21, though health impact was more severe.
- Government of India’s unique response comprised of safety-nets to cushion the impact on vulnerable sections of society and the business sector, significant increase in capital expenditure to spur growth and supply side reforms for a sustained long-term expansion.
- Government’s flexible and multi-layered response is partly based on an “Agile” framework that uses feedback-loops, and the use of eighty High Frequency Indicators (HFIs) in an environment of extreme uncertainty.

The Indian economy has fully recovered to the pre-pandemic real GDP level of 2019-20, according to the provisional estimates of GDP released on May 31, 2022. Real GDP growth in FY 2021-22 stands at 8.7%, which is 1.5% higher than the real GDP in FY 2019-20. These figures are associated with stronger growth momentum, indicating increased economic demand. The investment rate in the fourth quarter increased to its highest level in the previous nine quarters. Moreover, capacity utilisation in the manufacturing sector rose in the fourth quarter, as against the third quarter, implying a build-up in demand, which is consistent with the growth objectives of the Indian economy.

Future capital spending of the government in the Indian economy is expected to be supported by factors such as tax buoyancy, streamlined tax system, thorough assessment and rationalisation of the tariff structure and digitisation of tax filing. In the medium term, an increase in capital spending on infrastructure and asset-building projects is set to increase growth multipliers. Furthermore, revival in monsoon and Kharif sowing helped the agriculture sector gain momentum. As of July 11, 2022, the South-West monsoon has covered the entire country, resulting in 7% higher rainfall than the normal level.

India has emerged as the fastest-growing major economy in the world, and is expected to be one of the top three economic powers globally over the next 10-15 years, backed by its robust democracy and strong partnerships.

Opportunities would include meeting the high demand in the rural areas, which was highly unaffected by the pandemic. Agri business and farming are perhaps the only areas where lockdown was exempted. The labour, which has moved to the villages from the cities, are also creating additional labour force in the villages, leading to more land area under cultivation. The acceptance of digital methods of information delivery by farmers is creating new opportunities for promoting Aries products with limited visits by sales staff in lockdown conditions. #### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Information Other than the Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the company's Annual Report, but does not include the financial statements and our auditor's report thereon.
- The Other Information to the extent not made available to us as of the date of the signing this report is expected to be made available to us after the date of this Auditors Report.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

- When we read the other information, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with Governance.

### **Management's and Board of Director's Responsibilities for the Financial Statements**

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act, with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, Cash Flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; design, implementation and maintenance of adequate internal financial controls, that are operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Audit ('SA's) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, specified under section 143(10) of the act, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- Obtain sufficient appropriate audit evidence regarding the financial statements of the company to express an opinion on the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationship and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on Other Legal and Regulatory Requirements**

**Management's Responsibilities for Internal Financial Controls**

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial reporting.

**Meaning of Internal Financial Controls with reference to financial statements**

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the

preparation of financial statements for external purposes in accordance with generally accepted accounting principles. **NOTES ATTACHED TO AND FORMING PART OF THE FINANCIAL STATEMENTS AS ON AND  
FOR THE YEAR ENDED ON MARCH 31, 2022**

**Note 1 : Basis of accounting and preparation of Financial Statements****a) Company Overview**

Mukta Agriculture Limited ("the Company") is engaged primarily in the business of trading in Agriculture products and other related activities. The Company is a public limited Company incorporated and domiciled in India having its registered office at 401/A, Pearl Arcade, Opp. P. K. Jewellers, Dawood Baugh Lane, Off. J. P. Road, Andheri (West), Mumbai - 400 058. The Company is listed on BSE Limited (BSE).

**b) Basis of Accounting**

The Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) to comply with the Section 133 of the Companies Act, 2013 ("the 2013 Act"), and the relevant provisions, rules and amendments, as applicable. The Financial Statements have been prepared on accrual basis under the historical cost convention except certain assets measured at fair value.

**c) Functional and Presentation Currency**

These financial statements are presented in Indian rupees, which is the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest rupees as per the requirement of Schedule III, unless otherwise stated.

**d) Use of Estimates and Judgements**

The preparation of financial statements in conformity with Ind AS requires management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported revenue and expenses during the year. The Management believes that the estimates used in preparation of the Financial Statements are prudent and reasonable. Significant estimates used by the management in the preparation of these financial statements include project revenue, project cost, saleable area, economic useful lives of fixed assets, accrual of allowance for bad and doubtful receivables, loans and advances and current and deferred taxes. Differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

**e) Property, Plant and Equipment & Depreciation****i. Recognition and measurement**

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. The cost of an item of property, plant and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.

- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment are derecognised from financial statement, either on disposal or when no economic benefits are expected from its use or disposal. The gain or loss arising from disposal of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of Property, plant and equipment recognised in the statement of profit and loss account in the year of occurrence.

**ii. Subsequent expenditure**

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting year in which they are incurred.

iii. Depreciation

Depreciation is being provided on written down value method on the basis of systematic allocation of the depreciable amount of the assets over its useful life as stated in Schedule II of the Companies Act, 2013.

Depreciation on assets sold, discarded or scrapped, is provided up to the date on which the said asset is sold, discarded or scrapped.

In respect of an asset for which impairment loss is recognized, depreciation is provided on the revised carrying amount of the assets.

**f) Intangible Assets –Recognition and measurement**

Items of Intangible Assets are measured at cost less accumulated amortisation and impairment losses, if any. The cost of intangible assets comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and

- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

i. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

ii. Amortisation

Intangible assets are amortised over their estimated useful life on Straight Line Method.

**g) Impairment of Assets**

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

**h) Investments**

Long term investments are stated at cost. However, provision for diminution is made to recognise any decline, other than temporary, in the value of long term investments.

Current investments are stated at the fair value.

**i) Measurement at fair values**

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or

- In the absence of a principal market, in the most advantageous market for the asset or liability  
A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of assets & liabilities on the basis of the nature, characteristics and the risks of the asset or liability and the level of the fair value hierarchy as explained above.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

#### j) **Financial Instrument**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets include Trade receivable, loan to body corporate, loan to employees, security deposits, Investments and other eligible current and non-current assets.

Financial liabilities include Loans, trade payable and eligible current and non-current liabilities.

**Offsetting financial instruments** - Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

#### k) **Inventories**

i. The cost of inventories comprises all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Inventories are valued at cost or net realizable value, whichever is lower on the basis of first in first out method or specific identification, as the case may be.

ii. Finished stock are valued at lower of cost or net realizable value on the basis of actual identified units.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

#### l) **Revenue Recognition**

In respect of Sales

Sales are recognised when goods are supplied and significant risk and reward of the ownership in the goods are transferred to the buyer as per the terms of contract and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods. Sales are inclusive of duty and net of returns, trade discounts, rebates and GST.

#### **In respect of interest income**

Interest income is accounted on an accrual basis at interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

**In respect of Dividend income**

Dividend income including share of profit in LLP is recognized when the right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

**m) Taxation**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised, or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

**n) Employee Benefits****i. Short term employee benefits**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

**ii. Post-employment benefits**

**Long-term employee benefits** The Company's net obligation in respect of long term employee benefit is the amount of future benefit that employees have earned in return of their service in the current and prior periods. The benefit is discounted to determine its present value. Re-measurement are recognized in Statement of Profit & Loss in the period in which they arise.

**o) Cash and Cash equivalent**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**p) Earnings per share**

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

**q) Provisions and Contingent liabilities**

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed in the Notes. Contingent liabilities are disclosed for

- i. possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- ii. present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised in the Financial Statements.

**r) Segment Reporting**

The company is primarily in the business of trading in Agriculture Products and related activities. Further most of the business conducted is within the geographical boundaries of India.

In view of the above, in the opinion of the management and based on the organizational and internal reporting structure, the company's business activities as described above are subject to similar risks and returns. Further, since the business activities undertaken by the company are substantiating within India, in the opinion of the management, the business environment in India is considered to have similar risks and returns. Consequently, the company's business activities primarily represent a single business segment and the company's operations in India represent a single geographical segment.

**s) Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach

of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

**t) Trade and Other Payables**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 15 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

**u) Trade Receivables**

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment / doubtful debts.

**v) Government Grants**

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received, and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

**w) Dividends**

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

**x) Business Combinations**
